The Committee for Mathematics Achievement (CMA) was created for the purpose of developing a multifaceted strategic plan to improve student achievement in mathematics at all levels of schooling, prekindergarten through postsecondary and adult. The CMA is comprised of 26 members including the commissioner of education; representatives from the Council on Postsecondary Education, the Education Professional Standards Board, and the Education and Workforce Development Cabinet; a representative with a specialty in mathematics or mathematics education; and elementary, middle, and high school mathematics teachers and school administrators.
