2023 Student Assessment Data and Resource Release

August Assessment Data Release

August 2-10, 2023
The [Student Data Review and Rosters (SDRR)](#) application is open for quality control data review of individual student data for the following:
- ACCESS
- Alternate ACCESS
- Kentucky Summative Assessment (KSA)
- Alternate Kentucky Summative Assessment (AKSA)
- Four-Year (2023) and Five-Year (2022) Cohort Graduation Rate
- Postsecondary Readiness (PR)

Who can view the data during the QC review process?
Schools and districts should not share any aggregate data (e.g. cohort) beyond the leadership level during the QC process and all the data must be kept secure until public reporting. The data cannot be shared through email or in any public meetings. Anyone reviewing the data will need to fill out the [nondisclosure form](#) and District Assessment Coordinators (DACs) should keep the forms on file in the district office.

August 4, 2023
Kentucky Summative Assessment (KSA) and Alternate Kentucky Summative Assessment (AKSA) Reports available in [Pearson Access Next (PAN)](#).
- School Listing File Excel Spreadsheet
- School Listing File PDF Report

Who can view individual student data?
Student data may be shared with teachers who have an educational interest in the student. This early data release is for educators to prepare for the upcoming school year. The Family Educational Rights and Privacy Act protects the privacy of student education records and must be followed.

September Assessment Data Release

Mid-September 2023
Kentucky Summative Assessment (KSA) and Alternate Kentucky Summative Assessment (AKSA) Reports available in [Pearson Access Next (PAN)](#).
- Individual Student Reports (ISRs)
- Summary Reports

Late-September 2023

Kentucky Summative Assessment (KSA) and Alternate Kentucky Summative Assessment (AKSA) paper reports distributed with districts to be shared with families.

- Paper Individual Student Reports (ISRs)

Who can view the assessment data during this early release period?

The KSA and AKSA student data released in August and September may be shared with teachers and administrators who have an educational interest in the student (i.e., to prepare for instruction, identify strengths and areas for growth, etc.). The Office of Assessment and Accountability (OAA) does not require that districts have teachers sign an Embargoed Data Non-Disclosure Statement for this data. To comply with FERPA laws, individual student data may not be released to media or shared publicly which is what the Embargoed Data Non-Disclosure Statement covers. Results may be shared with students and parents when paper versions of the Individual Student Reports are available in late-September.

September Student Resource Release

Mid-September 2023

Released items resources from the spring 2023 KSA will be available on the [Kentucky Portal](#).

- Released Items PDFs for reading, math, science, social studies, editing and mechanics and on-demand writing for grades 3-8, 10 and 11.

Released items student data from the spring 2023 KSA will be available in [PAN](#).

- Released Items data files for reading, math, science, social studies, editing and mechanics and on-demand writing for grades 3-8, 10 and 11.

Who can view the released items resources?

The KSA released test items are drawn from previously administered assessments and are provided for instructional planning purposes. They are not a definitive representation of what will be included on future assessments. Once a test item is released publicly, it is no longer eligible to be included in the state administration of the KSA, therefore the released test items can be viewed and shared with teachers, students and families.

KSA released items data provide evidence of student learning that helps to inform decision-making related to teaching and learning. Along with other data at the school level, these data can provide insight into student outcomes and provide a clearer picture of school performance.

The data may be shared with teachers and administrators who have an educational interest in the student (i.e., to prepare for instruction, identify strengths and areas for growth, etc.).

Late October/Early November Assessment Data Release

The school report card will be released to the public.
