Subject: KSIS Notification - E.1334 DELAYED - Alternate Release Schedule-Staging and Production
Date: Wednesday, September 11, 2013 8:30:30 AM

KSIS Contact,

Please be advised that there will be a delay in the release of E.1334 due to a known issue with a core product enhancement. The reason for this delay is that the issue has the potential for effecting LEAD and School Report Card reporting. Infinite Campus is developing an emergency patch to correct the issue and we expect delivery for testing in the staging sites this afternoon. This means staging sites will not be accessible for about an hour this afternoon, Wednesday, September 11, starting at 5:00 p.m. (EDT). If your district has training planned, using a staging site that will be affected by this schedule, please notify me immediately.

The release of E.1334 and patches to the production and sandbox environments is tentatively scheduled for Friday, September 13 at 7:00 p.m. (Local Time). There will be some interruption in service.

We apologize for any inconvenience the alternate release schedule may cause. Thank you for your understanding and patience.

Release E.1334 was originally scheduled for Wednesday, September 11 at 7:00 p.m. (Local Time).

Information is provided in a 35-minute recorded session available online [here](#). (Recorded Session Information: LL 2586: E.1334 New Release Features Lunch & Learn-20130822 1621-1) Highlights of the release are summarized below.

Please see the attached release notes for details and share this information with individuals in your district or office as appropriate.
