INDEPENDENT AUDITOR'S REPORT

Kentucky State Committee for School District Audits Members of the Board of Education Warren County School District Bowling Green, Kentucky

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Warren County School District as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2023, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements prescribed by the Kentucky State Committee for School District Audits in the *Independent Auditor's Contract*. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Warren County School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Warren County School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government* Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Warren County School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Warren County School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Emphasis of Matter

As discussed in Note 1 to the financial statements, during the year ended June 30, 2023, the District adopted Governmental Accounting Standards Board Statement 91, *Conduit Debt Obligations,* Statement 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements,* Statement 96, *Subscription-Based Information Technology Arrangements,* Statement 98, *The Annual Comprehensive Financial Report* and Statement 99, *Omnibus 2022.* Our opinion is not modified with respect to this matter.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 to 11, budgetary comparison information on pages 60 to 61, schedule of proportionate share of the net pension and OPEB liabilities on pages 62 to 66 and schedule of contributions on pages 67 to 71 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Warren County School District's basic financial statements. The accompanying combining financial statements, school schedules and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining financial statements, school schedules and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 9, 2023, on our consideration of Warren County School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Warren County School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Warren County School District's internal control over financial reporting and compliance.

Heartland CPAs and admins, PLAC

Heartland CPAs and Advisors, PLLC Elizabethtown, Kentucky November 9, 2023 MANAGEMENT'S DISCUSSION AND ANALYSIS

The discussion and analysis of Warren County Board of Education's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ending June 30, 2023. The intent of this discussion and analysis is to review the District's financial performance as a whole; readers should also review the notes to the basic financial statements and the financial statements to enhance their understanding of the District's financial performance.

The Management's Discussion and Analysis ("MD&A") is an element of the reporting model adopted by the Governmental Accounting Standards Board ("GASB") in their Statement No. 34 Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Government issued in June 1999.

Financial Highlights

- In total, net position increased by \$11,052,764. The Net Position of governmental activities increased by \$9,311,446, while the net position of business-type activity increased by \$1,741,318. Total assets increased by \$66,345,146 and total liabilities increased by \$78,963,907. The increase in current assets relates to bond sales for the Greenwood High School construction project and the South Warren High School Multipurpose Facility construction project. Whereas, the increase in capital assets was driven by the capitalization of the Rich Pond Elementary construction project. Long-term debt likewise increased due to the bonding of the Greenwood and South Warren construction projects.
- General revenues accounted for \$164,734,479 or 78% of all governmental revenues. Program specific revenues in the form of operating grants, grants and contributions accounted for \$35,980,853 or 17% of total governmental revenues of \$212,286,496.
- Governmental Activities: Total assets increased by \$63,591,497. "Capital Assets" increased by \$19,232,921. "Current and Other Assets" increased by \$44,358,576 in 2023.
- The District had \$200,026,811 in expenses relating to governmental activities; of which \$47,552,017, in expenses, were offset by program specific charges for services, grants, and contributions. General revenues (primarily local taxes and the State SEEK allocation), were adequate to provide these programs.

Using this Annual Financial Report (AFR)

This annual report consists of three parts – *management's discussion and analysis* (this part), *the basic financial statements*, and *the required supplementary information*. These statements are organized in a manner so that the reader can understand the District as a financial whole. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The **Statement of Net Position and Statement of Activities** provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's major funds with all other non-major funds presented in total in one column. The major funds for the District are the general fund, special revenue fund, FSPK fund and the construction fund.

Reporting on the District as a Whole

One of the most important questions to ask is "how did the District perform financially during the fiscal year 2023?" The **Statement of Net Position** and the **Statement of Activities**, which appear first in the District's financial statements, report information on the District as a whole and is formatted in such a way that will assist a reader in answering this question. These statements include all assets and liabilities using the accrual basis of accounting and economic resources measurement focus, which is similar to the accounting used by most private-sector companies.

These two statements report the District's net position and the changes therein. This change in net position is important because it tells the reader whether, for the District as a whole, the financial position of the District has improved or diminished. However, the District's goal is to provide services to our students, not to generate profits as commercial entities do. One must consider many other non-financial factors, such as the District's property tax base, current property tax laws in Kentucky restricting revenue growth (4% maximum growth in revenue), required educational programs and other factors.

