KIM HAM
CERTIFIED PUBLIC ACCOUNTANT

INDEPENDENT AUDITOR'S REPORT

Kentucky State Committee for School District Audits
and Members of the Board of Education
Mayfield Independent School District
Mayfield, Kentucky

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Mayfield Independent School District as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Mayfield Independent School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the audit requirements prescribed by the Kentucky State Committee for School District Audits in the *Kentucky Public School Districts' Independent Auditor's Contract*, including *Appendix I to the Independent Auditor's Contract – Audit Extension Request* and *Appendix II to the Independent Auditor's Contract – Submission Instructions*. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Mayfield Independent School District as of June 30, 2019, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and pension and other postemployment benefits other than pensions (OPEB) information on pages 4 through 8 and 50 through 61 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Other Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Mayfield Independent School District's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, I have also issued my report dated November 11, 2019, on my consideration of the Mayfield Independent School District's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Mayfield Independent School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Mayfield Independent School District's internal control over financial reporting and compliance.

**MAYFIELD INDEPENDENT PUBLIC SCHOOL DISTRICT – MAYFIELD, KY
MANAGEMENT’S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2019**

As management of the Mayfield Independent School District (District), we offer readers of the District’s financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2019. We encourage readers to consider the information presented here in conjunction with additional information found within the body of the audit.

FINANCIAL HIGHLIGHTS

- The beginning general fund balance for the District was \$3,849,954 and the ending balance was \$4,974,983.
- The District had a combined fund balance for all governmental funds on July 1, 2017 of \$4.926 million. The balance decreased to \$4.497 million by June 30, 2018 and increased to \$5.513 million by June 30, 2019. The decrease in the prior year was mainly due to bond proceeds received in FY 17 that were spent during FY 18. The general fund increased by \$1.125 million in the current year, whereas the construction fund only decreased by \$112,000. The net position of the proprietary fund decreased from \$851,000 at July 1, 2017 to \$619,000 by June 30, 2018, then decreased to \$320,000 by June 30, 2019. The decrease over the past two years was mainly due to the allocation of OPEB expense, liability, and deferred outflows and inflows as the result of being required to apply GASB 75.
- Grades 3-8 transitioned to a 1:1 student to device environment using Lenovo 300E chromebooks. We also equipped each teacher at all three schools with a Chromebook so that they can stay connected to their students through Google Classroom, whether they are on or off campus. Teachers also utilize GoGuardian, a blocking/filtering/tracking software that helps them to be able to ensure the Chromebooks are used for instructional purposes only. The project cost was approximately \$225,000. We also upgraded all elementary school teacher workstations to Dell Optiplex 3060 desktops. The cost of this project was approximately \$44,000. All annual maintenance/subscription plans were continued including Extreme Networks, VMware, SchoolDude, SchoolCast, Microsoft ESS agreement, Adobe, BrainPop, GoGuardian etc. These subscriptions in total are approximately \$50,000 annually. Finally, we added/replaced several security cameras in the district and added key readers on doors at Mayfield Elementary School for a cost of approximately \$12,000. It is our intent to finish grades K-2 with a 1:1 device count next year, as well as to begin reevaluating our interactive classroom devices such as SmartBoard, projectors, etc. to ensure as they reach “end of life” we have a practical and economical plan in place for replacement of those items.
- The KETS technology match was made for \$34,270.
- The General Fund had \$16,963,590 in revenue, which primarily consisted of the state program (SEEK), property, utilities, and motor vehicle taxes. Revenues increased \$35,000 from the prior year. There was \$16,054,752 in General Fund expenditures. Expenditures decreased approximately \$79,000 from the prior year.
- There were no significant changes in any of the individual funds affecting the availability of fund resources for future use.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District’s basic financial statements. The District’s basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**MAYFIELD INDEPENDENT PUBLIC SCHOOL DISTRICT – MAYFIELD, KY
MANAGEMENT’S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2019**

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District’s finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District’s assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the district is improving or deteriorating.

The statement of activities presents information showing how the District’s net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include instruction, support services, operation and maintenance of plant, student transportation and operation of non-instructional services. Fixed assets and related debt is also supported by taxes and intergovernmental revenues.

The government-wide financial statements can be found on pages 9 and 10 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. This is a state mandated uniform system and chart of accounts for all Kentucky public school districts utilizing the MUNIS administrative software. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental, proprietary funds and fiduciary funds. Fiduciary funds are trust funds established by benefactors to aid in student education, welfare and teacher support. The only proprietary fund is our food service operations. All other activities of the district are included in the governmental funds.

The basic fund financial statements can be found on pages 11 through 19 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 20 through 49 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government’s financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$3,433,081 as of June 30, 2019. The largest portion of the District’s net position reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment, and construction in progress) less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District’s investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The District’s financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

Total Net Position	<u>\$ 3,433,081</u>	<u>\$ 2,807,695</u>

Comments on Budget Comparisons

- There were no significant variations between the original and final budget amounts.
- The General Fund’s total revenues for the fiscal year ended June 30, 2019 were \$16,963,590.
- General fund budget compared to actual revenue varied slightly from line item to line item with the actual revenues (excluding on behalf revenues, which are not budgeted) being \$521,894 more than budget. The categories with the largest difference from budgeted amounts were taxes (\$163,677 more than budget), earnings on investments (\$139,448 more than budget), other local funds (\$109,254 more than budget), and indirect federal funds (\$101,331 more than budget).
- The total cost of all General Fund programs and services was \$16,054,752.
- General fund budget exceeded actual expenditures for each line item with the total actual expenditures (excluding on behalf expenditures, which are not budgeted, and the contingency) being \$2,634,901 less than budgeted. The categories with the largest difference from budgeted amounts were for district administration (\$1,094,263 less than budget), plant operations and maintenance (\$615,861 less than budget), instruction (\$438,170 less than budget), student transportation (\$363,655 less than budget), instructional staff support services (\$78,500 less than budget), business support services (\$16,502 less than budget), student support services (\$15,426 less than budgeted), and school administration support services (\$12,524 less than budget).
- One major difference in the budgeted revenues and expenditures when compared to actual amounts were the recording of payments made by the state of on behalf payments, such as matching teacher retirement and health insurance. These payments are not required to be budgeted; however, they are required to be recorded in order to comply with generally accepted accounting principles. The total payments made in the current year by the state on behalf of the district recorded in the general fund were \$4,430,300.

The following table presents a summary of governmental and business-type revenue and expense for the fiscal year ended June 30, 2019 as compared to the fiscal year ended June 30, 2018.

General Fund Revenue

The majority of revenue was derived from state funding (\$13,404,380) making up 79.0% of total revenue and \$3,006,107 from local taxes (17.7%).

General Fund Expenditures

The largest category of expenditures was for instruction (59.5%), followed by plant operations and maintenance (11.2%), student transportation (6.4%), school administration support services (6.0%), instructional staff support services (5.3%), district administration support services (4.9%), student support services (4.4%), and business support services (2.3%).

**MAYFIELD INDEPENDENT PUBLIC SCHOOL DISTRICT – MAYFIELD, KY
MANAGEMENT’S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2019**

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of fiscal year 2019, the District had \$18,845,856 invested in land, buildings, and equipment. Of that amount, \$18,555,511 is in governmental activities. There was an increase in net capital assets during the fiscal year because of construction projects at the middle and high schools. Total additions to capital assets were \$844,297 in governmental activities, while depreciation expense was \$808,525 in governmental activities.

See Note E for a breakdown of additions by class on page 29.

Debt Administration

The District had \$9,555,585 in bonds and capital leases payable outstanding on June 30, 2019. A total of \$831,585 is due within one year. Bond principal payments during the year were \$804,000, while KISTA principal payments were \$14,371.

See Note F on pages 30-31 for a detailed list of bonds payable.

BUDGETARY IMPLICATIONS

In Kentucky, the public school fiscal year is July 1-June 30; other programs, i.e. some federal operate on a different fiscal calendar, but are reflected in the district overall budget. By law the budget must have a minimum 2% contingency. The district adopted a budget with \$2,360,501 in contingency in the general and food service funds (12.9%). The beginning general fund balance for beginning the fiscal year was \$3,849,954.

Mayfield Independent Public Schools received federal grants in the amount of \$2,046,526 and are awarded on an October 1 to September 30 period. They also received state grants in the amount of \$876,770 that are awarded on a July 1 through June 30 fiscal year period.

Questions regarding this report should be directed to the Superintendent Joe Henderson or by mail at 914 East College Street, Mayfield, KY 42066.

**RECONCILIATION OF THE BALANCE SHEET - GOVERNMENTAL
 FUNDS TO THE STATEMENT OF NET POSITION**

June 30, 2019

Total fund balance per fund financial statements		\$5,512,567
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds.		
Cost	\$ 33,194,525	
Accumulated depreciation	<u>(14,639,014)</u>	18,555,511
Deferred outflows that are not financial resources and therefore are not reported as assets in the governmental funds balance sheet		
Deferred loss from refunding bonds	188,974	
Deferred pension related outflows	2,237,458	
Deferred OPEB related outflows	<u>1,021,204</u>	3,447,636
Deferred inflows that are not due and payable in the current period and, therefore, are not reported as liabilities in the funds.		
Deferred pension related inflows	(552,112)	
Deferred OPEB related inflows	<u>(694,303)</u>	(1,246,415)
Certain liabilities are not reported in the fund financial statements because they are not due and payable, but they are presented in the statement of net position.		
Interest payable		(39,844)
Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the funds. Long-term liabilities at year end consist of:		
Bond and lease obligations	(9,499,060)	
KISTA notes payable	(7,585)	
KSBIT payable	(58,347)	
Net pension liability	(7,260,136)	
Net OPEB liability	(6,157,243)	
Accrued sick leave payable	<u>(133,882)</u>	<u>(23,116,253)</u>
Net position for governmental activities		<u><u>\$ 3,113,202</u></u>

MAYFIELD INDEPENDENT SCHOOL DISTRICT
**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND
 CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
 TO THE STATEMENT OF ACTIVITIES**
 For the Year Ended June 30, 2019

Net change in total fund balances per fund financial statements \$ 1,015,174

Amounts reported for governmental activities in the statement of activities
 are different because:

Governmental funds report capital outlays as expenditures because they use current financial resources. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense for the year.

Depreciation expense	(808,525)	
Capital outlays	<u>844,297</u>	35,772

Gross proceeds from the sale of capital assets are reported as revenue in the governmental funds because they provide current financial resources. However, in the statement of activities, the undepreciated cost of those assets is deducted from the proceeds to report gain or loss on the sale.

Gross proceeds from the sale of fixed assets	(2,424)	
Gain (loss) on the disposal of fixed assets	<u>(11,587)</u>	(14,011)

Bond proceeds are reported as financing sources in governmental funds and, thus, contribute to the change in fund balance. In the statement of net position, however, issuing debt increases long-term liabilities and does not affect the statement of activities. Similarly, repayment of principal is an expenditure in the governmental funds but reduces the liability in the statement of net position.

Bond Principal paid	818,371	
Note principal paid	<u>29,173</u>	847,544

Governmental funds report the effect of gains, losses, and discounts when debt is first issued; whereas, these amounts are amortized in the statement of activities.

Amortization of deferred loss on early retirement of debt	(37,794)	
Amortization of bond discounts	<u>(7,752)</u>	(45,546)

Generally, expenditures recognized in this fund financial statement are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when they are incurred.

These net differences are as follows:

Interest payable	3,728	
Pension and OPEB expense	(915,410)	
Accrued sick leave	<u>(3,181)</u>	<u>(914,863)</u>

Change in net position of governmental activities \$ 924,070

MAYFIELD INDEPENDENT SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
Year ended June 30, 2019

NOTE A – REPORTING ENTITY

The Mayfield Independent Board of Education (“Board”), a five-member group, is the level of government which has oversight responsibilities over all activities related to public elementary and secondary school education within the jurisdiction of the Mayfield Independent School District (“District”). The District receives funding from local, state and federal government sources and must comply with the commitment requirements of these funding source entities. However, the District is not included in any other governmental “reporting entity” as defined in Section 2100, Codification of Governmental Accounting and Financial Reporting Standards because board members are elected by the public and have decision-making authority, the power to designate management, the responsibility to develop policies which may influence operations, and primary accountability for fiscal matters.

