---

**KSIS Contact:**

We want to take a moment to update you on the status of the KSIS/IC Cloud Migration. Cloud migration is moving forward and will be rolled out in three phases. In phase 1, all Frankfort-hosted districts will migrate during the winter 2016 holiday break. Districts with on-premise servers will migrate in phase 2 during the district's spring break or phase 3 during Summer 2017.

Infinite Campus will create a support ticket for each individual district to communicate scheduling details, provide new URLs, answer district questions and resolve issues during the migration process. The subject line of the support ticket will be **Move to Campus Cloud – DATE. (The date will be the date your district is scheduled to move. If the exact date has not been determined yet, the date will be TBD and changed when the exact date is known.** The ticket will generate the standard email notifications to the district support contacts when information is added to the ticket. The date will represent the date for your district's migration.

The KDE [KSIS Cloud](#) Migration webpage is a new resource for sharing information regarding the migration process. The IC Cloud Migration [District Readiness Guide](#) is available on the webpage to provide district preparation requirements for the migration. The current [district migration schedule](#) is also posted on the webpage. The webpage will be updated regularly with documentation, frequently asked questions and other information districts need for a successful migration.

KDE will soon schedule and host a live Skype session offering districts an opportunity to ask questions. Watch for a notification with details.

For questions about Cloud migration, please contact [Lisa Rhoton](#).