In the Statement of Net Position and the Statements of Activities, the District is divided into two distinct categories:

- **Government Activities** Most of the District's basic services are included here, such as instructional services (as it relates to elementary, middle and high school educational programs), support services (guidance, attendance, health services, special needs services, etc.), debt service payments, extracurricular activities (sports, band, etc.), operation and maintenance of plant, pupil transportation and other activities.
- **Business-type Activities -** These services are provided on a charge for goods or services basis to recover all of the expenses of the goods provided. The District's business-type activities are the food service and day care operations.

Reporting the District's Most Significant Funds

Fund Financial Statements

The analysis of the District's major funds begins on page 12. Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's major funds.

Governmental Funds - Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending in future periods. These funds are reported using the accrual method of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or difference) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds - Proprietary funds use the same basis of accounting as business-type activities; therefore, the statements for the proprietary fund will essentially match.

Notes to the financial statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide statements.

Governmental Activities

Governmental program expenses are broken down as follows: Instruction 63%, Support Services 32%, and Other 5%.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting the program service costs. Table 3 shows, for government activities, the total cost of services and the net cost of services. In other words, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements. The total cost of services includes \$53,543,021 that relates to the 2023 State On-Behalf Payments.

	(Table 3) Governmental Activities Total Cost of Services						Net Cost o	of Se	rvices
	<u>2023</u> <u>2022</u>						<u>2023</u>		<u>2022</u>

Total Expenses <u>\$ 200,026,811</u>		:	\$	138,357,622	\$	152,474,794	\$	84,999,107	

Business-Type Activities

The business-type activities are food service and daycare. These programs had revenues of \$15,473,383 and expenses of \$16,680,304 for the fiscal year 2023. Of the revenues, \$954,374 related to charges for services, \$14,389,953 was from State and Federal grants, \$129,056 were from investment earnings, and there were no capital contributions by the District. Business activities receive no support from tax revenues. The District will continue to monitor the charges and costs of these activities. If it becomes necessary, the District will increase the charges for these activities.

The District's Funds

Information about the District's major funds starts on page 12. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues and other financing sources of \$389,921,641 and expenditures and other financing uses of \$349,159,399. The net change in total fund balances was \$40,762,242 from the fiscal year 2022 to 2023.

General Fund-Budget Highlights

The District's budget is prepared according to Kentucky law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund. The State Department of Education requires a zero-based budget with any budgeted remaining fund balance shown as a contingency expense in the budget process.

A variance comparison is presented between the final budgeted amounts and the actual (GAAP Basis) amounts. Revenues for the General Fund were budgeted at \$148,830,822 with actual amounts totaling \$167,865,673. Budgeted expenditures were \$160,139,011 (not including a contingency budget of \$14,000,000) compared to actual expenditures of \$169,528,352. Budgeted "Other Financing Sources and Uses" reflected a net financing use of \$166,815 compared to an actual net financing source of \$2,070,153. In total, an expected decrease in the General Fund balance of \$25,475,004 was budgeted compared to an actual net increase of \$407,474.

Capital Assets and Debt Administration

Capital Assets

At the end of the fiscal year 2023, the District had \$378,859,185 invested in capital assets (see Table 4 below), \$350,171,726 is in governmental activities. Table 4 shows the fiscal year 2023 balances compared to 2022.

Debt

At June 30, 2023, the District had \$234,990,000 in bonds outstanding, of this amount \$5,631,653 are to be paid from the KSFCC funding provided by the State of Kentucky. A total of \$12,371,000 is due within one year. At June 30, 2022, the District had \$190,611,000 in bonds outstanding, of this amount \$6,111,083 were to be paid from KSFCC funding.

District Challenges for the Future

The Warren County Public School system (District) is the fourth largest district within the State serving upwards of 18,500 students. The District has grown from a Pre-K through 12th grade student membership of 14,858 in 2015 to 18,156 in 2023. This equates to a 22.20% growth in the last eight years. The District has prepared for this increase in enrollment by building new schools and by renovating and expanding existing schools. The District remains in good financial condition, however, there are challenges that the District will encounter: increase the level of achievement of our students, Pension Reform, English Learner (EL) population, COVID-19 Pandemic, State Tax Reform, and adequate funding.