The District, for financial purposes, includes all of the funds and activities relevant to the operation of the Mayfield Independent School District. The financial statements presented herein do not include funds of groups and organizations, which although associated with the school system, have not originated within the District itself such as Band Boosters, Parent-Teacher Associations, etc. The District is not involved in budgeting or managing these organizations, and is not responsible for any debt of the organizations, nor has any influence over the operation of the organizations.

The financial statements of the District include those of separately administered organizations that are controlled by or dependent on the Board. Control or dependence is determined on the basis of budget adoption, funding, and appointment of the respective governing board.

Based on the foregoing criteria, the financial statements of the following organization are included in the accompanying financial statements:

Mayfield Independent School District Finance Corporation – In 1991, the Mayfield Independent Board of Education resolved to authorize the establishment of the Mayfield Independent School District Finance Corporation (a non-profit, non-stock, public and charitable corporation organized under the School Bond Act and KRS 273 and KRS Section 58.180) (the “Corporation”) as an agency for the District for financing the costs of school building facilities. The board members of the Mayfield Independent Board of Education also comprise the Corporation’s Board of Directors.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The District’s financial statements are prepared in accordance with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant of the District’s accounting policies are described below.

Basis of Presentation

Government-wide Financial Statements – The Statement of Net Position and the Statement of Activities display information about the District as a whole. These statements include all financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the District that are governmental and those that are considered business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

MAYFIELD INDEPENDENT SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED
Year ended June 30, 2019

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Basis of Presentation - continued

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements, therefore, include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements of governmental funds.

The government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the District. The District does not allocate indirect expenses.

Fund Financial Statements – The financial transactions of the District are reported in individual funds in the fund financial statements, each of which is considered to be a separate set of self-balancing accounts which constitute its assets, liabilities, fund equity, revenues, and expenditures. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type. A fund is considered major if it is the primary operating fund of the District or meets the following criteria:

- a) Total assets plus deferred outflows, liabilities plus deferred inflows, revenues, or expenditures/expenses of that individual governmental or proprietary fund are at least 10 percent of the corresponding total for all funds of that category or type, and
- b) Total assets plus deferred outflows, liabilities plus deferred inflows, revenues, or expenditures/expenses of the individual governmental fund or proprietary fund are at least 5 percent of the corresponding total for all governmental and proprietary funds combined.
- c) Funds may be reported as a major fund if the District considers them significant to the users of the financial statements.

The accounting and reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets, current liabilities, and fund balances, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets, deferred outflows, liabilities, and deferred inflows associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses, and changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net position. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activities.

The fiduciary funds are reported using the economic resources measurement focus.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Fund Accounting

The District has the following funds:

I. Governmental Fund Types

- (A) The General Fund is the primary operating fund of the District. It accounts for financial resources used for general types of operations. This is a budgeted fund, and any unrestricted fund balances are considered as resources available for use. This is always classified as a major fund of the District per GASB 34.
- (B) The Special Revenue (Grant) Fund accounts for proceeds of specific revenue sources, such as grants, donations, or gifts (other than expendable trusts or major capital projects) that are legally restricted or committed to expenditure for specified purposes other than debt service or capital projects. It includes state, federal and private grants where unused balances are returned to the grantor at the close of the specified project periods. Project accounting codes are employed to distinguish specific revenue sources and expenditures. The separate projects of federally-funded grant programs are identified in the Schedule of Expenditures of Federal Awards included in this report on page 70. The Kentucky Department of Education has deemed this fund always be classified as a major fund.
- (C) Capital Project Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays including the acquisition or construction of capital facilities and other capital assets (other than those financed by Proprietary Funds). Common sources of revenue to these funds are the capital outlay allotment, building fund tax levies, and sale of bonds.
 - 1. The Support Education Excellence in Kentucky (SEEK) Capital Outlay Fund receives those funds designated by the state as Capital Outlay Funds (unless authorized for retention in the General Fund) and is restricted for use in financing projects identified in the District's facility plan.
 - 2. The Facility Support Program of Kentucky (FSPK) Fund accounts for funds generated by the building tax levy required to participate in the School Facilities Construction Commission's construction funding and state matching funds, where applicable. Funds may be used for projects identified in the district's facility plan.
 - 3. The Construction Fund accounts for proceeds from sales of bonds and other revenues to be used for authorized construction.
- (D) The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest and related cost; and, for the payment of interest on general obligation notes payable, as required by Kentucky Law.

II. Proprietary Fund Types (Enterprise Fund)

The Food Service Fund (Enterprise) is used to account for school food service activities, including the National School Lunch Program, which is conducted in cooperation with the U.S. Department of Agriculture (USDA). An amount of \$55,174 has been recorded for in-kind contribution of commodities from the USDA. The Food Service Fund is a major fund of the District.

MAYFIELD INDEPENDENT SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED
Year ended June 30, 2019

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Fund Accounting – continued

III. Fiduciary Fund Type (Agency and Private Purpose Trust Funds)

- (A) Agency funds account for assets held by the District in a purely custodial capacity. Since Agency Funds are custodial in nature (i.e., assets equal liabilities), they do not involve the measurement of results of operations. The Agency Fund accounts for activities of student groups and other types of activities requiring clearing accounts. These activity funds are accounted for in accordance with the Accounting Procedures for Kentucky School Activity Funds (Redbook).
- (B) The Private Purpose Trust funds are used to report trust arrangements under which principal and income benefit individuals, such as scholarships.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting.

Exchange transactions, in which each party receives essentially equal value, are recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenues are recorded in the fiscal year in which the resources are measurable and available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means resources are expected to be received within sixty days of the fiscal year-end.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On the modified accrual basis, revenues from non-exchange transactions must also be available before it can be recognized.

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before the eligibility requirements are met are recorded as unearned grant revenue.

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the statement of revenues, expenses, and changes in net position as an expense with a like amount reported as donated commodities revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation, are not recognized in governmental funds.

MAYFIELD INDEPENDENT SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED
Year ended June 30, 2019

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Property Taxes

Property taxes are levied each October 1 on the assessed value listed as of the prior January 1, for all real and personal property within the School District. The billings are considered due upon receipt by the taxpayer; however, the actual date is based on a period ending thirty days after the tax bill mailing. Property taxes collected are recorded as revenues in the fund for which they were levied.

The property tax rates assessed for the year ended June 30, 2019, to finance operations were \$.721 per \$100 valuation for real property, \$.721 per \$100 valuation for business personal property and \$.721 per \$100 valuation for motor vehicles.

The District levies a utility gross receipts license tax in the amount of 3% of the gross receipts derived from the furnishings, within the District, of telephonic and telegraphic communications services, cablevision services, electric power, water, and natural, artificial and mixed gas.

Budgetary Process

Budgetary Basis of Accounting: The District's budgetary process accounts for revenues and expenses on the same basis as the actual financial statements, which is Generally Accepted Accounting Principles (GAAP).

Once the budget is approved, it can be amended. Each budget is prepared and controlled by the budget coordinator at the revenue and expenditure function/object level. All budget appropriations lapse at year-end.

Cash and Cash Equivalents

The District considers demand deposits, money market funds, and other investments with an original maturity of ninety days or less, to be cash equivalents.

Inventories

The only inventory maintained by the District consists of expendable supplies held for consumption and is accounted for in the proprietary (food service) fund. Inventory consists of purchased food and donated commodities and is expensed when used. The purchased food is stated at cost and donated commodity inventory is stated at estimated value on date of receipt, with both types using the first-in, first-out method.

Prepaid Assets

Payments made that will benefit periods beyond June 30, 2019 are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed. Prepaid items at June 30, 2019 consisted of student accident insurance paid during the fiscal year ended June 30, 2019 that included coverage for periods beyond June 30, 2019.

Debt Costs

Unamortized discounts of \$48,940 are included in the government-wide statements. Discounts are amortized over the lives of the related debt issues using the straight-line method.

MAYFIELD INDEPENDENT SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED
Year ended June 30, 2019

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. At its July 18, 2012 meeting the Board approved a change to its Equipment and Assets policy in order to follow guidelines developed by the Kentucky Department of Education in its latest update on January 25, 2012. The guidelines established a capitalization threshold of \$5,000 for real or personal property. Larger thresholds apply to buildings and building improvements (\$15,000) and leasehold improvements (\$50,000). Improvements to land and to buildings in excess of the above limits are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All capital assets, except land, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives for both governmental and business-type capital assets:

<u>Description</u>	<u>Governmental Activities Estimated Lives</u>
Buildings and improvements	25-50 years
Land improvements	20 years
Technology equipment	5 years
Vehicles	5-10 years
Audio-visual equipment	15 years
Food service equipment	10-12 years
Furniture and fixtures	7 years
Rolling stock	15 years
Other	10 years

Accumulated Unpaid Sick Leave Benefits

For those employees who qualify, the District has adopted the policy of providing at retirement a percentage of their accumulated unused sick leave. Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination payments. The liability is based on the District's past experience of making termination payments and the age and current pay rates of eligible employees.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements the current portion of unpaid accrued sick leave is the amount expected to be paid using expendable available resources. These amounts, when applicable, are recorded in the account "current portion of accrued sick leave" in the general fund. The noncurrent portion of the liability is not reported.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

MAYFIELD INDEPENDENT SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED
Year ended June 30, 2019

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Accrued Liabilities and Long-Term Obligations - Continued

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, claims and judgments, the noncurrent portion of capital leases, accumulated sick leave, contractually required pension contributions and special termination benefits that will be paid from governmental funds are reported as liabilities in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, payments made within sixty days after year-end are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are not recognized as liabilities in the fund financial statements until due.

Encumbrance Accounting

Encumbrances are not liabilities and, therefore, are not recorded as expenditures until receipt of materials or service. For budgetary purposes, appropriations lapse at fiscal year-end and outstanding encumbrances at year-end are re-appropriated in the next year. Accordingly, no differences exist between actual results and the applicable budgetary data presented in the accompanying required supplementary information. Encumbrances are considered a managerial assignment of fund balance at June 30, 2019.

Fund Balance Classifications

Nonspendable fund balances are amounts that are not in a spendable form (such as prepaid expenses or inventories) or are required to be maintained intact.

Restricted fund balances arise when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

Committed fund balances are those amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, which, for the District, is the Board of Education. The Board of Education must approve by majority vote the establishment (and modification or rescinding) of a fund balance commitment.

Assigned fund balances are those amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. The Board of Education allows the program supervisors to complete purchase orders which result in the encumbrance of funds. Assigned fund balance also includes (a) all remaining amounts, except negative balances, that are reported in governmental funds, other than the general fund, that are not classified as nonspendable and are neither restricted nor committed and (b) amounts in the general fund that are intended to be used for a specific purpose.

Unassigned fund balance is the residual classification for the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. The General Fund is the only fund that reports a positive unassigned fund balance. In other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

The District considers restricted amounts to have been spent first when expenditures are incurred for purposes for which both restricted and unrestricted fund balances are available. The District does not have a policy regarding the use of unrestricted fund balance amounts. Therefore, the default order is used which considers that committed amounts would be reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

MAYFIELD INDEPENDENT SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED
Year ended June 30, 2019

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Net Position

Net position represents the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Unrestricted net position includes all other net position that does not meet the definition of restricted or net investment in capital assets.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, those revenues are primarily charges for meals provided by the various schools. Non-operating revenues and expenses consist of those revenues and expenses that are related to financing and investing types of activities and result from non-exchange transactions or ancillary activities.

Use of Restricted Resources

When an expense is incurred for which there are both restricted and unrestricted net position available, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Pensions and Postemployment Benefits Other than Pensions (OPEB)

For purposes of measuring the net pension liability, net OPEB liability, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB, pension expense, and OPEB expense, information about the fiduciary net position of the County Employees Retirement System (CERS) and Teachers Retirement System of the State of Kentucky (TRS) and additions to/deductions from fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investment and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Interfund transfers between funds of the same type are eliminated in the government-wide statements. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

MAYFIELD INDEPENDENT SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED
Year ended June 30, 2019

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Subsequent Events

In preparing these financial statements, management has evaluated other events and transactions for potential recognition or disclosure through November 11, 2019, the date the financial statements were available to be issued.

