Subject:	KSIS Notification - Release E.1430.5 Scheduled for Wednesday, Aug. 13
Date:	Tuesday, August 05, 2014 5:42:38 PM
Attachments:	KY_Release_Notes_E.1430.pdf

KSIS Contact,

Please be advised that KDE has confirmed the scheduled release of **E.1430.5** to all Kentucky Infinite Campus (IC) production and sandbox environments to start **Wednesday, Aug. 13 at 7:00 p.m. (Central Time)/8:00 p.m. (Eastern Time)**. Infinite Campus will be temporarily unavailable during the update process. Please contact me if you have any questions or concerns about the IC update schedule.

Infinite Campus University has provided a recorded WebEx training session for the release: LL 2406: E.1430 New Release Features Lunch and Learn-20140724 1520-1 (47-minutes) - Click here.

The chart below summarizes highlights of the release. You should refer to the attached Kentucky Release Notes for details or, may go to IC Campus Knowledge Base (Campus ID required) to download the entire document.

Please share this information with individuals in your district or office as appropriate.

Thank you!

Infinite Campus Release Highlights – E.1430.5	
Kentucky Specific	
Percent Enrollment Calculation Corrected on LEP Extract	• The Percent Enrolled field on the LEP Extract has been updated so that only the days in the student's own schedule structure are used in the calculation. • *Path: KY State Reporting > LEP Extract*
Non-Academic Report Separated into Three New Reports	• The Non-Academic report has been removed from Campus and separated into three individual reports: Transition report, Retention report and Dropout report. • LEP column logic on the Retention, Regular Dropouts and Summer Dropouts reports has been updated. • The NCLB Status column has been removed from the Transition Report. *Path: KY State Reporting > Dropout Report, Retention Report, Transition Report*
Varicella Logic Updated to Properly Determine 2 Dose Rule	Varicella logic has been updated to properly determine when a student meets the new two-dose rule. *Path: Student Information > Health > General > Immunizations*
Core Product	
Assessments	• The Score Import wizard was producing an Error 3046 when attempting to import assessment results with no Scale Score or Raw Score values but with a Performance Level value. The error is triggered when an assessment record does not contain at least one "score" field. This has been corrected. *Path: Assessment > Score Import Wizard* • When a district attempted to calculate and import a Proficiency Level for a test through the Assessment Import wizard and they mapped the test score that will be used in the Proficiency Level calculation to the Score.acctProfLevelItemID field and used the "calculate value using grading scale" action a Null Pointer error was incorrectly being thrown. This has been corrected. • *Path: Assessment > Score Import Wizard* • In the Score Import Wizard, when an Assessment Import was set up to calculate a Result from a score field and the student assessment record did not contain a value in that field, an

	Error 3011 was thrown. This has been corrected. • *Path: Assessment > Score Import Wizard*
Behavior	Previously, the Behavior Incident Report did not include incidents that do not have a Context and/or Location. This has been corrected. Such Incidents will display in a "Context Not Reported" and/or "Location Not Reported" category. *Path: Behavior > Reports > Incident*
Data Change Tracker	• Enhancements were made to the Data Change Tracker report. • The capture and storage limit for single transactions has been added as a system preference. Currently this limit is set to 10,000 records. This preference value can only be modified by Campus Hosting. *Path: System Administration > Data Change Tracker > Data Change Tracker Setup, Data Change Tracker Report*
Document Management	The document management feature is now available for all Campus customers. *Path: System Administration > Digital Repository; Student Information > General > Person Documents; Census > People > Person Documents*
Finance	• A problem was happening where users who did not have rights to specific GL accounts could still complete tasks involving those accounts. This problem was fixed. *Path: System Administration > User Security > Users > Finance Account Rights* • The following options were removed: ◦ Dimension allows sub codes (Dimensions and Codes tab) ◦ Sub code Separator (GL District Administration tab) *Path: Finance > General Ledger > Administration > Chart of Accounts Setup > Dimensions and Codes; Finance > General Ledger > Administration > GL District Administration* • Several improvements were made to the Cash Requirements application. *Path: Finance > Cash Requirements* • The name of the "Release" button on the Batch Entry editor was changed to "Post." The functionality did not change. *Path: Finance > Accounts Payable > Processing > Invoice Processing > Batch Entry*
FRAM	The following updates were made to the Eligibility Import Wizard and Report: ◦ There was an issue when importing a non-direct file mapped to both Certified Type and Direct Type with null values in the Direct Type. This problem was fixed. ◦ Students with null values in the middle name were displaying null for their middle name on the Eligibility Import Report. This problem was fixed. ◦ Mapping to future start dates was not working properly. This problem was fixed. *Path: FRAM > Eligibility Import Wizard*
Grading & Standards	An error message displayed when attempting to generate the Transcript Batch Report. This has been corrected. *Path: Grading and Standards > Reports > Transcript Batch*
Instruction	• The Grades report, Attendance register and Missing Assignments report have been updated to require a Schedule to be selected in the toolbar. *Path: Instruction > Reports > Grades, Attendance Register, Missing Assignments* • The Assignments tool has been updated to prevent users from deleting the End/Due date on an assignment and then saving the assignment. End/Due Dates are required. *Path: Instruction > Assignments* • The Planner Settings now include all of a teacher's schools, regardless of the current context of the Planner. *Path: Campus Instruction > Planner > Settings* • The Student Summary report editor and print have been updated to refer to Categories rather than Groups. *Path: Campus Instruction > Reports (Grade Book) > Student Summary* • Previously, alternate row shading in the Student Summary report restarted with each category, which caused the report to be difficult to read. This has been corrected. *Path: Campus Instruction > Reports (Grade Book) > Student Summary* • Previously, when a message was sent for a student who had multiple missing assignments, only the first assignment displayed in the preview, even though all selected missing assignments were included in the message. This has been corrected. *Path: Campus Instruction (Beta) > Message Center > New > Missing Assignments*
Gradebook	Previously, the Grade Book was storing duplicate GradingScore records. This has been corrected, and a script will be run at the time of update to clean up the duplicate records for districts who did