The most essential challenge, as the result of the global pandemic, is to rebound and resume our student achievement progress. The most recent release of test scores indicated the continuing effects of the pandemic on Warren County Schools as our traditional performance was not as strong as previously experienced. The school district implemented innovative processes to address student learning during the pandemic and will continue to do so until losses are recouped such as Teaching & Learning coaches for each school, common curriculum, a universal screener, online programs, additional Gifted and Talented teachers, multiple mental health therapists, and technology. The District has ten "Leader In Me" Lighthouse Schools and one Leader in Me Legacy School. Last year, we initiated 4-day Preschool for our preschool students. Achievement Gaps continue to exist in many of our schools, and were exacerbated by the pandemic, but these challenges and opportunities keep us focused on providing a differentiated approach to teaching that serves the individual needs of our students. Prioritizing standards in reading, math and science; utilizing common curriculum, providing academic-rich learning environments for our English Learners and students with disabilities; differentiating instruction for all students;

providing good customer service to improve our school climates; analyzing student data using various data points; utilizing interactive, 21st Century technology in our classrooms, and engaging students in learning that is rigorous and relevant to life are all efforts that we have in place to increase student achievement.

It is important for every educator in the District to feel that the students we serve can learn at a high level. Teachers must strive to recognize the impact they have on each student that enters their classroom, not only educationally, but also emotionally and socially. With the resources available to all educators in Warren County, the ability to meet the needs of all students is possible. Providing teachers with updated curriculum maps, content guides, district common assessments, and prioritized standards are lead measure of success that are revisited routinely throughout our district. We must move the students to a higher level in order to ensure their ability to function and thrive in a global, 21st Century marketplace. The WCPS system encourages the building of relationships by all to help remove as many barriers to learning as we possibly can. By providing a team approach to educating our students, we are able to help the students be prepared and willing to learn in our classrooms.

The population of students identified as English Learners (ELs) in the District continues to grow. Currently, there are 3,301 students receiving EL services within the district which represents 18.75% of the overall K-14 student population in the District. These students are eligible for English language development programs (also known as EL or ESL programs) offered by the District. We are also required to monitor students who exit from English language development programs for four (4) full academic years, and there are currently 955 students who fall within this category. Finally, there are approximately 786 students in the District who were formerly served in English language development programs and are now fully exited. These students also need continuing support to ensure that they become "college and career ready" and successfully transition after graduation. When we consider the EL students who are currently eligible for English language development programs, those who have just exited and are being monitored and those who are completely out of English language development programs and teachers. This is 28.64% of our total enrollment and a little over 1 in 4 Warren County students are currently in EL programs at one time.

The EL students in the District are a very diverse group, as they come from more than 89 countries and speak 103 languages and dialects. Currently, approximately 654 students are refugees, and many are considered "students with interrupted formal education" (SIFEs) because conditions in their former countries and refugee camps made it difficult to provide consistent educational opportunities.

The EL students in the District face very significant language and content challenges. ELs in the U.S. are often doing double the work of their English-speaking class peers because ELs are learning content at the same time they are learning the language of instruction. Our administrators and teachers also face many challenges, one of which being the requirement to meet federal and state accountability targets established under the Every Student Succeeds Act (ESSA). Investments in staffing allow the District to leverage the training and experiences of staff as we rise to meet the language and academic content challenges of a large EL student population. However, maintaining and recruiting qualified, well-trained staff remains a challenge. Meeting the language and content needs of EL students is also the responsibility of general education teachers, and these individuals are generally not well prepared in pre-service programs to address these challenges. Thus, professional development becomes critical to providing teachers with the knowledge and skills required. In fact, ensuring that ongoing professional development opportunities and appropriate instructional resources are being provided is absolutely critical to meeting the challenges expressed above. While the size of the District and the EL student population creates some funding streams, we continually face financial challenges in a climate of budgetary constraints and reduced federal and state support.

