

Amira Diagnostic Houghton Mifflin Harcourt

Diagnostic	
Variable	Details
Description	The Amira Diagnostic is a configuration of subtests designed to evaluate a student's specific strengths and challenges in the areas of Phonological Awareness, Decoding/Phonics, High Frequency Word Recognition, and Vocabulary. The purpose of this assessment is to aid educators in understanding which of these skill sets a student has mastered and which require further development, so that they can develop targeted instructional plans that will help the student become a successful reader.
