** Indicates an interdisciplinary FCS course.

NOTE: Post-Secondary connections are available through articulation agreements with several Kentucky colleges and universities.
Overview of Family & Consumer Sciences Education

Purpose:

The purpose of Family & Consumer Sciences Education is to empower individuals and families throughout the lifespan to manage the challenges of living and working in a diverse, global society. The unique focus is families, work, and their interrelationships. The curriculum is aligned to the knowledge and skills identified within the National Standards for Family and Consumer Sciences Education. Kentucky FCS Education provides students the opportunity to:

- Explore and prepare for careers in many of today’s high-demand occupations.
- Engage in hands-on, contextual learning that incorporates core academic concepts.
- Acquire valuable and essential leadership and life skills.
- Demonstrate the ability to effectively collaborate, communicate and think critically and creatively to problem-solve real world issues.
- Engage in entrepreneurial activities and work-based learning experiences that provide hands-on application.

Career Pathways:

- Consumer & Family Management
- Culinary & Food Services
- Early Childhood Education
- Early Childhood Education TRACK
- Fashion & Interior Design
- Food Science & Dietetics
- Fundamentals of Teaching
- Hospitality, Travel, Tourism & Recreation

National Career Clusters

FCS Education fosters the development of 21st century and technical skills in a variety of the National 16 Career Clusters.

- Human Services
- Agriculture, Food & Natural Resources
- Education & Training
- Architecture & Construction
- STEM (Science, Technology, Engineering & Mathematics)
- Finance
- Hospitality & Tourism
- Arts, AV Technology & Communication
- Marketing, Sales and Services
Kentucky Occupational Skill Standards (KOSSA)
The Kentucky Occupational Skill Standards are the performance specifications that identify the
knowledge, skills, and abilities an individual needs to succeed in the workplace. Identifying the
necessary skills is critical to preparing students for entry into employment or postsecondary education.
Because of the importance of such skill standards, the Office of Career and Technical Education, in
conjunction with employers from various Family & Consumer Sciences related fields, collaborated to
develop a system to certify that students have attained the necessary skills for employment or
postsecondary education. Standards were developed in the areas of Consumer and Family Management,
Culinary Arts, Early Childhood Education, Fashion and Interior Design, and Hospitality Services. These
standards described the necessary occupational, academic, and employability skills needed to enter the
workforce or post-secondary education in such specified career areas. There is an ongoing effort to
continue the refinement of these standards by which exemplary FCS Education Programs are evaluated
and certified. The strength of these business partnerships ensures that the curriculum meets industry
specifications.

Interdisciplinary Courses
The Kentucky graduation requirements allow for interdisciplinary or applied courses to substitute for
specific academic courses required for graduation. The FCS curriculum currently has four
interdisciplinary courses:

- Consumer Economics (Social Studies credit)
- FACS Essentials Health (1/2 credit of Health Education)
- Money Skills for Math (4th Math credit)
- Nutritional Food Science (Life Science credit)

Work-Based Learning
Cooperative experience, internships, shadowing and mentoring opportunities provide depth and breadth
of learning in the instructional program and allow students to directly apply the concepts learned in the
classroom. The Work Based Learning Guide is available on the KDE website.

School Based Enterprises
Many Kentucky FCS programs operate businesses and other school-based enterprises as an integral part
of the curriculum. These experiences allow students to learn contextually without leaving school.
Textbook concepts become real as students learn how operate their own business.

Student Organization
Participation in FCCLA, Family Career and Community Leaders of America, provides a vehicle for
students to employ higher order thinking skills and to further enhance their leadership skills through their
participation in regional, state and national competitive events and local activities.
## CONSUMER & FAMILY MANAGEMENT
### CIP 19.0403.00

### PATHWAY DESCRIPTION
The Consumer and Family Management pathway helps students develop skills associated with early career employment opportunities and rigorous education programs that prepare for this level of the career ladder. The knowledge and skills validated span across a broad range of Family and Consumer Sciences content areas and are central to career areas involving human services, consumer services/protection/advising, education and training as well as social and community services.

### BEST PRACTICE COURSES

**Choose (3) THREE CREDITS from the following:**

- 200113 FACS Essential **AND/OR**
  200161 FACS Essentials Health*
- 201010 Money Skills **OR**
  201011 Money Skills for Math **OR**
  201015 Consumer Economics for SS credit
- 200171 Relationships**
- 200441 Foods & Nutrition

**Choose (1) ONE CREDIT from the following:**

- 200226 Middle to Late Lifespan Development**
- 200173 Parenting**

*Note: (*) Indicates half-credit (.5) course
  **Note: (**) Indicates course can be half-credit (.5) OR a full (1) credit course

### EXAMPLE ILP-RELATED CAREER TITLES

- Marriage and Family Therapist
- Family and Consumer Scientist
- Gerontologist
- Abuse/Crisis Counselor
- Personal Financial Planner
## CULINARY & FOOD SERVICES

**CIP 12.0500.00**

### PATHWAY DESCRIPTION:
The Culinary & Food Service pathway addresses a skill set necessary for success in the culinary industry. The courses in this pathway will help students develop skills in early career ladder positions and promote continuing education at the post-secondary level preparing for careers associated with restaurants, institutional food service, hospitality and catering, as well as food and beverage operations.

## EARLY CHILDHOOD EDUCATION
### CIP 13.1210.00

**PATHWAY DESCRIPTION:** The Early Childhood Education pathway will address a skill set necessary for success in early childhood education so that individuals can teach students ranging in age from infancy through eight years (grade three), depending on the school system or state regulations. This pathway is targeted for individuals preparing for careers related to early childhood education, such as those associated with child care, teaching, community-based children's programs, social services or counseling for children, and after-school programs.

