

# ARTICULATION AGREEMENT

Between

**Family & Consumer Sciences Education  
Kentucky Department of Education – Office of Career and Technical Education**

and

**The Early Childhood Education Program of the  
Employment Solutions, Inc. / College for Technical Education**

In an effort to provide increased education and training opportunities for students, the Kentucky Department of Education and the College for Technical Education have agreed to cooperate in an initiative to provide a seamless educational pathway for secondary students enrolled in the Early Childhood Education career major. Specifically, the purpose of this agreement is to grant postsecondary credit to these high school students for their coursework and training at the secondary level.

Students will be granted credit at the College for Technical Education if all of the following criteria is met:

1. Completes their Commonwealth Child Care Credential – Certificate of Eligibility
2. Submits documentation (Official transcript), signed by school personnel, indicating all requirements have been met.
3. Pass all coursework with a grade "C" or better.

Upon successful completion of the requirements above, students will receive credit for the following courses:

*ECE 105 (10 credits) Child Growth and Development, Health Safety and Nutrient w/writing and math component.*
