INDEPENDENT AUDITOR'S REPORT

State Committee For School District Audits  
Members of the Board of Education  
Bracken County Board of Education  
Brooksville, Kentucky

**Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Bracken County Board of Education as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements as listed in the table of contents.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the provisions of Office of Management and Budget Circular A-133, Audits of States and Local Governments, and Non-Profit Organizations, and the audit requirements prescribed by the Kentucky State Committee for School District Audits. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not

for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board as of June 30, 2014 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 7 through 12 and budgetary comparison information on pages 42 and 43 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Board's basic financial statements. The combining statements for nonmajor governmental funds and fiduciary funds, the statement of receipts, disbursements, and due to student groups-Bracken County High School, and the schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining statements for nonmajor funds and fiduciary funds, the statement of receipts, disbursements, and due to student groups-Bracken County High School, and the schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other

additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining statements for nonmajor funds and fiduciary funds, the statement of receipts, disbursements, and due to student groups-Bracken County High School, and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated October 6, 2014, on our consideration of the Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Board's internal control over financial reporting and compliance.

**MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)  
YEAR ENDED JUNE 30, 2014**

As management of the Bracken County School District (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2014. We encourage readers to consider the information presented here in conjunction with additional information found within the body of the audit.

**FINANCIAL HIGHLIGHTS**

The beginning cash balance, including activity funds, for the District was \$2,707,698. The ending cash balance, including activity funds, for the District was \$2,802,942.

The General Fund had \$8,198,130 in revenue, which primarily consisted of the state program (SEEK), property, utilities, and motor vehicle taxes. Excluding inter-fund transfer, there were \$8,528,920 in General Fund expenditures. This includes on-behalf payments.

Staff received a 1% raise in addition to step and rank increases.

The District purchased two school buses.

During the fiscal year the District was notified the Kentucky School Board Insurance Trust (KSBIT) would be dissolving as the self insurance provider for school districts in Kentucky. KSBIT has informed Districts there is an unfunded liability that will be assessed. The assessment for Workers Compensation is \$63,355. The District has chosen to pay 25% down and the remaining in six equal payments. The assessment for Property and Liability is \$17,274. The District has chosen to pay 40% down and the remaining in two equal payments.

The District filed a capital funds request and received KDE approval to use Capital Outlay funds of \$109,492, and Building funds of \$109,372 to the District's insurance, a new bus, and repairs and maintenance.

The compensating rate for property taxes was taken. Motor vehicle taxes remained at 52.5 cents per \$100.

The District began two construction projects during the year. The Middle School gym roof replacement and the High School and Middle School Security Vestibules.

## OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) district-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**District-wide financial statements.** The district-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the district is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The district-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include instruction, support services, operation and maintenance of plant, student transportation and operation of non-instructional services. Fixed assets and related debt is also supported by taxes and intergovernmental revenues.

The district-wide financial statements can be found on pages 13 and 14 of this report.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. This is a state mandated uniform system and chart of accounts for all Kentucky public school districts utilizing the MUNIS administrative software. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental, proprietary funds and fiduciary funds. Fiduciary funds are trust funds established by benefactors to aid in student education, welfare and teacher support. The proprietary fund is food service operations. All other activities of the district are included in the governmental funds.

The basic governmental fund financial statements can be found on pages 15-22 of this report.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the district-wide and fund financial statements. The notes to the financial statements can be found on pages 23-40 of this report.

## DISTRICT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$11 million as of June 30, 2014.

The largest portion of the District's net position reflects its investment in capital assets less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

### Net position for the period ending June 30, 2013 and 2014

2014 District-wide net position compared to 2013 are as follows:

	Net Position (in thousands)					
	Governmental		Business-type		Total	
	<u>2014</u>	<u>2013</u>	<u>2014</u>	<u>2013</u>	<u>2014</u>	<u>2013</u>

<b>Total Net Position</b>	\$10,934	\$10,455	\$546	\$576	\$11,480	\$11,031

### Budgetary Implications

In Kentucky the public school fiscal year is July 1 - June 30; other programs, i.e. some federal operate on a different fiscal year, but are reflected in the district overall budget. By law the budget must have a minimum 2 percent contingency. The district adopted a budget with \$517,485 in contingency, which is 6.6 percent.

### Comments on Budget Comparisons

The original budget was amended to reflect changes in the site based allocations and anticipated revenues. The changes made were based on more accurate data being available after the first couple of months of the fiscal year.

The District recorded "On-Behalf" payments as revenues and expenditures during the fiscal year. "On-Behalf" payments were not included in the budget. Therefore budget comparisons have some large negative variances. Caution should be used when reading the budget comparison reports.