### BEST PRACTICE COURSES

**Complete (3) THREE CREDITS:**
- 200223 Early Lifespan Development
- 200261 Child Development Services I
- 200262 Child Development Services II

**Choose (1) ONE CREDIT from the following:**
- 200113 FACS Essentials
- 200161 FACS Essentials Health*
- 331020 Principles of Teaching
- 200171 Relationships**
- 200173 Parenting**
- 200210 Co-op: Early Childhood Education

* Note: (*) Indicates half-credit (.5) course
** Note: (**) Indicates course can be half-credit (.5) OR a full (1) credit course

### EXAMPLE ILP-RELATED CAREER TITLES

- Early Childhood Educator
- Psychologist
- Nanny
- Pediatrician
- Midwife
- Child and Youth Worker
**FAMILY AND CONSUMER SCIENCES CAREER PATHWAYS**
**2017-2018**

## EARLY CHILDHOOD EDUCATION TRACK
**CIP 13.1210.99**

**PATHWAY DESCRIPTION:** The Tech Ready Apprentices for Careers in Kentucky (TRACK) youth pre-apprenticeship program is a partnership between the Kentucky Department of Education’s Office of Career and Technical Education and the Kentucky Labor Cabinet to provide secondary students with career pathway opportunities into employers who offer Registered Apprenticeship programs. Employers are able to tailor the program for their specific needs and select the Career and Technical Education courses and students for their apprenticeship pathway. Employers benefit by gaining future employees that have a good foundation and an interest in that occupation. Additionally, it enables students to receive a nationally recognized credential. Successful completion is determined by the employer, and the student will be awarded an industry certification through The Kentucky Labor Cabinet, and all on-the-job hours worked will be counted towards the registered apprenticeship.

### Graduation Requirements:
Course credits needed to achieve a high school diploma

### Required CTE Courses identified for a career major in a career pathway

### Elective Courses:
Courses relating to students’ needs and interests and provides support in achieving career goals

*List of related industry certifications approved by CTE may be found by clicking here.

Work-Based Learning (e.g., Cooperative Education and Internship) may be included as components of career pathways.
Advanced Foods & Nutrition
Valid Course Code: 200442

Course Description: This course is designed to assist students in principles related to food preparation. Specific content addressed will include planning, serving, food presentation, special diets, and nutrition for the lifespan, serving, and food planning for entertainment services. An emphasis on careers related to food service and nutrition (i.e. catering, dietician, and other culinary careers). Lab instruction emphasizes the application process. Leadership development will be provided through the Family, Career and Community Leaders of America (FCCLA) student organization.

Content/Process

Students will:
1. Apply menu-planning principles to develop and modify menus.
2. Prepare various meats, seafood and poultry.
3. Prepare various stocks, soups, sauces and gravies.
4. Prepare canapés and appetizers.
5. Managing a safe, effective and productive lab while utilizing teamwork.
6. Apply principles of purchasing, cost per serving, and receiving in food service operations.
7. Plan, prepare and serve a variety of meals and special events.
8. Apply the fundamentals of baking to a variety of products including yeast breads, pie crusts, pastries, and other breads.
9. Develop a plan for weight loss, weight gain or maintenance while examining nutrition through the lifecycle (infant, children, teens, pregnancy, adulthood, and old age).
10. Plan and examine a diet plan for a specific need (high fiber, low fat, low cholesterol or low sodium, diabetic, athlete, heart disease, lactose intolerance, etc.).
11. Illustrate table settings for special occasion.
12. Practice using different styles of meal service.
13. Demonstrate and determine the correct cooking methods for a variety of food products (i.e. roasting, baking, broiling, smoking, grilling, sautéing, frying, deep frying, braising, stewing, poaching, steaming, woking, convection, microwaving, and other emerging technologies).
14. Use garnishes and entertaining to plan a simple food gathering for entertainment purposes.
15. Demonstrate proper safety, sanitation and storage techniques in handling food from purchase, preparation, cooking, cooling, to reheating.
16. Research careers in nutrition/food service according to skill required and type of job.
17. Prepare a variety of regional and international foods using appropriate methods and techniques.
18. Use nutritional information in preparing and serving food to guests.
19. Operate tools and equipment following safety procedures and OSHA requirements.
20. Apply principles of food preparation to produce a variety of food products and beverages.
21. Practice food presentation techniques.
22. Demonstrate proper measuring techniques.
23. Assess employment opportunities and preparation requirements.
24. Demonstrate employability and social skills relevant to the career cluster.
25. Demonstrate safe, sanitary work habits required by the field.
26. Demonstrate and practice knowledge of food service safety and sanitation procedures and the factors that contribute to food borne illness.
27. Practice proper waste disposal and recycling methods.
28. Demonstrate written, verbal and non-verbal communication skills.
29. Apply time management skills.
30. Utilize activities of the Family, Career and Community Leaders of America student organization as an integral component of course content and leadership development.
31. Apply math, science and communication skills within technical content.

Connections
- National Standards for Family and Consumer Sciences
- Kentucky Occupational Skills Standards Assessment (KOSSA) Standards
- Partnership for 21st Century Skills
- Kentucky Academic Standards
- Standards for Mathematics and English/Language Arts
- AAFCS Pre-PAC Assessment – Culinary Arts
## Course Description:
This course provides training for entry-level positions in day care centers, nurseries, kindergartens, and private homes. Students study careers in child development, child development and guidance, children’s health and well-being in group care, value of play, teaching strategies and management, and curriculum development. The subject content is reinforced with work experience in a variety of childcare establishments. Leadership development will be provided through the Family, Career and Community Leaders of America.

### Content/Process

**Students will:**

1. Analyze the principles of child development.
2. Explore the philosophies of leading child development theorists.
3. Examine the physical, cognitive, emotional and social development of infants, toddlers and preschool age children.
4. Analyze ways to accommodate special needs of exceptional and disabled children.
5. Identify the need for quality child development centers and describe the types of programs.
6. Analyze a daily schedule for infants, toddlers, and preschool children in-group care.
7. Organize art, music, language arts, math and science activities for young children.
8. Identify the types of records and observation tools to assess children’s growth and development.
10. Explain procedures for caring for an ill child.
11. Explain procedures for caring for a child who has had an accident.
12. Identify agencies that provide services to children and parents.
13. Demonstrate skills in caring for young children in a variety of work sites.
15. Determine career opportunities in childcare, specifying requirements of CCCC and CDA.
16. Utilize activities of the Family, Career and Community Leaders of America student organization as an integral component of course content and leadership development.
17. Apply math, science literacy, and communication skills within technical content.
18. Demonstrate employability and social skills relevant to the career cluster.

### Connections

- National Standards for Family and Consumer Sciences
- Kentucky Occupational Skills Standards Assessment (KOSSA) Standards
- Partnership for 21st Century Skills
- Kentucky Academic Standards
- Standards for Mathematics and English/Language Arts
- AAFCS Pre-PAC Assessment – Early Childhood Education
Child Development Services II  
Valid Course Code: 200262

**Course Description:** Child Development Services II is a continuation of Child Development Services I and is designed for students who wish to train for supervisory level positions or those wishing to further their education at the post-secondary level in the area of childcare and/or early childhood development. Students gain in-depth work experiences in child care establishments, preschool centers and other early childhood settings. Leadership development will be provided through the Family, Career and Community Leaders of America.

