## INTRODUCTION

Under the Every Student Succeeds Act (ESSA) and Senate Bill 158 (2020), Kentucky schools are held accountable for student assessment results in all core subjects (reading, mathematics, science, social studies and writing), improving the English language proficiency of English learners, the quality of school climate and safety, and postsecondary readiness and graduation rate at high schools.

Kentucky's accountability system has students at its center - ensuring that they are wellrounded, postsecondary ready and prepared with the knowledge and skills they will need to be successful after high school graduation.

During the 2020 legislative session, Kentucky's legislators amended KRS 158.6455, Kentucky's Accountability System. Sweeping changes were made to the accountability system that includes an exclusive list of state indicators to be used to classify Kentucky's LEAs and public schools, evaluating indicators based on Status (current year performance), Change (difference in current and prior year status), and Overall Performance (which combines all available indicators), and reporting measures publicly on a color-coded dashboard.

In addition to meeting the state statute, Kentucky's accountability system must comply with the federal requirement as outlined in ESSA for the identification of the lowest performing schools in Kentucky. The system must reflect meaningful differentiation of schools to identify low performing schools as outlined in Kentucky's Consolidated State Plan.

The accountability system is designed to comply with both state and federal requirements. The system values the importance of stakeholder engagement and democratic decisions for the good of the students in Kentucky. School accountability for 2022-2023 is based on an exclusive list of student performance on state assessments, as well as selective school quality indicators outlined by state statute:

## Elementary and Middle Level:

State Assessment Results in Reading and Mathematics
State Assessment Results in Science, Social Studies and Writing
Quality of School Climate and Safety
English Learner Progress

## High School Level:

State Assessment Results in Reading and Mathematics
State Assessment Results in Science, Social Studies and Writing
Quality of School Climate and Safety
English Learner Progress
Postsecondary Readiness
Graduation
KRS 158.6455 includes the concepts of "Status" and "Change" for each indicator. Status is the current year performance and Change is determined by using the difference in performance of each indicator from the prior year to the current year.

## Status and Change

Status is the current year performance based on student performance or accomplishments during the school year. The table below defines the metrics for each indicator of the system.

| Indicator | State <br> Assessment Results in Reading and Mathematics | State <br> Assessment Results in Science, Social Studies, and Writing | English <br> Learner <br> Progress | Quality of School Climate and Safety | Postsecondary Readiness (HS only) | Graduation Rate (HS only) |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Metric | Weighted performance index based on student assessment performance levels | Weighted performance index based on student assessment performance levels | Points assigned based on studentlevel growth as measured by a value table | Average of student scores for applicable questions in the QSCS survey | Percent of 12th grade students demonstrating academic or career readiness | Average 4and 5-year graduation rates |

Note: Status for the English Learner Progress indicator is different from other indicators. The Status for the EL Progress indicator is the growth in student performance on the English Language Proficiency Exam (ACCESS and Alternate ACCESS) from one year to the next.

For the first time in history, Kentucky's school accountability system will include a component other than current year performance. As mandated in state statute, Change will be included in each indicator which is the difference between prior and current year status performance.

With the introduction of Change into the system, comparisons cannot be made to 2022 accountability. Although the color coded dials represent school accountability in 2022 and 2023, the system is vastly different with the inclusion of Change and should not be compared. Comparisons may be made in assessment performance; accountability comparisons can be made between schools at each level (i.e., elementary to elementary) within the same year.

Each indicator is reported with one of five status levels (very high, high, medium, low and very low). Schools also receive one of five change levels for each indicator ranging from increased significantly to declined significantly. Colors for indicators are associated with the combination of status and change.

The schools, districts and the state will receive a new color rating every year when the accountability data is released. Overall performance ratings are reported with five color levels, blue (highest), green, yellow, orange and red (lowest). Schools may earn color ratings in multiple ways.

The minimum number of students to be included in accountability continues to be thirty (30) students per level (elementary, middle, and high) required in each student demographic group to be included by indicator in school calculations. Very small schools with fewer than 30 students per level will follow an n-count rule of 10.

Kentucky's accountability system is level-based (elementary, middle, high). Schools with multiple levels (e.g., K-12) receive a color performance rating for each level, not overall. Report cards for districts and Kentucky overall will have sets of colors, one each for all elementary, all middle and all high school levels.

