

NATIONAL SCHOOL BUS LOADING AND UNLOADING SURVEY

2009-2010

www.kssde.org
January, 2011

The National School Bus Loading and Unloading Survey is a collection of fatality accident records provided by the state agencies responsible for school transportation safety and/or accident records*. Only those fatalities involving school children in or around the loading or unloading areas of a school bus or transit bus are included in this survey. On-board fatalities are excluded.

** Numbers are only as accurate as the reporting agency has provided.*

2009-2010 National School Bus Loading & Unloading Survey

Limited quantities of this document are available from the address provided below. Please feel free to reproduce and utilize the survey data as desired, as it provided specifically for this purpose.

Kansas State Department of Education

E-mail: wcrabtree@ksde.org

This survey is provided annually to the school transportation industry in an effort to alert individuals and organizations of the dangers involved in loading and unloading school children. Fatalities continue to occur at the bus stop, caused by a variety of circumstances and errors on the part of the school bus driver or passing motorist. It points out the continuing need for forceful, advanced instruction to school bus drivers and students, as well as the need to increase our efforts to thoroughly inform the driving public about the requirements of the school bus stop law.

2009-2010 Fatality Report

- 1. Alabama:** A nine-year-old girl exited the school bus on the way home from school. As she was walking down the right side of the bus out of view of the driver, the girl lost her balance and fell underneath the right rear wheels of the bus which rolled over her.
- 2. Georgia:** A twelve-year-old male walked into the path of a school bus while waiting at his school bus stop. The student was struck by the right front tires of a school bus. (The school bus the student was going to ride to school was the third school bus in line of the approaching vehicles.)
- 3. Georgia:** As the five-year-old male exited the school bus in the afternoon, he was struck and killed by the right front tire of the school bus. The investigation found that the driver failed to count students as they exited the bus.
- 4. Georgia:** A five-year-old female exited the school and was struck and killed by a passing motorist that failed to stop. To avoid hitting a vehicle that had stopped behind the school bus, she swerved to the right hit the student as she exited the school bus.
- 5. Georgia:** A fourteen-year-old female missed her school bus stop and was attempting to catch the school bus at another location. The school bus was at an intersection attempting to turn right. This was not a scheduled bus stop, and as the female student attempted to cross in front of the bus to the driver's left side, the driver did not see the student approaching due to darkness. The female was struck and killed by the left front wheels.
- 6. Georgia:** A seven-year-old male and another student were crossing the roadway to board the school bus. The school bus driver had the eight-way lights activated, but the elderly driver stated he did not see school bus or the children in the fog until it was too late to avoid hitting the students. Both students were struck. The seven-year-old died from his injuries.
- 7. Kansas:** A nine-year-old female was waiting at the bus stop when she was struck and killed by right front tire of the school bus. The driver advised he was north bound when he drove off the right shoulder and struck a stop sign with the mirror of his vehicle. He then backed up the bus and turned left onto the intersecting street. As he was continuing his route, the children on the bus advised him that he had struck the nine-year-old student. She was pronounced dead at the scene.
- 8. Mississippi:** A five-year-old male was struck and killed by a passing motorist. No incident details were available from the state.
- 9. Minnesota:** A seven-year-old male was struck by the front bumper of the school bus, then was run over and killed by the rear dual wheels.
- 10. North Carolina:** A driver of an on-coming vehicle had initially stopped for the school bus, stating she thought the bus was about to turn left. As the motorist realized that the school bus was not going to turn in front of her, she proceeded straight ahead and struck and killed a six-year-old female as she crossed the street after exiting the school bus. Witnesses stated that all appropriate signals and lights were activated on the school bus.
- 11. Ohio:** A fifteen-year-old female was crossing the street to her school bus when she was struck and killed by an on-coming vehicle. The school bus was stopped with its red traffic control lights and stop sign activated. The motorist was cited for violating the law requiring all vehicles to stop for the school bus.
- 12. Ohio:** A fifteen-year-old female was walking to her bus stop and walked into the street in front of a moving school bus. The school bus driver was in the process of turning left and was looking away from the student as she walked into the path of the school bus. The female was struck and killed by the right front wheels of the school bus.
- 13. Pennsylvania:** A six-year-old male was dropped off by his school bus near his home. Without notice the student ran out in front of the school bus and was struck by the front wheels. He later died from his injuries.

Summary of Interesting Loading and Unloading Statistics

- During the past 40 years 788 fatalities occurred to students 2 - 9 years of age or 66%.
- In 2009-2010 students departing from the bus or on their way home involved 53.8% of all fatalities.
- Fatalities attributed to the school bus were 61.5%. Those involving “the other vehicle,” were 38.4% for 2009-2010.

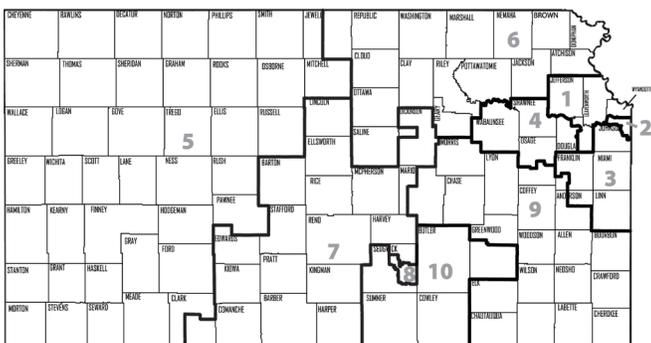

Education Priorities of the Kansas State Board of Education

Ensure that all students meet or exceed high academic standards and are prepared for their next steps (e.g., the world of work and/or post secondary education). To accomplish the mission of the Kansas State Board of Education, the Board has identified four goals. They are as follows:

- Redesign the delivery system to meet our students' changing needs.
- Provide an effective educator in every classroom.
- Ensure a visionary and effective leader in every school.
- Improve collaboration with families and communities, constituent groups and policy partners.
