Subject: KSIS Notification: Infinite Campus Invoices
Date: Thursday, June 02, 2016 8:46:22 AM

Infinite Campus sent invoices out to districts on May 20th. These invoices indicated payment terms - due on July 1st. Infinite Campus has advised us that this is an error, the actual due date is August 15th. As in prior years, districts have the option of paying with current year funds or next year funds whichever works best. Check with your budget office to ensure the invoice has been received. Copies are available if you cannot locate, email KDEdatarequest@education.ky.gov.

The hosting fee remains the same; we are not yet seeing the cost decrease for cloud migration. This work slowed down during the legislative session because there was fear that budget cuts could negatively impact bandwidth. We continue to work through some last issues but will be reaching out to districts soon to get final confirmation of hosting preference (move to the cloud or stay on premise).

If you have any questions, let me know. THANKS

DeDe Conner