 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,  
 AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS TO  
 THE DISTRICT-WIDE STATEMENT OF ACTIVITIES  
 For The Year Ended June 30, 2014

Amounts reported for governmental activities in the statement of activities  
 are different because:

**Total net change in fund balances - governmental funds** **\$75,625**

Capital outlays are reported as expenditures in this fund financial  
 statement because they use current financial resources, but they  
 are presented as assets in the statement of activities and  
 depreciated over their estimated economic lives. The difference  
 is the amount by which capital outlays exceeds depreciation  
 expense for the year.

	Depreciation Expense	(566,406)	
	Capital Outlays	<u>393,486</u>	(172,920)

Loss on sale of assets (406)

Bond proceeds provide current financial resources to  
 governmental funds, but issuing debt increases long-term  
 liabilities in the statement of net position. Repayment of bond  
 principal is an expenditure in the governmental funds, but the  
 repayment reduces long-term liabilities in the statement of net  
 position.

	Repayment of Bond Principal		553,000
--	-----------------------------	--	---------

Generally, expenditures recognized in this fund financial statement  
 are limited to only those that use current financial resources, but  
 expenses are recognized in the statement of activities when they  
 are incurred.

BRACKEN COUNTY SCHOOL DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
For The Year Ended June 30, 2014

**NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

REPORTING ENTITY

The Bracken County Board of Education (Board), a five member group, is the level of government which has oversight responsibilities over all activities related to public elementary and secondary school education within the jurisdiction of the Bracken County School District (District). The Board receives funding from local, state and federal government sources and must comply with the commitment requirements of these funding source entities. However, the Board is not included in any other governmental “reporting entity” as defined in Section 2100, Codification of Governmental Accounting and Financial Reporting Standards as Board members are elected by the public and have decision making authority, the power to designate management, the responsibility to develop policies which may influence operations, and primary accountability for fiscal matters.

The Board, for financial purposes, includes all of the funds and account groups relevant to the operation of the Bracken County Board of Education. The financial statements presented herein do not include funds of groups and organizations, which although associated with the school system, have not originated within the Board itself such as Band Boosters, Parent-Teacher Associations, etc.

The financial statements of the Board include those of separately administered organizations that are controlled by or dependent on the Board. Control or dependence is determined on the basis of budget adoption, funding and appointment of the respective governing board.

Based on the foregoing criteria, the financial statements of the following organization are included in the accompanying financial statements:

Bracken County School District Finance Corporation (the Corporation) – the Bracken County Board of Education has established the Bracken County School District Finance Corporation (a non-profit, non-stock, public and charitable corporation organized under the School Bond Act and KRS 273 and KRS Section 58.180) as an agency of the Board for financing the costs of school building facilities. The Board Members of the Bracken County Board of Education also comprise the Corporation’s Board of Directors.

Basis of Presentation

District-Wide Financial Statements – The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the Board that are governmental and those that are considered business-type activities.

The district-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the district-wide statements and the statements for governmental funds.

BRACKEN COUNTY SCHOOL DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
For The Year Ended June 30, 2014

The district-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements – Fund financial statements report detailed information about the District. The focus of governmental and proprietary fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The accounting and reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the changes in total net position. Proprietary funds and fiduciary funds are reported using the economic resources measurement focus. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activities.

The District has the following funds:

I. Governmental Fund Types

- (A) The General Fund is the primary operating fund of the District. It accounts for and reports all financial resources not accounted for and reported in another fund. This is a budgeted fund and any unrestricted fund balances are considered as resources available for use. This is a major fund of the District.
- (B) The Special Revenue Fund accounts for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. It includes federal financial programs where unused balances are returned to the grantor at the close of specified project periods as well as the state grant programs. Project accounting is employed to maintain integrity for the various sources of funds. The separate projects of federally-funded grant programs are identified in the Schedule of Expenditures of Federal Awards included in this report. This is a major fund of the District.

BRACKEN COUNTY SCHOOL DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
For The Year Ended June 30, 2014

- C. Capital Project Funds are used to account for and report financial resource that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.
1. The Support Education Excellence in Kentucky (SEEK) Capital Outlay Fund receives those funds designated by the state as Capital Outlay Funds and is restricted for use in financing projects identified in the district's facility plan.
  2. The Facility Support Program of Kentucky (FSPK) Fund accounts for funds generated by the building tax levy required to participate in the School Facilities Construction Commission's construction funding and state matching funds, where applicable. Funds may be used for projects identified in the district's facility plan. This is a major fund.
  3. The Construction Fund includes Capital Projects Fund accounts for proceeds from sales of bonds and other revenues to be used for authorized construction and/or renovations.

II. Debt Service Fund

The Debt Service Fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds are used to report resources if legally mandated. Financial resources that are being accumulated for principal and interest maturing in future years are reported in debt service funds.

