

Application to Request Unapproved Calculator

Student Name: _____

Parent/Guardian: _____

District: _____ Request Date: _____

School: _____ Grade Enrolled: _____

Disability

Please explain why the student cannot access an approved calculator.

In order to create a test administration that provides every student with a fair and equitable assessment opportunity, the Kentucky Department of Education has developed a calculator policy. Following this policy will ensure that all students have a measure of their academic achievement that is comparable to all students across the state.

During test administration, all applications, programs or documents built-in, created or downloaded on calculators are prohibited for use on state assessments. This includes all applications and programs with a computer algebra system (CAS). Some permitted calculators have suppression functions that disable applications and use of documents for testing purposes, such as Press to Test. If available, the suppression function may be used on permitted calculators to deactivate prohibited applications and programs; however, all stored documents must be removed as well.
