Kentucky Academic Standards for Visual and Performing Arts

INTRODUCTION

Background

The mission of visual and performing arts education in Kentucky is to understand the arts as a vehicle that shapes and reflects every culture and individual on Earth. By providing the framework for a rigorous visual and performing arts education, the *Kentucky Academic Standards (KAS) for Visual and Performing Arts* is designed to promote a student's ability to become a lifelong, artistically literate citizen who actively engages in creating, performing and responding to the arts. To be artistically literate, students must be able to develop new ideas for works that convey meaning and make connections between artistic ideas and external context. The writers' vision is that the implementation of these standards will help Kentucky students become artistically literate people who support the arts in their local, regional and global communities to gain a greater understanding of the human experience.

Kentucky's Vision for Students

The connective nature of the arts in all its forms, dance, media arts, music, theatre and visual arts, involves both looking inward and outward. Students learn to relate artistic ideas with the world around them which directly aligns with the vision of the Kentucky Board of Education (KBE). The board's vision is that each and every student will become an engaged citizen and empowered learner prepared to lead a life filled with purpose. To engage and empower students, the following capacity and goal statements frame instructional programs in Kentucky schools. These statements were established by the Kentucky Reform Act (KERA) of 1990, as found in Kentucky Revised Statute (KRS) 158.645 and KRS 158.6451 stating that all students shall have the opportunity to acquire the following capacities and learning goals:

- Communication skills necessary to function in a complex and changing civilization:
- Knowledge to make economic, social and political choices;
- Core values and qualities of good character to make moral and ethical decisions throughout life;
- Understanding of governmental processes as they affect the community, the state and the nation;
- Sufficient self-knowledge and knowledge of their mental and physical wellness;
- Sufficient grounding in the arts to enable each student to appreciate their cultural and historical heritage;
- Sufficient preparation to choose and pursue their life's work intelligently; and
- Skills to enable them to compete favorably with students in other states.

Furthermore, schools shall:

- Expect a high level of achievement from all students.
- Develop their students' ability to:
 - Use basic communication and mathematics skills for purposes and situations they will encounter throughout their lives;
 - Apply core concepts and principles from mathematics, the sciences, the arts, the humanities, social studies and practical living studies to situations they will encounter throughout their lives;
 - Become self-sufficient individuals of good character exhibiting the qualities of altruism, citizenship, courtesy, hard work, honesty, human worth, justice, knowledge, patriotism, respect, responsibility and self-discipline;
 - Become responsible members of a family, work group or community, including demonstrating effectiveness in community service;
 - Think and solve problems in school situations and in a variety of situations they will encounter in life;
 - Connect and integrate experiences and new knowledge from all subject matter fields with what they have previously learned and build on past learning experiences to acquire new information through various media sources; and
 - Express their creative talents and interests in visual arts, music, dance and dramatic arts.
- Increase student attendance rates.
- Increase students' graduation rates and reduce dropout and retention rates.
- Reduce physical and mental health barriers to learning.
- Be measured on the proportion of students who make a successful transition to work, postsecondary education and the military.

To ensure legal requirements of visual and performing arts classes are met, the Kentucky Department of Education (KDE) encourages schools to use the "Model Curriculum Framework" to ensure curricular coherence in the development of curricula that meet the grade-level expectations set forth by standards. The "Model Curriculum Framework" describes curricular coherence as the "local alignment of standards, curriculum, instructional resources and practices, assessment, and professional learning within and across grade-levels in a district or school to help students meet grade-level expectations," (p. 6).

Legal Basis

The following Kentucky Revised Statutes (KRS) and Kentucky Administrative Regulations (KAR) provide the legal basis for this publication:

KRS 156.160 Promulgation of administrative regulations by the Kentucky Board of Education

With the advice of the Local Superintendents Advisory Council (LSAC), the Kentucky Board of Education (KBE) shall promulgate administrative regulations establishing standards that public school districts shall meet in student, program, service and operational performance. These regulations shall comply with the expected outcomes for students and schools set forth in KRS 158.6451. KRS 156.160(1)(a) requires the Kentucky Board of Education to establish courses of study for the different grades and kinds of common schools with the courses of study to comply with the expected goals, outcomes, and assessments developed under KRS 158.645, 158.6451, and 158.6453.

KRS 158.6453 Review of academic standards and assessments

(18)(a) Beginning in fiscal year 2017-2018, and every six (6) years thereafter, the Kentucky Department of Education shall implement a comprehensive process for reviewing and revising the academic standards in visual and performing arts and practical living skills and career studies for all levels and in foreign language for middle and high schools. The department shall develop review committees for the standards for each of the content areas that include representation from certified specialist public school teachers and postsecondary teachers in those subject areas.

704 KAR 3:305 Minimum high school graduation requirements

This administrative regulation establishes the minimum high school graduation requirements necessary for entitlement to a public high school diploma.

704 KAR 8:130 Kentucky Academic Standards for Visual and Performing Arts

This administrative regulation adopts into law the *Kentucky Academic Standards for Visual and Performing Arts*.

Standards Creation Process

Per KRS 158.6453, the *KAS for Visual and Performing Arts* was entirely conceived and written by teams of Kentucky educators. Kentucky teachers understand the importance of a rigorous arts education from elementary and secondary to postsecondary readiness. This focus helps ensure that students are prepared for the jobs of the future and can compete with students from other states and nations.

The Visual and Performing Arts Advisory Panels (AP) were composed of 15 teachers, three public post-secondary professors from institutes of higher education and three community members. The function of the AP was to review public comments on the existing standards and make recommendations for changes to a Review Committee (RC). The Visual and Performing Arts RC was composed of six teachers, one public post-secondary professor from an institute of higher education and two community members. The function of the Visual and Performing Arts RC was to review the work and findings from the APs and make recommendations to revise or replace existing standards.

The team was selected based on their expertise in the field of visual and performing arts and their role as practicing arts teachers and artists. When choosing writers, the selection committee considered statewide representation of all five arts disciplines (dance, media arts, music, theatre and visual arts) for public elementary, middle and high school teachers as well as higher education instructors and community members.

Writers' Vision Statement

Intentional inclusion of a rigorous visual and performing arts education is imperative to attaining the vision of the KBE where “each and every Kentucky learner will become an engaged citizen.” In order to cultivate this significant interdisciplinary connection, the writing team envisioned student-focused standards that engage and empower all to explore the arts processes of creating, performing/producing/presenting, responding and connecting through:

- Creativity,
- Critical thinking,
- Communication,
- Collaboration,
- Problem Solving, and
- Investigating the past, present and future.

Through arts standards and content-specific professional learning rooted in equitable access to the arts, educators will provide a meaningful, high-quality arts education for all K-12 students. Equity in the arts includes identifying and eliminating conditions that prevent the ability of all students, including those in underserved communities, to reach their full potential. This foundation considers the needs and initiatives of students and enables young artists to become change agents now and in the future.

The study of diverse processes, people and backgrounds in the arts disciplines of dance, media arts, music, theatre and visual arts will directly impact the engagement, inclusivity and growth of all students and encourage the development of authentic, life-long connections to the arts as consumers, curators and creators.

Additionally, participants brought their own knowledge to the process. The writers also thoughtfully considered feedback from the public and visual and performing arts community.

Design Considerations

Design decisions were informed by reviews of current evidence-based practices, state visual and performing arts standards and public comments regarding the 2015 *KAS for Visual and Performing Arts*.

STANDARDS USE AND DEVELOPMENT

The Kentucky Academic Standards (KAS) are Standards, Not Curriculum

The KAS for Visual and Performing Arts outlines the minimum standards Kentucky students should learn in each grade level kindergarten through 8th grade or high school grade-span. The standards address what is to be learned, but do not address how learning experiences are to be designed or what resources should be used.

A standard represents a goal or outcome of an educational program; standards are vertically aligned, expected outcomes for all students. The standards do not dictate the design of a lesson plan or how units should be organized. The standards establish a statewide baseline of what students should know and be able to do at the conclusion of a grade or grade-span. The instructional program should emphasize the development of students' abilities to acquire and apply the standards. The curriculum must ensure that appropriate accommodations are made for diverse populations of students found within Kentucky schools.

These standards are not a set of instructional or assessment tasks, but rather statements of what students should be able to do after instruction. Decisions on how best to help students meet these program goals are left to local school districts and teachers. Curriculum includes the vast array of instructional materials, readings, learning experiences and local mechanisms of assessment, including the full body of content knowledge to be covered, all of which are to be selected at the local level according to Kentucky law.

Translating the Standards into Curriculum

The KDE does not require specific curricula or strategies to be used to engage students in the *Kentucky Academic Standards*. Local schools and districts choose to meet the minimum required standards using a locally adopted curriculum according to KRS 160.345, which outlines the method by which the curriculum is to be determined. As educators implement academic standards, they, along with community members, must guarantee postsecondary readiness that will ensure all learners are transition ready. To achieve this, Kentucky students need a curriculum designed and structured for a rigorous, relevant and personalized learning experience, including a wide variety of learning opportunities. The Kentucky *Model Curriculum Framework* is a resource to support districts and schools in the continuous process of developing and reviewing local curriculum.

Organization of the Standards

The KAS for Visual and Performing Arts is designed to engage students in artistic processes and creative expression. Performance standards are discipline-specific grade-by-grade articulations of student achievement in the arts (dance, media arts, music, theatre, visual arts). Standards for all grade levels, K-8, and at three high school proficiency levels indicate what students should know and be able to do. The overarching anchor standards are common throughout all five arts disciplines and the performance standards translate the anchor standards into specific, measurable goals for learning.