On the School Report Card, data are suppressed following the U.S. Department of Education (USED) Good Reporting Policy and Family Education Rights and Privacy Act (FERPA) guidelines. There are situations where individual student performance could be determined (such as groups of students performing at the same NAPD: novice, apprentice, proficient, distinguished level \{e.g., all Hispanic students perform at Proficient\} or fewer than three students performing at one performance level) and will not be shared publicly. Suppressed data are available to schools/districts but are not displayed in the School Report Card.

The accountability system contains a variety of components that work together to produce scores and ratings required for state and federal reporting. Indicator Ratings cannot be combined to determine the Overall Ratings. The Overall Performance Rating (color) is based on cut scores recommended by the Accountability Standards Setting Committee, not the combination of Indicator Ratings.

As a part of ESSA, schools are also assigned federal classifications based on their performance on the six state indicators. These federal classifications are Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI) and Additional Targeted Support and Improvement (ATSI).

Beginning with the 2022-2023 school year, schools will be identified for Comprehensive Support and Improvement (CSI) and Additional Targeted Support and Improvement (ATSI) every three years.

## The next identification of CSI I, CSI II, and newly identified ATSI will be in 2025.

CSI can be viewed as how a school performs overall. Kentucky's accountability system has a three-pronged system for CSI. Schools will be labeled as CSI and provided additional turnaround support if they meet any one of these criteria:

- CSI I: The lowest-performing five percent (5\%) of all schools by level based on the school's performance in the state accountability system;
- CSI II: High schools with a four (4) year cohort graduation rate that is less than eighty percent (80\%); and
- CSI III: Schools identified for ATSI for at least 3 years that fail to exit that status.

No new schools were identified for CSI I or CSI II. Schools that were federally classified as CSI previously and failed to meet exit criteria will remain in CSI status for the 2023-2024 school year.

Identification of TSI is required annually. State law requires three years of data to be used to identify schools for TSI. However, TSI identification in the fall of 2023 will be based on two years of data, 2021-2022 and 2022-2023. Beginning in the fall of 2024, three years of data will be used for TSI identification.

No new schools have been identified for ATSI for the 2022-2023 school year; however, some schools did not meet criteria to exit ATSI status. Schools that were first identified in 2018-2019 and did not exit ATSI are now CSI III.

Funding will not be withheld from a school or a district if it does not rate highly in the state's accountability system. In fact, schools federally classified as CSI receive extra funding and support from KDE to help implement research-based strategies aimed at increasing student achievement.

In 2022-2023, Kentucky public school students in grades 3 through 8, 10 and 11 took assessments called Kentucky Summative Assessments (KSA) and Alternate Kentucky Summative Assessments (AKSA) in reading, mathematics, social studies, editing and mechanics and on-demand writing. Students take reading and mathematics assessments annually in grades 3 through 8 , and grade 10. Other subjects are assessed once per grade level with social studies and editing and mechanics and on-demand writing assessed in grades 5,8 and 11. Science continued to be assessed in grades 4, 7 and 11.

All data for the 2022-2023 assessment and accountability reporting are included in a colorcoded dashboard publicly available at kyschoolreportcard.com. To search for a school or district's results, simply type the name of the school or district in the search bar on the homepage. To search for results for all of Kentucky, enter "Kentucky" in the search bar.

## KENTUCKY'S ACCOUNTABILITY SYSTEM:

WHAT YOU SHOULD KNOW

1. Kentucky's approach to combine Status and Change Scores is simple, easy to understand and communicate. One goal of Kentucky's Accountability System is to provide educational actionable data. For data to be useful, educators must understand the relationship between student results and school accountability measures.
*Note: Adding the Change component, as stated above, dramatically changes the accountability system. With this release, data should not be compared to last year or previous years when analyzing the results. Comparisons may be made in assessment performance; accountability comparisons can be made between schools at each level (i.e., elementary to elementary) within the same year.
2. Development of this accountability system concentrated on, 1) requirements of state and federal law, 2) weights and Indicator Performance Ratings established by the Kentucky Board of Education, and 3) the priorities of Local Superintendent Advisory Council and the Accountability Standard Setting workshop participants.
3. The Accountability Standard Setting Committee which included 29 education stakeholders unanimously recommended cut scores.
4. For each indicator, the standard setting committee recommended cut scores for Status Levels of very low, low, medium, high and very high, and Change Levels of declined significantly, declined, maintained, increased and increased significantly. Status and Change Levels combine using a $5 \times 5$ color table to assign Indicator Performance Ratings. For the Overall Performance Rating, no specific percentage of schools are required to be at each rating level. Panelists used a percentile distribution as a base for their decision making.
5. The Interim Commissioner of Education reviewed and approved the cut scores based on the recommendations from the Accountability Standard Setting Committee as did the

