CIITS
IS MY BEST FRIEND!

Tiffany Powell
3rd-Grade Teacher
Latonia Elementary
Covington Independent Public Schools

"I absolutely love CIITS. It is a great program that allows me to easily:

♥access all of my student's test scores

♥choose the standards that I am working on during a lesson and create an assessment based directly on that standard.

♥modify the express tests in order to meet the standards I am teaching and also the activities that go along with my lesson."

I use CIITS every Thursday for my Thursday flashbacks. This allows me to see which students are mastering the specific standards and also to see if they are continuously retaining the knowledge from the past standards & lessons.

CIITS is also fabulous because it has the user friendly capability for a teacher to go into students' responses and manually a students answer.

CIITS also gives each test a break down of each student/standard/question. This really helps when you are checking for mastery of the standard. CIITS is seriously my new best friend for assessment in the classroom!!! :)"