**Content/Process**

**Students will:**  
1. Demonstrate skills in caring for young children in a child care worksite.  
2. Assess the physical, emotional, cognitive and social development children in early childhood settings.  
3. Write age-appropriate and effective classroom lesson plans, incorporating the KY Early Childhood Standards.  
4. Utilize Kentucky’s School Readiness indicators when planning, creating, or evaluating activities with pre-K children.  
5. Create and implement art, music, language arts, math and science activities for young children.  
6. Demonstrating positive guidance when working with children.  
7. Explore methods of effective communication with parents and guardians of children.  
8. Evaluate arrangement of furniture in a child development center for the health, safety and education of young children.  
9. Critique a daily breakfast, lunch and snack menu from a day care setting.  
10. Identify the legal requirements and need for insurance issues in opening and operating a child development center.  
11. Utilize and apply the ITEERS / ECEERS rating systems and subscales to identify characteristics of quality child care programs.  
12. Utilize and apply the CLASS assessment scoring system for preschool and Head Start programs.  
13. Identify community resources available for use by a child development center.  
14. Utilize activities of the Family, Career and Community Leaders of America student organization as an integral component of course content and leadership development.  
15. Apply math, science literacy, and communication skills within technical content.  
16. Demonstrate employability and social skills relevant to the career cluster.

Consumer Economics

(Interdisciplinary course for Social Studies – Economics credit)

Valid Course Code: 201015

Course Description: Consumer Economics is a one credit, interdisciplinary elective course in which students study on personal finance management, income management, choosing financial institutions and services, economics systems, global economy, U.S. government's role in the economy, strategies for savings, investing, and using cash and credit. Students will also investigate large purchases such as home, car, land, and insurance. This course is also designed to promote greater citizenship and career planning. Instruction will focus on social studies KCAS standards and the skills assessment on career and technical state/national mandated standards.

Content/Process:

Students will:

1. Understand how the United States economy has changed from a rural economy to an industrial economy to a leader in the global economy.
2. Recognize that the U.S. Constitution contains few economic guidelines; therefore, economic policies are determined by elected officials.
3. Analyze how the number and complexity of economic issues have increased as the United States has entered the global economy.
4. Understand that the problem of scarcity (unlimited wants and limited resources) must be addressed by all nations.
5. Recognize that nations deal with scarcity by making choices that have consequences.
6. Analyze how nations' wealth and consequent trade potential are tied to its resources.
7. Explore how international trade and multinational corporations have led to the emergence of a global economy.
8. Understand that the basic economic problem confronting individuals, societies, and nations is scarcity or the imbalance between unlimited wants and limited resources available to satisfy those wants.
9. Recognize that, as a result of scarcity, individuals, societies, and nations must make choices/decisions, which result in consequences.
10. Analyze economic concepts and understand their nature and relevance to different economic situations.
11. Analyze how individual and nations deal with the issues of production, distribution, and consumption.
12. Recognize that markets (national, international, global) and economic institutions exist to enable buyers and sellers to exchange goods and services.
13. Recognize that economic systems are created by individuals and societies to achieve broad goals (security, growth, freedom, efficiency, and equity).
14. Apply management practices of individual and family resources including food, clothing, shelter, health care, recreation and transportation.
15. Analyze the impact of technology on the individual's economic resources.
16. Analyze advertisements and personal financial management options.
17. Describe the relationships among the various economic institutions that comprise economics systems such as households, business firms, banks, government agencies, labor unions, and corporations.
18. Analyze the relationship of the environment to family and consumer resources.
19. Analyze factors in developing a long-term financial management plan.
20. Analyze resource consumption for conservation and waste management practices.
21. Demonstrate skills needed for product development, testing, and presentation.
22. Understand that voters influence economic policy and decision making through representatives they elect.
23. Recognize that the United States has a market economy, which is determined by the forces of supply and demand.
24. Explore other economic systems (command, traditional, mixed) to determine the economic forces that control them.
25. Analyze how decisions on the distribution of resources can be made by local, state, and/or federal levels of government.
26. Analyze policies that support consumer rights and responsibilities.
27. Analyze interrelationships between the economic system and consumer actions.
28. Analyze factors that impact consumer advocacy.
29. Understand how economic incentives of private ownership of property, business opportunities, and profit motives have attracted people from many nations to the United States.
30. Recognize that the economy of the United States is a social institution that attempts to meet the needs of the citizenry.
31. Analyze the role culture plays in economic issues of production, distribution, and consumption.
32. Analyze knowledge, skills, and practices required for careers in a global economy.
33. Evaluate the impact of technology on individual and family resources.
34. Demonstrate management of financial resources to meet the goals of individuals and families across the life span.
35. Compare how values and beliefs influence economic decisions in different societies.

Culinary Arts I  
Valid Course Code: 200411

Course Description: This advanced course allows students to increase competencies in a variety of food preparation techniques. Emphasis will be placed on food presentation, garnishing, menu planning and the skills necessary to prepare for a career in the culinary arts profession. Leadership development will be provided through the Family, Career and Community Leaders of America.

Content/Process

Students will:
1. Assess the impact of the hospitality industry on local and state economies.
2. Analyze and revise an employability portfolio.
3. Analyze the effect that career demands have on family life.
4. Research the roles of individuals engaged in culinary services.
5. Apply critical and creative thinking, logical reasoning and problem solving skills in the field.
6. Demonstrate personal and interpersonal skills that enhance working relationships and obtaining jobs i.e. employability skills.
7. Use accepted industry terminology and technical information.
8. Practice grooming and dress requirements of the industry.
9. Demonstrate knowledge of quality customer service.
10. Demonstrate table setting and food presentation techniques.
11. Use computer based menu systems to create menu layout and design.
12. Outline steps in establishing an entrepreneurial business such as catering.
13. Analyze cost and evaluate its relationship to profit.
14. Explore entrepreneurial opportunities and develop a marketing plan.
15. Demonstrate use of industry equipment, tools and supplies.
16. Operate & maintain tools and equipment following safety procedures and OSHA requirements.
17. Demonstrate skills in knife, tool and equipment handling.
18. Demonstrate proper weighing and measuring techniques.
19. Practice basic safety (first aid/CPR skills).
20. Demonstrate food handling principles.
21. Practice inventory procedures including first in/first out concept.
22. Examine the applicability of convenience food items.
23. Apply menu-planning principles to develop and modify menus.
24. Demonstrate a variety of cooking methods (i.e. dry & moist).
25. Prepare various meats, seafood and poultry.
26. Prepare various stocks, soups, sauces and gravies.
27. Prepare various fruits, vegetables, pasta, and breakfast foods.
29. Evaluate options when using seasonings and flavorings.
30. Apply principles of food preparation to produce a variety of food products and beverages for quantity cooking for special events.
31. Apply the fundamentals of baking to a variety of products.
32. Prepare a variety of gourmet foods including international cuisine.
33. Assess employment opportunities and preparation requirements.
34. Demonstrate written, verbal and non-verbal communication skills.
35. Apply time management skills.
36. Utilize activities of the Family, Career and Community Leaders of America student organization as an integral component of course content and leadership development.
37. Apply math, science, English/language arts, and communication skills within technical content.
38. Practice and implement HACCP concepts.
39. Opportunities provided for acquiring industry certifications (KOSSA, AAFCS Pre-PAC Assessment, ServSafe, etc.)

