

Kentucky State Report Card 2010-2011

The Kentucky School Testing System is designed to improve teaching and student learning in Kentucky. At present [in the interim between the Commonwealth Accountability Testing System (CATS) and a new system mandated by statute to be in place by the 2011-2012 school year] it includes:

- Kentucky Core Content Tests (KCCT),
- On-demand writing prompts,
- Alternate assessments for students with severe to profound disabilities,
- ACT, EXPLORE and PLAN assessments
- Nonacademic components
- Norm referenced tests in reading and mathematics for grades 3-7

The Kentucky State Report Card for 2010-2011 is divided into four parts, each required by the NCLB Act: Assessment Results, Accountability Data, Highly Qualified Teacher Data and the state results of the National Assessment of Educational Progress (NAEP).

1. Assessment Data (Pages 4-26)

The No Child Left Behind Act (NCLB) mandates that the results of state assessments be reported annually in reading, mathematics and science by grade tested and disaggregated by all major sub-groups of students taking the assessment: African American, American Indian/Native Alaskan, Asian/Pacific Islander, Hispanic, White, Students with disabilities, economic disadvantaged, migrant, female and male. Kentucky has chosen to include the statewide results in social studies and on-demand writing as well, since these are required components of the KCCT.

2. Accountability Data (Pages 27-33)

The three components of accountability data required on State report cards are a comparison between student achievement levels and the State's annual measurable objectives in reading/language arts and mathematics, data on student performance on the State's additional academic indicators used in making Adequate Yearly Progress (AYP) determinations, and information on LEAs and schools making AYP. Kentucky's additional academic indicators are graduation for high schools and "improvement" for elementary and middle schools.

3. Highly Qualified Teacher Data (Page 34)

For public elementary and secondary school teachers, states must provide information for the following three components:

1. The professional qualifications of all public elementary and secondary school teachers in the State, as defined by the State (e.g., bachelors and advanced degrees, licensure);
2. The percentage of all public elementary and secondary school teachers teaching with emergency or provisional credentials; and
3. The percentage of classes in the State not taught by highly qualified teachers (as the term is defined in Section 9101(23) of the ESEA, in the aggregate and disaggregated by high-poverty compared to low-poverty schools which (for this purpose) means schools in the top quartile of poverty and the bottom quartile of poverty in the state.

The requirement that teachers be highly qualified, as defined in Section 9103(23) of the ESEA, applies to public Elementary and secondary school teachers who teach a core academic subject. For purposes of reporting information on the percentage of classes taught by highly qualified teachers, States must only report on elementary and secondary classes in the core academic subjects.

4. National Assessment of Education Progress (NAEP) Data (Pages 35-36)

The National Assessment of Educational Progress (NAEP) is also known as "The Nation's Report Card." NAEP has been conducting assessments since 1969 and is the only national assessment of what "America's students know and can do" in various subject areas. NAEP assessments follow the subject area frameworks developed by the National Assessment Governing Board (NAGB) and use the latest advances in assessment methodology. NAEP assessments include multiple-choice and constructed-response questions. NAEP does not report scores for individual students or schools. NAEP bases its results on a sample of students and provides data at the state and national level. NAEP is administered between late January and early March of each year. Through the passage of the No Child Left Behind Act (NCLB) states and districts receiving Title 1 funds are required to participate in state NAEP in reading and mathematics at grades 4 and 8 every two years. State participation in other state NAEP subjects (science and writing) remains voluntary.

Other Academic Indicator

In 2010, the Kentucky Board of Education approved a new Other Academic Indicator for elementary and middle school levels in Kentucky regulation 703 KAR 5:060.

Elementary and Middle Schools Level:

- a. Increase percentage Proficient plus Distinguished in combined science, social studies and writing on-demand compared to prior year; or
- b. Perform at or above the state average percentage Proficient plus Distinguished in combined science, social studies and writing on-demand plus a confidence interval; or
- c. Decrease percentage novice in combined reading, mathematics, science, social studies and writing on-demand compared to the prior year.

High School Level:

NCLB requires that the Other Academic Indicator at high school be graduation rate. As part of meeting AYP, NCLB requires all high schools to show improvement in their graduation rates. Kentucky chose not to expand the additional academic indicator beyond graduation rate at the high school level. Graduation rates are collected with other nonacademic data (e.g. dropout and retention). In NCLB and state reporting, graduation data rate are lagged by one year compared to the academic data used for NCLB.

Accountability Data

Title 1 schools and districts that did not make Adequate Yearly Progress (AYP) for 2009-2010 and which were identified for **improvement, corrective action or restructuring**.

NCLB Tier of Consequences for Schools

School Improvement Yr1 (2 years not making AYP): School choice and write or revise school plan.

School Improvement Yr2 (3 years not making AYP): Continue school choice, revise school plan and offer supplemental services.

Corrective Action Yr1 (4 years not making AYP): Continue school choice, revise school plan, continue supplemental services and implement corrective action.

Corrective Action Yr2 (5 years not making AYP): Continue school choice, revise school plan, continue supplemental services, continue corrective action and write a plan for Alternative Governance .

Restructuring (6 years not making AYP): Continue school choice, revise school plan, continue supplemental services, continue corrective action and implement Alternative Governance .

NCLB Tier of Consequences for Districts

District Improvement Yr1 (2 years not making AYP): Notify Parents using state provided information, revise district improvement plan, request technical assistance if needed, and may be subject to corrective action from the Kentucky Department of Education.

District Improvement Yr2 (3 years not making AYP): Notify Parents using state provided information, revise district improvement plan, request technical assistance if needed, and may be subject to corrective action from the Kentucky Department of Education.

Corrective Action (4 years not making AYP): Notify Parents using state provided information, revise district improvement plan, technical assistance if provided by the Kentucky Department of Education, and will be subject to corrective action from the Kentucky Department of Education.
