**To:** [All State KSIS Contacts](#)  
**Subject:** KSIS Notification - Monday DAC E-mail for Dec. 15 regarding End-of-Course Early Warning Report  
**Date:** Tuesday, December 16, 2014 3:39:22 PM

---

KSIS contact,

Please be aware that the following excerpt was distributed earlier this week in an e-mail to all state district assessment coordinators (DACs). Please be prepared to receive requests to grant appropriate personnel (those assisting with identifying who needs testing) access to the EOC Early Warning report in Infinite Campus.

### **END-OF-COURSE (EOC) EARLY WARNING REPORT**

Since end-of-course testing was first implemented in 2011-12, it has been announced that beginning with the 2011-12 freshman cohort, every student should have an EOC score for English II, Algebra II, Biology, and U.S. History. As has been stated over the last three years, at the end of the 2014-15 school year, students graduating without an EOC score or approved nonparticipation in each of these courses will be included in the school and district accountability calculations. To assist school/district staff to identify students who do not have EOC data (especially seniors), Infinite Campus now contains an *End-of-Course Early Warning Report*.

The *EOC Early Warning Report* indicates whether a student has a score for state required EOC assessments. A student who has taken the EOC assessment will have an indicator of Yes. A student who has not taken the EOC assessment will have an indicator of No. Exempted status (i.e. nonparticipation) will be indicated by Yes (exempted) or No (not exempt). The report includes actively enrolled students who, on the date of the report, have a primary enrollment in grades 8 through 12. Alternate Assessment students are included in this report *but* are not expected to take the EOC exams. The report includes EOC assessment data PRIOR to the 2014-15 school year. Scores for students who have taken the assessment this school year are not included in the report.

To gain access, please ask the district KSIS (Infinite Campus) Point of Contact to give appropriate personnel (those assisting with identifying who needs testing) access to the EOC Early Warning Report.

To access the report within the Infinite Campus Index:

Go to Ky State Reporting, KDE Reports, EOC Early Warning

To generate the report, select one assessment or all, and one grade level or all.

### ***Next Steps***

Students who are juniors or younger who have not tested have time to complete the courses and take the assessments. Seniors, graduating in 2015, also have time to

take the assessment. Once seniors have been identified without an EOC score, test the student(s). Seniors currently in the course will test at the completion of all instruction. Seniors who completed the course in prior years but were not tested also have the opportunity to take the assessment during the spring semester.

State required EOC assessments:

EOCA - Algebra II

EOCB - Biology

EOCE - English II

EOCH - U.S. History

Note: KDE staff working within IC may not have matched all student data in your school or district. School/district staff should reconcile district data and the information in this report prior to giving students an assessment. This report is meant to be a tool, not final authority for accountability. If staff find discrepancies in the report, make note of it locally to improve your local record keeping on EOC assessment taking.

For questions on assessment, please contact the Office of Assessment and Accountability at (502) 564-4394. For questions on the data and Infinite Campus, please contact the Office of Knowledge, Information and Data Services at (502) 564-2020.