Connections

Culinary Arts II  
Valid Course Code: 200412

**Course Description:** In this course, students resume progress in pursuing competencies in food production and services. Orientation to the food service industry and development of food preparation skills are reinforced. Food service management functions are introduced. More in-depth information is provided and higher levels of skills are taught. Time is provided for work based learning opportunities. Leadership development will be provided through the Family, Career and Community Leaders of America.

**Content/Process**

**Students will:**
1. Assess importance of global food production and food service technologies.
2. Research the roles and function of individuals engaged in food production and food service careers.
3. Demonstrate personal and interpersonal skills that enhance working relationships and obtaining jobs.
4. Demonstrate use of current technology required by the industry.
5. Practice culinary skills through work based learning opportunities.
6. Demonstrate knowledge of quality customer service.
7. Outline steps in establishing an entrepreneurial business such as catering.
8. Demonstrate knowledge of cost analysis and its relationship to profit.
9. Demonstrate use of equipment, tools and supplies required by the industry.
10. Demonstrate knowledge of factors that contribute to food borne illnesses.
11. Practice food service safety and sanitation procedures.
12. Demonstrate proper weighing and measuring techniques.
13. Practice grooming and dress requirements of the industry.
14. Maintain tools and equipment following safety procedures and OSHA requirements.
15. Practice basic safety and first aid/CPR skills.
16. Use computer based menu systems to create menu layout and design.
17. Prepare quantities of food and evaluate cooking applications.
18. Prepare quantities of food and evaluate baking applications.
19. Prepare a variety of hot and cold beverages.
20. Practice inventory procedures including first in/first out concept, date markings and specific record keeping.
21. Distinguish between specific American, English, French and Russian service including place setting and napkin folding techniques.
22. Analyze roles of employees in the front/back of the house operations.
23. Plan, prepare and serve a variety of meals and special events (ex. Brunch, receptions, teas, luncheon and dinner parties).
24. Manage the planning, preparation, service, clean-up, and evaluation a variety of meals and special events in the role of student manager for in-school events or outside worksite events.
25. Present food proposals or banquet event orders to clients with effective marketing techniques.
26. Design and use garnishing and display techniques to create a food display for various occasions and events.
27. Project profit and loss including labor, food, capital, and other costs.
28. Update employability portfolio.
29. Apply math, science and communication skills within technical content.
30. Demonstrate employability and social skills relevant to the career cluster.
31. Utilize activities of the Family, Career and Community Leaders of America student organization as an integral component of course content and leadership development.

## Entrepreneurship

**Valid Course Code:** 080310

**Course Description:** This course is designed to provide students the skills needed to effectively organize, develop, create and manage their own business. This course is based on the business and marketing core that includes communication skills, economics, financial analysis, operations, promotion and selling. The culminating project of the course is the development of a comprehensive business plan. Cooperative education or shadowing experiences may be used to enhance course instruction. Leadership development will be provided through DECA, FBLA and FCCLA.

### Content/Process

**Students will:**

1. Use computers/electronic equipment whenever possible, utilize business software, appropriate web software and other kinds of technology to collect, organize, and communicate information and ideas.
2. Explain career strategies associated with entrepreneurship.
3. Conduct self-assessment to determine entrepreneurial potential.
4. Explain the factors and personality traits that contribute to the success of a small business entrepreneur.
5. Explain the importance of customer service to an entrepreneur.
6. Describe the financial statements needed for a business plan and the purposes in financial planning.
7. Investigate the role of international trade, opportunities of global markets, and the potential of international trade.
8. Describe the legal considerations for starting a business.
9. Formulate a business plan and describe its components, recognizing the many roles of a small business owner.
10. Identify sources of business start-up information.
11. Discuss market analysis to determine target market.
12. Examine the role of management in a successful business, specific management techniques for small business, and management strategies.
13. Analyze the risks and rewards of starting a business.
15. Evaluate types of business ownership.
17. Explain the nature of overhead/operating expenses.
18. Identify, evaluate, and select sources for financing a business venture.
19. Identify training procedures, hiring policies, and rights and responsibilities of small business employees.
20. Explain the types of promotion.
21. Prepare a promotional budget.
22. Select and analyze computer software/hardware options for small business; examine benefits of organizational membership.
23. Demonstrate technology skills needed in the workplace.
24. Utilize activities of DECA, FBLA and/or FCCLA as an integral component of course content and leadership development.
25. Exemplify entrepreneurship decision making through projects and simulations.
26. Apply math and communication skills within the technical content.
27. Identify individual work habits/ethics (individual/team skills, confidentiality, problem solving, punctuality, self-discipline, communication skills) and explain their importance in the workplace.

### FACS Essentials
Valid Course Code: 200113

**Course Description:** This comprehensive course provides an opportunity for acquiring basic life skills and guides students to explore and select specific areas for concentrated study. Emphasis is on family, employability skills, adolescent development, introduction to textiles, interiors and design, financial management, challenges of parenting, establishing healthy relationships, and creating a foundation for healthy lifestyles and nutrition. Leadership development will be provided through the Family, Career and Community Leaders of America.

