The following message was sent to superintendents moments ago.

2017-2018 PUBLIC RELEASE OF SCHOOL ACCOUNTABILITY DATA – EMBARGO LIFTED

The final assessment and accountability data for 2018 is available to the public in [Open House](#). Data can be shared with education leaders and openly discussed in public meetings. Resources to assist district leaders with communication of school/district performance were shared with District Assessment Coordinators (DAC) on Monday and included again for convenience. These resources include a Briefing Packet, Press Release, FAQ, PowerPoint Template, and Data Talking Points.

INFORMATION ON DATA REVIEW

A ten-day regulatory data review period follows public release. The final data review period will take place between September 26 and October 8. Schools may request individual student changes (to student accountability, non-participation, accommodations and demographics) during this data review period in the [Student Data Review and Rosters](#) (SDRR) application. Initial requests for changes to individual student data may be made beginning September 26 through October 8. Users will find links to multiple resources for assistance in the Announcements box on the home page of SDRR, and in the Help button at the top right of every page within the web application.

This data review is the final opportunity for school and district staff to request changes to individual student information.
