**Subject:** KSIS Notification - New Campus Instruction Functionality  
**Date:** Friday, May 09, 2014 2:53:18 PM

---

New functionality will become available in Campus with E.1418 that will be released Wednesday, 5/14. Introductory information from Campus is provided below. There are similarities with CIITS; teachers can choose the tools that work best in their classrooms.

Campus Instruction (Beta) is now available to all users in Open Beta with the E.1418 release. The Open Beta release of Campus instruction is supported in Firefox, Chrome, and IE version 10 and higher.

When E.1418 is released **all teachers** will receive a notification in their Process Inbox describing Campus Instruction. There will also be a link to this [video](#) available on Campus Community.

Campus Instruction is our new suite of educational tools for teachers. Designed with teachers in mind, Campus Instruction offers a clean and straightforward approach to planning instruction, assessing student growth, and reporting progress.

### **Campus Instruction includes:**

- **Grade Book:** Everything teachers need for grading and reporting is now found **in one place**; teachers create assignments, attach files for student download, receive student submissions online, grade those assignments, and give immediate feedback visible to students and guardians on the Portal.
- **Planner:** Teachers create and change upcoming assignments in a calendar format directly linked to the student Portal. Teachers can also quickly view other teachers' schedules to facilitate collaboration.
- **Seating Charts:** Use easy drag-and-drop setup to mirror a classroom's physical setup.
- **Student Groups:** Teachers can group students for projects or for differentiated instruction and create assignments just for those students.

**Please Note:**

Campus Instruction includes an enhanced version of the current Grade Book (Beta). Both grade books will run in parallel for two months until the 1426 release. Then the Grade Book (Beta) will be removed in favor of the Grade Book in Campus Instruction (Beta). **No data will be lost.**

Campus Instruction (Beta) and the original Instruction module will run in parallel for a year to give districts an opportunity to adopt the new tools on a teacher-by-teacher basis in their own time. Then the Campus Instruction (Beta) application will replace the existing Instruction module. To stay informed with the latest enhancements please log into Campus Community.

If you have any questions, please give Lisa Rhoton at 502-758-3680 or contact Infinite Campus Support.