NOTE C – ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets, deferred outflows, liabilities, deferred inflows, fund balances, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

NOTE D – CASH AND CASH EQUIVALENTS

The District's funds are required to be deposited and invested under the terms of a depository contract pursuant to KRS 160.570 and 702 KAR 3:090. The depository bank deposits for safekeeping and trust with the District's third party agent approved pledged securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance.

Kentucky Revised Statutes authorize the Board to invest in direct obligations of the United States government, obligations backed by the full faith and credit of the United States government, certificates of deposit or other interest bearing accounts issued by any bank or saving and loan institution provided that such investment is insured by the FDIC or guaranteed by the pledge of direct United States Government obligations, bonds issued by the Commonwealth of Kentucky or one of its agencies and instrumentalities, securities issued by any state or local government of the United States rated in one of the three highest categories by a nationally recognized rating agency, certain mutual funds, commercial paper rated in the highest category by a nationally recognized rating agency, or bankers' acceptance for banks rated in one of the three highest categories by a nationally recognized rating agency. The District has no investment policy that would further limit its investment choices.

At year-end, the carrying amount of the District's total cash and cash equivalents was \$6,850,005. The bank balance was \$7,555,994. Of the bank balance, \$252,028 was covered by federal depository insurance and the remaining balance was subject to custodial credit risk. Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The remaining balance of \$7,303,966 was uninsured and collateralized with securities held by the pledging bank's agent, in the District's name.

MAYFIELD INDEPENDENT SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED
Year ended June 30, 2019

NOTE F – GENERAL LONG-TERM OBLIGATIONS

The amount shown in the accompanying government-wide financial statements as bond obligations represent the District's future obligations to make lease payments related to school building revenue bonds issued by the Mayfield Independent School District Finance Corporation on behalf of the District for purposes of school facility construction. These amounts are not reflected on the fund financial statements.

The District, through the General Fund, SEEK Capital Outlay Fund and the Facility Support Program Levy Fund is obligated to make lease payments. The lease agreements provide, among other things, for rentals sufficient to satisfy debt service requirements on bonds issued by the Mayfield Independent School District Finance Corporation to construct school facilities. The District has the option to purchase the property under lease at any time by retiring the bonds then outstanding. Upon completion of such payments, the leased premises will become the property of the District. The District is obligated to maintain adequate property insurance on the school facilities, and the school facilities have been pledged as security for the holders of the bonds.

The KISTA school bus acquisition bonds provide for the title of the equipment (buses) to vest in the District subject to a first lien, and if nonrenewal or default occurs, the title will revert to KISTA. The District leases and rents the equipment from KISTA on an annual basis and has an exclusive option to renew this lease from year to year for the period of time of the pooled bond issue (approximately 10 years). The semi-annual bond interest and principal payments constitute the lease payments. The District is also obligated to keep the equipment in good repair and provide insurance coverage.

Following is a schedule of obligations existing at June 30, 2019:

<u>Issue Date</u>	<u>Maturity Date</u>	<u>Interest Rates</u>	<u>Amount Outstanding</u>
December 1, 2009 KISTA	December 1, 2019	2.000% - 3.600%	\$ 7,585
March 20, 2012, refunding	March 1, 2024	0.600% - 2.300%	3,395,000
February 1, 2014	February 1, 2034	1.500% - 4.000%	463,000
June 1, 2016	June 1, 2036	1.000% - 3.000%	1,655,000
December 28, 2016	December 1, 2036	1.500% - 3.750%	1,055,000
December 28, 2016	December 1, 2036	1.000%	2,980,000
			<u>\$ 9,555,585</u>

In 1997 the District entered into a "participation agreement" with the Kentucky School Facilities Construction Commission (the "Commission"). The Commission was created by the Kentucky General Assembly for the purpose of assisting local school boards in meeting school construction needs. The Commission will remit a stated amount of bond principal and interest payments annually, subject to biennial approval by the Kentucky General Assembly. Should approval not be received in future periods, the District remains obligated for the full amount of the bond principal and interest payments. Therefore, the liability for the total bond amount remains with the District and, as such, the total principal outstanding has been recorded in the financial statements.

On March 20, 2012, the District issued bonds to currently refund all outstanding 2001 School Building Revenue Bonds and to advance refund on March 1, 2014 the outstanding 2004 School Building Revenue Bonds that were scheduled to mature on or after March 1, 2017. The defeased bonds were paid during a previous year. In the Statement of Net Position, the net costs associated with the early retirement of the issues are deferred and amortized over the lesser of the original remaining life of the old bonds or the life of the new bonds. The amount deferred is reported as a deferred outflow of resources. Total deferred costs were \$454,162. Amortization for the year was \$37,794 and is included as a component of interest expense.

MAYFIELD INDEPENDENT SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED
Year ended June 30, 2019

NOTE F – GENERAL LONG-TERM OBLIGATIONS (CONTINUED)

The bonds may be called prior to maturity and redemption premiums are specified in each issue. Assuming no bonds are called prior to scheduled maturity, the minimum obligations of the District, including amounts to be paid by the Commission, at June 30, 2019 for debt service (principal and interest) are as follows:

Year	Mayfield Independent School District		Kentucky School Facility Construction Commission		Total
	Principal	Interest	Principal	Interest	
2019-2020	\$ 792,036	\$ 174,303	\$ 39,549	\$ 18,832	\$ 1,024,720

MAYFIELD INDEPENDENT SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED
Year ended June 30, 2019

NOTE G – EMPLOYEE BENEFITS

The District's employees are provided with two pension plans, based on each position's college degree requirement. The County Employees Retirement System covers employees whose position does not require a college degree or teaching certification. The Kentucky Teachers Retirement System covers positions requiring teaching certification or otherwise requiring a college degree.

County Employees Retirement System Pension and Insurance Funds

Plan Descriptions and Benefits Provided - Employees whose positions do not require a degree beyond a high school diploma are covered by the CERS, a cost-sharing multiple-employer defined benefit pension plan administered by Kentucky Retirement Systems (KRS), an agency of the Commonwealth of Kentucky. The plan covers all regular full-time members employed in non-hazardous and hazardous duty positions of any state department, board, agency, county, city, school board, and any additional eligible local agencies electing to participate. CERS provides retirement, disability benefits, and death benefits to plan members. Retirement benefits may be extended to beneficiaries of plan members under certain circumstances. Cost of living (COLA) adjustments are provided at the discretion of the State legislature. Under the provisions of Kentucky Revised Statute Section 61.645, the Board of Trustees of Kentucky Retirement Systems administers the CERS.

The CERS also provides other post-employment benefits through the Kentucky Retirement Systems Insurance Fund (Insurance Fund), which was established to provide hospital and medical insurance for members receiving benefits from CERS. The insurance fund is a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the Kentucky Retirement Systems. The insurance fund pays a prescribed contribution for whole or partial payment of required premiums to purchase hospital and medical insurance. The amount of contribution paid by the insurance fund is based upon years of service. All participants enrolled in CERS are automatically enrolled in both the insurance fund and the pension fund. Information regarding the Insurance Fund is contained in the financial statements of the Kentucky Retirement Systems.

The Kentucky Retirement Systems issues a publicly available financial report that includes financial statements and required supplementary information for the plans. That report may be found on the KRS website at www.kyret.ky.gov.

Contributions – Contribution rates are established by the Kentucky Revised Statutes. Non-hazardous plan members who began participating prior to September 1, 2008 are required to contribute 5% of their annual creditable compensation. Plan members who began participating on or after September 1, 2008 are required to contribute an additional 1% for retirement health insurance coverage. Plan members who began participating on or after January 1, 2014 are required to contribute to the Cash Balance Plan which is a hybrid plan with characteristics of both a defined benefit plan and a defined contribution plan. Members in the Cash Balance Plan are required to contribute at the same rates as plan members who began participating on or after September 1, 2008. The employer contribution plan rates for non-hazardous plan members were 21.48% for the year ended June 30, 2019. The required contribution rates are made up of a portion that is attributed to the insurance fund and a portion attributed to the pension fund. For non-hazardous contributions, 16.22% is the rate for the pension fund and 5.26% is the rate for the insurance fund. The pension contributions for the fiscal year ended June 30, 2019 were \$516,676. The insurance contributions for the fiscal year ended June 30, 2019 were \$167,553. The actuarially determined contribution requirements of plan members and the District are established and may be amended by the KRS Board of Trustees.

NOTE G – EMPLOYEE BENEFITS - CONTINUED

County Employees Retirement System Pension Fund

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At June 30, 2019, the District reported a liability of \$8,286,408 for its proportionate share of the net pension liability. The total pension liability was rolled-forward from the actuarial valuation date of June 30, 2017 to the plan's fiscal year ended June 30, 2018, using generally accepted actuarial principles. The District's proportion of the net pension liability was based on a projection of the District's share of contributions to the pension plan relative to the total contributions of all participating employers, actuarially determined. At June 30, 2018, the District's proportion was .136059% for non-hazardous employees.

As a result of its requirement to contribute to the CERS pension fund, the District recognized pension expense of \$1,616,430 for the year ended June 30, 2019. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources from the following sources as a result of its requirements to contribute to CERS:

	<u>Deferred Outflows of Resources</u>		<u>Deferred Inflows of Resources</u>	
	<u>Governmental</u>	<u>Business-Type</u>	<u>Governmental</u>	<u>Business-Type</u>
	<u>Activities</u>	<u>Activities</u>	<u>Activities</u>	<u>Activities</u>
Net differences between projected and actual earnings on pension plan investments	\$ 337,602	\$ 47,722	\$ 424,655	\$ 60,028
Differences between expected and actual experience	236,805	33,474	106,273	15,023
Changes of assumptions	709,526	100,297	0	0
Change in proportion and differences between employer contributions and proportionate share of plan contributions	500,842	70,797	21,184	2,995
District contributions subsequent to the measurement date	452,683	63,993	0	0
Total	<u>\$ 2,237,458</u>	<u>\$ 316,283</u>	<u>\$ 552,112</u>	<u>\$ 78,046</u>

Deferred outflows of resources in governmental activities of \$452,683 and in business-type activities of \$63,993 related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ended</u>	<u>Governmental</u>	<u>Business-Type</u>
<u>June 30</u>	<u>Activities</u>	<u>Activities</u>
2020	\$ 777,617	\$ 109,921
2021	485,670	68,652
2022	8,344	1,180
2023	(38,968)	(5,509)

The net pension liability as of June 30, 2019 is based on the June 30, 2017 actuarial valuation as rolled forward to the plan's fiscal year end of June 30, 2018 using generally accepted actuarial principles. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are netted and amortized over a closed five-year period. Deferred outflows and inflows related to differences between expected and actual experience, changes of assumptions, and changes in proportion and differences between employer contributions and proportionate share of plan contributions are amortized over a period that represents the weighted average service life of active and inactive members of the plan (3.46 years for non-hazardous plans).

Year ended June 30, 2019

NOTE G – EMPLOYEE BENEFITS – CONTINUED

County Employees Retirement System Pension Fund (Continued)

Actuarial Assumptions - The total pension liability, net pension liability, and sensitivity information as of June 30, 2018 were based on an actuarial valuation date of June 30, 2017. The total pension liability was rolled forward from the valuation date (June 30, 2017) to the plan's fiscal year ended June 30, 2018, using generally accepted actuarial principles. An actuarial experience study was conducted for the five-year period July 1, 2008 to June 30, 2013. Subsequent to the actuarial valuation date (June 30, 2017) but prior to the measurement date, the KRS Board of Trustees reviewed investment trends, inflation, and payroll growth historical trends. Based on this review, the KRS Board of Trustees adopted the following updated actuarial assumptions which were used in performing the actuarial valuation as of June 30, 2018 (a complete list of actuarial assumptions is listed in the Required Supplementary Information section of this report):

Inflation - 2.30%

Salary increases - 3.05% average, including inflation

Investment rate of return – 6.25% net of pension plan investment expense, including inflation

Payroll growth rate – 2.00%

There was a change in benefit terms from the plan's fiscal year ended June 30, 2017 to the fiscal year ended June 30, 2018 as a result of House Bill 185, which updated the benefit provisions for active members who die in the line of duty. Benefits paid to spouses of deceased members have been increased from 25% of the member's final rate of pay to 75% of the member's average pay. If there is no surviving spouse, the benefits to surviving dependent children increased from 10% of the member's final pay to 50% of average pay for one child, 65% of average pay for two children, or 75% of average pay for three children.

