- If two courses are skinnied and attendance is marked absent for that skinnied period, both courses skinnied in that period will have a course mark for that day.
- If within a multiple period course there are multiple different attendance marks, each will be their own attendance mark.

### FRAM - USDA Direct Certification Changes to Certified Types (SIS-48407)

For the 12-13 reporting year, if third-party vendors are not able to provide an export file with separate columns based on the source of the Certified Type, the import will automatically indicate any Certified Types mapped as Direct to a Direct Type of SNAP.

This Release Pack includes a significant update to the Eligibility Import Wizard. It is important to note that users will NOT be importing eligibility data based on unique or same eligibilities. Instead, users can import Direct Certification files or files from a 3rd party system. Both file types may include Direct or Non-Direct Eligibilities. See the [Direct Certification Changes to Eligibility Import Wizard](#) release notification for more information about these changes.
