Release notes provide the applicable personnel the ability to review enhancements, modifications and regulated changes prior to accepting an update. It is advised that users review the release notes carefully and alert appropriate district staff to changes in the product.

Questions or concerns regarding an update should be directed to Campus Support.

All 1306 Rx Packs are included in the 1310 Release Pack.

End-of-Life Dates

End-of-life means no further development (*i.e.*, modifications, enhancements or regulated items) will be made on the identified version after the stated end-of-life date. Please plan accordingly. Infinite Campus will release a final end-of-life update for the identified version near the stated end-of-life date.

The following versions have been assigned an end-of-life date:

Version	Last Update	End of Life Date
2012M	2012M.1222	June 2012
2013M	2013M.1322	June 2013

Mandated localization changes required by State Departments of Education (DOE) and critical bug fixes will be released in supported versions through the end of life date. Please encourage your state's DOE to provide early announcements of any localization changes.

For additional information on version and platform support, see the Finding the [Infinite Campus Version](#) and [Supported Platforms](#) article.

Update Manifest

In this table, the **E** and **M** columns indicate that the change was released in the Enhancement Line (E.1310) and/or the Maintenance Line (2013M.1310).

Click on a header to sort the table by that column.

See the [Release Pack Enhancements](#) article for a list of just enhancement release notes, or click the **Description** column header twice to sort enhancements to the top of the manifest.

Packs: E.1310

Custom

Custom Attribute - Default Value (SIS-61592)

When a new Custom Attribute with the Data Type of Checkbox, the default value of checked will be saved and will store a value of 1 or 0. A script has been run against databases to update any values for this setting to be 1 and not True.

Path: System Administration > Custom > Custom Attribute

Packs: E.1310

Custom Attribute - Copies Forward Option (SIS-62748)

The option to mark a Custom Attribute to copy forward into future or other calendars has been added. Marking the Copies Forward tool will copy the data associated with the Custom Attribute from one record to the next created record.

Path: System Administration > Custom > Custom Attribute

Packs: E.1310

DIS/SIF

CourseSection Added as Required Sync Dependency for Roster Batch Sync (SIS-54200)

The CourseSection object has been added as a required sync dependency when batch syncing the Roster object via the Batch Resync tool.

Path: System Administration > Data Utilities > Resync State Data > Batch Resync

Pack: E.1310

SIF Objects Causing DIS/SIF Events at the State Level (SIS-60529)

Some SIF objects were attempting to throw SIF/DIS events at the State Level causing an error message to display. This has been corrected. Saving SIF objects no longer generates an error.

Path: No Specific Path

Pack: E.1310

SIF DIS Controller Not Checking for Compression on Incoming Messages (SIS-61958)

The SIF DIS controller was failing to read incoming traffic for compression, thus corrupting and failing to parse incoming unencrypted messages. This has been corrected

Path: No Specific Path

Pack: E.1310

Select SIF Object Data Triggers Fixed (SIS-62761)

The StudentPersonal object was triggering in duplicate and the StudentContact object was triggering duplicate unique IDs across a sync. This has been corrected.

Also, the StudentContact object was incorrectly duplicating information. This has been corrected.

Path: System Administration > Data Interchange > Agents

Pack: E.1310

SIF StudentAcademicRecord Object Reporting School Year Incorrectly (SIS-62911)

The SIF StudentAcademicRecord object was failing to properly report the <SchoolYear> XML element for fall historical courses. This has been corrected.

Path: No Specific Path

Pack: E.1310

Extra Country Tag in SIF StudentPersonal Object (SIS-64088)

An extra Country tag within the <Address><Address><Street> XML parent element was producing an error for StudentPersonal object change events. This has been corrected.

Path: System Administration > Data Interchange > Agents

Pack: E.1310

Path: Fees > Fees Wizard

Packs: E.1310

Fee Billing Batch Report - Duplicating Fees (SIS-62310)

The Fee Billing Batch was reported to be duplicating fees. This was related to the total number of households to which the student belonged. This has been corrected.

- When a guardian has two primary households that share an address, the Fee Billing Batch will not duplicate fees for the student or for the household.
- When a student is no longer in a household and a fee maximum is set for the household, the Fee Billing Batch will not duplicate fees.

Path: Fees > Reports > Fee Billing Batch

Packs: E.1310

Finance

Budgeting - Parent-only Account Report Changes (SIS-45827)

To help users scan the report and identify account numbers that were not assigned to children budget centers, the following changes were made:

- Report results now sort first by type then by account number.
- The report header now reflects the school district name instead of the school selected in the calendar.
- The report now reports the parent-only accounts per budget center.
- The Parent-only Accounts Report button is only enabled once the budget center is selected and the budget center is a parent.
- The budget center name was added to the report.

Path: Finance > Accounts Payable > Processing > Payment Processing > Check Printing

Pack: E.1310

General Ledger - Fixed Process for Changing Dimension Code Descriptions and End Dates (SIS-63388)

When a description on a dimension code was changed, the account description was not updating. This problem has been fixed.

The ability to remove end dates on accounts was also added. A new checkbox called **Remove End Date** was added to the GL Account Number Maintenance tab. When this checkbox is marked, Campus will remove the end date from an account as long as there is no end date on any of the dimension codes that make up the account number. If any of the dimension codes have an end date, Campus updates the end date on the account to the earliest end date from the dimension codes.

Path: Finance > General Ledger > Chart of Accounts Setup > Dimensions and Codes; Finance > General Ledger > Administration > Chart of Accounts Setup > GL Account Number Maintenance

Pack:E.1310

Learner Planning

Special Education Students in Ad hoc and Rosters (SIS-23458)

KNOWLEDGE BASE - RELEASE PACK .1310 - FEBRUARY/MARCH 2013

Calculation logic has been updated so that the IEP column of the Roster and the Roster Summary specialEdStudents field in Ad hoc calculate the same way. Students will be counted if they meet the necessary criteria for inclusion in the roster and have one or more plans that meet the following criteria:

- Plan Start Date is on or before the end date of the student's membership in a section.
- Plan End Date is on or after the start date of the student's membership in a section or End Date is null.
- The plan is locked.
- The plan is active on the Effective Date, which falls during the student's membership in a section.
- The plan is a special education plan, rather than a PLP, and is not any of the following print formats: miOMP, mtOMP, mtSOP, sdPPN, sdPPN09Consent, sdPPN09Meeting.

Each student will only be counted once, regardless of the number of plans.
