**Cost:** \$750.00

**Registration:** Please go to [icu.infinitecampus.com](http://icu.infinitecampus.com) and search for CCR-4130 Mastering the Fundamentals of Campus II – Regional.

### Description:

Mastering the Fundamentals of Campus II is a four-day course designed for users that have already completed Mastering the Fundamentals of Campus and are looking for "What's next?" The design of the course is to train specific areas of the Campus application and provide workshop time to practice newly learned skills.

Areas of the Campus application covered in this training:

- Instruction - Student Work Product
- FDF Creation
- Email and Portal Messenger
- Scheduling Wizard for elementary schools
- LEP
- Advanced Ad Hoc
- Assessments
- Custom Attributes, Links and Tabs
- SPED (trained on request)
- FRAM
- Surveys
- MYAP

Users are **REQUIRED** to bring the following items with them to this training:

- A laptop with Adobe Professional installed (this is different from Adobe Reader)
- Sample documents to be distilled into FDFs that district would like to store electronically in Infinite Campus

Examples of custom reports that district would like to create using Ad Hoc Reporting