III. Proprietary Funds (Enterprise Fund)

1. The School Food Service Fund is used to account for school food service activities, including the National School Lunch Program, which is conducted in cooperation with the U.S. Department of Agriculture (USDA). This is a major fund for the District.

IV. Fiduciary Fund Type (Agency and Private Purpose Trust Funds)

1. The Agency Fund accounts for activities of student groups and other types of activities requiring clearing accounts. These funds are accounted for in accordance with Uniform Program of Accounting for School Activity Funds.
2. The Private Purpose Trust Funds are used to report trust arrangements under which principal and income benefit individuals, private organizations or other governments. The District does not currently have any Private Purpose Trust Funds.

BRACKEN COUNTY SCHOOL DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
For The Year Ended June 30, 2014

V. Permanent Funds

Permanent Funds are used to account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs – that is, for the benefit of the government or its citizenry.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. District-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting.

Revenues – Exchanges and Non-exchange Transactions – Revenues resulting from exchange transactions, in which each party receives essentially equal value, are recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenues are recorded in the fiscal year in which the resources are measurable and available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District available means expected to be received within sixty days of the fiscal year-end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when used is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenues from nonexchange transactions must also be available before they can be recognized.

Deferred Revenue – Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Grants and entitlements received before the eligibility requirements are met are recorded as deferred revenue.

Expenses/Expenditures – On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the statement of revenues, expenses, and changes in net position as an expense with a like amount reported as donated commodities revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation, are not recognized in governmental funds.

BRACKEN COUNTY SCHOOL DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
For The Year Ended June 30, 2014

Property Taxes

Property Tax Revenues – Property taxes are levied each September on the assessed value listed as of the prior January 1, for all real and personal property in the county. The billings are considered due upon receipt by the taxpayer; however, the actual date is based on a period ending 30 days after the tax bill mailing. Property taxes collected are recorded as revenues in the fiscal year for which they were levied.

The property tax rates assessed for the year ended June 30, 2014, to finance operations were \$.365 per \$100 valuation for real property, \$.365 per \$100 valuation for business personal property and \$.525 per \$100 valuation for motor vehicles.

The District levies a utility gross receipts license tax in the amount of 3% of the gross receipts derived from the furnishings, within the District, of telephonic and telegraphic communications services, cablevision services, electric power, water, and natural, artificial and mixed gas.

Fund Balance Classification Policies and Procedures

The Board intends that accounting practices follow state and federal laws and regulations and generally accepted accounting policies.

Nonspendable Fund Balance

Amounts that cannot be spent because they are either not in a spendable form (such as inventories and prepaid amounts) or are legally or contractually required to be maintained intact will be classified as Nonspendable Fund Balance.

Restricted Fund Balance

Fund Balance will be reported as restricted when constraints placed on the use of resources are either; (a) externally imposed by creditors, grantors, contributors, or laws or regulations or other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

The Board will use restricted amounts before unrestricted amounts when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available.

Committed Fund Balance

Amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Board of Education will be reported as committed fund balance.

Assigned Fund Balance

Amounts that have been assigned for a specific purpose by formal resolution of the Board of Education will be reported as assigned fund balance for a specific purpose.

Unassigned Fund Balance

Unassigned Fund Balance is the residual classification for the general fund.

When an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classification could be used, the funds will first be spent from committed, then assigned, and then finally unassigned.

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as “interfund receivables/payables”. These amounts are eliminated in the governmental and business-type activities columns of the statements of net position, except for the net residual amounts due between governmental and business-type activities, which are presented as internal balances.

BRACKEN COUNTY SCHOOL DISTRICT  
 NOTES TO THE FINANCIAL STATEMENTS  
 For The Year Ended June 30, 2014

Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The District does not possess any infrastructure. Improvements are capitalized; the cost of, normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives for both general capital assets and proprietary fund assets:

<u>Description</u>	<u>Governmental Activities Estimated Lives</u>
Buildings and improvements	25-50 years
Land improvements	20 years
Technology equipment	5 years
Vehicles	5-10 years
Audio-visual equipment	15 years
Food service equipment	12 years
Furniture and fixtures	20 years
Rolling stock	15 years
Other	10 years

Accumulated Unpaid Sick Leave Benefits

Upon retirement from the school system, an employee will receive from the District an amount equal to 30% of the value of accumulated sick leave.

Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination payments. The liability is based on the School District's past experience of making termination payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements the current portion of unpaid accrued sick leave is the amount expected to be paid using expendable available resources. These amounts are recorded in the account "accumulated sick leave payable" in the general fund. The noncurrent portion of the liability is not reported.

