Subject: KSIS Notification - Release E.1338 and Scope Year Change Scheduled for Wednesday, Oct. 9

KSIS Contact,

Please be advised that KDE has targeted the release of **E.1338** to all Kentucky Infinite Campus production and sandbox environments starting **Wednesday, October 9 at 7:00 p.m. (Local Time)**. KDE has also requested Infinite Campus to change the scope year to 2013-14 and this update is tentatively scheduled to occur immediately following installation of E.1338. The change in scope year does not impact school districts, but it will allow synchronization with State Edition. Infinite Campus will be temporarily unavailable during the update process.

Information about E.1338 is provided in a 33-minute recorded session available online [here](#). (Recorded Session Information: LL 2596: E.1338 Release New Features Lunch & Learn-20130919 1822-1) Highlights of the release are summarized below. Please see the attached release notes for details and share this information with individuals in your district or office as appropriate.