The most recent COVID pandemic has created hurdles for all mankind. As it relates to WCPS, we have been able to return to having normal in-school learning and extracurricular activities. We recognize the increased need for additional resources to be allocated to not only the mental health issues this event has created for our students and staff but too the potential negative impact it is having on maximizing growth in student learning. The

District is well-positioned with support and education professionals to lead this charge as collaboration has been ongoing since March 2022.

The final challenge as it relates to funding: Local, State and Federal. The District's predominate local revenue source is the real estate tax rate. In fiscal year 2023, the District's real estate tax rate ranked as the 153rd lowest in the State. The Kentucky revised statute caps the amount of new revenue generated from real estate tax increases 4% a year. The failure of the legislature to adequately fund education has resulted in the Warren County School District and districts across the Commonwealth to make significant cuts to their budgets and to personnel, compelling school boards to increase property taxes in order that districts might continue to operate and serve the students, who are the future of the Commonwealth. Fortunately, Warren County has experienced positive annual growth in property assessment and thereby property tax revenue. However, the SEEK formula has a negative effect on districts that incur significant growth in assessment.

With careful planning, gains in efficiencies, and monitoring of District finances, Warren County Public School's goal is to continue to provide a quality education for our students and a secure financial future for the District.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have any questions about this report or need additional information contact Christopher C. McIntyre CPA, Treasurer at Warren County Board of Education, 303 Lovers Lane, P.O. Box 51810, Bowling Green, KY 42102-6810 or email at chris.mcintyre@warren.kyschools.us

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

Year Ended June 30, 2023

Net change in total fund balances per fund financial statements	\$ 40,762,240
Amounts reported for governmental activities in the statement of activities are different because:	
Capital outlays are reported as expenditures in this fund financial statement because they use current financial resources, but they are presented as assets in the statement of activities and depreciated over their estimated economic lives. The difference is the amount by which capital outlays exceeds depreciation and amortization expense for the year.	19,397,039
The proceeds for the issuance of bonds provide current financial resources and are reported in this fund financial statement but they are presented as liabilities in the statement of net position.	(62,963,241)
Bond payments are recognized as expenditures of current financial resources in the fund financial statement but are reductions of liabilities in the statement of net position.	14,671,000
Lease payments are recognized as expenditures of current financial resources in the fund financial statement but are reductions of liabilities in the statement of net position.	122,631
In the statement of activities, only the gain (loss) on sale of capital assets is reported, whereas in the governmental funds, the proceeds for the sale increased financial resources.	(164,119)
The difference between actuarial pension and OPEB contributions and actual contributions made are recorded as adjustments in the statement of activities.	(706,099)
Generally, expenditures recognized in this fund financial statement are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when they are incurred.	 (1,808,005)
Change in net position of governmental activities	\$ 9,311,446

NOTES TO THE BASIC FINANCIAL STATEMENTS

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2023

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Warren County School District (the "District") have been prepared to conform with Accounting Principles Generally Accepted in the United States of America ("GAAP") as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

A. <u>REPORTING ENTITY</u>

The Warren County Board of Education ("Board"), a five-member group, is the level of government, which has oversight responsibilities over all activities related to public elementary and secondary school education within the jurisdiction of Warren County School District. Board members are elected by the public and have decision making authority, the power to designate management, the responsibility to develop policies, which may influence operations and primary accountability for fiscal matters.

For financial reporting purposes, the accompanying financial statements include all of the operations over which the District is financially accountable. The District is financially accountable for organizations that make up its legal entity, as well as legally separate organizations that meet certain criteria. In accordance with GASB 14, "The Financial Reporting Entity," as amended by GASB 39, "Determining Whether Certain Organizations Are Component Units", the criteria for inclusion in the reporting entity involve those cases where the District or its officials appoint a voting majority of an organization's governing body, and is either able to impose its will on the organization or there is a potential for the organization to provide specific financial benefits to or to impose specific financial burdens on the District or the nature and significance of the relationship between the District and the organization is such that exclusion would cause the District's financial statements to be incomplete. Applying this definition, District management has determined that the component unit reportable within the accompanying financial statements is the Warren County School District Finance Corporation, (the "Corporation"). The financial statements school system, have not originated within the Board itself such as Boosters, Parent-Teacher Associations, etc.