The KAS for Visual and Performing Arts was written using enduring understandings and essential questions to help educators, students and families understand the information, skills and experiences within artistic processes. The addition of identified key vocabulary brings clarity to discipline-specific terminology while clarification statements are provided as needed to further explain specific aspects of the standards.

Artistic Literacy:

Literacy of the arts includes speaking, listening, observing/viewing, reading, writing and creating practices that students use to access, understand, analyze and communicate their knowledge about all disciplines of the visual performing arts (dance, media arts, music, theatre and visual arts). Infusing technology in the visual and performing arts classroom can help students achieve artistic literacy as they develop creativity, critical thinking and arts skills while also preparing them for success in a tech-rich world of work and artistic possibility.

Artistic Processes:

The *KAS for Visual and Performing Arts* focuses on nurturing artistic literacy through student engagement in the four artistic processes of creating, performing/presenting/producing, responding and connecting.

1. **Creating:** Conceiving and developing new artistic ideas and work. Standards within the Creating process are color-coded blue.

Creating involves planning and creating new dance, media arts, music, theatre, or visual arts. Creating may involve improvising in music, dance or theatre. Improvising is the composing of new music, reciting/acting new dramatic material or creating new dance movements on the spur of the moment.

2. **Performing/Producing/Presenting:** Realizing artistic ideas and work through interpretation and presentation. Standards within the Performing/Producing/Presenting process are color-coded purple.

Performing is displayed in the performing arts of music, dance and theatre. Performing generally involves sharing previously created works with an audience. Although the process of performing involves following a creative plan conceived by a composer, playwright or choreographer, there is still opportunity for creative interpretations within the performance.

Producing is the process of sharing work through media arts. Since media arts productions do not result in performances, the sharing process is different from the performing arts. Media artists still follow the same steps in the creation of works and preparation of works for sharing with others; however, the result is more often a product that could include, but is not limited to, a video or video game.

Presenting is often associated with sharing in more formal settings that could include, but is not limited to, an exhibition in the visual arts. When preparing works for presenting, considerations are made for the audience, venue and communication aspects of a presentation.

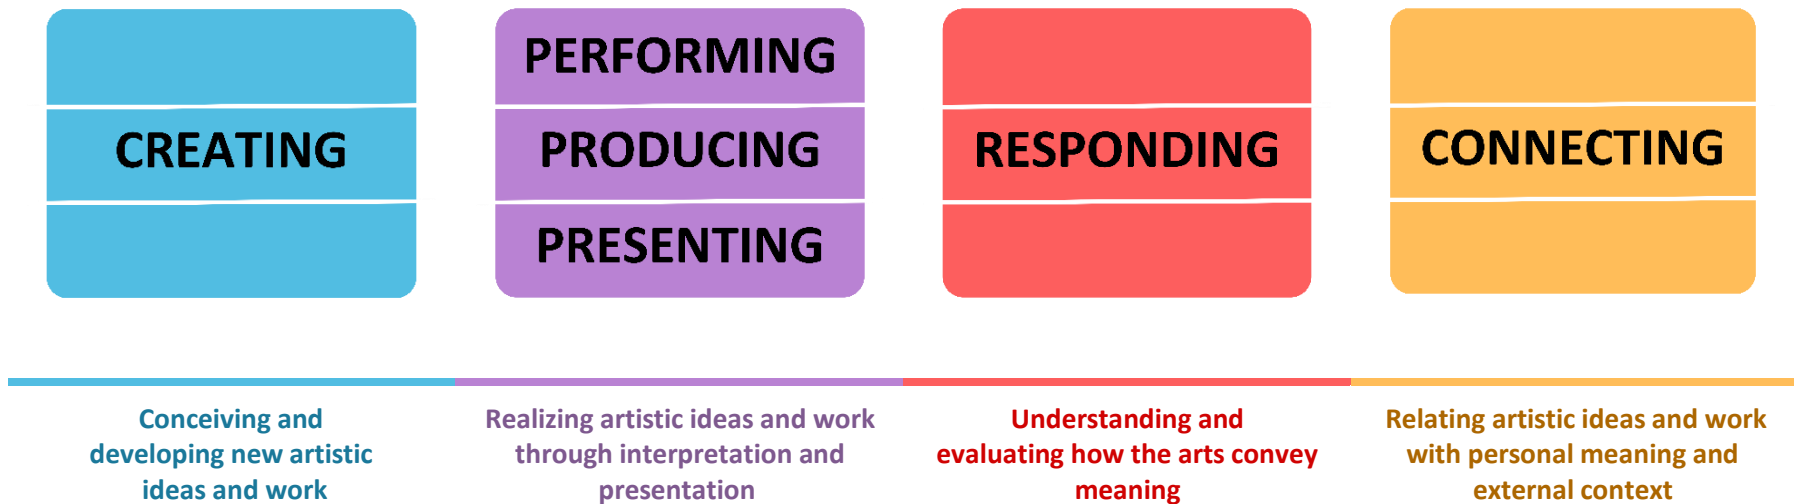

3. **Responding:** Understanding and evaluating how the arts convey meaning. Standards within the Responding process are color-coded coral.

Responding to the arts involves having the viewer interpret the meanings in artist works. The arts are created for the purpose of communication. Responding to the arts enables the viewer and/or audience to gather the intent of the work and the message being shared by the artist.

4. **Connecting:** Relating artistic ideas and work with personal meaning and external context. Standards within the Connecting process are color-coded yellow.

Connecting involves both looking inward and outward. Artists use personal experiences and gained knowledge to inform their own creative works. They also relate artistic ideas with the world around them by making connections to society, culture and history. This deepens the understanding of the work and appreciation of those who create the arts.

Overview of the four Artistic Processes:

Performance Standards:

Each arts discipline includes a set of performance standards. These standards illustrate what each of the anchor standards might look like as students engage in the artistic processes within an arts discipline. Performance standards are written for grades K-8 as grade level standards, and at the high school in three proficiency levels; proficient, accomplished and advanced. All performance standards align to the eleven overarching anchor standards.

Anchor Standards:

The 11 anchor standards are a unifying element across the arts disciplines that describe the artistic literacy that students should demonstrate throughout their education. These are not to be confused with the discipline-specific performance standards, which express individual measurable goals for learning in dance, media arts, music, theatre and visual arts. Collectively, the inclusion of the anchor standards creates a cohesive and aligned system that allows for both commonality across the disciplines and specificity within each discipline.

There are 11 anchor standards: three anchor standards describe learning in creating, performing/presenting/producing and responding while the artistic process of connecting has two anchors.

The anchor standards describe the general knowledge and skill that teachers expect students to demonstrate throughout their education in the arts. These anchor standards are parallel across arts disciplines and grade levels and serve as the tangible educational expression of artistic literacy.

Grade Level Overview:

Elementary Level – Grades K-5

The visual and performing arts program at the primary level, grades K-2, centers on an exploration of the arts disciplines of dance, media arts, music, theatre and visual arts. Instructional emphasis at the primary level should be placed on exposing students to a variety of arts through active experiences. This exploration includes the beginning of arts literacy development, simple analysis and critique of the arts, and active sharing of their work with others. Students should begin making connections between the arts and their own personal experiences, along with beginning to realize how the arts convey meaning and reflect human experience. Students can begin to learn how they can use the arts to communicate meaning through their choices in the use of arts elements and principles.

At the intermediate level, grades 3-5, students continue exploration of the arts disciplines of dance, media arts, music, theatre and visual arts. Instructional emphasis at the intermediate level should continue to expose students to a variety of arts through active experiences. This exploration includes the continuation of arts literacy development, simple analysis and critique of the arts, and active sharing of their work with others. Students should be making connections between the arts and their own personal experiences, along with connections to how the arts convey meaning and reflect human experience. Students demonstrate more confidence in applying the arts to communicate meaning and through their choices in the use of arts elements and principles.

Middle Level – Grades 6-8

The visual and performing arts program at the middle level, grades 6-8, provides a grounding in the arts so that students are able to communicate at a basic level in each of the arts disciplines of dance, media arts, music, theatre and visual arts. Emphasis should be placed on exposing students to a variety of arts through active experiences. Students may have already begun or may choose to focus on one art discipline for more in-depth study. This more in-depth study will support students in the future if they choose to specialize in an art form at the high school level. Working toward this grounding in the arts engages students in arts literacy development, analysis and critique of the arts, and active sharing of their own work with others.

High School – Proficiency Levels

The visual and performing arts program at the high school level allows students to specialize in one or more arts discipline. Specialization enables students to study an arts discipline (dance, media arts, music, theatre or visual arts) in an in-depth manner and work toward achieving the more rigorous proficiency levels of accomplished or advanced in creating, performing and responding to their chosen arts discipline. Students who specialize in an arts discipline will participate in performance-based arts courses designed to develop skills and understanding that will allow students to use the arts discipline as a high-level communication tool. This is accomplished through the development of skills in the processes that artists engage in to make the arts.

Students choosing not to specialize in an arts discipline will move beyond the grounding in the arts achieved at the middle school level toward proficiency in the arts. Achieving proficiency in the arts requires that students are exposed to a variety of arts disciplines through active experiences. While connecting to the arts is a natural outcome of this more general approach to arts education, engagement in the creating, performing and responding aspects of the arts remains critical in the general education of all students and promotes deep understanding and appreciation of the arts.