### Content/Process

**Students will:**

1. Examine personal values and character traits.
2. Assess personal social skills and integrate an improvement plan.
3. Identify and evaluate some positive and negative influences and consequences of peers on adolescent behavior, including high risk behaviors.
4. Develop personal short-term and long-term SMART goals.
5. Analyze the practical problems faced by families to balance the demands of work and family.
6. Identify physical, psychological, social, economic, technology and health influences on personal wellness.
7. Predict the results of accomplishing or failing to accomplish the developmental tasks of adolescence.
8. Summarize ways of reducing or preventing teen pregnancy.
9. Analyze financial, social, physical and emotional costs of parenthood.
10. Demonstrate wise spending practices such as advertising and comparison shopping.
11. Use the decision making process.
12. Plan a personal budget.
13. Calculate sales tax, price per unit, and sale discounts.
14. Identify individual work habits/ethics (individual/team skills, confidentiality, problem solving, punctuality, self-discipline, communication skills) and explain their importance in the work place.
15. Formulate a culminating assessment using comparison shopping techniques, budgeting practices and managing resources (i.e. Life Event Planning STAR Event).
16. Analyze the causes and consequences of diet, exercise, rest and other substance choices on various body systems.
17. Plan, prepare and evaluate a menu using current Dietary Guidelines for Americans and the USDA MyPlate (choosemyplate.gov.).
18. Identify proper kitchen equipment/utensils and demonstrate how to properly use them.
19. Demonstrate and practice knowledge of food service safety and sanitation.
20. Illustrate design elements and principles.
22. Utilize color schemes to create fashion apparel design using technology.
23. Analyze career opportunities in Family and Consumer Sciences six career pathways.
24. Demonstrate employability and social skills relevant to each career major and pathway.
25. Utilize activities of the Family, Career and Community Leaders of America student organization as an integral component of course content and leadership development.
26. Apply math, science and literacy skills within technical content.

- Partnership for 21st Century Skills
- Kentucky Academic Standards
- Standards for Mathematics and English/Language Arts
Course Description: This course is designed to prepare Family and Consumer Sciences students to be innovative and effective leaders in families, future careers and communities. Students will integrate higher order thinking, communication, leadership, and technical skills to explore FCS careers, conduct service learning projects, discover modern social issues relevant to the field and enhance employability skills to lead the 21st century workforce. Students will be engaged in project based learning opportunities by developing authentic, real-world and rigorous projects leading to self-discovery, positive social action and career preparation. Leadership development will be provided through the Family, Career and Community Leaders of America.

Content/Process

Students will:

1. Assess individual personality traits and use it to create a professional growth plan.
2. Utilize leadership styles and personality inventories to assign roles and responsibilities.
3. Apply the decision making process effectively.
4. Develop personal and professional goals using the SMART goals template.
5. Model proper communication skills in the workplace.
6. Perform the elements of effective public speaking to convey information to an audience.
7. Discuss how teams can contribute to an organization’s effectiveness.
8. Use problem solving techniques to mediate conflicts that occur in the workplace.
9. Analyze the history of Family and Consumer Sciences and its impact on today’s society.
10. Explain the historical foundations of Family and Consumer Sciences, its evolution over time, its mission and focus.
11. Analyze career opportunities in each of the FCS Career Pathways with an emphasis on Family and Consumer Sciences Education.
12. Appraise the importance of Family and Consumer Sciences Education.
13. Defend the need for Family and Consumer Sciences Teachers in public and private settings.
15. Determine opportunities and benefits of membership in FCCLA.
16. Analyze organizational structures and their components. (including bylaws, officers, committees, and program of work)
17. Explain the procedures of Parliamentary Law using Robert’s Rule of Order.
18. Demonstrate the use of proper parliamentary procedure skills.
19. Assess the importance of active membership and leadership in professional organizations in terms of growing as a professional and keep abreast of new information in your field. (Examples: ACTE, KACTE, NATFACS, KATFACS, AAFCS, KAFCS, FCCLA Alumni & Associates, FCSEA, NEA, KEA, and Career Pathway related professional organization.)
20. Correlate the role of service learning with social responsibilities and needs.
21. Collect data to defend the need for a service learning project.
22. Construct professional written communication. (i.e., business letters, business emails, cover letter/letter of application, resumes, memos, and other forms of correspondence.)
23. Demonstrate appropriate professional etiquette.
24. Understand the importance of an ethical climate in the workplace.
25. Develop a tool to increase time management, planning skills and organization in the workplace.
26. Justify the value of diversity in the workplace. (cultural, socio-economic, ethnicity, disability, gender)
27. Determine impact of social, economic, cultural, and technological forces on employee development and performance through evaluation tools.
28. Practice confidentiality and other workplace policies in work-based learning placements.
29. Integrate new technology trends in the workplace utilizing web 2.0 tools, new software programs and hardware.

Connections

Course Description: This course provides opportunities for students to explore career competencies in the fashion and interior design industry. Students will examine the impact of history, culture, and the environment on current and future trends in the fashion and interior design industries. Students will evaluate elements and principles of design as well as construct fashion and interior design projects that demonstrate comprehension. Leadership development will be provided through Family, Career and Community Leaders of America (FCCLA) student organization.

Content/Process

Students will:

1. Utilize activities of the Family, Career and Community Leaders of America student organization as an integral component of course content and leadership development.
2. Explain personal and societal influences on clothing choice.
3. Summarize the relationship of clothing/housing and environments to behavior.
4. Describe the evolution of fashion from early civilizations to the 20\textsuperscript{th} century.
5. Explain how the fashion industry operates.
6. Explain the role of fashion designers in the apparel industry.
7. Predict factors that affect fashion and interior design trends.
8. Identify elements and principles of design in fashion and interior design.
11. Compare and contrast natural and synthetic fibers.
12. Demonstrate the various types of weaves.
13. Comprehend and follow product care labels.
15. Describe how the family life cycle influences housing needs.
16. Identify the impact of technology on housing choices.
17. Identify housing and furniture styles from various periods.
18. Differentiate types of floor and wall coverings, window treatments and furniture.
19. Draw furniture arrangements for the social, private and service zones of a home.
20. Design floor plans and visual presentations.
21. Apply measuring skills to create scale drawings and to determine body measurements.
22. Demonstrate basic sewing machine procedures.
23. Practice safety procedures for operating and caring for industry-related equipment.
24. Evaluate and perform construction techniques for a variety of projects.
25. Select, design and construct items for self.
26. Apply math, science, and communication skills within technical content.

