

What if?

What if the future of STEM education is in your hands?

How does science, technology, engineering and math in the classroom translate to feeding the world's increasing population? How are teachers influencing the next generation of scientific innovators? Find out what you can do at the STEMposium!

Saturday April 18, 2015

9am-5pm, registration at 8am

Union College | Barbourville, KY | Ramsey Center

Parking is free and unrestricted

Register at www.bgteacherquality.org
