Required Use of Funds

Explain how your institution is implementing the following requirements of the Perkins legislation to support career and technical education programs that are of sufficient size, scope and quality.

(1) provide career exploration and career development activities through an organized, systematic framework and select at least one of the following that apply
   (A) introductory courses/activities
   (B) career and labor market information
   (C) programs/activities related to development of student graduation/career plans
   (D) career guidance/academic counselors
   (E) comprehensive industry knowledge for students
   (F) provide professional development for teachers, faculty, school leaders, administrators, specialized instructional support personnel, career guidance and academic counselors, or paraprofessionals, and select at least one of the following that apply

(2) supporting academic and CTE instructional approaches
   (A) ensuring use of labor market information for program guidance/advisement for students
   (B) advancing knowledge, skills, and understanding of industry
   (C) managing CTE programs
   (D) improving student achievement/closing gaps in student participation/performance in CTE programs
   (E) providing opportunities to advance knowledge, skills, and understanding in pedagogical practices
   (F) training to provide appropriate accommodations for individuals/students with disabilities
   (G) training to teach students with disabilities, a universal design for learning and support
   (H) training to provide access to tools, technology, and knowledge for students and entrepreneurs

(3) provide within career and technical education, the skills necessary to pursue careers in high-skill, high-wage, or in-demand industry sectors or occupations.

(4) provide support of integration of academic skills into career and technical education programs including at least one of the following that apply
   (A) Secondary CTE participants meeting the challenging State academic standards
   (B) Postsecondary CTE participants achieving academic skills

(5) plan and carry out elements supporting the implementation of career and technical education programs and programs of study resulting in increasing student achievement, including at least one of the following that apply
   (A) curriculum aligned with requirements for a program of study
relationships among education, business and industry, and other community stakeholders, to facilitate the process of aligning programs of study with workforce skills

expanding opportunities for CTE concentrators to participate in accelerated learning programs

equipment, technology, and instructional materials aligned with business and industry needs

work-based learning opportunities, including simulated work environments

industry-recognized certification examinations or other assessments leading toward a recognized postsecondary credential

recruitment and retention of CTE faculty/staff/administration

coordination with other education and workforce development programs and initiatives

expanding opportunities for students to participate in distance CTE and blended-learning programs

expanding opportunities for students to participate in competency-based education programs

improving career guidance/academic counseling programs

supporting employability skills into CTE programs through family and consumer science programs

supporting programs/activities increasing access, student engagement, and success in science, technology, engineering, and mathematics fields for underrepresented students

providing CTE programs for adults/out-of-school youth to complete secondary school education/upgrading technical skills

supporting career and technical student organizations

providing instructional content

supporting arts and design skills into CTE programs and programs of study

partnering to improve training, development of public-private partnerships, systems development, capacity-building, and delivery of high-quality career and technical education

supporting special populations in CTE for costs associated with fees, transportation, childcare, or mobility challenges

(6) develop and implement evaluations of the activities carried out with funds (including evaluations necessary to complete the comprehensive needs assessment).
Perkins V Approvable and Non-approvable Expenditures

SUPPLEMENT NOT SUPPLANT

As a requirement of the Perkins statute, funds made available under the Act must supplement and not supplant non-federal funds expended to carry out career and technical education activities. In other words, federal Perkins funds may only be used in addition to funds already spent by the state and local recipients on CTE and cannot be used in place of non-Perkins funds. It will be presumed that supplanting has occurred where:

- Perkins funds have been used to provide services that are required to be made available under another federal, state or local law; or
- Perkins funds have been used to provide services that were provided with non-Perkins funds in the previous year.

FUNDING LIMITS

Funding can be used for no longer than three years for reoccurring expenditures (such as career coaches).

APPROVABLE EXPENSES

- Instructional/curriculum materials for teacher use
- Resource materials for student or teacher use (no textbooks, no workbooks, and no consumable items or materials)
- Professional development activities for CTE
- Substitute teacher salary to cover classes while teacher is attending professional development activities; develops curriculum or assessment materials; collaborates on articulation agreement, dual credit agreements, or works with business and industry to update knowledge and skills.
- Technology purchases to be used in the classroom as a teaching tool.
- Purchase state of the art equipment and software required by a change in curriculum, teaching strategies or technological advances in the career field, address specific educational barriers students are facing in technical education programs. (EX: support materials, curriculum modifications, equipment modifications, and large print materials that might be needed for a sight impaired student)
- Travel for professional development that may include reimbursement for meals, lodging, transportation and registration fees.
• Instructional field trips for students. Reimbursable expenses include teacher travel, bus costs and bus driver salary. (An instructional field trip is where the class or the program is going.)

• Honorarium/fee for consultants/speakers to provide specialized CTE training.

NON-APPROVABLE EXPENSES

Consumable materials of any kind such as but not limited to paper, toner, discs, tapes, CD's, scan sheets, test documents, workbooks, nails, electrical wire, wood, paint/variذيش, oxygen, acetylene, screws, nails, welding rods, glue, fertilizer, seeds and bedding plants, potting soil, sandpaper, metal, soap/detergent, fabric, chemicals etc.

Expenses due to building modification, copiers, dues/memberships for professional organizations, travel to pick up supplies, maintenance/repair of equipment, ACT prep materials, and classroom textbooks (reference-supplemental materials are allowable up to ten (10) copies of one title).

Additionally, student expenses related to student organizations, such as but not limited to dues, admission fees, jackets, caps, shirts, folders/workbooks, lodging, meals, kits for projects, transportation. Travel for non-instructional activities such as social events

MAINTENANCE OF PROGRAM

New with Perkins V - May be used for items that are for the day to day operation of the class and to maintain the program at its current level. Items must have a lifespan of one year or more. These items include but not limited to; replacement of existing equipment, safety glasses, welding gloves, welding helmets, hammers, pliers, hand saws, mixing bowls, measuring cups, sheet pans, hand towels, aprons, small hand and power tools, small kitchen appliances, microwave ovens, furniture purchases, weed eaters, leaf blowers, prep tables, ice makers, power washers.