Connections

- AAFCS Pre-PAC Assessment – Fashion, Textiles and Apparel
- AAFCS Pre-PAC Assessment – Interior Design Fundamentals
**Course Description:** This course provides opportunities for students to develop career competencies in the fashion and interior design industry. Advanced fiber classification, textile performance and construction techniques are used for client designs and application as an integral component of this course. Students will implement technology to create visual presentations for clients and the development of an individual digital portfolio. Leadership development will be provided through the Family, Career, and Community Leaders of America (FCCLA) student organization.

### Content/Process

**Students will:**
1. Utilize activities of the Family, Career and Community Leaders of America student organization as an integral component of course content and leadership development.
2. Develop employability and social skills relevant to the career pathway.
3. Create a professional student digital design portfolio.
4. Research the skills, training and entrepreneurial opportunities relating to careers in fashion and interior design.
5. Describe job market changes that have resulted from technology and its increased use in a global economy.
6. Illustrate advanced use of elements and principles of design in various projects
7. Practice safety procedures for operating and caring for industry-related equipment.
8. Compare the properties and performance of fibers and fabrics.
9. Use sketches and illustration to communicate ideas.
10. Demonstrate the ability to drape on a dress form.
11. Interpret terminology for reading blueprints, floor plans and patterns.
12. Explain how building codes are used to assure quality and safety in new homes.
13. Design floor plans and visual presentations using technological resources.
14. Evaluate product information and care of textiles, furnishings, technology, and equipment.
15. Utilize computer software for space planning.
16. Identify and compare performance standards of materials and textiles for fashion and interior design.
17. Identify factors which affect the appropriateness of textiles selection to provide quality choices for clients.
18. Select, design and construct items for others, including special populations.
19. Prepare and modify a budget based upon client needs.
20. Apply knowledge of advanced pattern layouts and cutting for textile items.
21. Identify and perform advanced construction techniques for a variety of projects.
22. Create, present and critique design plans that address client needs.
23. Demonstrate advance sewing machine procedures.
24. Execute skills related to specialty equipment procedures (e.g., sergers, embroidery machines, etc.).
25. Construct advanced sewing projects.
26. Apply math, science, communication skills, problem solving and decision making within technical content.

Fashion & Interior Design III  
Valid Course Code: 200826

Course Description: This course provides opportunities for students to apply career competencies and equip students with entrepreneurial skills for the fashion and interior design industry. Students may develop a business plan and operate a student-run enterprise. An emphasis on client-based projects through advanced textile construction, creation of floor plans, and other related fashion and interior design projects are incorporated. Individual digital portfolios will be finalized to document growth and enhancement in the career pathway. Leadership development will be provided through the Family, Career, and Community Leaders of America (FCCLA) student organization.

Foods & Nutrition  
Valid Course Code: 200441

**Course Description:** This course is designed to assist students in making critical decisions about food, which contributes to health and well-being. Laboratory instruction is included as an application process. Practical problems addressed relate to attitudes toward food, nutrition facts, special health concerns and diets, management of food resources, preparation skills, food safety, sanitation and careers in nutrition and food service. Leadership development will be provided through the Family, Career and Community Leaders of America.

**Content/Process**

**Students will:**
1. Determine how changes in technology have increased food choices.
2. Identify physical, social, cultural and economic influences and trends related to food choices.
3. Explain how digestion turns food into usable nutrients (digestion, absorption, metabolism).
4. Propose a balanced meal plan using the Dietary Guidelines for Healthy Living/Myplate.gov
5. Examine how personal food choice affects nutrition, personal wellness and maintaining a healthy weight.
6. Research various eating disorders and identify sources of help.
7. Demonstrate and/or practice basic cooking methods to prepare a variety of foods.
8. Identify and use basic kitchen equipment and tools.
9. Managing a safe, effective and productive lab while utilizing teamwork.
12. Inspect food labels for nutrition and food additives.
13. Recognize the value of following a shopping plan for food.
14. Calculate the difference in cost and identify variances in nutrition among semi-prepared, fully prepared convenience meals, fast food or other quick service meals, and home prepared foods.
15. Calculate unit price, using comparison shopping methods; compare labels to create a meal plan based on cost and personal nutrition needs.
16. Examine and select convenience foods according to time saved, the cost and the quality.
17. Identify and practice various types of food presentation techniques.
18. Practice dining etiquette and table set up when eating at a restaurant or in the home.
19. Demonstrate waste disposal and recycling methods.
20. Demonstrate proper safety, sanitation, storage and preparation techniques in handling food from purchase, preparation, cooking, cooling, to reheating.
21. Categorize careers in nutrition/food service according to skill required and type of job.
22. Assess employment opportunities and preparation requirements.
23. Demonstrate employability and social skills relevant to the career cluster.
24. Demonstrate safe, sanitary work habits required by the field.
25. Demonstrate written, verbal and non-verbal communication skills.
26. Demonstrate and practice knowledge of food service safety and sanitation procedures and the factors that contribute to food borne illnesses.
27. Apply time management skills.
28. Apply math, science and communication skills within technical content.
29. Demonstrate employability and social skills relevant to the career cluster.
30. Utilize activities of the Family, Career and Community Leaders of America student organization as an integral component of course content and leadership development.

**Connections**

**Fundamentals of Dietetics**  
**Valid Course Code:** 200414

### Course Description:
This course provides an overview of the dietetics field of work including the study of professional ethics and practices, career training and credentialing requirements, dietary research, lifespan and community nutrition, counseling and communication, and legislative law related to the field of dietetics and human nutrition. Laboratory instruction and work-based learning opportunities should be provided through the course curriculum. Leadership development will be provided through the Family, Career and Community Leaders of America (FCCLA) student organization.

### Content/Process

**Students will:**

1. Explore career opportunities within the dietetics field.
2. Demonstrate employability and social skills relevant to the dietetics field.
3. Create an employment portfolio for use with applying for internships and work-based learning opportunities in dietetics and nutrition.
4. Review the function(s) of the six essential nutrients.
5. Outline the dietary requirements for the six essential nutrients.
6. Analyze nutrient requirements across the lifespan, addressing the diversity of people, culture and religions.
7. Produce dietary plans for individuals with specific dietary needs.
8. Analyze safety and sanitation practices in retail, institutions and home (including the use of equipment).
9. Identify government agencies that regulate the safety of the food supply.
10. Research laws and regulations related to food safety.
11. Investigate and debate current food trends and policies.
12. Apply math, science and communication skills within the technical content.
13. Utilize activities of the Family, Career and Community Leaders of America (FCCLA) student organization as an integral component of course content and leadership development.