The mortality table used for active members is RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females). For healthy retired members and beneficiaries, the mortality table used is the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (set back one year for females). For disabled members, the RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (set back four years for males) is used for the period after disability retirement. There is some margin in the current mortality tables for possible future improvement in mortality rates and that margin will be reviewed again when the next experience investigation is conducted.

The long-term expected return on plan assets was determined by using a building block method in which best estimate ranges of expected future real rates of return are developed for each asset class. The ranges are combined by weighting the expected future real rate of return by the target asset allocation percentage. The target allocation and best estimates of arithmetic real rate of return for each major asset class are summarized in the following table:

MAYFIELD INDEPENDENT SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED
Year ended June 30, 2019

NOTE G – EMPLOYEE BENEFITS – CONTINUED

County Employees Retirement System Pension Fund (Continued)

Actuarial Assumptions (Continued)

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
U.S. Equity – Large Cap	5.00%	4.50%
U.S. Equity – Mid Cap	6.00%	4.50%
U.S. Equity – Small Cap	6.50%	5.50%
Non U.S. Equity – International Developed	12.50%	6.50%
Non U.S. Equity – Emerging Markets	5.00%	7.25%
Global Bonds	4.00%	3.00%
Credit Fixed – Global IG Credit	2.00%	3.75%
Credit Fixed – High Yield	7.00%	5.50%
Credit Fixed – Emerging Market Debt	5.00%	6.00%
Credit Fixed – Illiquid Private Credit	10.00%	8.50%
Private Equity	10.00%	6.50%
Real Estate	5.00%	9.00%
Absolute Return	10.00%	5.00%
Real Return	10.00%	7.00%
Cash Equivalent	<u>2.00%</u>	1.50%
Total	<u>100.00%</u>	

Discount Rate - The discount rate used to measure the total pension liability was 6.25%. The discount rate determination does not use a municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at the actuarially determined contribution rate of projected compensation over the remaining 25 year closed amortization period of the unfunded actuarial accrued liability. Once the unfunded actuarial accrued liability is fully amortized, the employer will only contribute the normal cost rate and the administrative expense rate on the close payroll for existing members.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate - The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 6.25%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.25%) or 1-percentage-point higher (7.25%) than the current rate:

	1% Decrease <u>(5.25%)</u>	Current Discount <u>(6.25%)</u>	1% Increase <u>(7.25%)</u>
District's proportionate share of net pension liability	\$10,431,729	\$8,286,408	\$6,489,004

Pension plan fiduciary net position - Detailed information about the pension plan's fiduciary net position is available in the separately issued Kentucky Retirement Systems financial report.

Payables to the pension plan – At June 30, 2019, the financial statements include \$35,093 in payables to CERS for the pension and insurance funds.

County Employees Retirement System Insurance Fund (OPEB)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB - At June 30, 2019, the District reported a liability of \$2,409,682 for its proportionate share of the net OPEB liability of non-hazardous employees. The total OPEB liability was rolled-forward from the actuarial valuation date of June 30, 2017 to the plan's fiscal year ended June 30, 2018, using generally accepted actuarial principles. The District's proportion of the net OPEB liability was based on a projection of the District's share of contributions to the OPEB plan relative to the total contributions of all participating employers, actuarially determined. At June 30, 2018, the District's proportion was .135720% for non-hazardous employees.

MAYFIELD INDEPENDENT SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED
Year ended June 30, 2019

NOTE G – EMPLOYEE BENEFITS – CONTINUED

County Employees Retirement System Insurance Fund (OPEB) (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued) - The fully-insured premiums KRS pays for the Kentucky Employees' Health Plan are blended rates based on the combined experience of active and retired members. Because the average cost of providing health care benefits to retirees under age 65 is higher than the average cost of providing health care benefits to active employees, there is an implicit employer subsidy for the non-Medicare eligible retirees. GASB 75 requires that the liability associated with this implicit subsidy be included in the calculation of the total OPEB liability.

As a result of its requirement to contribute to the CERS insurance fund, the District recognized OPEB expense of \$347,270 for the year ended June 30, 2019. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources from the following sources as a result of its requirements to contribute to CERS:

	<u>Deferred Outflows of Resources</u>		<u>Deferred Inflows of Resources</u>	
	<u>Governmental Activities</u>	<u>Business-Type Activities</u>	<u>Governmental Activities</u>	<u>Business-Type Activities</u>
Net differences between projected and actual earnings on OPEB plan investments	\$ 0	\$ 0	\$ 145,423	\$ 20,557
Differences between expected and actual experience	0	0	246,037	34,779
Changes of assumptions	421,646	59,603	4,878	689
Change in proportion and differences between employer contributions and proportionate share of plan contributions	189,959	26,852	3,965	560
District contributions subsequent to the measurement date	<u>146,801</u>	<u>20,752</u>	<u>0</u>	<u>0</u>
Total	<u>\$ 758,406</u>	<u>\$ 107,207</u>	<u>\$ 400,303</u>	<u>\$ 56,585</u>

Deferred outflows of resources in governmental activities of \$146,801 and in business-type activities of \$20,752 related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Year Ended June 30</u>	<u>Governmental Activities</u>	<u>Business-Type Activities</u>
2020	\$ 42,430	\$ 5,998
2021	42,430	5,998
2022	42,430	5,998
2023	70,674	9,990
2024	16,487	2,331
Thereafter	(3,149)	(445)

The net OPEB liability as of June 30, 2019 is based on the June 30, 2017 actuarial valuation rolled forward to the plan's fiscal year end of June 30, 2018 using generally accepted actuarial principles. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are netted and amortized over a closed five-year period. Deferred outflows and inflows related to differences between expected and actual experience, changes of assumptions, and changes in proportion and differences between employer contributions and proportionate share of contributions are amortized over a period that represents the weighted average of the remaining service life of active and inactive members of the plan (6.30 years for non-hazardous plans).

County Employees Retirement System Insurance Fund (OPEB) (Continued)

Actuarial Assumptions - The total OPEB liability, net OPEB liability, and sensitivity information for the actuarial valuation as of June 30, 2018 were based on an actuarial valuation date of June 30, 2017. The total OPEB liability was rolled-forward from the valuation date (June 30, 2017) to the plan's fiscal year ended June 30, 2018, using generally accepted actuarial principles. An actuarial experience study was conducted for the five-year period July 1, 2008 to June 30, 2013. Subsequent to the actuarial valuation date (June 30, 2017) but prior to the measurement date, the KRS Board of Trustees reviewed investment trends, inflation, and payroll growth historical trends. Based on this review, the KRS Board of Trustees adopted the following updated actuarial assumptions which were used in performing the actuarial valuation as of June 30, 2018 (a complete list of actuarial assumptions is listed in the Required Supplementary Information section of this report):

Inflation - 2.30%

Salary increases - 3.05% average, including inflation

Investment rate of return – 6.25% net of OPEB plan investment expense, including inflation

Payroll growth rate – 2.00%

Healthcare trend rates – Initial trend starting at 7.00% at January 1, 2020, and gradually decreasing to an ultimate trend rate of 4.05% over a period of 12 years (Pre-65). Initial trend rate starting at 5.00% at January 1, 2020, and gradually decreasing to an ultimate trend rate of 4.05% over a period of 10 years (Post-65).

Single discount rate – Prior measurement date: 5.84%; Measurement date: 5.85%

Municipal bond rate – Prior measurement date: 3.56%; Measurement date: 3.62%

There was a change in benefit terms from the plan's fiscal year ended June 30, 2017 to the fiscal year ended June 30, 2018 as a result of House Bill 185 which updated the provisions to now pay 100% of the insurance premiums for spouses and children of all active members who die in the line of duty.

The mortality table used for active members is RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females). For healthy retired members and beneficiaries, the mortality table used is the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (set back one year for females). For disabled members, the RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (set back four years for males) is used for the period after disability retirement. There is some margin in the current mortality tables for possible future improvement in mortality rates and that margin will be reviewed again when the next experience investigation is conducted.

Actuarial Assumptions (Continued) - The long-term expected rate of return on plan assets was determined by using a building block method in which best estimate ranges of expected future real rates of return are developed for each asset class. The ranges are combined by weighting the expected future real rate of return by the target asset allocation percentage. The target allocation and best estimates of arithmetic real rate of return for each major asset class are summarized in the following table:

MAYFIELD INDEPENDENT SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED
Year ended June 30, 2019

NOTE G – EMPLOYEE BENEFITS – CONTINUED

County Employees Retirement System Insurance Fund (OPEB) (Continued)

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
U.S. Equity – Large Cap	5.00%	4.50%
U.S. Equity – Mid Cap	6.00%	4.50%
U.S. Equity – Small Cap	6.50%	5.50%
Non U.S. Equity – International Developed	12.50%	6.50%
Non U.S. Equity – Emerging Markets	5.00%	7.25%
Global Bonds	4.00%	3.00%
Credit Fixed – Global IG Credit	2.00%	3.75%
Credit Fixed – High Yield	7.00%	5.50%
Credit Fixed – Emerging Market Debt	5.00%	6.00%
Credit Fixed – Illiquid Private	10.00%	8.50%
Private Equity	10.00%	6.50%
Real Estate	5.00%	9.00%
Absolute Return	10.00%	5.00%
Real Return	10.00%	7.00%
Cash Equivalent	<u>2.00%</u>	1.50%
Total	<u>100.00%</u>	

Discount Rate - The discount rate used to measure the total OPEB liability was 5.85% for non-hazardous. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at the actuarially determined contribution rate of projected compensation over the remaining 25 year closed amortization period of the unfunded actuarial accrued liability. The cost associated with the implicit subsidy was not included in the calculation of the KRS's actuarially determined contributions, and any cost associated with the implicit subsidy will not be paid out of the KRS's trusts. Therefore, the municipal bond rate was applied to future expected benefit payments associated with the implicit subsidy. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments from the retirement system. As a result, the Municipal Bond Index Rate was used in the determination of the single equivalent interest rate. There was a change in the Municipal Bond Index Rate from the prior measurement date, so as required under GASB 75, the single equivalent interest rate at the measurement date of 5.85% for non-hazardous was calculated using the Municipal Bond Index Rate as of the measurement date of 3.62%, as reported in Fidelity Index's "20-Year Municipal GO AA Index" as of June 30, 2018. This change in the discount rate is considered a change in actuarial assumptions or other inputs under GASB 75.

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the discount rate - The following presents the District's proportionate share of the net OPEB liability calculated using the discount rate of 5.85%, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.85%) or 1-percentage-point higher (6.85%) than the current rate:

	<u>1% Decrease (4.85%)</u>	<u>Current Discount (5.85%)</u>	<u>1% Increase (6.85%)</u>
District's proportionate share of net OPEB liability	\$3,129,790	\$2,409,682	\$1,796,281

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the healthcare cost trend rate - The following presents the District's proportionate share of the net OPEB liability, as well as what the District's proportionate share of the collective net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	<u>1% Decrease</u>	<u>Current Trend Rate</u>	<u>1% Increase</u>
District's proportionate share of net OPEB liability	\$1,794,032	\$2,409,682	\$3,135,355

County Employees Retirement System Insurance Fund (OPEB) (Continued)

OPEB plan fiduciary net position - Detailed information about the OPEB plan's fiduciary net position is available in the separately issued Kentucky Retirement Systems financial report.

Payables to the OPEB plan – At June 30, 2019, the financial statements include \$35,093 in payables to CERS for the pension and insurance funds.

