

Kentucky Digital Learning -Kentucky Department of Education

In the fall of 2013 the Kentucky Digital Learning Guidelines were sent out to all Districts and Schools in an effort to help educators pin down best practices when implementing digital content in the classroom. Some teachers responded with excitement, but wanted more information, some had questions while others requested ideas, training and resources.

KDE Division of Student Success listened and upon your request, we are offering a professional learning opportunity:

Digitally Enhanced Instruction

➤ Increasing Engagement to Close Achievement Gaps

This training is designed to take educators from isolation to collaboration by providing accessible tools to direct, enhance, and support digital learning and implementation of The Kentucky Digital Guidelines. The professional learning opportunity will offer hands-on training on creating, enhancing and utilizing digital tools within the classroom. To ensure the increase of student engagement & achievement the digital learning team will offer assistance to teachers over a 12-15 month period. It is our goal to create digitally enhanced and blended learning classrooms to serve as models for educators around the state.

The focus of this training will be:

- Add new excitement to applications already available on your computer.
- Learn lessons you can utilize in closing achievement gaps & differentiating instruction.
- Digital tips and tricks.
- Work with the KDE digital learning team to develop lessons to take back to your classroom for use on day 1 of the 2014-15 school year.
- Overview of Kentucky Digital Learning Guidelines
- Legislative update on new laws affecting digital/virtual learning in Kentucky
- All attendees will receive:
 - 8 GB storage drive with preloaded resources.
 - Lodging if traveling more than 50 miles
 - Per Diem for those staying overnight
 - Reimbursement for Mileage
