### **KDE INTRODUCES MEDIA PORTAL; MAKES VIDEO CONTENT EASIER TO ACCESS**

(Frankfort, KY) – The Kentucky Department of Education (KDE) introduced the KDE Media Portal today. The [KDE Media Portal](http://mediaportal.education.ky.gov) (<http://mediaportal.education.ky.gov>) provides school administrators, teachers, KDE staff and others throughout the state access to a single, central repository for all of the agency’s video content. Users will no longer need to search multiple locations for KDE videos.

The department produces videos on a broad range of topics, aligned with KDE’s strategic plan. New KDE iTunesU content is also available through the media portal.

Users should find it easy to locate all videos; they are grouped in categories and searchable by tag words. Among the regular video features available are recordings of the Kentucky Board of Education meetings, superintendent webcasts and webcasts on the Professional Growth and Effectiveness System (PGES). A number of other webcasts, information and training videos are also available.

The KDE Media Portal feeds video content to the KDE News mobile app for [Android](#), [Windows](#) and [iPhones](#) and also supports video content on the department’s [website](#).

Videos are accessible using most Internet browsers running on PCs, Apple computers and mobile devices.