Teachers' Retirement System of the State of Kentucky General Information about the Pension Plan

Plan Description – Teaching-certified employees of the District are provided pensions through the Teachers' Retirement System of the State of Kentucky (TRS) - a cost-sharing multiple-employer defined benefit pension plan with a special funding situation established to provide retirement annuity plan coverage for local school districts and other public educational agencies in the Commonwealth. TRS was created by the 1938 General Assembly and is governed by Chapter 161 Section 220 through Chapter 161 Section 990 of the Kentucky Revised Statutes (KRS). TRS is a blended component unit of the Commonwealth of Kentucky and therefore is included in the Commonwealth's financial statements. TRS issues a publicly available financial report that can be obtained at <https://trs.ky.gov/financial-reports-information/>.

Benefits Provided - For members who have established an account in a retirement system administered by the Commonwealth prior to July 1, 2008, members become vested when they complete five (5) years of credited service. To qualify for monthly retirement benefits, payable for life, members must either:

- 1) Attain age fifty-five (55) and complete five (5) years of Kentucky service, or
- 2) Complete 27 years of Kentucky service.

Participants that retire before age 60 with less than 27 years of service receive reduced retirement benefits. Non-university members with an account established prior to July 1, 2002 receive monthly payments equal to two (2) percent (service prior to July 1, 1983) and two and one-half (2.5) percent (service after July 1, 1983) of their final average salaries for each year of credited service. New members (including second retirement accounts) after July 1, 2002 will receive monthly benefits equal to 2% of their final average salary for each year of service if, upon retirement, their total service is less than ten years. New members after July 1, 2002 who retire with ten or more years of total service will receive monthly benefits equal to 2.5% of their final average salary for each year of service, including the first ten years. In addition, members who retire July 1, 2004 and later with more than 30 years of service will have their multiplier increased for all years over 30 from 2.5% to 3.0% to be used in their benefit calculation. Effective July 1, 2008, the System has been amended to change the benefit structure for members hired on or after that date.

Final average salary is defined as the member's five (5) highest annual salaries for those with less than 27 years of service. Members at least age 55 with 27 or more years of service may use their three (3) highest annual salaries to compute the final average salary. TRS also provides disability benefits for vested members at the rate of sixty (60) percent of the final average salary. A life insurance benefit, payable upon the death of a member, is \$2,000 for active contributing members and \$5,000 for retired or disabled members.

Cost of living increases are one and one-half (1.5) percent annually. Additional ad hoc increases and any other benefit amendments must be authorized by the General Assembly.

NOTE G – EMPLOYEE BENEFITS – CONTINUED

Teachers' Retirement System of the State of Kentucky General Information about the Pension Plan (Continued)

Contributions - Contribution rates are established by Kentucky Revised Statutes (KRS). Non-university members are required to contribute 12.855% of their salaries to the System.

For members employed by local school districts, the Commonwealth of Kentucky, as a non-employer contributing entity, contributes 13.105% of salaries for those who joined before July 1, 2008 and 14.105% for those who joined thereafter. For local school district and regional cooperative members whose salaries are federally funded, the employer contributes 16.105% of salaries. If an employee leaves covered employment before accumulating five (5) years of credited service, accumulated member contributions to the retirement annuity plan plus interest are refunded upon the member's request.

Medical Insurance Plan

Plan Description - In addition to the pension benefits described above, KRS 161.675 requires TRS to provide post-employment healthcare benefits to eligible members and dependents. The TRS Medical Insurance Fund (MIF) is a cost-sharing multiple-employer defined benefit plan and is funded by employer and member contributions. Changes made to the medical plan may be made by the TRS Board of Trustees, the Kentucky Department of Employee Insurance and the General Assembly.

To be eligible for medical benefits, the member must have retired either for service or disability. The MIF offers coverage to members under the age of 65 through the Kentucky Employees Health Plan (KEHP) administered by the Kentucky Department of Employee Insurance. Once retired members and eligible spouses attain age 65 and are Medicare eligible, coverage is obtained through the TRS Medicare Eligible Health Plan.

Funding Policy - In order to fund the post-retirement healthcare benefit, seven and one half percent (7.50%) of the gross annual payroll of members is contributed. Three and three quarters percent (3.75%) is paid by member contributions, three quarters percent (.75%) from Commonwealth appropriation and three percent (3%) from the employer. Also, the premiums collected from retirees as described in the plan description and investment interest help meet the medical expenses of the plan.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the District did not report a liability for its proportionate share of the net pension liability because the Commonwealth of Kentucky provides the pension support directly to TRS on behalf of the District. The amount of the Commonwealth's proportionate share of the net pension liability associated with the District was \$29,634,676.

The total pension liability was rolled-forward from the actuarial valuation date of June 30, 2017 to the plan's fiscal year ended June 30, 2018, using generally accepted actuarial principles. The District's proportion of the net pension liability was based on the actual liability of the employees and former employees relative to the total liability of the System as determined by the actuary. At June 30, 2018, the Commonwealth's proportion of the total liability of TRS that is related to the District was .2263%.

For the year ended June 30, 2019, the District recognized pension expense of \$2,147,262 and revenue of \$2,147,262 for support provided by the Commonwealth.

MAYFIELD INDEPENDENT SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED
Year ended June 30, 2019

NOTE G – EMPLOYEE BENEFITS – CONTINUED

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Actuarial Assumptions - The total pension liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Investment rate of return	7.50%, net of pension plan investment expense, including inflation
Projected salary increases	3.50-7.30%, including inflation
Inflation rate	3.00%
Municipal Bond Index Rate	3.89%
Single Equivalent Interest Rate	7.50%

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on a projection of Scale BB to 2025 set forward one year for females and two years for males. The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2010 – June 30, 2015 adopted by the TRS Board on September 19, 2016. The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as provided by TRS's investment consultant, are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
U.S. Equity	40.0%	4.2%
International Equity	22.0%	5.2%
Fixed Income	15.0%	1.2%
Additional Categories	8.0%	3.3%
Real Estate	6.0%	3.8%
Alternatives	7.0%	6.3%
Cash	2.0%	.9%
Total	<u>100.0%</u>	

Discount Rate - The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rates and the employer contributions will be made at actuarially determined contribution rates, adjusted by 95% for all fiscal years in the future. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following table presents the net pension liability of the District, calculated using the discount rate of 7.50%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current rate:

	<u>1% Decrease (6.50%)</u>	<u>Current Discount Rate (7.50%)</u>	<u>1% Increase (8.50%)</u>
District's proportionate share of net pension liability	\$0	\$0	\$0

Pension plan fiduciary net position - Detailed information about the pension plan's fiduciary net position is available in the separately issued TRS financial report.

NOTE G – EMPLOYEE BENEFITS – CONTINUED

Teachers' Retirement System of the State of Kentucky General Information about the OPEB Plan

Plan Description – Teaching-certified employees of the District are provided OPEBs through the Teachers' Retirement System of the State of Kentucky (TRS) - a cost-sharing multiple-employer defined benefit OPEB plan with a special funding situation established to provide retirement annuity plan coverage for local school districts and other public educational agencies in the Commonwealth. TRS was created by the 1938 General Assembly and is governed by Chapter 161 Section 220 through Chapter 161 Section 990 of the Kentucky Revised Statutes (KRS). TRS is a blended component unit of the Commonwealth of Kentucky and therefore is included in the Commonwealth's financial statements. TRS issues a publicly available financial report that can be obtained at <https://trs.ky.gov/financial-reports-information/>.

Medical Insurance Plan

Plan Description - In addition to the OPEB benefits described above, KRS 161.675 requires TRS to provide post-employment healthcare benefits to eligible members and dependents. The TRS Medical Insurance Fund (MIF) is funded by employer and member contributions. Changes made to the medical plan may be made by the TRS Board of Trustees, the Kentucky Department of Employee Insurance and the General Assembly.

Benefits Provided - To be eligible for medical benefits, the member must have retired either for service or disability. The TRS MIF offers coverage to members under the age of 65 through the Kentucky Employees Health Plan (KEHP) administered by the Kentucky Department of Employee Insurance. TRS retired members are given a supplement to be used for payment of their health insurance premium. The amount of the member's supplement is based on a contribution supplement table approved by the TRS Board of Trustees. The retired member pays premiums in excess of the monthly supplement. Once retired members and eligible spouses attain age 65 and are Medicare eligible, coverage is obtained through the TRS Medicare Eligible Health Plan.

Contributions - In order to fund the post-retirement healthcare benefit, seven and one half percent (7.50%) of the gross annual payroll of members is contributed. Three and three quarters percent (3.75%) is paid by member contributions, three quarters percent (.75%) from Commonwealth appropriation and three percent (3%) from the employer. The state contributes the net cost of health insurance premiums for members who retired on or after July 1, 2010 who are in the non-Medicare eligible group. Also, the premiums collected from retirees as described in the plan description and investment interest help meet the medical expenses of the plan.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At June 30, 2019, the District reported a liability of \$4,046,000 for its proportionate share of the collective net OPEB liability that reflected a reduction for state OPEB support provided to the District. The collective net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the collective net OPEB liability was based on a projection of the District's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2018, the District's proportion was .116600%.

The amount recognized by the District as its proportionate share of the OPEB liability, the related Commonwealth support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the net OPEB liability	\$ 4,046,000
Commonwealth's proportionate share of the net OPEB liability associated with the District	<u>3,487,000</u>
Total	<u>\$ 7,533,000</u>

MAYFIELD INDEPENDENT SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED
Year ended June 30, 2019

NOTE G – EMPLOYEE BENEFITS – CONTINUED

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs (Continued)

For the year ended June 30, 2019, the District recognized OPEB expense of \$440,000 and revenue of \$178,995 for support provided by the Commonwealth. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to OPEBs from the following sources:

	<u>Deferred Outflows of Resources</u>		<u>Deferred Inflows of Resources</u>	
	<u>Governmental Activities</u>	<u>Business-Type Activities</u>	<u>Governmental Activities</u>	<u>Business-Type Activities</u>
Differences between expected and actual experience	\$ 0	\$ 0	\$ 207,000	\$ 0
Changes of assumptions	56,000	0	0	0
Net differences between projected and actual earnings on OPEB plan investments	0	0	16,000	0
Change in proportion and differences between employer contributions and proportionate share of contributions	0	0	71,000	0
District contributions subsequent to the measurement date	206,798	0	0	0
Total	<u>\$ 262,798</u>	<u>\$ 0</u>	<u>\$ 294,000</u>	<u>\$ 0</u>

Of the total amount reported as deferred outflows of resources related to OPEB, \$206,798 resulting from District contributions subsequent to the measurement date and before the end of the fiscal year will be included as a reduction of the collective net OPEB liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in the District's OPEB expense as follows:

<u>Year Ended June 30</u>	<u>Governmental Activities</u>	<u>Business-Type Activities</u>
2020	\$ (47,000)	\$ 0
2021	(47,000)	0
2022	(47,000)	0
2023	(40,000)	0
2024	(41,000)	0
Thereafter	(16,000)	0

Actuarial Assumptions - The total OPEB liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Investment rate of return	8.00%, net of OPEB plan investment expense, including inflation
Projected salary increases	3.50-7.20%, including wage inflation
Inflation rate	3.00%
Real Wage Growth	0.50%
Wage Inflation	3.50%
Healthcare cost trend rates	
Under 65	7.75% for FY 2018 decreasing to an ultimate rate of 5% by FY 2024
Ages 65 and Older	5.75% for FY 2018 decreasing to an ultimate rate of 5% by FY 2021
Medicare Part B Premiums	0.00% for FY 2018 with an ultimate rate of 5.00% by 2030
Municipal Bond Index Rate	3.89%
Discount Rate	8.00%
Single Equivalent Interest Rate	8.00%, net of OPEB plan investment expense, including price inflation.

MAYFIELD INDEPENDENT SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED
Year ended June 30, 2019

NOTE G – EMPLOYEE BENEFITS – CONTINUED

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

Mortality rates were based on the RP-2000 Combined Mortality Table projected to 2025 with projection scale BB and set forward two years for males and one year for females is used for the period after service retirement and for dependent beneficiaries. The RP-2000 Disabled Mortality Table set forward two years for males and seven years for females is used for the period after disability retirement. The demographic actuarial assumptions for retirement, disability incidence, withdrawal, rates of plan participation, and rates of plan election used in the June 30, 2017 valuation were based on the results of the most recent actuarial experience studies for TRS, which covered the five-year period ended June 30, 2015. The remaining actuarial assumptions used in the June 30, 2017 valuation of the MIF were based on a review of recent plan experience done concurrently with the June 30, 2017 valuation. The health care cost trend rate assumption was updated for the June 30, 2017 valuation and was shown as an assumption change in the TOL roll forward while the change in initial per capita claims costs were included with experience in the TOL roll forward.

