Elementary School
Grades 4 and 5

Embargoed until
September 21, 2006
12:01 a.m. EDT

Kentucky Department of Education
Gene Wilhoit, Commissioner
September 21, 2006

MESSAGES

GENERAL INFORMATION

NOTE

a = School's service area changed. The school is held accountable through the district accountability scores.
c = School is accountable though school's scores and district non-academic data for the baseline years.
d = School is a reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.
e = Reconfigured School or New School in this school year. The school's first accountability biennium index is the two-year average of the school's scores and the district's non-academic index at the corresponding grade level. The goal line, assistance line and novice reduction rate are calculated from the school's scores and district non-academic data for the baseline years.
f = Reconfigured School that is using the District Baseline (goal) for Accountability. School's baseline index, goal line, assistance line and novice reduction rate are based on district scores at the high school level. Due to incomplete non-academic data, district non-academic data are used to calculate the school's non-academic index. This is a special case for new high schools that do not have all grades in the prior year.
j = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.
r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.
w = State Board approved school configuration waiver for calculation of accountability scores.

MESSAGE descriptions are located on page 3 of this report.