<u>Blended Component Unit – Warren County School District Finance Corporation</u> – In a prior year, the Board of Education resolved to authorize the establishment of the Warren County School District Finance Corporation (a non-profit, non-stock, public and charitable corporation organized under the School Bond Act and KRS 273 and KRS Section 58.180) (the "Corporation") as an agency for the District for financing the costs of school building facilities. The members of the Board also comprise the Corporation's Board of Directors. Therefore, the financial activities of the Corporation have been blended (reported as if it were part of the District) with those of the District. The Corporation does not publish individual component unit financial statements.

B. <u>MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT</u> <u>PRESENTATION</u>

Government-wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District as a whole. These statements include the financial activities of the primary government, except for Fiduciary Funds.

NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED

June 30, 2023

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of net position presents the financial condition of the governmental and business-type activities of the District at year-end. The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements

Fund financial statements report detailed information about the District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The Governmental Funds are accounted for on the "flow of current financial resources" measurement focus. This measurement focus is based on the concept of accountability, which includes measuring interperiod equity whether current year revenues were sufficient to pay for current year services. The Proprietary Funds are accounted for on an "economic resources" measurement focus. Accordingly, the Statement of Revenues, Expenses and Changes in Fund Net Position for the Proprietary Funds reports increases and decreases in total economic net worth. The private purpose trust fund is reported using the economic resources measurement focus.

Governmental Funds

Governmental Funds are those through which most District functions are financed. The acquisition, use and balances of the District's expendable financial resources and the related liabilities (except those accounted for in the Proprietary Fund and Fiduciary Funds) are accounted for through Governmental Funds. The measurement focus is upon determination of changes in financial resources rather than upon determination of net income.

(A) The General Fund is the main operating fund of the District. It accounts for financial resources used for general types of operations. This is a budgeted fund, and any fund balances are considered as resources available for use. This is a major fund.

NOTES TO BASIC FINANCIAL STATEMENTS – CONTINUED

June 30, 2023

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

- (B) The Special Revenue Fund accounts for proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to disbursements for specified purposes. It includes federal financial programs where unused balances are returned to the grantor at the close of the specified project periods as well as the state grant programs. Project accounting is employed to maintain integrity for the various sources of funds. The separate projects of federally-funded grant programs are identified in the Schedule of Expenditures of Federal Awards included in this report. This is a major fund.
- (C) The District Activity Fund is a Special Revenue Fund type and is used to account for funds received at the school level.
- (D) The School Activity Fund is a Special Revenue Fund type and accounts for activities of student groups and other types of activities requiring clearing accounts. These funds are accounted for in accordance with the <u>Uniform Program of Accounting for School Activity</u> <u>Funds</u>.
- (E) Capital Project Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities and equipment (other than those financed by Proprietary Funds).
 - 1. The Support Education Excellence in Kentucky (SEEK) Capital Outlay Fund receives those funds designated by the state as Capital Outlay Funds and is restricted for use in financing projects identified in the District's facility plan.
 - 2. The Facility Support Program of Kentucky (FSPK) accounts for funds generated by the building tax levy required to participate in the School Facilities Construction Commission's construction funding and state matching funds, where applicable. Funds may be used for projects identified in the District's facility plan. This is a major fund.
 - 3. The Construction Fund accounts for proceeds from sales of bonds and other revenues to be used for authorized construction. This is a major fund.
- (F) The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, long-term debt principal and interest and related costs; and for the payment of interest on notes payable, as required by Kentucky Law.

Proprietary Funds

Proprietary Funds are used to account for ongoing organizations and activities, which are operated and financed in a manner similar to those found in the private sector. The measurement focus is upon the determination of net income. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a Proprietary Fund's principal ongoing operations. Operating expenses include salaries, benefits, supplies and other items. All items not meeting this definition are reported as nonoperating revenues and expenses. The District has two Proprietary Funds.

NOTES TO BASIC FINANCIAL STATEMENTS – CONTINUED

June 30, 2023

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

- (A) The Food Service Fund is used to account for school food service activities, including the National School Lunch and Breakfast Programs, which are conducted in cooperation with the U.S. Department of Agriculture (USDA). Amounts have been recorded for in-kind contribution of commodities from the USDA and for on-behalf payments for retirement and health insurance paid by the State of Kentucky. This is a major fund.
- (B) The Daycare Fund accounts for the daycare operations of the District. Amounts have been recorded for on-behalf payments for retirement and health insurance paid by the State of Kentucky. This fund was closed in fiscal year 2023.