Descriptors for High School Proficiency levels for Performance Standards

Proficient	Accomplished	Advanced
<p>Students at the Proficient level have developed the foundational understandings and technical and expressive skills necessary to solve assigned problems or prepare assigned repertoires for presentation in an arts discipline. Students might address these challenges by making appropriate choices with some support.</p> <p>They understand an arts discipline to be an important form of personal realization and wellbeing and make connections between all the arts disciplines and other content areas.</p> <p>Students might be prepared for active engagement in their community by seeking artistic experiences and supporting the arts in their local, state, national and global communities.</p> <p>Students who have demonstrated the Proficient level find at least one arts discipline in which they develop sufficient competence to continue active involvement in creating, performing and responding to the arts beyond high school.</p>	<p>Students at the Accomplished level demonstrate the knowledge and skills of an arts discipline beyond the Proficient level. Accomplished students are able to identify or solve arts problems based on their interest or for a specific purpose, with minimal assistance. Students might conduct research to inform artistic decisions. Furthermore, these students might create and refine arts products, performances or presentations that demonstrate technical proficiency, personal communication and expression.</p> <p>Students might use a variety of artistic media, symbols and metaphors to independently create and perform work that expresses and communicates their own ideas and are able to respond by analyzing and interpreting the artistic communications of others.</p> <p>Students who have demonstrated the Accomplished level use an arts discipline for personal realization and wellbeing. Students might find joy, intellectual stimulation, and other life-enhancing qualities through participation in all arts disciplines. These students have the necessary skills for, and interest in, participation in arts activities beyond the school environment.</p>	<p>Students at the Advanced level demonstrate the knowledge and skills in an arts discipline beyond the Accomplished level. Advanced students independently investigate challenging arts problems and bring creativity and insight to finding artistic solutions. They effortlessly use at least one arts discipline as an effective avenue for personal communication. In addition, these students demonstrate a higher level of technical and expressive demonstration in their performances or presentations.</p> <p>Students use their personal strengths and apply strategies to overcome personal challenges as arts learners. They can take a leadership role in arts activities within and beyond the school environment.</p> <p>Students who have demonstrated the Advanced level rigorously and substantially expand their knowledge, skills and understandings throughout their engagement with an arts discipline.</p>

Annotated Standards Chart Key:

1. The **Arts Disciplines** of visual and performing arts includes dance, media arts, music, theatre and visual arts.
2. Artistic **Processes** are the cognitive and physical actions by which arts learning and making are realized and include creating, performing/producing/presenting, responding and connecting. These processes define and organize the relationship between the art and the learner.
3. **Process Components** are the actions artists carry out as they complete each artistic process. Students' ability to carry out these operational verbs empowers them to work through the artistic process independently.
4. **Anchor Standards** describe the general knowledge and skill that teachers expect students to demonstrate throughout their education in the arts. These anchor standards are parallel across arts disciplines and grade levels and serve as the tangible educational expression of artistic literacy.
5. **Enduring Understandings** summarize important ideas and processes that are central to an arts discipline. They allow the standards to be steeped in rigor and focused on students' ability to demonstrate understanding through performance.
6. **Essential Questions** guide students as they uncover enduring understandings. These questions are open-ended, designed to stimulate thought and empower students to work through the artistic processes independently.
7. **Key Vocabulary** terms are specific to their use in the standards and the artistic discipline. They are defined in the discipline-specific glossary and are not the only terms that may be used in instruction. Demonstrating mastery of the standards requires students to go beyond knowing the definition of these terms. Key vocabulary is denoted within the standards language as an underlined term, which links to the discipline-specific glossary at the end of each discipline's set of performance standards.
8. The **Grade/Proficiency Levels** are indicated for Kindergarten (K) to grade 8. High school is organized by these proficiency levels: proficient (prof), accomplished (acc) and advanced (adv).
9. **Standards Coding** is shorthand identification (*see pg. 15, Example A*) for each performance standard, which reflects the arts discipline, artistic process, anchor standard, process component, grade level or proficiency level. Within the clarification section of the standards layout, standards coding appears only when there is a need to indicate the specific part of a multi-part standard for which clarification is being provided (*see pg. 15, Example B*).
10. **Standards Language** is the discipline-specific grade-by-grade or proficiency level articulation of student achievement in the arts discipline. They indicate what students should know and be able to do in grades K-8 and at three proficiency levels in high school.
11. **Clarification Statements** are one or two sentences that provide examples or particular emphasis that can assist in further understanding the expectations of the standard. The provided disciplinary clarifications are suggestions; they are not the only pathways and are not comprehensive to obtain mastery of the standards. Not all standards include a clarification statement.

Coding of the Standards:

Performance standards are coded to reflect the **Arts Discipline, Artistic Process, Anchor Standard, Process Component** and **Grade Level** or **High School Proficiency** level.

Example A. The table below uses the standard **DA:Cn10.1.K** to explain the coding (Elementary):

DA:	Cn	10.	1.	K
Arts Discipline: <i>Dance</i>	Artistic Process: <i>Connecting</i>	Anchor Standard: <i>AS-10</i>	Process Component: <i>first</i>	Grade Level: <i>Kindergarten</i>

Example B. The table below uses the standard **MA:Cr3.1.2** to explain the coding for a multi-part standard (Elementary):

MA:	Cr	3.	1.	2.	a
Arts Discipline: <i>Media Arts</i>	Artistic Process: <i>Creating</i>	Anchor Standard: <i>AS-3</i>	Process Component: <i>first</i>	Grade Level: <i>Grade 2</i>	Multi-part: <i>Part a.</i>

MA:	Cr	3.	1.	2.	b
Arts Discipline: <i>Media Arts</i>	Artistic Process: <i>Creating</i>	Anchor Standard: <i>AS-3</i>	Process Component: <i>first</i>	Grade Level: <i>Grade 2</i>	Multi-part: <i>Part b.</i>

Example C. The table below uses the standard **TH:Pr6.1.7** to explain the coding (Middle School):

TH:	Pr	6.	1.	7
Arts Discipline: <i>Theatre</i>	Artistic Process: <i>Performing</i>	Anchor Standard: <i>AS-6</i>	Process Component: <i>first</i>	Grade Level: <i>Grade 7</i>

Example D. The table below uses the standard **VA:Cr2.3.Acc** to explain the coding (High School):

VA:	Cr	2.	3.	Acc
Arts Discipline: <i>Visual Arts</i>	Artistic Process: <i>Creating</i>	Anchor Standard: <i>AS-2</i>	Process Component: <i>third</i>	HS Proficiency: <i>Accomplished</i>

Example E. The table below uses the standard **MU:E.Re7.1.Adv** to explain the coding for a High School Music strand:

MU:	E.	Re	7.	1.	Adv
Arts Discipline: <i>Music</i>	HS Music Strand: <i>Traditional and Emerging Ensemble</i>	Artistic Process: <i>Responding</i>	Anchor Standard: <i>AS-7</i>	Process Component: <i>first</i>	HS Proficiency: <i>Advanced</i>

Dance Standards

Introduction

Dance is the rhythmic movement of the body in time and space. It may be the oldest art form, as humans are able to dance before they can speak. People dance to move, to communicate, to connect and to share emotions. Dance can be a social activity, physical exercise, a part of cultural heritage and a form of artistic expression. Dance education seeks to develop the knowledge and skills students need to create, perform, communicate and respond in this art discipline. In learning about dance, students read symbol systems, work collaboratively, exchange ideas, engage in critical thinking and employ nonverbal reasoning and communication skills while applying intra- and interpersonal knowledge of self and others. Intentional inclusion of a rigorous dance education program that emphasizes using movement to communicate about the human experience will support students in becoming authentic, life-long consumers, curators and creators of the arts.

Dance Literacy

Dance Literacy is the total experience of dance learning that includes the doing and knowing about dance: dance skills and techniques, dance making, knowledge and understanding of dance vocabulary, dance history, dance from different cultures, dance genres, repertory, performers and choreographers, dance companies and dance notation and preservation. To be literate in dance, students need the knowledge and skills of this discipline to develop fluency and deep understanding.

These dance standards describe expectations for learning in dance regardless of style or genre and impart the breadth and depth of the dance experience through the art-making processes. They are the impetus for dance educators to inspire their students to explore the many facets of dance, including social and cultural. In addition, through the dance standards, students will discover their personal connection to the deep human tradition of dance and embrace the lifelong enjoyment that creating, performing, studying and viewing dance can bring.

Dance Foundations

For effective implementation of the dance standards, there are foundational pieces that must be fully understood to reach the depth of study in dance. These foundational pieces include the Elements of Dance.

Elements of Dance

The key components of movement; movement of the body using space, time and energy/force.

When a **Dance Foundations** term appears, it will be **bolded**. When implementing these standards, all components of the terms above should be included.