The long-term expected rate of return on OPEB plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as provided by TRS's investment consultant, are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>30 Year Expected Geometric Real Rate of Return</u>
Global Equity	58.0%	4.6%
Fixed Income	9.0%	1.2%
Real Estate	5.5%	3.8%
Private Equity	6.5%	6.3%
Additional Categories	20.0%	3.3%
Cash	1.0%	.9%
Total	<u>100.0%</u>	

Discount Rate - The discount rate used to measure the total OPEB liability was 8.00%. The projection of cash flows used to determine the discount rate was performed in accordance with GASB 74. The projection's basis was an actuarial valuation performed as of June 30, 2017. Other assumptions are listed in the TRS CAFR and in the RSI. Based on those assumptions, the OPEB plan's fiduciary net position was not projected to be depleted.

The following table presents the District's proportionate share of the collective net OPEB liability, calculated using the discount rate of 8.00%, as well as what the District's proportionate share of the collective net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (7.00%) or 1-percentage-point higher (9.00%) than the current rate:

	<u>1% Decrease (7.00%)</u>	<u>Current Discount Rate (8.00%)</u>	<u>1% Increase (9.00%)</u>
District's proportionate share of net OPEB liability	\$4,774,000	\$4,046,000	\$3,464,000

MAYFIELD INDEPENDENT SCHOOL DISTRICT

NOTE G – EMPLOYEE BENEFITS – CONTINUED

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

Sensitivity of the District's proportionate share of the collective net OPEB liability to changes in the healthcare cost trend rates – The following presents the District's proportionate share of the collective net OPEB liability, as well as what the District's proportionate share of the collective net OPEB liability would be if it were calculated using healthcare cost trend rates that were 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	<u>1% Decrease</u>	<u>Current Trend Rate</u>	<u>1% Increase</u>
District's proportionate share of net OPEB liability	\$3,355,000	\$4,046,000	\$4,898,000

OPEB plan fiduciary net position - Detailed information about the OPEB plan's fiduciary net position is available in the separately issued TRS financial report.

Life Insurance Plan

Plan Description – TRS administers the life insurance plan (LIF) as provided by KRS 161.655 to provide insurance benefits to active and retired members. This benefit is financed by actuarially determined contributions from the 207 participating employers.

Benefits Provided - TRS provides a life insurance benefit of \$5,000 payable for members who retire based on service or disability. TRS provides a life insurance benefit of \$2,000 payable for its active contributing members. The life insurance benefit is payable upon death of the member to the member's estate or to a party designated by the member.

Contributions - In order to fund the post-retirement life insurance benefit, three hundredths of one percent (.03%) of the gross annual payroll of members is contributed by the state.

At June 30, 2019 the District did not report a liability for its proportionate share of the collective net OPEB liability for life insurance benefits because the Commonwealth of Kentucky provides the OPEB support directly to TRS on behalf of the District. The amount recognized by the District as its proportionate share of the OPEB liability, the related Commonwealth support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the net OPEB liability	\$	0
Commonwealth's proportionate share of the net OPEB liability associated with the District		60,000
Total	\$	60,000

For the year ended June 30, 2019, the District recognized OPEB expense of \$2,077 and revenue of \$2,077 for support provided by the Commonwealth.

Actuarial Assumptions - The total OPEB liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Investment rate of return	7.50%, net of OPEB plan investment expense, including inflation
Projected salary increases	4.00-8.10%, including wage inflation
Inflation rate	3.50%
Real Wage Growth	0.50%
Wage Inflation	4.00%
Municipal Bond Index Rate	3.89%
Discount Rate	7.50%
Single Equivalent Interest Rate	7.50%, net of OPEB plan investment expense, including price inflation

MAYFIELD INDEPENDENT SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED
Year ended June 30, 2019

NOTE H – BENEFITS FUNDED BY KENTUCKY STATE DEPARTMENT OF EDUCATION

The Kentucky Department of Education has indicated the following amounts were contributed on-behalf of the District for the year ended June 30, 2019:

Contributions to Kentucky Teachers' Retirement System	\$ 2,328,334
Technology	69,178
SFCC Debt Service	58,740
Health insurance, life insurance, flexible spending accounts (includes administrative fee)	<u>2,152,813</u>
Total	<u>\$ 4,609,065</u>

These payments are recorded in the General, Debt Service, and Food Service Funds as revenues and expenditures. The District is not legally responsible for these contributions. These payments are not required to be budgeted by the District.

On-behalf contributions were charged to functions as follows:

Instruction	\$ 3,085,086
Support services:	
Student	238,900
Instructional staff	100,067
District administration	71,226
School administration	283,683
Business	162,378
Plant operations and maintenance	262,662
Student transportation	226,298
Debt service	58,740
Food service	<u>120,025</u>
Total	<u>\$ 4,609,065</u>

NOTE I – COMMITMENTS AND CONTINGENCIES

The District receives funding from federal, state and local government agencies and private contributions. These funds are to be used for designated purposes only. For government agency grants, if the grantor's review indicates that the funds have not been used for the intended purpose, the grantor may request a refund of monies advanced or refuse to reimburse the District for its disbursements. The amount of such future refunds and unreimbursed disbursements, if any, is not expected to be significant. Continuation of the District's grant programs is predicated upon the grantors' satisfaction that the funds provided are being spent as intended and the grantors' intent to continue their programs.

In addition, the District operates in a heavily regulated environment. The operations of the District are subject to the administrative directives, rules and regulations of federal and state regulatory agencies, including, but not limited to, the U.S. Department of Education and the Kentucky Department of Education. Such administrative directives, rules and regulations are subject to change by an act of Congress of the Kentucky Legislature or an administrative change mandated by the Kentucky Department of Education. Such changes may occur with little or inadequate funding to pay for the related cost, including the additional burden to comply with a change.

NOTE J - COBRA

Under the *Consolidated Omnibus Reconciliation Act* ("COBRA"), employers are mandated to notify terminated employees of available continuing insurance coverage. Failure to comply with this requirement may put the District at risk for a substantial loss (contingency).

MAYFIELD INDEPENDENT SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED
Year ended June 30, 2019

NOTE K – INSURANCE AND RISK MANAGEMENT

The District is exposed to various forms of loss of assets associated with the risks of fire, personal liability, theft, vehicular accidents, errors and omissions, fiduciary responsibility, etc. Each of these risk areas is covered through the purchase of commercial insurance. The District has purchased certain policies which are retrospectively rated including workers' compensation insurance. Premiums for these policies are based upon the District's experience to date.

The District purchases unemployment insurance through the Kentucky School Boards Insurance Trust Unemployment Compensation Fund; however, risk has not been transferred to such fund. In addition, the District continues to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

NOTE L – COMMITMENTS FOR SCHOOL CONSTRUCTION

During the fiscal year ended June 30, 2019, the District began the preliminary phase of construction at Mayfield High School. As of June 30, 2019, the architect had presented an estimated cost of \$11,714,200; however, no bids had been taken, approved, or awarded. The District has paid the architect a total of \$362,408 for services toward this project through June 30, 2019.

NOTE M – INTERFUND RECEIVABLES AND PAYABLES

Each fund is a separate fiscal and accounting entity, and thus interfund transactions are recorded in each fund affected by a transaction. Interfund receivables and payables for the District arise generally from disbursements being made from a checking account that is used for the general fund, special revenue fund, capital projects funds, food service funds, and private purpose trust funds. When payments are made from the checking account, the amount reduces cash in the general fund, which may not have the legal liability for the expenditures; thus an interfund payable from the fund having the legal liability is established at such time, with a corresponding interfund receivable recorded in the general fund. Typically, interfund receivables and payables are resolved monthly; however, certain balances remained at June 30, 2019, which consisted of the following individual fund receivables and payables:

	<u>Receivables</u>	<u>Payables</u>
General Fund:		
Agency Fund	\$ 5,670	\$ 0
Agency Fund:		
General Fund	0	5,670

NOTE N - TRANSFER OF FUNDS

Although each fund is its own distinct reporting entity, amounts may be transferred from one fund to another fund. The most common reasons for interfund transfers are for debt service payments and grant matching requirements. Interfund transfers are eliminated in the government-wide financial statements. The following transfers were made during the year:

<u>Type</u>	<u>From Fund</u>	<u>To Fund</u>	<u>Purpose</u>	<u>Amount</u>
Operating	FSPK	General	Capital funds request	\$ 410,195
Matching	General	Special Revenue	Technology Match	34,270
Operating	Capital Outlay	General	Capital funds request	163,191
Operating	FSPK	Debt Service	Debt Service	950,817
Operating	General	Debt Service	Debt Service	15,165
Operating	General	Construction	Construction projects	392,470
Operating	Food Service	General	Indirect Costs	82,286

MAYFIELD INDEPENDENT SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED
Year ended June 30, 2019

NOTE O – RECENT ACCOUNTING PRONOUNCEMENTS

In January, 2017, the GASB issued Statement 84, *Fiduciary Activities*. GASB 84 established criteria for identifying fiduciary activities for all state and local governments. The focus of the criteria is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. This will change the way school activity funds will be reported in the financial statements, as most will be considered to be fiduciary activities. The provisions of this statement are effective for financial statements for periods beginning after December 15, 2018, which will be for the fiscal year ending June 30, 2020.

**MAYFIELD INDEPENDENT SCHOOL DISTRICT
SCHEDULE OF THE DISTRICT'S PROPORTIONATE SHARE OF THE
NET PENSION LIABILITY
COUNTY EMPLOYEES RETIREMENT SYSTEM (CERS) PENSION FUND
LAST FIVE FISCAL YEARS***

	2019
District's proportion of the net pension liability	0.136059%
District's proportionate share of the net pension liability	\$ 8,286,408
District's covered payroll	\$ 3,052,374
District's proportionate share of the net pension liability as a percentage of its covered payroll	271.47%
Plan fiduciary net position as a percentage of the total pension liability	53.54%

Notes to Schedule

The total pension liability and net pension liability as of June 30, 2019, is based on the June 30, 2017 actuarial valuation as rolled forward to the plan's fiscal year end of June 30, 2018 using generally accepted actuarial principles. The financial reporting actuarial valuation used the following actuarial methods and assumptions, applied to all prior periods included in the measurement.

Valuation date:	June 30, 2017
Experience study:	July 1, 2008 - June 30, 2013
Actuarial cost method:	Entry age normal
Amortization method:	Level percent of pay
Remaining amortization period:	25 years, closed
Asset valuation method:	20% of the difference between the market value of assets and the expected actuarial value of assets is recognized
Inflation:	2.30%
Payroll growth rate:	2.00%
Salary increase:	3.05%, average
Investment rate of return:	6.25%, net of pension plan investment expense, including inflation
Mortality:	For active members: RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females). For healthy retired members and beneficiaries: RP-2000 Combined Mortality Table projected with Scale BB to 2013 (female mortality rates are set back one year). For disabled members: RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (male mortality rates are set back four years).
Change of benefit terms:	House Bill 185 updated the provisions for active members who die in the line of duty. Benefits paid to spouses of deceased members increased from 25% of the member's final rate of pay to 75% of the member's average pay. If no surviving spouse, benefits to surviving dependent children increased from 10% of the member's final pay to 50% of average pay for one child, 65% of average pay for two children, or 75% of average pay for three children
Change of assumptions:	None

COUNTY EMPLOYEES RETIREMENT SYSTEM (CERS) INSURANCE FUND
LAST TWO FISCAL YEARS***

	2019	2018
District's proportion of the net OPEB liability	0.135720%	0.119661%
District's proportionate share of the net OPEB liability	\$ 2,409,682	\$ 2,405,595
District's covered payroll	\$ 3,052,374	\$ 2,704,113
District's proportionate share of the net OPEB liability as a percentage of its covered payroll	78.94%	88.96%
Plan fiduciary net position as a percentage of the total OPEB liability	57.62%	52.39%

* The amounts presented for each fiscal year were determined as of June 30 of the prior year. Until a full ten year trend is compiled, governments will present information only for those years for which information is available.