Local Superintendent Advisory Council (LSAC) during their meeting on Oct. 10.
6. Indicator performance ratings and an overall color performance rating are reported for each Kentucky public school. Assigned color ratings are red (the lowest), orange, yellow, green or blue (the highest). Schools' accountability and other education data are located in Kentucky's School Report Card.
7. Each school was assigned a rating of one of five colors, based on the overall score of combined school-level measures and indicators of State Assessment Results in Reading and Mathematics, State Assessment Results in Science, Social Studies and Writing, Quality of School Climate and Safety, English Learner Progress, Postsecondary Readiness and Graduation Rate using the weights approved by the KBE.

## Noteworthy Results

Kentucky's schools and districts, like so many across the nation, continue to recover from the impact of the pandemic and other factors affecting our students. It is important to note that during the 2022-2023 school year 23 schools previously identified as CSI have exited this status. Additionally, 185 schools previously identified as TSI have exited as well. Though there remains a considerable amount of work to ensure all students demonstrate proficiency on the state assessments, it is critical to acknowledge the dedication and commitment of our educators throughout Kentucky.

## 2022-2023 ACCOUNTABILITY INDICATORS AND MEASURES

Accountability for 2022-2023 is based on indicators at each level. The measures for each indicator are calculated as outlined in 703 KAR 5:270, approved by the KBE and included within the Kentucky's Every Student Succeeds Act (ESSA) Consolidated State Plan approved by the United States Department of Education, to determine indicator scores.

Note: Comparisons of overall and indicator scores to the prior year are not valid because of the addition of Change to the accountability system for 2023. Accountability comparisons can be made between schools at each level (i.e., elementary to elementary) within year.

## State Assessment Results in Reading/Mathematics Indicator:

The State Assessment Results in Reading/Mathematics Indicator is defined as reaching the desired level of knowledge and skills as measured on state-required academic assessments. It is designed to measure how students achieve on Kentucky's Academic Standards (KAS) in reading and mathematics.

The measures used to determine proficiency are:

- Student performance on tests in reading and mathematics
- Reading and mathematics are measured at grades 3-8 and 10 through the KSA and AKSA summative assessments
- Equal weight for reading and mathematics
- Schools earn points based on student performance levels: Novice (0 points); Apprentice (. 5 point); Proficient (1 point); and Distinguished (1.25 points)
- Student performance is aggregated to school, district and state levels

## State Assessment Results in Science/Social Studies/Writing Indicator:

The State Assessment Results in Science/Social Studies/Writing Indicator is defined as reaching the desired level of knowledge and skills as measured on state-required academic assessments. It is designed to measure how students achieve on Kentucky's Academic Standards (KAS) in science, social studies and writing.

The measures used to determine the separate academic indicator are:

- Student performance on tests in science (grades 4, 7 and 11), social studies and writing (grades 5, 8 and 11) The student performance level for writing combines student performance on editing and mechanics and on demand writing.
- Science, social studies and combined writing are weighted equally
- Schools earn points based on student performance levels: Novice (0 points); Apprentice (. 5 point); Proficient (1 point); and Distinguished (1.25 points)
- Student performance is aggregated to school, district and state levels

## Postsecondary Readiness Indicator (High School Only):

The Postsecondary Readiness Indicator gives students flexibility on how they demonstrate either academic or career readiness. Points for this indicator are earned when students meet expectations for either academic or career readiness by:

- Meeting or exceeding a college readiness benchmark score on the college admissions examination or a college placement examination approved by the CPE;
- Achieving a minimum of three (3) hours of dual credit by completing a course approved by the KBE or qualifying for a minimum of three (3) hours of postsecondary articulated credit associated with a statewide articulation agreement;
- Achieving a benchmark score on an AP, IB, CAI, or other nationally recognized exam approved by the KBE that generally qualifies the student for three (3) or more hours of college credit;
- Completing a required number of hours or achieving a benchmark within an apprenticeship, cooperative, or internship that is aligned with a credential or associate degree and approved by the KBE after receiving input from the LSAC; or
- Achieving any industry-recognized certifications, licensures, or credentials, with more weight in accountability for industry-recognized certifications, licensures or credentials identified as high demand.