DANCE

CREATING

PROCESS COMPONENT:
EXPLORE

Anchor Standard 1	Generate and conceptualize artistic ideas and work.
Enduring Understanding	Choreographers use a variety of sources as inspiration and transform concepts and ideas into movement for artistic expression.
Essential Question	Where do choreographers get ideas for dances?
Key Vocabulary	Locomotor, Non-locomotor, Stimuli

Standards

Kindergarten	Grade 1	Grade 2
<p>DA:Cr1.1.K.a) Respond in movement to a variety of stimuli.</p> <p>DA:Cr1.1.K.b) Explore different ways to do basic locomotor and non-locomotor movements by changing at least one of the Elements of Dance.</p>	<p>DA:Cr1.1.1.a) Explore movement inspired by a variety of stimuli and identify the source.</p> <p>DA:Cr1.1.1.b) Explore a variety of locomotor and non-locomotor movements by experimenting with and changing the Elements of Dance.</p>	<p>DA:Cr1.1.2.a) Explore movement inspired by a variety of stimuli and suggest additional sources for movement ideas.</p> <p>DA:Cr1.1.2.b) Combine a variety of movements while manipulating the Elements of Dance.</p>

Clarifications

<p>DA:Cr1.1.K.a) <i>Stimuli might include music/sound, text, objects, images, symbols and/or an observed dance.</i></p> <p>DA:Cr1.1.K.b) <i>Examples might include changing levels from high to low while walking or changing the tempo of a run initiated through teacher modeling.</i></p>	<p>DA:Cr1.1.1.b) <i>Examples might include changing levels from high to low while walking or changing the tempo of a run.</i></p>	<p>DA:Cr1.1.2.b) <i>An example might be changing a sharp movement to a smooth movement.</i></p>

Essential Question	Where do choreographers get ideas for dances?
Key Vocabulary	Choreography, Movement Problem, Stimuli

Standards

Grade 3	Grade 4	Grade 5
<p>DA:Cr1.1.3.a) Experiment with a variety of self-identified stimuli for movement.</p> <p>DA:Cr1.1.3.b) Using the Elements of Dance, solve a given movement problem. Select and demonstrate a solution.</p>	<p>DA:Cr1.1.4.a) Identify ideas for choreography generated from a variety of stimuli.</p> <p>DA:Cr1.1.4.b) Develop a movement problem and manipulate the Elements of Dance as tools to find a solution.</p>	<p>DA:Cr1.1.5.a) Build content for choreography using several stimuli.</p> <p>DA:Cr1.1.5.b) Construct and solve multiple movement problems using the Elements of Dance to develop choreographic content.</p>

Clarifications

<p>DA:Cr1.1.3.b) <i>Students might work in pairs, groups or individuals to explore and solve movement problems.</i></p>	<p>DA:Cr1.1.4.a) <i>Students might brainstorm and list ideas for a dance before exploring movement.</i></p> <p>DA:Cr1.1.4.b) <i>Students might explore how manipulating the element of energy/force changes the solution to a movement problem.</i></p>	<p>DA:Cr1.1.5.a) <i>Students might use music/sound, text, objects, images, notation, observed dance, experiences, literary forms, natural phenomena, current news or social events to form choreographic ideas.</i></p> <p>DA:Cr1.1.5.b) <i>Students might create a dance using opposite concepts such as smooth/sharp, heavy/light and/or bound/free-flowing in an original work.</i></p>

Anchor Standard 3	Refine and complete artistic work.
Enduring Understanding	Choreographers analyze, evaluate, refine and document their work to communicate meaning.
Essential Question	How do choreographers use self-reflection, feedback from others and documentation to improve the quality of their work?
Key Vocabulary	Improvisation, Improvisational

Standards

Kindergarten	Grade 1	Grade 2
<p>DA:Cr3.1.K.a) Apply suggestions for changing movement through guided improvisational experiences.</p> <p>DA:Cr3.1.K.b) Depict a dance movement by drawing a picture or using a symbol.</p>	<p>DA:Cr3.1.1.a) Explore suggestions to change movement from guided improvisation and/or short remembered sequences.</p> <p>DA:Cr3.1.1.b) Depict several different types of movements of a dance by drawing a picture or using a symbol.</p>	<p>DA:Cr3.1.2.a) Explore suggestions and make choices to change movement from guided improvisation and/or short remembered sequences.</p> <p>DA:Cr3.1.2.b) Depict the levels of movements in a variety of dance movements by drawing a picture or using symbols.</p>

Clarifications

<p>DA:Cr3.1.K.a) <i>The teacher might read a word, poem or story to facilitate a guided improvisational experience for students.</i></p> <p>DA:Cr3.1.K.b) <i>Students might choose the drawing or symbol.</i></p>	<p>DA:Cr3.1.1.b) <i>For example, jump, turn, slide, bend, reach could be drawn using stick figures or lines.</i></p>	<p>DA:Cr3.1.2.b) <i>For example, high, middle and/or low symbols designed by students to indicate level changes.</i></p>

Essential Question	How do dancers work with space, time and energy to communicate artistic expression?
Key Vocabulary	Kinesthetic Awareness, Locomotor, Movement Characteristics, Movement Vocabulary, Non-locomotor, Space, Stimuli, Symmetrical and Asymmetrical, Tempi, Tempo, Time

Standards

Kindergarten	Grade 1	Grade 2
<p>DA:Pr4.1.K.a) Make still and moving body shapes that show lines.</p> <p>DA:Pr4.1.K.b) Demonstrate tempo contrasts with movements that match to tempo of sound stimuli.</p> <p>DA:Pr4.1.K.c) Identify and apply different characteristics to movements.</p>	<p>DA:Pr4.1.1.a) Demonstrate locomotor and non-locomotor movements that change body shapes and explore the element of space.</p> <p>DA:Pr4.1.1.b) Relate quick, moderate and slow movements to duration in time recognizing steady beat and move to varying tempi.</p> <p>DA:Pr4.1.1.c) Demonstrate movement characteristics along with movement vocabulary.</p>	<p>DA:Pr4.1.2.a) Demonstrate clear directionality and intent when performing locomotor and non-locomotor movements using the element of space. Identify symmetrical and asymmetrical body shapes and examine relationships between the parts of the body.</p> <p>DA:Pr4.1.2.b) Identify the length of time a move or phrase takes.</p> <p>DA:Pr4.1.2.c) Demonstrate kinesthetic awareness and apply appropriate characteristics to movement.</p>

Clarifications

DA:Pr4.1.K.c) Characteristics of movement might include smooth, sharp, strong, light, heavy, bound, free-flow, fast and slow.	DA:Pr4.1.1.c) For example, use adverbs and adjectives that apply to movement such as a bouncy leap, a floppy fall, a jolly jump and joyful spin.

Anchor Standard 4	Select, analyze and interpret artistic work for presentation.
Enduring Understanding	Space, time and energy are basic Elements of Dance .
Essential Question	How do dancers work with space, time and energy to communicate artistic expression?
Key Vocabulary	Choreography, Dance Phrase, Dance Studies, Dynamics, Energy, Movement Phrase, Rhythm, Rhythmic, Space, Spatial Design, Tempi, Tempo, Time

Standards

HS Proficient	HS Accomplished	HS Advanced
<p>DA:Pr4.1.Prof.a) Develop partner and ensemble skills that enable contrasting level changes through lifts, balances or other means while maintaining a sense of spatial design and relationship. Use space intentionally during phrases and through transitions between phrases.</p> <p>DA:Pr4.1.Prof.b) Use syncopation and accent movements related to different tempi. Take rhythmic cues from different aspects of accompaniment. Integrate breath phrasing with metric and kinesthetic phrasing.</p> <p>DA:Pr4.1.Prof.c) Connect energy and dynamics to movements by applying them in and through all parts of the body. Develop total body awareness so that movement phrases demonstrate variances of energy and dynamics.</p>	<p>DA:Pr4.1.Acc.a) Dance alone and with others with spatial intention. Expand partner and ensemble skills to greater ranges and skill level. Execute complex floor and air sequences with others while maintaining relationships through focus and intentionality.</p> <p>DA:Pr4.1.Acc.b) Perform dance studies and compositions that use time and tempo in unpredictable ways. Use internal rhythms and kinetics as phrasing tools.</p> <p>DA:Pr4.1.Acc.c) Initiate movement phrases by applying energy and dynamics. Vary energy and dynamics over the length of a phrase and transition smoothly out of the phrase and into the next phrase, paying close attention to its movement initiation and energy.</p>	<p>DA:Pr4.1.Adv.a) Modulate and use the broadest range of movement in space for artistic and expressive clarity. Use inward and outward focus to clarify movement and intent. Establish and break relationships with other dancers and audience as appropriate.</p> <p>DA:Pr4.1.Adv.b) Modulate time factors for artistic interest and expressive acuity. Demonstrate time complexity in phrasing with and without musical accompaniment. Use multiple and complex rhythms.</p> <p>DA:Pr4.1.Adv.c) Modulate dynamics to clearly express intent while performing dance phrases and choreography. Perform movement sequences expressively using a broad dynamic range and employ dynamic skills for establishing relationships with others.</p>

Clarifications

<p>DA:Pr4.1.Prof.b) For example, contrapuntal and/or polyrhythmic at the same time. Work with and against rhythm of accompaniment or sound environments.</p>

Dance Glossary:

Key Vocabulary terms are used throughout the *KAS for Visual and Performing Arts*. The dance terms defined in this glossary include only those terms identified in the key vocabulary section of the standards architecture. The meaning of each term is specific to its use in the standards and the artistic discipline and are commonly accepted definitions. The key vocabulary for dance included here are not the only terms that may be used in instruction. Demonstrating mastery of the standards requires students to go beyond knowing the definitions of these terms.

Aesthetic: A set of principles concerned with nature and appreciation of beauty.

Alignment: The process of adjusting the skeletal and muscular system to support functionality.

Artistic Criteria: Aspects of craft and skill used to fulfill artistic intent.

Artistic Expression: The manifestations of artistic intent through dance, drama, music, poetry, fiction, painting, sculpture or other artistic media. In dance, this involves the dance and the dancers within a context.

Artistic Statement: An artist's verbal or written introduction of their work from their own perspective to convey the deeper meaning or purpose.

Artistic Intent: Referring to the purposes of dance: ceremonial, artistic and recreational/social.

Body Patterning: Neuromuscular patterns.

For example: core-distal, head-tail, homologous (upper-lower), homo-lateral (same-side), cross-lateral (crossing the body midline).

Body-Mind Principles: Concepts explored and/or employed to support body-mind connections.

For example: breath, awareness of the environment, grounding, movement initiation, use of imagery, intention, inner-outer, stability-mobility.

Bound and Free-Flowing Movement: Bound movements are constricted, as opposed to free-flowing movements, which are continuous.

Choreography: The practice of creating a dance or dance sequence.

