

**GET IN FOCUS WITH KASC**

*Focus on increasing achievement for all students and learn strategies for reducing novice performance.*

## Reducing Novice Performance in Schools

This session is newly designed for all educators to explore how schools can reduce novice performance and raise achievement for all students.

## Constructed Response in the Classroom

Learn to apply quality instruction along with higher-level questioning to ensure your students are engaged and increase their knowledge.

## Studying Your Scores

Learn how to lead your school toward improvement using KASC's 2016 full-color test score graphs with your school's data. Build a strong understanding of your scores for each category, including the new Gap and Growth calculations.

## Teacher's Toolbox

A 3-hour exploration of the greatest hits of the research-based instructional strategies that teachers request most: engaging students, differentiating instruction, developing a growth mindset, and using brain-based discipline techniques.