Introductory FACS Essentials

Valid Course Codes:

6th Grade: 200110
7th Grade: 200111
8th Grade: 200112

Course Description: This course introduces students to Family and Consumer Sciences through various units of instruction. The units relate to personal growth and development, consumer and management skills, goal setting and decision making, family studies, nutritional needs, foods preparation and sanitation, career development and interpersonal relationships. Leadership development and community services will be provided throughout the curriculum with a strong emphasis on integration of the Family, Career and Community Leaders of America (FCCLA) student organization.

Content/Process

Students will:
1. Utilize activities of the Family, Career and Community Leaders of America student organization as an integral component of course content and leadership development.
2. Explore opportunities for volunteerism to enhance personal development skills.
3. Identify developmental tasks of pre-adolescence and adolescence.
4. Demonstrate appropriate communication skills.
5. Practice steps in setting and achieving goals.
6. Identify and apply the steps of the decision making process.
7. Determine the consequences of high risk behaviors.
8. Identify personal grooming habits.
9. Examine qualities needed to maintain friendship.
10. Practice appropriate social skills in a given situation.
11. Examine different family types and the roles of each family member.
12. Identify the benefits of time management skills.
13. Identify sources and management of income opportunities relevant for teens.
14. Differentiate between wants and needs.
15. Apply consumer rights and responsibilities for purchasing decisions.
16. Examine the impact of consumer decisions on the environment.
17. Identify the influences of the different types of advertisements on the consumer.
18. Examine influences on eating habits.
19. Plan healthy meals and snacks based on the current Dietary Guidelines for Americans and the USDA MyPlate.
20. Calculate calories needed according to the Body Mass Index (BMI).
21. Describe the correct and safe use of kitchen appliances and utensils.
22. Use rules of sanitation and cleanliness in the kitchen.
23. Use correct methods/techniques in preparing food.
25. Design a plan for care and storage of clothing.
26. Construct a textile project by hand or machine.
27. Predict the employment outlook based on the level of education.
28. Identify careers in Family and Consumer Sciences.
29. Predict ways computers will affect daily and work life in the future.
30. Apply math, science and communication skills within technical content.
31. Examine employability skills relevant to the career clusters.

Connections

Middle to Late Lifespan Development  
Valid Course Code: 200226

**Course Description:** This course addresses the practical problems related to understanding the areas and stages of lifespan development, review effects of heredity and environment on the life stages, meeting the needs of exceptional individuals, promoting optimum growth and development in the middle childhood, adolescent, and early/ middle/ late adulthood stages. Careers in human development and adult care services are explored. Leadership development will be provided through the Family, Career and Community Leaders of America (FCCLA) student organization.

### Content/Process

**Students will:**

1. Review the areas of human growth and development.
2. Review the effects of heredity and environment on human growth and development.
3. Review the ages and stages of human growth and development across the lifespan.
4. Describe theorists who have influenced lifespan development.
5. Identify factors that promote optimum growth and development in the middle childhood, including physical growth, social, emotional and moral development and intellectual development.
6. Identify factors that promote optimum growth and development in the adolescent stage, including physical growth, social, emotional and moral development and intellectual development.
7. Identify factors that promote optimum growth and development in the early adulthood years, including physical growth, social, emotional and moral development and intellectual development.
8. Identify factors that promote optimum growth and development in the middle adulthood years, including physical growth, social, emotional and moral development and intellectual development.
9. Identify factors that promote optimum growth and development in the late adulthood years, including physical growth, social, emotional and moral development and intellectual development.
10. Recommend effective techniques for behavior modification across the lifespan.
11. Develop and implement age-appropriate activities for middle childhood, adolescence, young/ middle/ late adulthood.
12. Define options available to assist individuals with exceptional needs.
13. Research information about careers in human development and adult care services.
14. Utilize activities of the Family, Career and Community Leaders of America (FCCLA) student organization as an integral component of course content and leadership development.
15. Apply math, science and communication skills within technical content.
16. Demonstrate employability and social skills relevant to the career cluster.

Money Skills for Math
(Interdisciplinary course for Mathematics – 4th required credit)
Valid Course Code: 201011

Course Description: This course is designed to provide students with math concepts needed in developing sound money management skills which will help to improve the quality of life for individuals and their families. Components of math, decision making and problem solving skills, goal setting and technology will be integral components of the course. A correlation to the math content in the program of studies was used in developing this course to count as a fourth math credit. Leadership development will be coordinated through Family, Career and Community Leaders of America (FCCLA) student organization.

Content/Process

Students will:
1. Understand how personal financial decisions are influenced by a person’s interpretation of needs and wants and values.
2. Analyze lifestyle conditions which may affect one’s financial situation throughout the life cycle.
3. Recognize the importance of career planning, salaries, and benefits to overall financial well-being.
4. Create a spending plan/budget.
5. Demonstrate skills in understanding payroll deductions.
6. Understand economic systems and the role of government agencies as they relate to sound financial management.
7. Understand the levels of financial risk associated with checking accounts, saving and investing.
8. Evaluating financial institutions and the services they provide.
9. Manage checking accounts, savings accounts, investment accounts.
10. Define and use common terminology associated with savings and investing.
11. Understand interest, and the time value of money.
12. Understand the implications of personal bankruptcy.
13. Evaluate the advantages and disadvantages of renting and owning a home.
14. Demonstrate the process of renting and/or purchasing a home.
15. Demonstrate working knowledge of investments appropriate for individuals and families.
17. Understand the relationship between risk and insurance.
18. Select insurance (homeowners, renters, automobile, health, and life) appropriate for individuals and families.
19. Demonstrate skills necessary for leasing and/or purchasing a vehicle.
20. Identify the advantages and disadvantages of each of the types of credit.
21. Analyze credit card offers and statements.
22. Develop the skills necessary to prevent identity theft.
23. Demonstrate skills in wise spending practices (advertising, comparison shopping, warranties, and defective merchandise).
24. Understand the financial tools used to plan for retirement (Social Security, pensions, individual retirement accounts, Roth IRA, company sponsored retirement programs).
25. Demonstrate the process of requesting and interpreting a credit report.
26. Describe the purpose of a will and other estate planning documents.
27. Utilize activities of the Family, Career and Community Leaders of America (FCCLA) student organization as an integral component of course content and leadership development.
28. Apply math, science and communication skills within technical content.
29. Demonstrate employability and social skills relevant to the career cluster.

