Subject: KSIS Notification: Release Campus.1637.7 Scheduled for October 12
Importance: High

Reminder – Infinite Campus release Campus.1637.10 is scheduled to go into production tonight. Details for this release were provided in the previous notification below and in the attached release notes.

The release will also include the following updates to two KDE custom reports:

- **Median Student Growth - Summary** and **Median Student Growth – Detail** - A two-year median is now available on both reports. The two-year MSGP is the median of student growth scores for the two most current years. A teacher must have a single-year median for both years in order to receive a two-year MSGP. More information is available in the quick reference cards.
    - Median Student Growth Percentile – Summary
    - Median Student Growth Percentile – Detail

Subject: KSIS Notification: Release Campus.1637.7 Scheduled for October 12
Importance: High

KSIS Contact,

Please be advised that KDE has confirmed the scheduled release of **Campus.1637.7** to start **Wednesday, October 12 at 7:00 p.m. (Central)/8:00 p.m. (Eastern)**. Infinite Campus will be temporarily unavailable during the update process. Please contact me if you have any questions or concerns about the update schedule.

The chart below summarizes highlights of the release. The Kentucky Release and Rx Pack notes are attached. For the full manifest of changes in this release, click here (Campus ID required). Infinite Campus University has provided a recorded WebEx training session for the release: LL 9740: New Release Enhancements Lunch and Learn (60 min). Click here to play the recording.

Please share this information with individuals in your district or office as appropriate.

Thank you!

Infinite Campus Release Highlights – Campus.1637	
Kentucky Specific	
Special Education	• A new Accommodations Determination FDF has been added • Corrected a printing error occurring if the Disciplinary Review editor of the 2016 Revised Conference Summary was saved with no check boxes marked. • Corrected issue where amending an IEP and modifying Objectives caused the corresponding Goals to disappear.
State Grade Level	• New State Grade Level definition 20: Post Secondary has been added
Student Records Transfer - Health	• Immunization records imported via the Records Transfer tool were incorrectly being duplicated for students with existing immunization records prior to the import. This issue was causing the Immunization Summary and Immunization Certification Reports to report incorrect immunization record data. These issues have been corrected. Now, when immunization records are imported for a student with an existing immunization record, the existing record is removed and replaced with the imported record. DIS was also updated to ensure the correct immunization records are synced between district and state.
Core Product	
Campus Instruction	• District Grading Setup Trigger - Campus Instruction has been updated to pull district grading setup when the teacher accesses the Message Center. Grading setup is pulled for all of a teacher's sections in all calendars where the teacher has calendar rights and is listed as a primary teacher or teacher. When a guest access's a section's grade book, district grading setup is pulled for that section and any other sections in the same course taught by the same teacher team.
Early Warning	• Filtering options have been added to the Early Warning dashboard. Users can now filter students by Ad hoc Filter, grade, and/or gender.
Scheduling	• In preparation for future Schedule Wizard modifications that will allow schools that have a complex schedules setup (rotating days, block scheduling, etc.) to use the Schedule Wizard, the following modifications have been made to Period Schedule Structures and Calendar Days. o The assigned period schedule displays in the Calendar grid on the Calendar Days tab. o The Create Period Schedules tool has been modified to

	provide more flexibility when creating a schedule. This change eliminates the selection of checkboxes for choosing the number of period structures. Instead, enter the number of desired period schedules in the text field. o A new checkbox for marking a certain structure as a special occurrence has been added to the Period Schedule Info editor. This can be used when a certain schedule occurs for late starts or testing days. o A period schedule grid displays when viewing a selected period schedule. This same grid displays when viewing course section placements. o Period Names are used to display periods in the correct order. o A "master day" schedule is no longer needed. If periods only occur with a certain schedule, that's the only schedule in which they need to be created. o Existing schedules reports built in Report Preferences need to be resaved due to the period name vs. period sequence change if Period Sequences were selected when originally creating the report. • Additional information for these changes is available in the Period Schedule Structure Changes - .1637 Release Notification and in the New Features Lunch & Learn recorded session. • **DO NOT USE THESE NEW FEATURES IN 2016-17 CALENDARS.**