## Graduation Rate Indicator (High School Only):

The Graduation Rate Indicator includes a 4-year and 5-year adjusted cohort graduation rate. Both the 4-year and 5 -year adjusted cohort formula uses the number of students who graduate in four and five years divided by the number of students who form the adjusted cohort for the graduating class. The 5 -year rate recognizes the persistence of students and educators in completing the requirements for a Kentucky high school diploma. Kentucky's Graduation Rate indicator averages the 4- and 5-year rates.

## FEDERAL REPORTING

The KDE is required under federal and state law to identify schools for Targeted Support and Improvement (TSI), Additional Targeted Support and Improvement (ATSI) and Comprehensive Support and Improvement (CSI).

Comprehensive Support and Improvement (CSI)
No new schools have been identified for CSI I or CSI II for the 2022-2023 school year. No new schools were identified for CSI I or CSI II. Schools that were federally classified as CSI previously and failed to meet exit criteria will remain in CSI status for the 2023-2024 school year. Schools that met exit criteria are no longer identified. Schools that did not exit ATSI status after three years are now identified as CSI III.

## Targeted Support and Improvement (TSI)

Schools are identified as TSI when one or more of the same subgroups perform as poorly as all students in any of the lowest performing $5 \%$ of Title I schools or non-Title I schools by level (elementary, middle or high school), for three consecutive years. Please note that identification in fall of 2023 is based on 2021-2022 and 2022-2023 school year data only.

## Additional Targeted Support and Improvement (ATSI)

No new schools have been identified for ATSI for the 2022-2023 school year, but some schools did not meet criteria to exit ATSI status. Schools that were first identified in 2018-2019 and did not exit ATSI are now CSI III.

## STATE TESTING RESULTS

Kentucky administers state tests known as the Kentucky Summative Assessments (KSA) and the Alternate Kentucky Summative Assessments (AKSA). The tests were developed by Kentucky teachers and align with the Kentucky Academic Standards in each content area.

All students in grades 3 through 8 and 10 take reading and mathematics tests in the spring of each year. The other subjects are tested once per level (science in grades 4,7 and 11; social studies, editing and mechanics and on-demand writing in grades 5, 8 and 11).

Students with disabilities who qualify take AKSA tests. English language learners take ACCESS 2.0, which serves as the basis for English proficiency determinations.

The tables below contain the participation rates and the percentage of students performing at the proficient/distinguished level on KSA tests by level. The goal is to move all students to a higher performance category and ultimately to the proficient performance level or above on KSA and AKSA tests. Student performance on these tests serves as the basis for several indicators in Kentucky's accountability system.

Kentucky's Postsecondary Readiness Indicator includes demonstration of ONE academic/career-readiness component. Students may demonstrate academic readiness at the high school level by meeting a Kentucky Council on Postsecondary Education (CPE) systemwide benchmark for either English (18), mathematics (19) or reading (20) on any administration of the ACT.

Students attending a Kentucky public college or university and who meet the Kentucky systemwide standards of readiness are guaranteed access to credit-bearing college coursework without the need for developmental education or supplemental courses.

Table B2: Percentages of Kentucky Public School Juniors Who Meet CPE Benchmarks for College-Level Readiness

| Year | English | Mathematics | Reading |
| :---: | :---: | :---: | :---: |
| $2018-19$ | 49.1 | 36.4 | 46.0 |
| $2019-20$ | 50.0 | 38.2 | 45.6 |
| $2020-21$ | 42.6 | 30.0 | 40.2 |
| $2021-22$ | 45.8 | 30.6 | 45.1 |
| $2022-23$ | 47.8 | 32.9 | 44.8 |

^Data from 2020-2021 should not be compared to current or prior years' data due to the number of test takers, changes to the assessment window (the state received a waiver for an extended testing window), and modified instructional settings.
*School readiness is defined in 704 KAR 5:070 as "a student entering school is ready to engage in and benefit from early learning experiences that best promote the student's success."
*The K screen utilized provides a snapshot of student readiness in the following domains: academic/cognitive, language development, physical development, self-help, and socialemotional. Self-help and social-emotional scales are parent reported and do not figure into readiness scores reported here.

Note: Kindergarten readiness is reported as students who have scored Ready with Interventions, Ready, and Ready with Enrichments. Kindergarten Ready percentage includes students who scored Ready and Ready with Enrichments.