Nutritional Food Science
Valid Course Code: 200415

(Interdisciplinary course for Life Science credit)
Valid Course Code: 200416

**Course Description:** Nutritional Food Science is an interdisciplinary course that has a variety of applications to everyday life. The content in this course is directed toward providing students with knowledge of the various concepts and relationships between nutrition and science. Scientific methods are used to conduct laboratory experiments with food, applying both biology and chemistry principles. Students explore career possibilities in the field of food science. Leadership development will be provided through the Family, Career and Community Leaders of America (FCCLA) student organization.

**Content/Process**

**Students will:**

1. Identify the chemical symbols most often used in food science.
2. Interpret basic science for food science such as composition of matter, atomic structure, chemical formulas and equations, and chemical/physical changes in food.
3. Explore career pathways within nutritional science.
4. Demonstrate employability and social skills relevant to the career cluster.
5. Describe the functions / operations and maintenance of test laboratory and related equipment and supplies.
6. Analyze the significance of the roles and interrelationships of microorganisms and food; benefits and disadvantages of microbial action.
7. Identify the properties of acids and bases.
8. Test the pH of common foods and food ingredients.
9. Determine the function of water in the human body and in food preparation.
10. Identify the properties and composition of lipids, carbohydrates, proteins, vitamins, and minerals and how the body utilizes each.
11. Examine the effect of the breakdown and synthesis of food which are made possible by a large set of protein catalyst called enzymes.
12. Analyze the breakdown of food molecules that enable the cell to store energy in specific chemicals that allow metabolic functions to occur.
13. Interpret why living systems require continuous input of energy to maintain their metabolic equilibrium.
14. Justify the use of additives in specific food items.
15. Formulate a procedure for a food science experiment.
17. Examine why chemical bonds of leavening agents contain energy that is released when broken and new compounds are formed.
18. Apply math, science and communication skills within technical content.
19. Utilize activities of the Family, Career and Community Leaders of America (FCCLA) student organization as an integral component of course content and leadership development.

Course Description: This course is designed for students interested in careers in the hospitality industry. The instruction includes career awareness in the areas of recreation, travel/tourism, hotel/motel, and restaurant. This course is based on the family and consumer sciences core that includes communication skills, economics, food and beverage operations, promotion, selling, and product/service management. Leadership development will be provided through FCCLA activities and competitive events.

Content/Process

Students will:
1. Describe the evolution and current trends in the hospitality industry.
2. Identify and describe major types of businesses found in the hospitality industry.
3. Describe social, environmental, economic and business factors related to the hospitality industry.
4. Develop customer-service skills, employee/employer relations and other interpersonal skills.
5. Identify advantages and disadvantages of working in the hospitality industry.
6. Explain the impact of meetings, conventions, and conferences on the economy.
7. Illustrate the service delivery system of a full-service hotel and make an oral presentation.
8. Interview an individual in the hospitality industry and create a job description for a newspaper ad for this position.
9. Utilize safety and sanitation practices as applied to the industry.
10. Plan management operations for a special event that involves all aspects of hospitality careers in the travel tourism arena.
11. Apply basic skills in food and catering services.
12. Describe the types of promotional strategies and media used in the hospitality industry.
13. Identify the concept of marketing mix and market segmentation as it relates to the hospitality industry.
14. Research career opportunities, job responsibilities and employment requirements in the hospitality industry.
15. Identify individual work habits/ethics (individual/team skills, confidentiality, problem solving, punctuality, self-discipline, communication skills) and explain their importance in the work place.
16. Apply math and communication skills within the technical content.
17. Use computers and electronic equipment whenever possible, utilize business software, appropriate web software and other kinds of technology to collect, organize, and communicate information and ideas.
18. Utilize activities of FCCLA as an integral component of course content and leadership development.

**Principles of Teaching**  
**Valid Course Code: 331020**

**Course Description:** This course provides opportunities for students with an interest in teaching to develop skills, strategies, and techniques used for instruction at various grade levels for a diverse population of student learners. Instruction addresses the principles and procedures for promoting the physical, emotional, social, and intellectual development of children, adolescents and developmentally appropriate practices in educational settings. Students will gain work experience in classrooms with certified teachers as part of their course work. Other components include the development of a four-year post-secondary plan, KTIP (KY Teacher Internship Program) and TPA requirements, KY Code of Ethics and educational pedagogy. Leadership experiences will be provided through various extra/co-curricular student organizations.

- AAFCS Pre-PAC Assessment: Education Fundamentals
### Course Description:
This course assists students to develop self-understanding, better understand others, improve interpersonal skills both within and outside the family, be more considerate of other person’s needs and property, and maintain mental and emotional wellness. Family Life education comprises a portion of this course, including dating and married relationships. Preparations for and the achievement of a successful marriage are emphasized. Leadership development will be provided through the Family, Career and Community Leaders of America.

### Content/Process

**Students will:**
1. Relate self-concept to the fulfillment of one’s personal needs.
2. Propose ways to fulfill basic human needs.
3. Illustrate gender roles that promote positive self-image.
4. Identify ways of developing positive character traits.
5. Examine the effects of culture, stereotyping and prejudices on relationships.
6. Evaluate the significance of family and its impact on the well-being of individuals and society.
7. Contrast characteristics of functional and dysfunctional families.
8. Assess the impact of types of abuse and determine methods of prevention.
9. Recommend ways of resolving conflicts.
10. Identify the characteristics of good mental health.
11. Recommend ways to improve intergenerational relationships.
12. Explain the need to respect property rights of others.
13. Demonstrate etiquette skills used as an individual, family member and wage earner.
14. Predict how work and family roles are balanced based on values and goals.
15. Examine the impact of role models on one’s life.
16. Practice using refusal skills to resist peer pressure.
17. Examine one’s relationship with friends.
18. Compare the characteristics of an ideal date to those of an ideal mate.
19. Compare the similarities and differences of infatuation, sexual gratification and mature love.
20. Explain how premarital sexual intimacy could adversely affect one’s entire life.
21. Describe prevention, treatment and the physical effect of sexually transmitted diseases.
22. Distinguish between real and ideal expectations in marriage.
23. Predict problems unique to single working parents.
24. Distinguish between real and ideal expectations in marriage.
25. Analyze career opportunities concerned with relationships of individual and families.
26. Apply critical thinking and ethical criteria to evaluate interpersonal relationships.
27. Utilize activities of the Family, Career and Community Leaders of America student organization as an integral component of course content and leadership development.
28. Apply math, science and communication skills within technical content.
29. Demonstrate employability and social skills relevant to the career cluster.