BRACKEN COUNTY SCHOOL DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
For The Year Ended June 30, 2014

Budgetary Process

**Budgetary Basis of Accounting:** The District's budgetary process accounts for certain transactions on a basis other than Generally Accepted Accounting Principles (GAAP). The major differences between the budgetary basis and the GAAP basis are:

Revenues are recorded when received in cash (budgetary) as opposed to when susceptible to accrual (GAAP).

Expenditures are recorded when paid in cash (budgetary) as opposed to when susceptible to accrual (GAAP).

Once the budget is approved, it can be amended. Amendments are presented to the Board at their regular meetings. Such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year-end as dictated by law.

Each budget is prepared and controlled by the treasurer at the revenue and expenditure function/object level. All budget appropriations lapse at year-end.

Cash and Cash Equivalents

The District considers demand deposits, money market funds, and other investments with an original maturity of 90 days or less, to be cash equivalents.

Inventories

On district-wide financial statements inventories are stated at cost and are expensed when used.

On fund financial statements inventories are stated at cost. The cost of inventory items is recorded as an expenditure in the governmental fund types when purchased.

The food service fund uses the specific identification method and the general fund uses the first-in, first-out method.

Prepaid Assets

Payments made that will benefit periods beyond June 30, 2014, are recorded as prepaid items using the consumption method. Prepaid assets are only recorded if material to the financial statements.

BRACKEN COUNTY SCHOOL DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
For The Year Ended June 30, 2014

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the district-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, claims and judgments, the noncurrent portion of capital leases, accumulated sick leave, contractually required pension contributions and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, payments made within sixty days after year-end are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due.

Net Position

Net position represent the difference between assets and liabilities. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, those revenues are primarily charges for meals provided by the various schools and collections for services such as child care.

Contributions of Capital

Contributions of capital in proprietary fund financial statements arise from outside contributions of fixed assets, or from grants or outside contributions of resources restricted to capital acquisition and construction.

Subsequent Events

Subsequent events were considered through October 6, 2014, which represents the date of my report.

BRACKEN COUNTY SCHOOL DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
For The Year Ended June 30, 2014

Interfund Activity

Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Uses of Estimates

The process of preparing financial statements in conformity with general accepted accounting principles of the United States of America requires management to make estimates and assumptions that affect reported amounts of assets, liabilities, designated fund balances, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Encumbrances

Encumbrances are not liabilities and therefore, are not recorded as expenditures until receipt of material or service. For budgetary purposes, appropriations lapse at fiscal year-end and outstanding encumbrances at year-end are reappropriated in the next year. Accordingly, no differences exist between actual results and the applicable budgetary data presented in the accompanying combined financial statements.

**NOTE B – PROPERTY TAX CALENDAR**

Property taxes for fiscal year 2014 were levied on the assessed valuation of property located in the School District as of January 1, 2013 lien date. The due date and collection periods for all taxes exclusive of vehicle taxes are as follows:

Description	per KRS 134.020
Due date for payment of taxes	Upon receipt
Face value amount payment date	December 31
Delinquent date, 5% penalty	January 1- 31
Delinquent date, 10% penalty	February 1

Vehicle taxes are collected by the County Clerk and are due and collected in the birth month of the vehicle's licensee.

 For The Year Ended June 30, 2014

**NOTE C – CASH AND CASH EQUIVALENTS**

At year-end, the carrying amount of the District's total cash and cash equivalents was \$2,802,942. Of the total cash balance, \$250,000 was covered by Federal Depository insurance, with the remainder covered by collateral agreements and collateral held by the pledging banks' trust departments in the District's name. Cash equivalents are funds temporarily invested in securities with a maturity of 90 days or less.

BRACKEN COUNTY SCHOOL DISTRICT  
 NOTES TO THE FINANCIAL STATEMENTS  
 For The Year Ended June 30, 2014

**NOTE E – BONDED DEBT AND LEASE OBLIGATIONS**

The amount shown in the accompanying financial statements as lease obligations represents the District's future obligations to make lease payments relating to the bonds issued aggregating the original amount of each issue, the issue date, and interest rates are summarized below:

Issue Date	Proceeds	Rates
1999	\$ 235,000	4.25%
2004 Refunding	5,290,000	2.00% - 3.60%
2010	1,970,000	2.00% - 4.00%

The District, through the General Fund (including utility taxes) and the Support Education Excellence in Kentucky (SEEK) Capital Outlay Fund is obligated to make payments in amounts sufficient to satisfy debt service requirements on bonds issued to construct school facilities. The District has an option to purchase the property under lease at any time by retiring the bonds then outstanding.

There are a number of limitations and restrictions contained in the various bond indentures. Management has indicated that the District is in compliance with all significant limitations and restrictions as of June 30, 2014.

