Data Details and Definitions:
- Report header - contains the school name, district name, survey window start and end dates, teacher name, and the total number of valid survey responses (surveys completed between 7am and 5pm local time).
- Response score – is determined by the total number of responses for the response type divided by the total number of responses for the question.
- Construct score - is determined by the total number of positive responses* divided by the total number of responses for the construct.
- Postive responses are considered to be:
  - Grade 3-5 Survey: "Yes, Always" and "Mostly Yes" except for Discipline, Students behave so badly…. where "Mostly Not" and "No, Never".
  - Grade 6-12 Survey: "Totally True" and "Mostly True".
- Access to this report allows access to results for all teachers in a school. Assign tool rights appropriately.
- KDE routinely purges student voice survey data. Be sure copies are securely kept if records will be needed in the future.