Notes to Schedule

The total OPEB liability and net OPEB liability as of June 30, 2019, is based on the June 30, 2017 actuarial valuation as rolled forward to the plan's fiscal year end of June 30, 2018 using generally accepted actuarial principles. The financial reporting actuarial valuation used the following actuarial methods and assumptions, applied to all prior periods included in the measurement.

Valuation date:	June 30, 2017
Experience study:	July 1, 2008 - June 30, 2013
Actuarial cost method:	Entry age normal
Amortization method:	Level percent of pay
Remaining amortization period:	25 years, closed
Asset valuation method:	20% of the difference between the market value of assets and the expected actuarial value of assets is recognized each year
Inflation:	2.30%
Payroll growth:	2.00%
Salary increase:	3.05%, average
Investment rate of return:	6.25%, net of OPEB plan investment expense, including inflation
Mortality:	For active members: RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females). For healthy retired members and beneficiaries: RP-2000 Combined Mortality Table projected with Scale BB to 2013 (female mortality rates are set back one year). For disabled members: RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (male mortality rates are set back four years).
Healthcare trend rates:	Initial trend starting at 7.00% at January 1, 2020 and gradually decreasing to an ultimate trend rate of 4.05% over a period of 12 years (Pre-65). Initial trend starting at 5.00% at January 1, 2020 and gradually decreasing to an ultimate trend rate of 4.05% over a period of 10 years (Post-65).
Change of benefit terms:	House Bill 185 updated the benefit provisions for active members who die in the line of duty. The system now pays 100% of the insurance premium for spouses and children of all active members who die in the line of duty.
Change of assumptions:	The single discount rate for non-hazardous changed from 5.84% to 5.85%. The municipal bond rate increased from 3.56% to 3.62%.

NOTE: This schedule is based on the last measurement date of the net OPEB liability.

Commonwealth's proportionate share of the collective net OPEB liability associated with the District	\$ 3,487,000	\$ 3,464,000
District's covered payroll	\$ 7,767,821	\$ 7,277,377
District's proportionate share of the collective net OPEB liability as a percentage of its covered payroll	52.09%	58.28%
Commonwealth's proportionate share of the collective net OPEB liability as a percentage of the District's covered payroll	44.89%	47.60%
Plan fiduciary net position as a percentage of the total OPEB liability	25.54%	21.18%

* The amounts presented for each fiscal year were determined as of June 30 of the prior year. Until a full ten year trend is compiled, governments will present information only for those years for which information is available.

The actuarially determined contribution rates, as a percentage of payroll, used to determine the actuarially determined contribution amounts in the Schedule of District Contributions are calculated as of the indicated valuation date. The following actuarial methods and assumptions (from the indicated actuarial valuations) were used to determine contribution rates reported in that schedule for the year ended June 30, 2018:

Valuation date:	June 30, 2017
Experience study:	July 1, 2010 - June 30, 2015
Actuarial cost method:	Entry age normal
Amortization method:	Level percentage of payroll
Amortization period:	23 years, closed
Asset valuation method:	5-year smoothed value
Investment rate of return:	8.00%, net of OPEB plan investment expense, including inflation
Projected salary increases:	3.50 - 7.20%, including wage inflation
Inflation rate:	3.00%
Real wage growth:	0.50%
Wage inflation:	3.50%
Municipal Bond Index Rate:	3.89%
Discount rate:	8.00%
Single Equivalent Interest Rate:	8.00%, net of OPEB plan investment expense, including price inflation
Mortality:	Based on the RP-2000 Combined Mortality Table projected with Scale BB to 2025 (set forward two years for males and one year for females) for the period after service retirement and for dependent beneficiaries. Based on the RP-2000 Disabled Mortality Table set forward two years for males and seven years for females used for the period after disability retirement.
Health care cost trends:	
Under 65	7.75% for FY 2018 decreasing to an ultimate rate of 5.00% by FY 2024
Ages 65 and older	5.75% for FY 2018 decreasing to an ultimate rate of 5.00% by FY 2021
Medicare Part B premiums	0.00% for FY 2018 with an ultimate rate of 5.00% by 2030
Under age 65 claims	The current premium charged by KEHP is used as the base cost and is projected forward using only the health care trend assumption (no implicit rate subsidy is recognized).
Change of benefit terms:	With the passage of House Bill 471, the eligibility for non-single subsidies (NSS) for the KEHP-participating members who retired prior to July 1, 2010 is restored, but the state will only finance, via its KEHP "Shared Responsibility" contributions, the costs of the NSS related to those KEHP-participating members who retired on or after July 1, 2010.
Change of assumptions:	Updated health care trend rates were implemented.

The actuarially determined contribution rates in the schedule of district contributions are calculated as of June 30, three years prior to the end of the fiscal year in which contributions are reported. The following actuarial methods and assumptions were used to determine contribution rates reported in the most recent year of the schedule:

Valuation date:	June 30, 2017
Experience study:	July 1, 2010 - June 30, 2015
Actuarial cost method:	Entry age normal
Amortization method:	Level percentage of payroll
Amortization period:	30 years, open
Asset valuation method:	Market value
Annual money weighted rate of return	1.02%, net of investment expense
Projected salary increases:	4.00 - 8.10%, including wage inflation
Inflation rate:	3.50%
Real wage growth:	0.50%
Wage inflation:	4.00%
Discount rate	7.50%
Single Equivalent Interest Rate:	7.50%, net of OPEB plan investment expense, including price inflation
Change of benefit terms:	None
Change of assumptions:	None

MAYFIELD INDEPENDENT SCHOOL DISTRICT

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

For the year ended June 30, 2019

NOTE A – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the Mayfield Independent School District under programs of the federal government for the year ended June 30, 2019. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Mayfield Independent School District, it is not intended to and does not present the financial position or changes in financial position of the Mayfield Independent School District.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles contained in OMB Circular A-87 *Cost Principles for State, Local, and Indian Tribal Governments* (codified in 2 CFR Part 225), or the cost principles contained in the Uniform Guidance, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.
- (2) The Mayfield Independent School District did not elect to use the 10% *de minimus* indirect cost rate as allowed under the Uniform Guidance.

NOTE C – FOOD DISTRIBUTION

Nonmonetary assistance is reported in the schedule at the fair value of the commodities disbursed. Per USDA instructions, commodities expended are recorded at an amount equal to commodities received and the inventory at June 30, 2019 is combined with purchased food inventory. The pass-through number for the commodities program was not available for the Schedule of Expenditures of Federal Awards.

NOTE D – RECONCILIATION OF SCHEDULE TO FINANCIAL STATEMENTS

The following is a reconciliation of the total in the schedule of expenditures of federal awards to the total federal revenue included in the statement of revenues, expenditures and changes in fund balances – governmental funds on page 13 of the audit report and in the statement of revenues, expenses, and changes in net position – proprietary funds on page 16 of the audit report:

Total intergovernmental – indirect federal from page 13	\$	2,311,727
Total federal grants from page 16		1,365,364
Donated commodities from page 16		55,174
Less: Medicaid reimbursements included in indirect federal on page 13		<u>(101,331)</u>
Total on page 70	\$	<u>3,630,934</u>

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

Kentucky State Committee for School District Audits
and Members of the Board of Education
Mayfield Independent School District
Mayfield, Kentucky

I have audited, in accordance with the auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the audit requirements prescribed by the Kentucky State Committee for School District Audits in the *Kentucky Public School Districts' Independent Auditor's Contract*, including *Appendix I to the Independent Auditor's Contract – Audit Extension Request* and *Appendix II to the Independent Auditor's Contract – Submission Instructions*, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Mayfield Independent School District, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Mayfield Independent School District's basic financial statements, and have issued my report thereon dated November 11, 2019.

Internal Control Over Financial Reporting

In planning and performing my audit of the financial statements, I considered the Mayfield Independent School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Mayfield Independent School District's internal control. Accordingly, I do not express an opinion on the effectiveness of the Mayfield Independent School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Mayfield Independent School District's financial statements are free from material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. In addition, the results of my tests disclosed no instances of material noncompliance of specific state statutes or regulations identified in the *Kentucky Public School District's Independent Auditor's Contract*.

I noted certain matters that I reported to management of the Mayfield Independent School District in a separate letter dated November 11, 2019.

Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in black ink that reads "Kim Glavin". The signature is written in a cursive style with a large initial "K" and "G".

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON
INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Kentucky State Committee for School District Audits
and Members of the Board of Education
Mayfield Independent School District
Mayfield, Kentucky

Report on Compliance for Each Major Federal Program

I have audited the Mayfield Independent School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Mayfield Independent School District's major federal programs for the year ended June 30, 2019. Mayfield Independent School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

My responsibility is to express an opinion on compliance for each of the Mayfield Independent School District's major federal programs based on my audit of the types of compliance requirements referred to above. I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and the audit requirements prescribed by the Kentucky State Committee for School District Audits in the *Kentucky Public School Districts' Independent Auditor's Contract*, including *Appendix I to the Independent Auditor's Contract – Audit Extension Request* and *Appendix II to the Independent Auditor's Contract – Submission Instructions*. Those standards and the Uniform Guidance require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Mayfield Independent School District's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances.

I believe that my audit provides a reasonable basis for my opinion on compliance for each major federal program. However, my audit does not provide a legal determination of the Mayfield Independent School District's compliance.

Opinion on Each Major Federal Program

In my opinion, Mayfield Independent School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Report on Internal Control Over Compliance

Management of the Mayfield Independent School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing my audit of compliance, I considered the Mayfield Independent School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of the Mayfield Independent School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of my testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**MAYFIELD INDEPENDENT SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
For the Year Ended June 30, 2019**

I. SUMMARY OF AUDITOR'S RESULTS:

1. The auditor's report expresses an unmodified opinion on the financial statements of the Mayfield Independent School District.
2. No material weaknesses or significant deficiencies in internal control over financial reporting were disclosed during the audit of the financial statements.
3. No instances of noncompliance material to the financial statements of Mayfield Independent School District were disclosed during the audit.
4. No material weaknesses or significant deficiencies in internal control over the major federal award programs were disclosed during the audit.
5. The auditor's report on compliance for the major federal award programs for Mayfield Independent School District expresses an unmodified opinion on the major federal programs.
6. There were no audit findings that are required to be reported in accordance with 2 CFR Section 200.516(a).
7. The programs tested as major programs included:

<u>Name of Federal Program or Cluster</u>	<u>CFDA Number</u>
Title I Grants to Local Educational Agencies	84.010

8. The threshold for distinguishing Types A and B programs was \$750,000.
9. Mayfield Independent School District was determined to be a low-risk auditee.

II. FINDINGS – FINANCIAL STATEMENT AUDIT

There were no findings in the current year required to be reported in this schedule.

III. FINDINGS – MAJOR FEDERAL AWARD PROGRAMS AUDIT

There were no findings in the current year required to be reported in this schedule.

**MAYFIELD INDEPENDENT SCHOOL DISTRICT
SCHEDULE OF PRIOR YEAR AUDIT FINDINGS
June 30, 2019**

I. FINDINGS – FINANCIAL STATEMENT AUDIT

There were no findings in the prior year required to be reported in this schedule.

II. FINDINGS – MAJOR FEDERAL AWARD PROGRAMS AUDIT

There were no findings in the prior year required to be reported in this schedule.

Kentucky State Committee for School District Audits
and Members of the Board of Education of
Mayfield Independent School District
Mayfield, Kentucky

I have audited the financial statements of the Mayfield Independent School District for the year ended June 30, 2019, and have issued my report thereon dated November 11, 2019. In planning and performing my audit of the financial statements of Mayfield Independent School District, I considered the District's internal control to determine my auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on the internal control.

However, during my audit, I became aware of several matters that are opportunities for strengthening internal controls or operating efficiency. These comments and recommendations have been discussed with the appropriate members of management and are intended to help the District comply with applicable laws and regulations, improve the internal control, or result in other operational efficiencies. These comments are summarized on the following pages.

This report is intended solely for the Board, management, and others within the organization as deemed appropriate.