The District entered into "participation agreements" with the School Facility Construction Commission. The Commission was created by the Kentucky General Assembly for the purpose of assisting local school districts in meeting school construction needs. The table below sets forth the amount to be paid by the District and the Commission for each year until maturity of all bond issues. The liability for the total bond amount remains with the District and, as such, the total principal outstanding has been recorded in the financial statements.

The following is a summary of the District's long-term debt transactions for the year ended.

	Beginning Balance	Additions	Payments	Ending Balance
Bonds	\$3,566,000		\$553,000	\$3,013,000
Sick Leave	\$27,449	\$33,762		\$61,211
Total	\$3,593,449	\$33,762	\$553,000	\$3,074,211

The bonds may be called prior to maturity and redemption premiums are specified in each issue. Assuming no bonds are called prior to scheduled maturity, the minimum obligations of the District, including amounts to be paid by the Commission, at June 30, 2014, for debt service (principal and interest) are as follows:

BRACKEN COUNTY SCHOOL DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
For The Year Ended June 30, 2014

**NOTE G – RETIREMENT PLANS**

Plan Description – The Bracken County School District contributes to the Teachers' Retirement System of Kentucky (KTRS), a cost sharing, multiple-employer, defined benefit pension plan. KTRS administers retirement and disability annuities and death and survivor benefits to employees and beneficiaries of employees of the public school systems and other public educational agencies in Kentucky. KTRS requires that members of KTRS occupy a position requiring either a four (4) year college degree or certification by KY Department of Education (KDE). Job classifications that permit experience to substitute for either of these requirements do not participate in KTRS.

KTRS was created by the 1938 General Assembly and is governed by Chapter 161 Section 220 through Chapter 161 Section 990 of the Kentucky Revised Statutes (KRS). KTRS issues a publicly available financial report that includes financial statements and required supplementary information for the defined benefit pension plan. That report can be obtained by writing to Kentucky Teachers' Retirement System, 479 Versailles Road, Frankfort, KY 40601

Funding Policy – Contribution rates are established by KRS. Members are required to contribute 11.355% of their salaries to KTRS. The Commonwealth of Kentucky is required to contribute 13.105% of salaries for members before July 1, 2008 and 14.105% of salaries for members who started their account after July 1, 2008. The federal program for any salaries paid by that program pays the matching contributions.

**Medical Insurance Plan**

Plan description – In addition to the pension benefits described above, KRS 161.675 requires KTRS to provide access to post-employment healthcare benefits to eligible members and dependents. The KTRS Medical Insurance benefit is a cost-sharing multiple employer defined benefit plan. Changes made to the medical plan may be made by the KTRS Board of Trustees, the KY Department of Employee Insurance and the General Assembly.

To be eligible for medical benefits, the member must have retired either for service or disability. The KTRS Medical Insurance Fund offers coverage to members under the age of 65 through the KY Employees Health Plan administered by the KY Department of Employee Insurance. Once retired members and eligible spouses attain age 65 and are Medicare eligible, coverage is obtained through the KTRS Medicare Eligible Health Plan.

Funding policy – In order to fund the post-employment healthcare benefit, active member contributions are matched by the state at .75% of members' gross salaries. Member contributions are 2.25% of salary. Also, the premiums collected from retirees as described in the plan and description and investment interest help meet the medical expenses of the plan. Additionally, under the Shared Responsibility Plan, the local school district employers pay 1.5% of member's salary for the 2013-2014 fiscal year.

 NOTES TO THE FINANCIAL STATEMENTS  
 For The Year Ended June 30, 2014

**NOTE G – RETIREMENT PLANS (continued)**

Substantially all other employees (classified personnel) are covered under the County Employee's Retirement System ("CERS"), a cost sharing, multiple-employer, public employers retirement system. Funding for the Plan is provided through payroll withholdings of 5% and a District contribution of 18.89% of the employee's total compensation subject to contribution.

Benefits under both plans will vary based on final compensation, years of service and other factors as fully described in the Plan documents.

The following are payroll and retirement amounts for the years ended June 30, 2014, 2013, and 2012.

	2014	2013	2012
Total payroll	6,092,941	6,161,807	6,084,533
KTRS total payroll	4,830,615	4,816,575	4,743,226
CERS total payroll	1,158,659	1,331,782	1,286,495
Contribution requirement for CERS	279,978	316,429	283,309
District portion - CERS contribution	219,933	249,962	217,804
Employee portion - CERS contribution	60,045	66,467	65,505
KTRS contribution - Commonwealth of KY	599,388	596,203	579,822
KTRS contribution - District Federal Employees	47,123	89,631	44,227

**NOTE H – CONTINGENCIES**

The District receives funding from Federal, State and Local government agencies and private contributions. These funds are to be used for designated purposes only. For government agency grants, if based upon the grantor's review, the funds are considered not to have been used for the intended purpose, the grantors may request a refund of monies advanced, or refuse to reimburse the District for its disbursements. The amount of such future refunds and unreimbursed disbursements, if any, is not expected to be significant. Continuation of the District's grant programs is predicated upon the grantors' satisfaction that the funds provided are being spent as intended and the grantors' intent to continue their programs.

