Summary of Evidence Progress Link Now Available

The Summary of Evidence Progress link is now available to leadership to complete the summative evaluation of certified employees in the summative year of the evaluation cycle. Principals who have used EDS with their teachers throughout the school year will review teachers' professional growth plans and any submitted artifacts. Leaders are now able to search for an individual teacher using the [Search Individual Profiles tool](#) and view completed evidence with the [Effectiveness Data Tab](#). Completed self-reflection data, student growth goals, median student growth percentile data, observations and student voice of that teacher will be available from one screen through the Effectiveness Tab. Matthew Willoughby, Principal at Walnut Hill Elementary in Casey County [shares how he plans to use these tools](#) to input his summative evaluation data this year.

Search Individual Profiles

Principals can use the new Search Individual Profile feature to locate a single teacher's profile in the Dashboard of the Educator Development Suite of tools. It is no longer necessary to click on each source of evidence in the Tools & Reports menu to access information for an individual teacher.

Effectiveness Data Tab

A teacher's Professional Profile will include a tab that displays the Effectiveness Data tab. This tab will provide access to the teacher's **completed** Self Reflections, Observations, Student Growth Goals, Student Voice and MSGP. To view data for each completed sources of evidence the principal will click on the associated view link. A teacher's Professional Growth Plan must still be viewed through the link in the Tools & Reports menu.

Completed measures are listed below.

Show Data From 2015-2016

Observation

| Window | Observed | Modified | Status | Type | Reviewer | |
|-----------------------|-----------|-----------|-----------|---------|---------------------|----------------------|
| Teachers by Principal | 10/7/2015 | 10/7/2015 | Completed | Partial | P. EDS (Leadership) | View |

Self-Reflection

| Window | Modified | Status | |
|-------------------------|-----------|-----------|----------------------|
| Teacher Self-Reflection | 10/7/2015 | Completed | View |

Student Growth Goals

| Window | Modified | Status | Reviewer | |
|-----------------------------|-----------|-----------|----------|----------------------|
| 15 - 16 Student Growth Goal | 10/8/2015 | Completed | P. EDS | View |

The Effectiveness Data tab is available to both a principal and teacher. Either can use the Year Drop-down Selector at the top of the Profile to access data from previous years. Student Growth Goals are now available with the 17.0 update. **Prior years' SGGs are only available via the Effectiveness Data tab.** A [Quick Reference Card](#) is available with step by step directions to use this feature.