Also appears as: Choreograph, Choreographed, Choreographic, Choreographically

Choreographers: People who create dances.

Choreographic Devices: Tools to change, improve or manipulate dances.

Accumulation: New movements added to existing movement(s) in a successive manner (A, AB, ABC, ABCD).

Augmentation: Movements made larger in space and time.

Embellishment: A detail added to a movement, such as a gesture.

Inversion: Upside down.

Repetition: To repeat a movement, series of movements or part of a phrase as many times or ways as you want.

Retrograde: A sequence performed backwards in time and direction - like watching a phrase in rewind.

Reverse: Reverse order of movements but not backwards in direction.

Transpose: To perform a movement or gesture with a different part of the body.

Context Cues: Information obtained from the dance that helps one understand or comprehend meaning or intent from a movement, group of movements or dance as a whole; requires seeing relationships between movements and making inferences about the meaning or intent often gleaned from visual, auditory and sensory stimuli.

Cultural Movement Practice: Physical movements of a dance that are associated with a particular country, community or people.

Dance Phrase: A small section of a dance or a short dance sequence that has a sense of continuity or of being complete.

Also appears as: Dance Sequence

Dance Structure: Forms for an entire piece of choreography. Also known as compositional forms.

ABA: A three-part form with an “A” theme and a contrasting “B” theme. The third section restates the first section in a condensed, abbreviated or extended form.

Call and Response: A form in which one dancer or group performs, followed by a second dancer, or group whose performance responds to the first.

Canon: A form in which a dance phrase is performed by more than one dancer or group and begins at different times so that the phrases overlap (like a round in music).

Chance: A process and form in which elements are specifically chosen and defined but randomly structured to create a movement phrase or entire dance.

Narrative: A form that follows or tells a story.

Rondo: A form which expands on ABA form to ABACADA (lengthened indefinitely), in which the theme “A” is repeated or varied.

Theme and Variation: A form that starts with an original movement idea that is repeated with various modifications due to the application of choreographic devices and elements (e.g., performed faster or slower, with lighter or stronger movements, in a new place) while still maintaining its structure and sequence.

Dance Study: A short dance composed of several dance phrases based on an artistic idea.

Dynamics: The qualities or characteristics of movement which lend expression and style; also called “efforts” or “energy.”

For example: lyrical, sustained, quick, light, or strong.

Energy: An element of dance; how a movement is performed.

For example: Weight (strong vs. light), Flow (free vs. bound) and Energy (sharp vs. smooth).

Also appears as: Force

Etiquette: Established expectations followed by dancers.

For example: keeping personal space, respecting the dance space, having a safe body, waiting patiently for others to take a turn, respectful and constructive comments, and being a respectful audience member.

General Space: Spatial orientation that is not focused towards one area of a studio or stage.

Genre: A category of dance characterized by similarities in form, style, purpose, or subject matter.

For example: ballet, hip hop, modern, ballroom, cultural practices.

Also appears as: Genres.

Improvise: Spontaneously creating movement without pre-planning any steps or choreography.

Also appears as: Improvised, Improvisation, Improvisational

Kinesthetic Awareness: The ability to sense the position and movement of one's own body.

Locomotor: Movement that travels from one location to another in a pathway through space.

For example: walk, run, roll, crawl, hop, jump, march, gallop, skip, slide, leap.

Movement Characteristics: The qualities, elements, or dynamics that describe or define a movement.

Movement Phrase: A brief sequence of related movements that have a sense of continuity and artistic or rhythmic completion.

Also appears as: Movement Phrases

Movement Problem: A specific focus that requires one to find a solution to complete a task.

Movement Vocabulary: Codified or personal movement characteristics that define a movement style.

Non-locomotor: Movement that stays in one place.

For example: bend, twist, turn, swing, sway, reach, pull.

Performance Etiquette: Performance values and expected behaviors when rehearsing or performing.

For example: Not talking while the dance is in progress, not chewing gum, neat and appropriate appearance and not calling out to audience members from the stage.

Personal Space: The area of space directly surrounding one's body, extending as far as a person can reach; also called the kinesphere.

Positive and Negative Space: Refers to the space occupied by dancers and negative space is the area around and between the dancer(s) or dance image(s) in dance.

Production Elements: Aspects of performance that produce theatrical effects.

For example: costumes, make up, sound, lighting and props.

Proprioceptive Feedback: Understanding where parts of the body are in relation to one another.

Rhythm: The patterning or structuring of time through movement or sound.

Also appears as: Rhythms, Rhythmic, Rhythmical, Rhythmically

Space: An element of dance, which describes where the dance is happening and could include place, pathways, directions, size, level, focus.

[Table of Contents](#)

Spatial Design: Predetermined use of directions, levels, pathways, formations and body shapes.

Stimuli: A thing or event that inspires action, feeling or thought.

For example: Music, observed dance, literary forms, notation, natural phenomena, personal experience/recall, current news or social events.

Static and Dynamic Shapes: Static shapes are still as opposed to dynamic shapes which demonstrate movement.

Style: Dance that has specific movement characteristics, qualities, or principles that give it a distinctive identity.

For example: Graham technique is a style of Modern Dance; rhythm tap is a style of Percussive Dance; Macedonian Folk dance is a style of International Folk dance; Congolese dance is a style of African dance.

Symmetrical and Asymmetrical: A dancer's shape is symmetrical if it can be divided into two or more identical halves. When dancers move both sides of their bodies together to create symmetrical shapes, they balance each other in space and produce visual symmetry.

Asymmetry is where the two halves of the body are unmatched and/or unbalanced.

Technical Dance Skills: The degree of physical proficiency a dancer achieves within a dance style or technique.

For example: Coordination, form, strength, speed and range.

Tempo: The pace or speed of a pulse or beat underlying music or movement.

Also appears as: Tempi.

Time: Tempo (fast, medium, slow) and rhythm (even and uneven patterns).

Contrapuntal: Musical term meaning countertime. Multiple layers of melody happening simultaneously.

Media Arts Standards

Introduction:

Media arts is technology-based creative production and design. Media arts is fundamental to how humans experience, understand and engage with the contemporary world. Students are increasingly inundated with media as they spend more time in the virtual world. Media arts education seeks to transform students from passive consumers of media to critical creators, performers and responders to media arts experiences. In learning about media arts, students become integrated thinkers, apply real world learning, develop critical literacies and implement multimodal laboratories and tools. Intentional inclusion of a rigorous media arts education program that emphasizes student use of media forms for creative expression and critical analysis will support students in becoming authentic, life-long consumers, curators and creators of the arts.

Media Arts Literacy:

Media Arts Literacy encompasses a series of communication competencies, including the ability to access, analyze, evaluate and communicate information in a variety of forms, including print and non-print messages.

The media arts standards are intended to address the diverse forms and categories of media arts, including imaging, sound, animation, video, web design, graphic design, virtual design, interactive design, as well as their combinations and emerging forms, such as multimedia and virtual design. Literacy in media arts is broad, diverse and addresses creative, conceptual and technical competencies that exist globally. To be literate in media arts, students need the knowledge and skills of this discipline to develop fluency and understanding.

Media Arts Foundations:

Media arts classrooms come in many forms, therefore, the standards for media arts do not address the use of specific media, but rather, allow for a great diversity of instruction, methodology and circumstance. They are adaptive to the wide range of conditions that exist currently for the form, but students should gain experience in production and design that has real-world relevance and applications that may include the following:

Interdisciplinary Integration: Projects that incorporate multiple content areas and artistic disciplines, such as a video broadcast of student-produced documentaries, dramatic stories or informational bulletins for the school campus.

Multimedia Communication: The ability to communicate and express in a variety of media forms or combined media, using various tools and processes, for specific purposes, intentions and audiences.

Elements of Media Arts: Students creatively employ the elements of space, time, light, motion, color and sound to express their perspectives, feelings and ideas.

Principles of Media Arts: These principles include hybridization, interactivity, duration and point-of-view.

Foundational Principles: The appropriate discipline-specific elements and principles needed for the particular form of a media arts production or media artwork.

When a **Media Arts Foundations** term appears, it will be **bolded**. When implementing these standards, all components of the terms above should be included.

Media Arts Glossary:

Key Vocabulary terms are used throughout the *KAS for Visual and Performing Arts*. The media arts terms defined in this glossary include only those terms identified in the key vocabulary section of the standards architecture. The meaning of each term is specific to its use in the standards and the artistic discipline and are commonly accepted definitions. The key vocabulary for media arts included here are not the only terms that may be used in instruction. Demonstrating mastery of the standards requires students to go beyond knowing the definitions of these terms.

Components: The discrete portions and aspects of media artworks, including, elements, principles, processes, parts and assemblies.

For example: light, sound, space, time, shot, clip, scene, sequence, movie, narrative, lighting, cinematography and interactivity.

Constraints: Limitations on what is possible, both real and perceived.

Continuity: The maintenance of uninterrupted flow, continuous action or self-consistent detail across the various scenes or components of a media artwork.

For example: game components, branding, movie timeline and series.

Context: The situation surrounding the creation or experience of media artworks that influences the work, artist or audience. This can include how, where and when media experiences take place, as well as additional internal and external factors such as personal, societal, cultural, historical, physical, virtual, economic and systemic.

Copyright: The exclusive right to make copies of, license and otherwise exploit a produced work.

Creative Skills: The ability to generate and apply innovative artistic skills.

Culture: Ideas, beliefs, values, norms, customs, traits, practices and characteristics shared by individuals within a group that form the circumstances surrounding the creation, presentation, preservation and response to art.

Digital Identity: How one is presented, perceived and recorded online, including personal and collective information and sites, e-communications, commercial tracking, etc.