BRACKEN COUNTY SCHOOL DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
For The Year Ended June 30, 2014

**NOTE I – INSURANCE AND RELATED ACTIVITIES**

The District is exposed to various forms of loss of assets associated with the risks of fire, personal liability, theft, vehicular accidents, errors and omissions, fiduciary responsibility, etc. Each of these risk areas is covered through the purchase of commercial insurance. The District has purchased certain policies which are retrospectively rated which includes Workers' Compensation insurance.

**NOTE J – ACCUMULATED UNPAID SICK LEAVE BENEFITS**

Upon retirement from the school system, an employee will receive from the district an amount equal to 30% of the value of accumulated sick leave. At June 30, 2014, this amount totaled \$61,211 of which \$30,605 is restricted in the current year fund balance of the General Fund.

**NOTE K – INTERFUND RECEIVABLES AND PAYABLES**

Interfund balances at June 30, 2014, consisted of the following:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
None		

**NOTE L – RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. To obtain insurance for workers' compensation, errors and omissions, and general liability coverage, the District purchases various commercial insurance.

The District purchased unemployment insurance through the Kentucky School Boards Insurance Trust Unemployment Compensation Fund; however, risk has not been transferred to such fund. In addition, the District continues to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

**NOTE M – DEFICIT OPERATING/FUND BALANCES**

Funds with a current year deficit of revenues over expenditures

Fund 1	( 101,467)
Fund 320	( 232,016)
Fund 51	( 29,402)

**NOTE N – COBRA**

Under COBRA, employers are mandated to notify terminated employees of available continuing insurance coverage. Failure to comply with this requirement may put the school district at risk for a substantial loss. The District notifies the Department of Employee Insurance (DEI) when an employee is no longer employed. DEI sends the employee the COBRA requirements.

Total On-Behalf Payments	\$ 1,760,242

**NOTE Q – DEPOSITS AND INVESTMENTS**

Interest rate risk. In accordance with the District's investment policy, interest rate risk is limited by investing in public funds with the highest rate of return with the maximum security of principal. Investments are undertaken in a manner that seeks to ensure preservation of the capital in its portfolio.

Credit risk. The District's investment policy limits the types of authorized investment instruments to obligations of the United States, its agencies, and instrumentalities. In addition, certificates of deposit or bonds of a bank or the Commonwealth of Kentucky, securities issued by a state or local government or shares of mutual funds are acceptable investments.

Concentration of credit risk. The district may invest, at any one time, funds in any one of the above listed categories with no limitation of the total amount of funds invested on behalf of the District.

BRACKEN COUNTY SCHOOL DISTRICT  
 NOTES TO THE FINANCIAL STATEMENTS  
 For The Year Ended June 30, 2014

**NOTE Q – DEPOSITS AND INVESTMENTS (continued)**

Custodial credit risk – deposits. For deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned. The District maintains deposits with financial institutions insured by the Federal Deposit Insurance Corporation (FDIC). As allowed by law the depository bank should pledge securities along with FDIC insurance at least equal to the amount on deposit at all times. As of June 30, 2014, the District's deposits are entirely insured and/or collateralized with securities held by the financial institutions on the District's behalf and the FDIC insurance.

**NOTE R – KSBIT JUDGMENT**

On June 4, 2014, the Franklin Circuit Court issued an order instructing the Rehabilitator to assess the former members of the Kentucky School Boards Insurance Trust. The District was assessed \$63,355 for Workers' Compensation and \$17,274 for Property and Liability Insurance. The District has elected to pay 25% by August 31, 2014 and the balance in equal installments for 6 years for the Workers' Compensation. The District has elected to pay 40% by September 15, 2014, and the balance in equal installments for 2 years for Property and Liability Insurance.

The following is a schedule by years of the future payments under the agreement.

Year Ending <u>June 30,</u>	<u>Amount</u>

**NOTE S – GASB 68**

In March 2009, the Governmental Accounting Standards Board (GASB) approved Statement No. 68, Accounting and Financial Reporting for Pensions. Statement 68 requires cost-sharing employers to record a liability and expense equal to their proportionate share of the collective net pension liability and expense for the cost-sharing plan. The provisions of the statement must be implemented by the District no later than the fiscal year beginning July 1, 2014.

