

Special SRCC and DAC E-Mail

December 18, 2018

School Report Card – All domains are open for district verification and validation. Verification/Validation should be complete by December 21.

In total, there are 5 domains for district review. Applicable notes are included by domain.

- (1) School Accountability
- (2) Overview ****NEW****
- (3) Academic Performance
- (4) Education Opportunity
- (5) Transition Readiness
- (6) School Safety – validated in August

BrightBytes has fixed some of the outstanding issues from previously released domains and the Overview domain is now open. There continues to be known issues that BrightBytes is correcting.

Overview – Notes

- Technology data entered should be checked to ensure data has not been lost for your schools. Some districts did get emails over the weekend alerting of issue. BrightBytes is trying to assist by entering data from November 6 backup. Contact BrightBytes with questions on status if your schools are impacted.
- Outstanding work to fix remaining chart issues in Overview domain continue: (1) "Total Student Counts" does not display data at district level (2) "Teachers FTE" does not display data.

The BrightBytes team will complete data suppression and Intro Metrics for public release this week. Additional information will be shared as the public view is available for district review.

A webcast is scheduled for January 7 to announce public release of the new School Report Card.

Prior communication and resources are available on the [SRC Resource Page](#).