Emphasis: Principle of giving greater compositional strength to a particular element or component in a media artwork.

Ethics: Moral guidelines and philosophical principles for determining appropriate behavior within media arts environments.

Fairness: Complying with appropriate, ethical and equitable rules and guidelines.

Fair Use: Limitation in copyright law which sets out factors to be considered in determining whether a particular use of one's work is "fair," such as the purpose and character of the use, the amount of the work used and whether the use will affect the market for the work.

Interactivity: A diverse range of articulating capabilities between media arts components (such as user, audience, sensory elements, etc.) that allow for inputs and outputs of responsive connectivity via sensors, triggers, interfaces, etc., and may be used to obtain data, commands or information and may relay immediate feedback or other communications; contains unique sets of aesthetic principles.

Legal: The legislated parameters and protocols of media arts systems including user agreements, publicity releases and copyright.

Manage Audience Experience: The act of designing and forming user sensory episodes through multi-sensory captivation, such as using sequences of moving image and sound to maintain and carry the viewer's attention or constructing thematic spaces in virtual or experiential design.

Modeling: Creating a digital or physical representation or sketch of an idea, usually for testing; prototyping.

Multimodal Perception: The coordinated and synchronized integration of multiple sensory systems (vision, touch, auditory, etc.) in media artworks.

Personal Aesthetic: An individually formed, idiosyncratic style or manner of expressing oneself; an artist's "voice".

Perspective: Principle pertaining to the method of three-dimensional rendering, point-of-view and angle of composition.

Production Processes: The diverse processes, procedures or steps used to carry out the construction of media artwork such as prototyping, playtesting and architecture construction in game design.

Prototypes: Creating a testable version, sketch or model of a media artwork such as a game, character, website and application.

Safety: Maintaining proper behavior for the welfare of self and others in handling equipment and interacting with media arts environments and groups.

Soft Skills: Diverse organizational and management skills useful to employment such as collaboration, planning, adaptability and communication.

Stylistic Convention: A common, familiar or even "formulaic" presentation form, style, technique or construct
For example: the use of tension building techniques in a suspense film.

Systemic Communications: Socially or technologically organized and higher-order media arts communications

For example: Networked multimedia, television formats and broadcasts, “viral videos”, social multimedia (videos), remixes and transmedia.

System: The complex and diverse technological structures and contexts for media arts production, funding, distribution, viewing and archiving.

Also appears as: Systems.

Technological: The mechanical aspects and contexts of media arts production including hardware, software, networks and code.

Virtual Worlds: Online, digital or synthetic environments

Vocational: The workforce aspects and contexts of media arts.

Music Standards

Introduction

Music is the art of combining or arranging vocal and/or instrumental sounds to create forms and express emotions while adhering to cultural standards. Music is and always has been everywhere; it has been in all periods of history and in cultures throughout the world. It permeates human society. People engage with music because it connects people across time and cultures; it is an outlet for creative expression; and it supports an individual's well-being. Music education seeks to develop the knowledge and skills needed to create, perform, communicate and respond in this arts discipline. In learning about music, students develop artistically enhanced physical skills, learn another written language, use critical thinking skills, problem solve and work collaboratively to contribute to a larger group. Intentional inclusion of a rigorous music education program that emphasizes advanced skill development while producing artistic products will support students in becoming authentic, life-long consumers, curators and creators of the arts.

Music Literacy

Music Literacy is the knowledge and understanding required to participate authentically in the discipline of music by independently carrying out the artistic processes of creating, performing and responding. Developing music literacy includes discovering the expressive **Elements of Music**, understanding basic concepts of music, knowing the terminology that is used to comprehend music, building the skills necessary to produce music and being able to reflect, critique and connect personal experience to music. To be literate in music, students need the knowledge and skills of this discipline to develop fluency and deep understanding.

Standards aim to equip students to achieve independent music literacy. They describe expectations for learning in music regardless of style or genre and are the impetus for music educators to inspire their students to explore the many facets of music and prepare them for a lifelong relationship with music.

Within the *KAS for Visual and Performing Arts*, there are five sets of performance standards in the arts discipline of music:

Kindergarten – Grade 5

Grade 6 – 8

High School:

Composition and Theory

Traditional and Emerging Ensembles

Harmonizing Instruments

The high school strands contain three proficiency levels: proficient, accomplished and advanced. Many students become involved in an instrumental or vocal ensemble before entering high school, therefore the 8th grade proficiency level of “intermediate” is provided in the “Middle School At-A-Glance” charts for Traditional and Emerging Ensembles and Harmonizing Instruments.

Music Foundations

For effective implementation of the music standards, there are foundational concepts that must be fully understood to reach the depth of study in music. These foundational concepts include the following:

Elements of Music

Basic characteristic of sound (pitch, rhythm, harmony, dynamics, timbre, texture, form and style/articulation) that are manipulated to create music.

Fundamentals of Music Theory

Basic Elements of Music, their subsets and how they interact; rhythm and meter; pitch and clefs; intervals; scales, keys and key signature; triads and seventh chords.

Music Composition and Theory

Study of how music is composed and performed; analysis of the Elements of Music and the framework for understanding musical works.

Traditional and Emerging Ensembles

Groupings of musicians organized to perform artistic work collaboratively. Ensembles can include bands, orchestras, choirs, duets, trios or quartets.

Harmonizing Instruments

Musical instruments, such as guitars, ukuleles and keyboards, capable of producing harmonies as well as melodies, often used to provide chordal accompaniments for melodies and songs.

When a **Music Foundations** term appears, it will be **bolded**. When implementing these foundations, all components of the terms above should be included.

Harmonizing Instruments: Middle School At-A-Glance

Many students become involved in an instrumental or vocal ensemble before entering high school, therefore the 8th grade proficiency level of “intermediate” has been made available alongside the high school proficiency levels of proficient, accomplished and advanced for Harmonizing Instruments. The chart is arranged according to the processes of creating, performing, responding and connecting and is meant as an overview of the standards for this strand grade 8 - high school.

Music Glossary

Key Vocabulary terms are used throughout the *KAS for Visual and Performing Arts*. The music terms defined in this glossary include only those terms identified in the key vocabulary section of the standards architecture. The meaning of each term is specific to its use in the standards and the artistic discipline and are commonly accepted definitions. The key vocabulary for music included here are not the only terms that may be used in instruction. Demonstrating mastery of the standards requires students to go beyond knowing the definitions of these terms.

AB Form: Musical form consisting of two sections, A and B, which contrast with each other.

Also referred to as: Binary.

ABA Form: Musical form consisting of three sections, A, B and A; two are the same and the middle one is different.

Also referred to as: Ternary.

Analysis: The detailed examination of the elements or structure of music.

Arrangement: Setting or adaptation of an existing musical composition.

Articulation: Characteristic way in which musical tones are connected, separated or accented.

For example: Legato (smooth, connected tones) and staccato (separated, detached tones).

Audience Etiquette: Social behavior observed by those attending musical performances, which can vary depending upon the type of music performed.

Complex Forms: Musical form in which rhythmic, melodic, harmonic and/or other musical materials undergo significant expansion and development and may be more distantly related across sections while remaining coherent in some way, such as sonata or other novel design with three or more sections.

Composer: One who creates music compositions.

Composition: Original piece of music that can be repeated, typically developed over time and preserved either in notation or in a sound recording.

Compositional Devices: Tools used by a composer or arranger to create or organize a composition or arrangement, such as tonality, sequence, repetition, instrumentation, orchestration, harmonic/melodic structure, style and form.

Compositional Techniques: Approaches a composer uses to manipulate and refine the elements to convey meaning and intent in a composition.

For example: tension-release, augmentation-diminution, sound-silence, motion-stasis, in addition to compositional devices.

Context: Environment that surrounds music, influences understanding, provides meaning and connects to an event or occurrence.

Also appears as: Contexts.

Cultural Context: Values, beliefs and traditions of a group of people that influence musical meaning and inform culturally authentic musical practice.

Historical Context: Conditions of the time and place in which music was created or performed and that provide meaning and influence the musical experience.

Personal Context: Unique experiences and relationships that surround a single person and are influenced by personal life, family, habits, interests and preferences.

Social Context: Environment surrounding something or someone's creation or intended audience that reflects and influences how people use and interpret the musical experience.

Craftsmanship: Degree of skill and ability exhibited by a creator or performer to manipulate the Elements of Music in a composition or performance.

Dynamics: Level or range of loudness or softness of a sound or sounds.

Ensemble: Group of individuals organized to perform artistic work collaboratively, such as bands, orchestras, choirs, duets, trios or quartets.

Expanded Form: Basic form (such as AB, ABA, rondo or theme and variation) expanded by the addition of an introduction, transition and/or coda.

Explore: Discover, investigate and create musical ideas through singing, chanting, playing instruments or moving to music.

Expression: Feeling conveyed through music.

Expressive Aspects: Characteristics that convey feeling in the presentation of musical ideas.

Expressive Intent: The emotions, thoughts and ideas that a performer or composer seeks to convey by manipulating the Elements of Music.

Expressive Qualities: Qualities such as dynamics, tempo and articulation which, when combined with other Elements of Music, give a composition its musical identity.

Form: Element of Music describing the overall organization of a piece of music, such as AB, ABA, rondo, theme and variations and strophic form.

Formal Design: Large-scale framework for a piece of music in which the constituent parts cohere into a meaningful whole; encompasses both structural and tonal aspects of the piece.

Function: Use for which music is created, performed or experienced, such as dance, social, recreation, music therapy, video games and advertising.

Genre: Category of music characterized by a distinctive style, form and/or content, such as jazz, march and country.