**NOTE T – RESTATEMENT OF NET POSITION – DISTRICT WIDE**

GASB Statement 65, *Reporting Items Previously Recognized as Assets and Liabilities*, which reclassifies certain items reported as assets and liabilities to deferred outflows of resources or in other cases to expense/expenditure. Previously Debt Issuance Costs were included on the District Wide Financial Statements. Now Debt Issuance Costs, except any portion related to prepaid insurance costs, should be recognized as an expense in the period incurred. As a result of this change, the following restatement of beginning balance for Net Position – District Wide is made:

June 30, 2013, Original	\$ 10,455,667
Removal of Bond Issuance Costs	( <u>59,988</u> )
June 30, 2013, Restated	\$ 10,395,679

BRACKEN COUNTY SCHOOL DISTRICT  
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
For The Year Ended June 30, 2014

Note 1 – Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of Bracken County School District (the "District") under programs of the federal government for the year ended June 30, 2014. The information in this schedule is presented in accordance with the requirements of the Office of Management and Budget (OMB) Circular A-133, Audits of States and Local Governments, and Non-Profit Organizations. Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

Note 2 – Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, Cost Principles for State, Local and Indian Tribal Governments, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.

Note 3 – Food Distribution

Nonmonetary assistance is reported in the Schedule at the fair market value of the commodities disbursed, totaling \$46,003.

Bracken County School District

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the provisions of Office of Management and Budget Circular A-133, Audits of States and Local Governments, and Non-profit Organizations, and the audit requirement prescribed by the Kentucky Committee for School District Audits, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Bracken County Board of Education as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements, and have issued our report thereon dated October 4, 2014.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

I noted certain matters that I reported to management of the District in a separate letter dated October 6, 2014.

Bracken County School District

**Report on Compliance for Each Major Federal Program**

We have audited Bracken County School District's (the "District") compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2014. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

**Management's Responsibility**

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal programs.

**Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and the audit requirements prescribed by the Kentucky Committee for School District Audits. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on the District's compliance.

## **Opinion on Each Major Federal Program**

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

## **Report on Internal Control Over Compliance**

Management of the Bracken County School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

## **Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133**

We have audited the financial statements of Bracken County School District as of and for the year ended June 30, 2014, and have issued our report thereon dated October 6, 2014, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of

the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

Brooksville, Kentucky

We have audited the financial statements of the Bracken County School District for the year ended June 30, 2014 and have issued our report thereon dated October 6, 2014. As part of our audit, we made a study and evaluation of the District's system of internal accounting control to the extent we considered necessary to evaluate the system as required by auditing standards generally accepted in the United States of America. The purpose of our study and evaluation was to determine the nature, timing and extent of the auditing procedures necessary for expressing an opinion on the District's financial statements. Our study and evaluation was more limited than would be necessary for expressing an opinion on the system of internal accounting control taken as a whole.

The management of the Bracken County School District is responsible for establishing and maintaining a system of internal accounting control. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of control procedures. The objectives of a system are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles.

Because of inherent limitations in any system of internal accounting control, errors, or irregularities may nevertheless occur and not be detected. Also, projections of any evaluation of the system to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the degree of compliance with procedures may deteriorate.

Our study and evaluation made for the limited purpose described in the first paragraph would not necessarily disclose all material weaknesses in the system of internal accounting control. Accordingly, we do not express an opinion on the system of internal accounting control of the Bracken County School District taken as a whole. Our study and evaluation disclosed no condition that we believe to be a material weakness.

The following items from last year's management letter points were corrected during the current fiscal year as outlined in the District's response: 2013-01, 2013-02, 2013-03, 2013-04, 2013-07.

## **CURRENT YEAR MANAGEMENT POINTS**

*Auditor's Comment on New Red Book governing School Activity Funds: The New Red Book went into effect July 1, 2013. It has taken a significant amount of time for the actual requirements to be absorbed and implemented correctly throughout each school district. The Kentucky Department of Education (KDE) has addressed Red Book questions throughout the year and some questions relate to challenging and unique circumstances, which are not specifically addressed in the Red Book. Some of the following management letter points are directly related to new Red Book guidelines. The District continues to learn and adjust to the new information.*

### **BRACKEN COUNTY HIGH SCHOOL**

2014-001

According to the Red Book, "The school treasurer shall match up the purchase order, shipping document (if applicable) and vendor or standard invoice and verify that all items ordered have been received, services have been satisfactorily performed, all amounts agree, and that all necessary approvals and signatures have been obtained. Any problems or discrepancies shall be resolved before a check is written." There was 1 out of 25 expenditures tested that did not have a Purchase Order or Standard invoice approved. The school treasurer needs to verify all documentation is present before issuing a check.

Management's Response:

We believe all documents were with this check, but we will ensure all items are approved in the future.