<u>Fiduciary Funds</u> - Fiduciary Funds are used to account for assets held by the District on behalf of outside related organizations or on behalf of other funds within the District.

The Custodial Fund – Scholarship is used to report trust arrangements under which principal and income benefit individuals, private organizations or other governments for which the District acts as an agent.

BASIS OF ACCOUNTING

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting.

Modified Accrual

Under the modified accrual basis, revenues are recognized in the accounting period in which they become susceptible to accrual, i.e., both available and measurable. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Significant revenues susceptible to accrual include ad valorem taxes, reimbursable-type grants and interest on investments. The District considers all revenues (with the exception of the expenditure-driven grants) as available if they are collected within sixty (60) days after year-end. The expenditure driven grants are considered available if received, except at year end when revenue is recognized for taxes received by the District within sixty (60) days subsequent to fiscal year end. Expenditures are recognized in the accounting period in which the liability is incurred. However, exceptions include the amount of unmatured principal and interest on general long-term debt, compensated absences, claims and judgments and certain prepaids which are recognized when due/paid.

In applying the susceptible to accrual concept to revenues from Federal and State sources, the legal contractual requirements of the numerous individual programs are used as guidance. Revenue from grants and entitlements is recognized when all eligibility requirements have been satisfied. There are, however, essentially two types of these revenues. In one, monies must be expended for the specific purpose or project before the District will receive any amounts; therefore, revenues are recognized based upon the occurrence of expenditures. In the other type, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed legal and contractual requirements. These resources are reflected as revenues at the time of receipt or earlier if the

NOTES TO BASIC FINANCIAL STATEMENTS – CONTINUED

June 30, 2023

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

susceptible to accrual criteria are met. In all cases, monies received before the revenue recognition criteria have been met are reported as unearned revenue.

Accrual

Under the accrual basis of accounting, revenues are recognized in the period earned and expenses are recognized in the period incurred.

Revenue Recognition

State Revenue Sources - Revenues from State sources for current operations are primarily from the Support Education Excellence in Kentucky ("SEEK"), administered by the Kentucky Department of Education ("KDE"). The District files reports on average daily attendance ("ADA") student membership with the KDE. The KDE accumulates information from these reports and calculates the allocation of SEEK funds to the District. After review and verification of ADA reports and supporting documentation, the KDE may adjust subsequent fiscal period allocations of SEEK funding. Normally, such adjustments are treated as reductions of revenue in the year the reduction is made, as amounts are not significant.

Property Taxes - On an accrual basis, property tax revenue anticipated to be collected is recognized in the fiscal year for which it is levied. Delinquent taxes collected in subsequent periods are recognized as revenue during the fiscal year in which they are received.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, and then unrestricted resources as they are needed.

C. BUDGETARY POLICIES

Budgetary Process

Budgetary Basis of Accounting: The District's budgetary process accounts for certain transactions on a basis other than Generally Accepted Accounting Principles (GAAP). The major differences between the budgetary basis and the GAAP basis are:

Revenues are recorded when received in cash (budgetary) as opposed to when susceptible to accrual (GAAP).

Expenditures are recorded when paid in cash (budgetary) as opposed to when susceptible to accrual (GAAP).

Once the budget is approved, it can be amended. Amendments are presented to the Board at their regular meetings. All budget appropriations lapse at year-end.

D. ENCUMBRANCES

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded to reserve a portion of an applicable appropriation, is utilized for budgetary control purposes. Encumbrances are not the equivalent of expenditures, and accordingly, amounts assigned for encumbrances at the governmental fund level indicate that portion of the fund balance segregated for expenditure upon vendor performance.

NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED

June 30, 2023

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

E. CASH AND CASH EQUIVALENTS

For purposes of the statement of cash flows, cash equivalents are considered to be demand deposits, money market funds, and other investments with an original maturity of 90 days or less.