Harmonic Sequences: Series of two or more chords commonly used to support a melody or melodies.

Harmonizations: Product of applying stylistically appropriate harmony such as chords, countermelodies and ostinato to melodic material.

Historical Periods: Period of years during which music that was created and/or performed shared common characteristics; historians of Western art music typically refer to the following:

- Medieval (ca. 500-ca. 1420)
- Renaissance (ca. 1420-ca. 1600)
- Baroque (ca. 1600-ca. 1750)
- Classic (ca. 1750-ca. 1820)
- Romantic (ca. 1820-ca. 1900)
- Contemporary (ca. 1900-)

Improvisation: Music created and performed spontaneously or “in-the-moment,” often within a framework determined by the musical style or given chord structure.

Intent: Meaning or feeling of the music planned and conveyed by a creator or performer.

Interpret: Determine and demonstrate music’s expressive intent and meaning when responding and performing.

Interpretation: Intent and meaning that a performer realizes in studying and performing a piece of music.

Melodic Pattern: Grouping, generally brief, of tones or pitches.

Meter: Grouping of beats and divisions of beats in music, often in sets of twos (duple meter) or threes (triple meter).

Moderately Complex Forms: Musical form with three or more sections (such as rounded binary, rondo or other novel design), in which section closure is somewhat nuanced or ambiguous and the rhythmic, melodic, harmonic and/or other musical materials across sections may be more distantly related while remaining coherent in some way.

Mood: The overall feeling that a section or piece of music conveys.

Movement: A self-contained section or part of a larger musical work, such as a symphony, sonata or concerto.

Musical Idea: Ideas expressed in music, which can range in length from the smallest meaningful level (motive or short pattern) through a phrase, a section or an entire piece.

Musical Work: Piece of music preserved as a notated copy or sound recording or passed through oral tradition.

Notation: Visual representation of musical sounds. Could include iconic or standard notation.

Iconic Notation: Representation of sound and its treatment using lines, drawings or pictures.

Standard Notation: System for visually representing musical sound that is in widespread use; such systems include traditional music staff notation, tablature notation (primarily for fretted stringed instruments) and lead-sheet notation.

One-Part Form: Continuous form, with or without an interruption, in which a singular instance of formal closure is achieved only at or near the end of the piece.
Also referred to as: Through-composed.

Performance Decorum: Aspects of contextually appropriate behavior, conduct and appearance for a musical performance, such as stage presence, etiquette and appropriate attire.

Phrase: Musical segment with a clear beginning and ending, comparable to a simple sentence or clause in written text.

Piece: General, non-technical term referring to a composition or musical work.

Also appears as: Pieces.

Pitch: Identification of a tone or note with respect to highness or lowness.

For example: Frequency.

Present: Share artistic work informally or formally with others.

Program: Presentation of a sequence of musical works that can be performed by individual musicians or groups in a concert, recital or other setting.

Purpose: Reason for which music is created such as ceremonial, recreational/social, commercial or generalized artistic expression.

Also appears as: Purposes.

Refine: Make changes in musical works or performances to more effectively realize intent through technical quality or expression.

Repertoire: Body or set of musical works that can be performed.

Rhythm: Duration or length of sounds and silences that occur in music; organization of sounds and silences in time.

Rhythmic Passage: Short section or series of notes within a larger work that constitutes a single coherent rhythmic idea.

Rhythmic Pattern: Grouping, generally brief, of long and short sounds and silences.

Score: Written notation of an entire music composition.

Section: One of a number of distinct segments that together comprise a composition; a section consists of several phrases.

Sensitivity: Skill of a creator, performer or listener in responding to and conveying the nuances of sound or expression.

Setting of the Text: Musical treatment of text as presented in the music.

Simple Form: Musical form with a small number of distinct or clearly delineated sections such as simple binary, ternary or other novel design, using closely related rhythmic, melodic and harmonic materials across the sections.

Stage Presence: Performer's ability to convey music content to a live audience through traits such as personal knowledge of the repertoire, exhibited confidence, decorum, eye contact and facial expression.

Storyline: Extra-musical narrative that inspires or explains the structure of a piece of music.

Structure: The organization and arrangement of elements in a piece of music. It encompasses the overall framework and design that gives a composition its form and coherence.
Also appears as: Structural.

Style: Label for a type of music possessing distinguishing characteristics and often performance practices associated with its historical period, cultural context and/or genre.

Stylistic Expression: Interpretation of expressive qualities in a manner that is authentic and appropriate to the genre, historical period and cultural context of origin.

Technical Accuracy: Ability to perform with appropriate timbre, intonation and diction as well as to play or sing the correct pitches and rhythms at a tempo appropriate to the musical work.

Also appears as: Technical Skill.

Technical Challenges: Requirements of a particular piece of music that stretches or exceeds a performer's current level of proficiency in technical areas such as timbre, intonation, diction, range or speed of execution.

Tempo: Rate or speed of the beat in a musical work or performance.

Tension and Release: Musical device (musical stress, instability or intensity, followed by musical relaxation, stability or resolution) used to create a flow of feeling.

Theme and Variations: Musical form in which a melody is presented and then followed by two or more sections presenting variations of that melody.

Tonality: The character of a piece of music as determined by the key in which it is played or the relations between the notes of a scale or key.

Variety: Presence of structural contrast within a work for the purpose of creating and sustaining interest, generally achieved through utilizing variations in the treatment of the Elements of Music.

Venue: Physical setting in which a musical event takes place.

Theatre Standards

Introduction:

Theatre is a collaborative performing art that presents an event, whether real or imagined, before an audience in a specific place. Theatre has been a significant part of humanity throughout recorded history. People participate in theatre to learn a different perspective from their own, to collaborate within a community, and to engage in the creative expression of ideas. Theatre education seeks to teach students collaboration, communication, creativity and critical thinking skills which are needed in the 21st century. In learning about theatre, students develop their oral communication skills, creative problem-solving capabilities, empathic understanding of the world around them, while refining their abilities to work independently and collaboratively. Intentional inclusion of a rigorous theatre education program that provides students the opportunity to create, perform and respond to theatrical works will support students in becoming authentic, life-long consumers, curators, and creators of the arts.

Theatre Literacy:

Theatre Literacy includes discovering the expressive elements of theatre, knowing the terminology that is used to comprehend theatre, having a clear sense of what theatre embodies and being able to reflect, critique and connect personal experience to theatre.

Theatre standards describe expectations for learning in theatre and impart the breadth and depth of the theatre experience through the art-making processes. The theatre standards articulate the most fundamental **Elements of Theatre**, delineating a path by which every student can and will achieve proficiency or beyond in this craft. To be literate in theatre, students need the knowledge and skills of this discipline to develop fluency and understanding.

Theatre Foundations:

The theatre standards are written with both drama processes and theatre production in mind. While many secondary theatre programs focus on performance and design in staged productions as evidence of a student's understanding and achievement in the arts discipline, ongoing student engagement in theatre without an end product or formal performance is a valid expression of theatre understanding. These standards address those drama processes as well as traditional theatre.

Drama Processes encompass envisioned worlds and unscripted activities designed to engage students in a wide range of real and imagined issues.

Example: Kindergarten through grade 2 standards acknowledge the need for supervision during “dramatic play” and/or a “guided drama experience”.

Theatre includes the broader, more traditional conventions of the craft developed over the centuries – scripted plays, acting, performance and technical elements.

Example: Grades 3 – 8 and the High School Proficiency Levels include the term “theatrical work” to acknowledge the multi-faceted aspects of theatre such as drama, performance and the technical elements.

Elements of Theatre can be analyzed and evaluated within three major categories:

Literary Elements: Might include Initial incident, preliminary event, rising action, climax, falling action and denouement; also referred to as Dramatic Structure.

Technical Elements: Might include scenery, costumes, props, lights, sound and makeup.

Performance Elements: Might include acting, character analysis, vocal expression, projection, diction, gestures and facial expressions.

When a **Theatre Foundations** term appears, it will be **bolded**. When implementing these standards, all components of the terms above should be included.

Theatre Glossary:

Key Vocabulary terms are used throughout the *KAS for Visual and Performing Arts*. The theatre terms defined in this glossary include only those terms identified in the key vocabulary section of the standards architecture. The meaning of each term is specific to its use in the standards and the artistic discipline and are commonly accepted definitions. The key vocabulary for theatre included here are not the only terms that may be used in instruction. Demonstrating mastery of the standards requires students to go beyond knowing the definitions of these terms.

Acting Techniques: Specific skills, pedagogies, theories/theorists or methods of investigation used by an actor.

Aesthetics: Artistic qualities guiding the choices of a theatrical artist or movement; artistic qualities underlying a theatrical work.

Believable: Theatrical choices thought to be “true” based upon an understanding of any given fictional moment, interpretation of text and/or human interaction. Also appears as: Believability.

Character Traits: Observable actions that illustrate a character’s personality, values, beliefs and history.

Creative Processes: The application of theatrical elements to the development of a work.

Devised: An original performance piece created by an ensemble.

Dramatic Play: Make-believe where children naturally assign and accept roles, then act them out.

Genre: A specific kind or type of theatrical work such as a tragedy, drama, melodrama, comedy or farce.

Gesture: An expressive movement of the body or limbs.

Given Circumstances: The who, what, when, where and why of a theatrical work or character.

Guided Drama Experience: A leader guides participants during a drama experience through side-coaching, narration and prompting; the action of the drama does not stop for the leader to support the students; facilitator may guide participants in or out of role.

Improvised: Created through spontaneous, intuitive and immediate responses of movement and speech.

Imagined Worlds: An imaginary world that can be created collectively by participants in a drama experience.