2014-002

The revised Red Book effective July 1, 2013 does not allow expenditures for operational costs. There were 13 out of 25 expenditures not allowed because they were for operational costs. The school treasurer and principal should not approve purchases that are not allowed by the Red Book.

Management's Response:

Funds have been moved to the District Activity Fund. Coach membership, PD, and supplies will all be written out of that fund.

2014-003

According to the Red Book, "the principal shall not be the vendor on a purchase order." A review of vendors paid disclosed the principal was the vendor on 5 checks. The principal should not be the vendor on any check.

Management's Response:

We will not write any checks to the Principal in the future.

### **BRACKEN COUNTY MIDDLE SCHOOL**

2014-004

There were two (2) checks with only one signature. According to Board policy, "Two (2) signatures shall be required on each check drawn against internal accounts." I recommend a procedure be put into place to assure all checks have two signatures before they are distributed.

Management's Response:

When given the checks, I overlooked signing the actual check even though I had signed the purchase order. The original referee cancelled so the replacement check got overlooked. I did go to the bank and correct it at the FNB main branch on their version.

## **BRACKEN COUNTY MIDDLE SCHOOL (continued)**

2014-005

According to the Red Book, "Students third grade and above must sign the Multiple Receipt Form." Teachers/sponsors are not always having the students sign the Multiple Receipt Form. I recommend the school treasurer inform the Principal when students are not signing the Multiple Receipt Form. The Principal should discuss the requirement with the teacher/sponsor.

Management's Response:

I will re-emphasize this point. Teachers/coaches were worried with readability of the student's names and the amount of time it takes when collecting the funds on due dates.

## **TAYLOR ELEMENTARY SCHOOL**

2014-006

Testing disclosed six (6) checks with only one signature. According to Board policy, "Two (2) signatures shall be required on each check drawn against internal accounts." I recommend a procedure be put into place to assure all checks have two signatures before they are distributed. **This is a repeat finding from last year.**

Management's response:

This is an oversight on treasurer. Our procedure is for the principal to sign first and treasurer to sign before mailing, so two signatures aren't on it until ready to mail. Bank calls treasurer and will go over and sign so they don't have to return it. Treasurer will be more specific about double checking.

2014-007

According to the "Accounting Procedures for Kentucky School Activity Funds" (the Red Book), "to initiate a purchase a Purchase Order (Form F-SA-7) shall be prepared and approved by the sponsor and principal before the payment is obligated." There were 4 out of 25 expenditures tested that had Purchase Order dates after the invoice date. Staff should be reminded that all expenditures must be approved prior to obligating the school; all expenditures that are for a specific class/person should have sponsor approval.

Management's response:

Joseph Beth Booksellers was a PO for the library. Treasurer should have double checked the PO, Joy Hay had a PO, but when the receipt was turned in, gave a later receipt than the date of the PO. Still, treasurer should have caught it before writing the check.

2014-008

The revised Red Book effective July 1, 2013 does not allow expenditures for operational costs. There were 13 out of 25 expenditures not allowed because they were for operational costs. The school treasurer and principal should not approve purchases that are not allowed by the Red Book.

Management's Response:

Treasurer and principal were not aware we could not write checks for operational costs out of activity funds. Redbook will be studied more thoroughly.

## **TAYLOR ELEMENTARY SCHOOL (continued)**

2014-009

According to the Red Book, "to initiate a purchase, a Purchase Order shall be prepared and approved by the sponsor and principal before the payment is obligated." Testing disclosed 1 of 25 did not have a sponsor approval. The sponsor or person in charge of the fund should approve all purchase orders for that fund. **This is a repeat finding from last year.**

Management's Response:

It may have been missed since the finding wasn't known until after August last year, and this was an early PO. However, it could have been caught during double checking. Since only two accounts are left at the school level, after district combining, this should not happen again.

2014-010

According to the new Red Book, "the principal shall not be the vendor on a purchase order." A review of vendors paid disclosed the principal was the vendor on 5 checks. The principal should not be the vendor on any check.

Management's Response:

Treasurer and principal were not aware that even reimbursements could not be made. These were legit purchases made for staff, out of the correct funds, but we did not know reimbursements were not allowed. Principal will no longer be a vendor on a school fund check.

2014-011

According to the Red Book, "fundraisers where items are sold require the use of the Fundraiser Worksheet." Only two of the Fundraisers during the year completed the Fundraiser Worksheet. The principal and bookkeeper should remind sponsors to complete the Fundraiser Worksheet and turn it into the bookkeeper with the last deposit.

Management's Response:

We have one fundraiser that is ongoing – Market Day. Since it is a monthly fundraiser and never ends, we were not aware a fundraising worksheet needed to be filled out. Market Day will have fundraising worksheets each month next year.