	not receive this update in a previous release.
IEP	The IEP flag that displays on teachers' rosters has been updated to display prior to the first day of the term, as long as the current date is on or after the start date of the plan. *Path: Instruction > Roster; Campus Instruction (Beta) > Roster*
Lockers	The auto-search functionality used on the Lockers tab was causing users to not be able to search for complete locker numbers. This has been fixed by adding a Search button. *Path: System Administration > Resources > Resources > Lockers*
Payments	• Users could not change the comments in the Receipt Comments field on the Online Payment Settings tab. This problem was fixed. *Path: System Administration > Finance > Payments > Online Payment Settings* • An error was occurring where users were not seeing accurate account information when making payments on the Portal. This problem was fixed. *Path: Portal > Payments*
Point of Sale	• A problem was occurring where deactivated items were still available when creating service layouts and on the Point-of-Sale service layout after the application was restarted. This problem was fixed. *Path: Point-of-Sale > Administration > Application Manager* • Purchasable items that were tied to a Finance Meal program were not displaying in the point-of-sale service layout. This problem was fixed. *Path: Point of Sale > Food Service GL Accounts* • Account information was not displaying when users searched for a point of sale account and clicked the account number. This problem was fixed. *Path: Point of Sale > Account Administration > Account (POS) > Account Info tab* • The meal price now displays on the Historical TX screen on the Point-of-Sale. This change makes it easier for cashiers to identify which transaction to void. • The sort options on the Pin report were causing the Pin report to generate incorrectly. The sort by Homeroom option on the Pin report was also causing the Pin report to generate incorrectly. These problems were fixed. *Path: Point-of-Sale > Reports > PIN Report* • The following colors now appear on the terminal and indicate the status of a patron's balance. ◦ Red - Negative Balance ◦ Yellow - Low Balance *Path: Point of Sale > Account Maintenance > Account* • The Transaction List editor was expanded to display more transactions at one time. *Path: Point of Sale > Account Maintenance > Account > Journal*
Academic Planning	• Logic for reporting In Progress credits in Academic Planning has been updated to also consult the student's roster Start and End dates. *Path: Student Information > Academic Planning > Grad Progress > Credit Type; Student Information > Academic Planning > Course Plan* • Previously, if a previously active prerequisite course was marked as inactive in the current year, students could not add the follow-up course in the Course Planner. This has been corrected. *Path: Student Information > Academic Planning > Course Plan*
Transcripts and Report Cards	If marked on the Report Preferences, the print of a district's name appeared differently on report cards and transcripts. This has been standardized to display more similarly between the two reports. *Path: System Administration > Preferences > Reports > Transcript*

KSIS alerts and notifications are posted on the new [KDE Notify system](), and a mobile app is available to receive alerts and notifications for several KDE enterprise-level systems, including CIITS. Download the KDE Notify mobile app for your device at https://notify.education.ky.gov/MobileApps.
