

Alternate K-PREP Systems Registration

The Alternate K-PREP Systems homepage which houses the Online Training System (OTS), Student Registration Database (SRD) and the Career Readiness Database (CRD) has been closed for security updates. These updates will require everyone needing access to any of the listed sites above to register in the system as a new user and provide a detailed password with security questions. The intention of these security updates will focus on reducing online security attacks and attempts to breach student information. The entire process should take 5 minutes or less to complete.
