Subject: KSIS Notification - Connectivity Issue Temporarily Preventing KSIS Data from Appearing in CIITS
Date: Monday, September 16, 2013 4:57:12 PM

KSIS contact,

A network connectivity issue prevented the Infinite Campus refresh of the KDE reporting warehouse from occurring over the weekend. As a result, the weekly Continuous Instructional Improvement Technology System (CIITS) data refresh scheduled for tonight will be delayed. The Infinite Campus hosting team is working with KDE to resolve the issue.

We apologize for this inconvenience and will notify you when the problem is resolved and CIITS data can be refreshed.