Respectfully,

Benton, Kentucky
November 11, 2019

**MAYFIELD INDEPENDENT SCHOOL DISTRICT
MANAGEMENT LETTER COMMENTS**

June 30, 2019

UNCORRECTED PRIOR YEAR COMMENTS

School Activity Funds - Mayfield Middle School

In our review of fundraising events in the prior year, we noted the payment for the 8th grade class pizza fundraiser was only supported by an email from a teacher saying that she needed a check for the amount of the payment. There was no invoice from the vendor. In the current year, we again noted that fundraiser worksheets were still not being properly completed, as discussed in the current year comments. See management's response in the current year comments section regarding the steps that will be taken to resolve this matter.

In our test of an inventory control worksheet in the prior year, we noted that it was not correctly completed. In the current year test, we again noted that the worksheets are not correctly completed, as discussed in the current year comments. See management's response in the current year comments section regarding the steps that will be taken to resolve this matter.

School Activity Funds – Mayfield High School

In the prior year, we noted that although fundraiser worksheets are being used, they are not completed correctly. In the current year, we again noted that the worksheets are not correct, as discussed in the current year comments. See management's response in the current year comments section regarding the steps that will be taken to resolve this matter.

When reviewing inventory control procedures in the prior year, we noted that concession stand inventory checklists were being used; however, the one tested was not completed correctly and did not contain all of the information that is required on form F-SA-5. In the current year, the actual F-SA-5 form was used and improvements were made in the completion of necessary information; however the deliveries were listed at the amount paid instead of the selling price and no calculation of overage or shortage could be calculated. See management's response in the current year comments section regarding the steps that will be taken to resolve this matter.

CORRECTED PRIOR YEAR COMMENTS

School Activity Funds - Mayfield Elementary School

Purchasing Procedures:

In our test of cash disbursements in the prior year, we noted eleven reimbursements to employees where purchase orders were not used. In the current year, these types of expenditures did include a purchase order.

School Activity Funds - Mayfield Middle School

Purchasing Procedures:

In our test of 90 cash disbursements in the prior year, no purchase order was included in the file for 21 disbursements. These all appeared to be for game officials. In the current year, purchase orders were used for these types of disbursements after the date the audit report comments were covered with the school bookkeeper.

MANAGEMENT LETTER COMMENTS (CONTINUED)**
June 30, 2019

CORRECTED PRIOR YEAR COMMENTS (Continued)

School Activity Funds - Mayfield Middle School (Continued)

Cash Receipts Procedures:

In our test of cash receipts in the prior year, we noted that documentation included with a deposit on August 22, 2017 indicated that the funds had actually been received in April, 2017. A note had been made that the teacher had put the money in the wrong place and it did not get taken to the school treasurer as it should have been. Also, one deposit for \$535 on April 24, 2018 was supported by documentation showing that \$710 had actually been collected, but that \$175 had been stolen from the teacher's room. We also noted in our examination of funds received after year end that checks from individuals to the school were dated in April and May and were not deposited until August 7, 2018. In the current year, all items in our test of receipts were deposited on a timely basis and for the same amount as on supporting documentation.

School Activity Funds – Mayfield High School

Purchasing Procedures:

In our test of cash disbursements in the prior year, we noted five disbursements to individuals that were supported by either an email from the activity sponsor asking for payment to the individuals and an explanation of what it was for or names written on an athletic schedule with amounts to be paid. In the current year, disbursements were properly supported by standard or vendor's invoices.

CURRENT YEAR COMMENTS

District Office

Audit Entries:

Several entries that should have been made prior to the start of the audit were not done and some adjusting entries were needed to correct posting errors during the year. We had set up a meeting during the middle of July to discuss some of the entries that should be made and to answer any questions about the entries. The reports that were needed to prepare the entries were not made available at the time of the meeting and when they were ready, we were unable to meet again to assist the finance officer with the learning process. These types of entries included inventory adjustments, accrued sick leave adjustments, long-term debt adjustments, and GASB 68 and 75 adjustments. Although the food commodities received report was available, that entry was also not made. Many of the reports needed for these entries should be available after the final June payroll has been run. In the future, these reports should be made available to the finance officer as soon as possible so that these entries may be made in a timely manner.

Management's Response:

We had more new employees than normal to set up prior to the first new fiscal year payroll and the reports were not run until later in July. The finance officer will check with the payroll clerk and help as needed in running reports for these entries.

**MAYFIELD INDEPENDENT SCHOOL DISTRICT
MANAGEMENT LETTER COMMENTS (CONTINUED)**
June 30, 2019

CURRENT YEAR COMMENTS (Continued)

District Office (Continued)

Bank Reconciliation:

Several of the monthly bank reconciliations had amounts that caused them to be out of balance and when a reason could not be determined for the outage, an entry would be made to a miscellaneous expense account. In some months, the outage would self-correct in the following month when there were items such as checks voided after the outstanding list had been printed. In one month a deposit to the Special Revenue Fund was posted to FY 18 by mistake. When the reconciliation was being prepared and amounts on the bank statement were compared with amounts posted, it was noted that the deposit was not on the MUNIS printout of deposits for the month, so it was posted again to FY 19. This caused a problem with the Special Revenue Fund with having a fund balance being carried over that should not have been. Also, during the last part of the fiscal year, entries were not made correctly when former employees paid the district to reimburse for health insurance coverage. These errors were corrected during the audit. We understand that not all amounts are material enough to spend time searching for; however, the deposit that was recorded twice was over \$4,600. We recommend that when larger outages cannot be found, assistance be requested in locating the difference.

Management's Response:

In the future, the finance officer will contact the auditor for assistance if large outages occur that cannot be located.

Special Revenue Fund Posting:

In reconciling the Special Revenue Fund (Fund 2) projects with the total assets, liabilities, revenues, and expenditures for fund 2, we noted that some older projects are still included that either have an accounts receivable or unearned revenue amount. This could occur because of posting errors where expenditures are coded to the wrong project, such as an amount spent that should have been coded to project 140E may end up being posted to 1405 by mistake. This type of error would cause project 140E to show that there is still money to spend (unearned revenue) and project 1405 would show that it had been overspent and a receivable would be recorded. Another type of entry that could cause errors in fund 2 would be if grants or donations were received for a particular purpose, the revenue would be recorded in fund 2. When the expenditures were made for the stated purpose, they may have been posted to the general fund (Fund 1) in error. This would cause the project to appear to have unearned revenue, as it would show that nothing had been spent from the grant or donations since the expenditures may be recorded in the wrong fund. We recommend that the finance officer and the grant coordinator work together to reconcile the projects as the year is closed.

Management's Response:

The finance officer will double check the grants with the grant coordinator to see if any items were incorrectly coded. The coordinators are aware that oldest funds should be expended first and are aware the purchase orders may be split between different project and account codes.

**MAYFIELD INDEPENDENT SCHOOL DISTRICT
MANAGEMENT LETTER COMMENTS (CONTINUED)**
June 30, 2019

CURRENT YEAR COMMENTS (Continued)

School Activity Funds - Mayfield Middle School

Fundraising Procedures:

In our review of fundraising events, we noted a fundraiser that was noted as “cookie dough”, but there were also other items for sale. There was not enough information in the file to determine the selling price of each item or how much was expected to be collected. The fundraiser worksheet was not complete in order to determine whether the amount collected and deposited was reasonable. Also, based on purchases of candy bars for a fundraiser, there should have been \$3,060.00 collected; however, there was only \$2,500.80 deposited. The fundraiser worksheet was not complete. It was noted there were unsold candy bars, but did not list the number unsold so that it could be determined if the difference was reasonable. Fundraising guideline #9 on page 7 of the Redbook says “fundraisers where items are sold, whether they are purchased or donated or both, require the use of the fundraiser worksheet (form F-SA-2B), which is used to recap the profitability of a fundraiser sales cycle”. These worksheets not only determine whether a fundraiser was worthwhile, but also helps show that the amounts that should have been collected were deposited, based on items purchased for sale. Any reason for a shortage should be explained in sufficient detail to determine that no material amounts were either uncollected or not deposited.

Management's Response:

For the cookie dough fundraiser, in the future an invoice will be included with itemized listings and a fundraising form will be included with fundraiser worksheets to show the various items sold and the prices of each item. For the candy bar fundraiser, the sponsor wrote the value of the unsold items but failed to put the count of the items. Again, when receiving and turning in the worksheet to the bookkeeper this will be discussed, checked, and won't be accepted until all necessary boxes are completed.

Inventory Control Procedures:

In our test of an inventory control worksheet (Form F-SA-5), we noted that it was not correctly completed. There were no totals listed, therefore no comparison of the subtotals were done to determine whether there was an overage or shortage. The deposits listed could not be matched to receipt tickets. The deliveries for two amounts listed could not be matched to a vendor's invoice. Fundraising guideline 11 on page 7 of the Redbook states in part “the inventory control worksheet recaps the flow of inventory monthly and identifies overages or shortages; it is not designed to measure profits”. The person responsible for completing the worksheet should be trained in the proper use of the form.

Management's Response:

Ballgame concessions are now run through the booster club; therefore, the F-SA-5 will not be used for concession sales. As of July 1, 2019, the middle school has a new bookkeeper. The bookkeeper has been trained on how to correctly complete the F-SA-5 for fundraisers and will instruct school fundraising sponsors on how to correctly complete this form upon them asking. She will only accept the form when it is correctly filled out.

**MAYFIELD INDEPENDENT SCHOOL DISTRICT
MANAGEMENT LETTER COMMENTS (CONTINUED)**
June 30, 2019

CURRENT YEAR COMMENTS (Continued)

School Activity Funds – Mayfield High School

Fundraiser Worksheets:

Although fundraiser worksheets are being used, two were not completed correctly. One for a candy bar fundraiser had a note that items will be sold during summer, but did not list how many bars were unsold at the end of the fiscal year. There were 3,060 bars received to sell. Receipts deposited were \$1,341.75. Since they were sold for \$1 each, that should have left about 1,718 bars. Another fundraiser was for spirit cards. Some sections of the worksheet were not completed. Although the count of items to be sold and the budgeted sales were not completed, we noted from the vendor's invoice that 340 cards were received and the sales price was \$10, so potential sales should be \$3,400. Deposits for sales were \$1,010. There were 94 unsold items, as listed on the worksheet. The vendor did not allow the unsold items to be returned, but that still left \$1,450 unaccounted for. For fundraisers with candy bars or similar items that all sell for one price, the worksheet should be completed in full. Any material shortages should be investigated immediately.

Management's Response:

The issue with the fundraiser was with girls' soccer that held two fundraisers last year, both losing money. The administrator spoke to the girls' soccer coach about this and it was resolved. The athletic director and administrator met with coaches on July 25, 2019 about Redbook forms and procedures.

Inventory Control:

We noted that although improvements were made in this process by the use of the actual form F-SA-5, the section for deliveries listed only the cost of the items instead of the selling price. For that reason, the overage or shortage was not calculated. More training on the completion of the worksheet should be done so that workers better understand what is required and why the form is necessary for better controls.

Management's Response:

We will meet with staff for extra training on the November 5th workday on how to complete the forms correctly. In lieu of the issues we have had with concession stand inventory control sheets at the high school level, we have taken steps during the 2019-2020 school year to move concession accounts to our Mayfield High School booster club account. Inventory sheets are still completed and turned in to our booster club treasurer.

Cash Receipts Procedures

In our test of cash receipts, we noted several deposits that were not supported by sufficient documentation. Many of these were deposits for meals served as a fundraiser for which the only documentation included a slip that shows the date, account, amount, and source of funds that is signed by the club sponsor or sometimes with a multiple receipt form that only listed the total collected. Another was for a dance. The majority of these funds are cash. Better documentation should be maintained for items such as these. For example, meals sold could include how many meals were served, the amount collected per meal, and signatures of two people assigned to collect the money. For a dance, pre-numbered tickets could be used to account for the amount collected in a similar manner as athletic events.

Management's Response

We will meet with staff on November 5th, 2019 about procedures for meals and dances. Tickets will be sold for a dance or any school event that is similar. For meals served, we will now have staff members sign a multiple receipt form when they purchase a meal at school that was cooked by the special education department students. A fundraiser form and inventory control sheet will also be filled out.
