Subject: KSIS Notification - New Kindergarten Screen Data Ad Hoc Filter
Date: Monday, January 06, 2014 9:58:16 AM

KSIS Contact,

A new ad hoc filter named ***Kindergarten Screen Data*** is available to help districts review their Kindergarten Readiness, Self Help/Social Emotional and Prior Settings summary data. The filter generates a listing of student level data for all first time kindergarten students (KG) with an enrollment on or before Oct. 3, 2013. The filter is available in the State Published folder under Ad Hoc Reporting.

Results of the Kindergarten Screen Data filter may not be an exact match to the aggregate level reports because, for public reporting purposes, repeating KG students are excluded from the summary data; however, the filter includes these students. You will also notice that the filter will produce multiple rows for a student in situations when the student has multiple prior settings or multiple enrollments within the district.

Results of the Kindergarten Screen Data filter include the prior setting type code(s) for each student screened. The prior setting codes and associated types are listed below for your reference.

Prior Setting Code and Type:

- 01: State Funded Preschool
- 02: Out of State-State Funded Preschool
- 03: Head Start
- 04: Out of State- Head Start
- 05: Child care
- 06: Out of State- Child Care
- 07: Home
- 08: Private Sitter
- 09: Kin Care
- 10: Therapy
- 11: Other

For more information, refer to the Dec. 23, 2013 [KSIS Notification: Copy of Special DAC E-Mail Regarding K Screen](#). If you have any questions about the Kindergarten readiness or prior settings data, you may contact [Bill Buchanan](#) or [Melody Cooper](#). Please share this information with your DAC and other appropriate personnel in your district.

Thank you,
Linda
