the same as what is listed on their birth certificate or other legal document. Do not enter nicknames here or in the required name fields. These fields should only be used if the student's health or safety would be in jeopardy if their legal name were visible in Infinite Campus.

NOTE: Extreme care should be used when using these fields. Searches cannot be done by the legal name. Most reports including transcripts and report cards will not use the legal name field. However, an ad hoc can be used to get a person's legal name. If the legal name or legal gender fields are used in ad hoc it will show the information from the required name and gender fields if the legal name or gender is blank.

A student who has been attending one or more schools in any one or more States for more than three full academic years is no longer classified *immigrant*. Reference the [Immigrant Data Standard](#) for additional guidance.

Home Primary Language: Home language is defined as the language most frequently spoken at home. In the case of a foreign-born student living in an English-speaking home of his/her adopted family, choose the student's native language. **You should select a language from an alphabetical list of world languages.** Additional guidance regarding Home Primary Language for EL students can be found in the [English Learners Data Standard](#).

Section G – Military Connections

Classic View: Census | People | Military Connections

Search Term: Military Connections

The Military Connections tab tracks guardian data for those who are active duty military personnel. A student is considered to be military connected if a parent or guardian is a member of the armed forces on active duty or serves on full-time National Guard duty, where “armed forces”, “active duty,” and “full-time National Guard duty” have the same meanings given them in 10 U.S.C. 101(a)(4), 101(d)(1), and 101(d)(5).

- 101(a)(4) The term “armed forces” means the Army, Navy, Air Force, Marine Corps, and Coast Guard.
- 101(d)(1) DUTY STATUS.—The following definitions relating to duty status apply in this title: (1) The term “active duty” means full-time duty in the active military service of the United States. Such term includes full-time training duty, annual training duty, and attendance, while in the active military service, at a school designated as a service school by law or by the Secretary of the military department concerned. Such term does not include full-time National Guard duty.
- 101(s)(5) The term “full-time National Guard duty” means training or other duty, other than inactive duty, performed by a member of the Army National Guard of the United States or the Air National Guard of the United States in the member’s status as a member of the National Guard of a State or territory, the Commonwealth of Puerto Rico, or the District of Columbia under section 316, 502, 503, 504, or 505 of title 32 for which the member is entitled to pay from the United States or for which the member has waived pay from the United States.

School Report Card will only look for a status of “Active Duty, Deployed” or “Active Duty, Not Deployed” within the school year for disaggregation of assessment data. A sample data collection form for students with military connections can be found on the [KDE website](#).

Start Date: Date enlistment status began. If this is unknown, the enrollment start date may be used.

End Date: Date enlistment status ended.

When a person's status or branch or site changes, modify that record and enter an end date. A new record needs to be entered with a new start date to capture the new status or new branch. Any new record that is added displays first in the editor. Multiple active records can be entered for a person; the records sort by start date (most recent date first), then by alphabetical order.

Status: Indicates the enlistment status. For a student to be identified as military connected in Kentucky, the parent/guardian status must be set to "Active Duty, Deployed" or "Active Duty, Not Deployed". An active duty status should ONLY be entered for a member of the U.S. Armed Forces, which is defined as the Army, Navy, Air Force, Marine Corps, Coast Guard, and Army National Guard IF on full-time duty.

Note: The remaining fields are optional at this time, however districts choosing to complete the information should use the following guidelines.

Site: Actual location of employment; could be a military base or other work site that qualifies as a military location. These options can be created in the Impact Aid/Military Connections Site tool located at System Administration | Census | Impact Aid/Military Connections Site.

Data Standard Census

Rev. 7/3/2023

Branch: Indicates the military division in which the person is enlisted

Student Military Identifier: A number assigned to the dependent (student) of an active duty individual to track that student, and allows school counselors and administrators to ensure those student's well-being as they adjust to deployed parents or other life events that may affect their school success. This field can be populated when the Military Connections record is associated with a student and assigned a Status of Student Military Identifier Only.

Comments: Additional details on the enlistment.

This tab also displays a list of relationships previously established on the Relationships tab.

Additional Information:

Pre-enrollment and preadmission of child whose parent or guardian is transferred to military installation

[KRS 59.075](#) ensures a child of a military family may pre-enroll or participate in preadmission in a school district if the parent or guardian of the child is transferred to or is pending transfer to a military installation within the state while on active military duty pursuant to an official military order.
