

Non-Traditional School Day Informational Sheet

What is a Non-Traditional School Plan?

In response to the large number of snow days in recent years, Boyle County was 1 of 13 districts granted a Non-Traditional Day waiver. This very detailed plan outlines how instruction will be delivered for ALL students during a day when school is not open due to unforeseen circumstances (i.e., snow days). The plan gives teachers the opportunity to refine their online presence for content delivery and provides hard copy content for those students that may not have access to technology or network resources. The planned result is less loss in instruction time and increased ability to learn new content when school is back in session.

Delivery:

Both digital and hard-copy content will be available for students on Non-Traditional School Days.

Preparation:

Teachers are providing opportunities for students to access content digitally and flip lessons.

When:

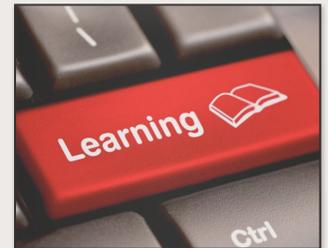

The plan will not be enacted on the first "snow day". Rather Boyle County will see if missed days are impacting learning. Typically this will be after a minimum of 5-7 days missed.

Content:

Instructions for accessing digital content will be provided throughout the school year. Hard copy packets will be sent home periodically throughout the year (beginning in late January).

Communications:

A One-Call will be made to all students and staff announcing Non-Traditional School Days.

Accountability:

Students will be required to complete all tasks assigned during a non-instructional day. Extended time will be available for those circumstances whereby the work could not be completed due to extenuating circumstances (i.e., loss of power, lost packet)

Availability:

Teachers are required to maintain a minimum of an online presence from the hours of 8:00 AM-11:00 AM and 12:00 PM-3:00 PM. Parents or students can also call the school and leave a message with the principal.

Questions?

Contact your child's teacher or school principal.
