<u>NEW APPS INFORM STUDENTS, PARENTS ON SCHOOL WORK</u>

(Frankfort, KY) – Kentucky public school students and parents have a new, updated tool to keep them engaged and up to date on student attendance and school work.

The "Campus Student" and "Campus Parent" apps provide secure access to individual student information housed in Infinite Campus, Kentucky's student information system. Both apps are available for download from the Apple App Store or Google Play Store and replace the existing Campus Portal with a more intuitive and user-friendly experience.

The apps provide real-time access to grades, assignments, attendance, schedules, announcements and more. The easy-to-use design displays what is currently happening in the classroom so students and parents can understand, monitor, and participate in the educational process. Plans call for new tools such as online payments and food service to be added.

Those using the old Infinite Campus app will need to download the new app, as the old one will no longer be supported.

Parents and students should reach out to their local school or district with any questions or for login credentials.