Inner Thoughts: The underlying and implied meaning or intentions guiding a character’s dialogue or actions (also known as subtext).

Motivation: Reasons why a character behaves or reacts in a particular way in a scene or theatrical work.

Non-Representational Materials: Objects which can be transformed into specific props through the imagination.

Objective: A goal, need or want that a character has within a scene or theatrical work.

Obstacle: A person, object or idea that stands in the way of a character's objective.

Production Elements: Components used in a specific production. These may include story elements, technical elements or performance elements such as body, voice and imagination.

Scripted: Written text intended for performance that may include a description of the setting, a list of the characters, dialogue and/or the action of the characters.

Script Analysis: The study of a script to understand its story, structure, themes and characters.

Staging: Patterns of movement in a scene or play including, for example, stage crosses, entrances and exits which help to convey meaning.

Story Drama: Episodic, process-centered, improvised form of drama that uses existing literature as a starting point for drama exploration. The drama explores moments (before, after or within) that may not exist in the story and is presented in a non-exhibitional format that is intended to benefit the performers themselves.

Story Elements: Characters, setting, language, plot and themes that create a story.

Style: A specific set of characteristics or distinctive techniques such as realism, expressionism, epic theatre, documentary theatre or classical drama. Style may also refer to the unique artistic choices of a particular playwright, director or actor.

Tactic: The means by which a character seeks to achieve their objective; in acting and directing a tactic refers to a specific action verb.

Technical Elements: The elements of spectacle such as sets, sound/music, costumes, lights, projections, props and makeup used to create a meaningful design for a theatrical production.

Theatrical Conventions: Practices and/or devices that the audience and actors accept in the world of the play even when it is not realistic, such as a narrator, flashback or an aside.

Unified Approach: All elements of a production working together cohesively.

Visual Composition: The arrangement of actors and scenery on a stage for a theatrical production.

Visual Arts Standards

Introduction:

The visual arts encompass products that are appreciated by sight and created with expression, skill and imagination. Humans have been expressing themselves through the visual arts for at least 40,000 years. The visual arts can help people understand themselves and others while expanding their appreciation of the history, culture and experiences of those in their local, regional and global communities. Visual arts education seeks to develop the knowledge and skills students need to engage in an authentic study of the artistic processes while creating, performing and critically reflecting in this arts discipline. Intentional inclusion of a rigorous visual arts education program that emphasizes developing creativity to communicate the human experience will support students in becoming authentic, life-long consumers, curators and creators of the arts.

Visual Arts Literacy:

Visual Arts Literacy occurs as a result of engaging in an authentic creative process through the use of traditional and nontraditional materials and applying the formal **Elements of Art** and **Principles of Design**. Discovering the expressive qualities of art allows students to reflect, critique and connect personal experience to art. To be literate in the visual arts, students need the knowledge and skills of this discipline to develop fluency and deep understanding.

The visual arts standards describe expectations for learning in the visual arts regardless of style, medium or genre. The standards serve as an impetus for educators to inspire, support and develop the skills of their students in the many facets of visual arts. Once students have mastered the standards, they will be prepared for lifelong appreciation, understanding, engagement and, if pursued, additional study towards a career in visual arts.

Visual Arts Foundations:

The word “art” is often used in the classificatory sense to mean an artifact or action that has been put forward by an artist or other person as something to be experienced, interpreted and appreciated. An important component of a quality visual arts education occurs when students engage in discussion about honorific definitions of art – identifying the wide range of significant features in art-making approaches, analyzing why artists follow or break with traditions and discussing their own understandings of the characteristics of “good art.”

The visual arts include a wide array of artmaking forms. Some of those recognized art forms include:

Traditional Fine Arts: Drawing, painting, printmaking, photography and sculpture.

Architectural, Environmental and Industrial Arts: Urban, interior, product and landscape design.

Folk Arts: Pottery, textiles, embroidery, knitting, hand carvings or art originating from, or traditional to, the common people of a country or culture.

Other Works of Art: Ceramics, fibers, jewelry, works in wood, paper and other materials.

Regardless of art form, the concepts embedded in the standards reflect the scope of learning – the knowledge, skills and understandings – taught through study of visual arts with the **Elements of Art** and **Principles of Design** as its foundation.

Elements of Art: The visual components of color, form, line, shape, space, texture and value; The essential components, or building blocks, of any artwork.

Principles of Design: Balance, emphasis, movement, proportion, rhythm, unity and variety; the means an artist uses to organize elements within a work of art.

Safe and Non-Toxic Materials: Art materials are considered any substance marketed or represented by a producer as suitable for use in any phase of the creation of any work of visual or graphic art of any medium. Non-toxic art materials intended for children are readily available. Teachers must read the labels of all art materials to determine their suitability to the classroom. Teachers need to be aware of student needs, such as any allergies or additional factors that would make art materials unsafe for student use. Additionally, teachers need to determine their ability and the ability of their students to safely dispose of the art materials.

When a **Visual Arts Foundations term** appears, it will be **bolded**. When implementing these foundations, all components of the terms above should be included.

Visual Arts Glossary

Key Vocabulary terms are used throughout the *KAS for Visual and Performing Arts*. The visual arts terms defined in this glossary include only those terms identified in the key vocabulary section of the standards architecture. The meaning of each term is specific to its use in the standards and the artistic discipline and are commonly accepted definitions. The key vocabulary for visual arts included here are not the only terms that may be used in instruction. Demonstrating mastery of the standards requires students to go beyond knowing the definitions of these terms.

Aesthetic: A set of visual characteristics underlying and guiding the work of a particular artist, design style or artistic movement. A personal aesthetic may be determined by personal, visual preferences.

Appropriation: Intentional borrowing, copying and alteration of preexisting images, objects and cultures for one's own use.

Artifact: An object that has traditional, historical and/or cultural significance.
Also appears as: Artifacts.

Artist Statement: Information about context, explanations of process, descriptions of learning, related stories, reflections and/or other details in a written or spoken format shared by the artist to extend and deepen understanding of their artwork; an artist statement can be didactic, descriptive or reflective in nature.

Collaboratively: Collaborations may include partnerships within the classroom such as partners or small groups or outside the classroom, such as working with another classroom or community organization.

Conceptual Thinking: Using critical thinking skills to identify patterns or connections between ideas that are not directly related.

Copyright: Form of protection grounded in the U.S. Constitution and granted by law for original works of authorship fixed in a tangible medium of expression, covering both published and unpublished works.

Craftsmanship: The level of skill and care exhibited by the artist in an artistic work.

Criteria: In art and design, guidelines for evaluating artwork that can be generated by students, teachers and/or outside sources.

Cultural Traditions: Pattern of practices and beliefs within a societal group.

Culture: A social institution created within the learned behavior of people, including but not limited to their specific norms, values, belief systems, language(s), knowledge, social relations, technologies, institutions and organizations.
Also appears as: Cultures or Cultural.

Curate: Collect, select, sort and organize objects, artworks and artifacts; this may include preservation and maintenance of historical records and catalog exhibits or preparation for presentation.

Design: Planning a visual solution to a problem and communicating that plan to others. Design could refer to the planning and organizing stage of the creative process or a visual product used within a larger project or multiple projects.

Fair Use: Limitation in copyright law which sets out factors to be considered in determining whether a particular use of one's work is "fair," such as the purpose and character of the use, the amount of the work used and whether the use will affect the market for the work.

Imaginative Idea: The result of student-centered pretending, brainstorming or daydreaming that leads to the development of original, creative thought.

Imaginative Play: Student-centered activity using pretending, role-playing or experimenting that may result in developing creativity and expression.

Materials: Traditional art supplies (paper, paint or crayons) or non-traditional items (found objects from natural or manufactured sources).

Media: Tools, materials or other resources, including digital formats, used for creating art. Medium is the singular form of media.

Media Art: In the Visual Arts Media Art can include graphic communications, animation, and emerging technologies.

Presentation: The manner or style in which artwork is displayed.

For example: In the classroom, hallway displays, community venues or digital formats.

Preservation: Activity of protecting, saving and caring for objects, artifacts and artworks through a variety of means.

Also appears as: Preserving.

Processes: The ways in which we create art, from the development and planning to the creation of art. 2-Dimensional processes may include, but are not limited to, printmaking, drawing or painting. 3-dimensional processes may include sculpture, ceramics or installations.

Purpose: The reason an artist is motivated to create an artwork.

For Example: Artistic expressions, functional, ceremonial, narrative or persuasive.

Subject: The main theme or concept of an artwork, such as portrait, landscape, still life or non-objective.

Subject Matter: A theme, concept or object depicted within the artwork.

Technologies: Tools, techniques, crafts, systems and methods to shape, adapt and preserve artworks, artifacts, objects and natural and human-made environments.

Visual and Material Culture: Visual culture refers to the tangible or visible expressions by a people and collectively describes the characteristics as a whole, while material culture refers to the physical aspects of a society, such as objects made or modified by humans.

Visual Art Vocabulary: Includes categories such as Elements of Art, Principles of Design, Purposes of Art, Subjects of Art, Styles of Art and Media and Processes of Art.

Advisory Panels and Review Committee

The writing team, composed of current arts teachers, included representation from all regions of the state and represented both urban and rural areas. While these teachers taught a variety of courses and grade levels throughout their careers, the selected committee members were currently teaching courses related to the standards development process: dance, media arts, music, theatre and visual arts. Additionally, the selected writers served in many roles in their schools, arts community and a wide variety of professional organizations. To ensure fidelity to the standards, the writing committee provided feedback at all stages of the development process. The writing and review committee members listed below represented Kentucky's best as evidenced by their countless qualifications.
