KSIS Contact:

Please share the information below with all district staff responsible for entering intervention data.

KDE published changes to the custom Intervention tab on Tuesday evening. This temporarily moved the location of the tab from Student Information > PLP to Student Information > General. There is no impact to the PLP Intervention Data report or ad hoc functionality. Infinite Campus will move the Intervention tab back to the PLP module using a script during a scheduled outage tonight. Until this occurs, you will need to access the Intervention tab from Student Information > General.

The following changes were made to the PLP Intervention tab:

- Hidden line feed characters have been removed from two drop list options that caused issues with the PLP Intervention Data report.
- Start Date, Intervention Type and Intervention Content Areas will be required to save an Intervention record to improve data quality.
- New drop list options have been added to Tier Status (Tier 1), Intervention Type (Acceleration; Credit Recovery) and Funding Source (CEIS; ESS) based on district feedback.

The updated Intervention data standard will be published soon.