F. INVENTORIES

Inventories are valued at cost, which approximates market. The food service fund uses the specific identification method and the general fund uses the first-in, first-out method. The District's inventories include various items consisting of school supplies, paper, books, maintenance items, transportation items, commodities, etc. USDA commodities received from the Federal government are recorded at the value established by the Federal government using the average cost method.

G. PREPAID ITEMS

Expenditures for insurance and similar services extending over more than one accounting period are allocated between or among accounting periods in the governmental funds.

H. <u>CAPITAL ASSETS</u>

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds. All capital assets greater than \$5,000 (except for land improvements, buildings and building improvements for which \$20,000 is the threshold) are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District does not possess any infrastructure. Improvements are capitalized; the cost of, normal maintenance and repairs that do not add to the value of the asset or materially extend an assets' life are not. All reported capital assets. Depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives for both general capital assets:

Description	Governmental Activities Estimated Lives
Land improvements Buildings and improvements	20 years 25-50 years
Technology equipment	5 years
Vehicles	5-10 years
General equipment	5-15 years
Food service equipment	5-12 years

NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED

June 30, 2023

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

I. LONG-TERM DEBT

In the fund-level financial statements, governmental funds report the face amount of debt issued, as well as any premiums (discounts) as other financing sources (uses). Debt issuance costs are reported as debt service expenditures. In the government-wide financial statements, long-term debt is reported as liabilities in the statement of net position. Bond premiums/discounts are amortized over the life of the bonds and shown as an offset of bonds payable while deferred amounts on advance refundings are amortized over the shorter of the remaining life of the refunded bonds or the life of the new bonds both in a systematic and rational method, which approximates the effective-interest method and shown as deferred outflows of resources.

J. <u>COMPENSATED ABSENCES</u>

Compensated absences are payments to employees for vacation and accumulated sick leave. District employees may accumulate unused sick leave up to a specified amount depending on their date of hire. Sick leave is payable to employees upon termination or retirement at 30% of the current rate of pay on the date of termination or retirement. The District uses the termination method to calculate the compensated absences amounts. The entire compensated absence liability is reported on the government-wide financial statements. The current portion is the amount estimated to be used in the following year. An expenditure is recognized in the governmental fund as payments come due each period, for example, as a result of employee resignations and retirements. Compensated absences not recorded at the fund level represent a reconciling item between the fund level and government-wide presentations.

K. ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the District's management to make estimates and assumptions that affect reported amounts of assets, liabilities, fund balances, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

L. PENSION AND OPEB PLANS

For purposes of measuring the net pension liability, net OPEB liability, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB, and pension and OPEB expense, information about the fiduciary net position of the Teachers' Retirement System Kentucky (TRS) and County Employees Retirement System (CERS) and additions to/deductions from TRS's and CERS's fiduciary net position have been determined on the same basis as they are reported by TRS and CERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

M. NET POSITION

Net Position – Net position is divided into three components:

- 1. Net investment in capital assets consist of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets.
- Restricted net position consist of net position that is restricted by the District's creditors (for example, through debt covenants), by grantors (federal, state and local) and by other contributors.
- 3. Unrestricted all other net position is reported in this category.

N. IMPACT OF RECENTLY ISSUED ACCOUNTING PRINCIPLES

Recently Issued And Adopted Accounting Principles

In May 2019, the GASB issued Statement 91, *Conduit Debt Obligations*. This statement is effective for periods beginning after December 15, 2020, but was delayed by one year with the issuance of GASB 95. This adoption did not have an effect on the financial statements.

In March 2020, the GASB issued Statement 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements.* This statement is effective for periods beginning after June 15, 2022. This adoption did not have an effect on the financial statements.

In May 2020, the GASB issued Statement 96, *Subscription-Based Information Technology Arrangements*. This statement is effective for periods beginning after June 15, 2022. This adoption did not have an effect on the financial statements.

In October 2021, the GASB issued Statement 98, *The Annual Comprehensive Financial Report.* This statement is effective for periods beginning after December 15, 2021. This adoption did not have an effect on the financial statements.

In October 2021, the GASB issued Statement 99, *Omnibus 2022*. This statement is effective for periods beginning after December 15, 2021. This adoption did not have an effect on the financial statements.

NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Recently Issued Accounting Pronouncements

In June 2022, the GASB issued Statement 100, *Accounting Changes and Error Corrections – An Amendment of GASB Statement No. 62.* This statement is effective for periods beginning after June 15, 2023. Management is currently evaluating the impact of the adoption of this statement on the District's financial statements.

In June 2022, the GASB issued Statement 101, *Compensated Absences*. This statement is effective for periods beginning after December 15, 2023. Management is currently evaluating the impact of the adoption of this statement on the District's financial statements.

NOTE 2 – PROPERTY TAXES

<u>Property Tax Revenues</u> – Property taxes are normally levied each September on the assessed value listed as of the prior January 1, for all real and personal property in the county. The billings are considered due upon receipt by the taxpayer; however, the actual date is based on a period ending 30 days after the tax bill mailing. Property taxes collected are recorded as revenues in the fiscal year for which they were levied. All taxes collected are initially deposited into the General Fund and then transferred to the appropriate fund. The usual collection date is the period from November 1 through December 31. Property tax bills paid prior to December 1 receive a two percent discount. Property taxes received after December 31, are considered to be delinquent and the County Attorney can file a lien against the property.

The property tax rates assessed for the year ended June 30, 2023, to finance operations were \$.461 per \$100 valuation for real property, \$.464 per \$100 valuation for business personal property and \$.545 per \$100 valuation for motor vehicles. The District levies a utility gross receipts license tax in the amount of 3% of the gross receipts derived from the furnishings, within the county, of telephonic and telegraphic communications services, cablevision services, electric power, water, and natural, artificial and mixed gas. The District also levies an occupational license tax of 0.5%.

NOTES TO BASIC FINANCIAL STATEMENTS – CONTINUED

June 30, 2023

NOTE 3 – CASH, CASH EQUIVALENTS AND INVESTMENTS

<u>Deposits</u>

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District's policy is to have all deposits secured by pledged securities. At June 30, 2023, \$84,496,696 of the District's bank balance of \$85,511,927 was exposed to custodial credit risk. The bank balance not covered by depository insurance was collateralized by securities held by the pledging financial institution.

Investments

As of June 30, 2023, the District had the following investments and maturities:

		AVERAGE CREDIT	LESS
	FAIR VALUE	QUALITY/RATINGS (1)	THAN 1
Money Market Mutual Funds	\$ 135,484	NOT RATED	\$ 135,484
Exchange Traded Funds	131,431	NOT RATED	131,431

(1) Ratings are provided where applicable to indicate associated Credit Risk. N/A indicates not applicable. Rating is from Standard & Poor's.

Credit Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Generally, the District's investing activities are under the custody of the District Finance Director. Investing policies comply with State Statutes. Kentucky Revised Statute 66.480 defines the following items as permissible investments:

- Obligations of the United States and of its agencies and instrumentalities;
- Obligations of any corporation of the United States Government;
- Obligations and contracts for future delivery or purchase of obligations backed by the full faith and credit of the United States or a United States government agency;
- Uncollateralized certificates of deposit issued by any bank or savings and loan institution rated in one
 (1) of the three (3) highest categories by a nationally recognized rating agency;
- Certificates of deposit issued by or other interest-bearing accounts of any bank or savings and loan
 institution which are insured by the Federal Deposit Insurance Corporation or similar entity or which
 are collateralized, to the extent uninsured, by any obligations, including surety bonds, permitted by
 KRS 41.240(4);
- Bankers' acceptances for banks rated in one (1) of the three (3) highest categories by a nationally recognized rating agency;
- Commercial paper rated in the highest category by a nationally recognized rating agency;
- Bonds or certificates of indebtedness of this state and of its agencies and instrumentalities;
- Securities issued by a state or local government, or any instrumentality of agency thereof, in the United States, and rated in one (1) of the three (3) highest categories by a nationally recognized rating agency; and
- Shares of mutual funds, each of which shall have the following characteristics:
 - 1. The mutual fund shall be an open-end diversified investment company registered under the Federal Investment Company Act of 1940, as amended;
 - 2. The management company of the investment company shall have been in operation for at least five (5) years; and
 - 3. All of the securities in the mutual fund shall be eligible investments pursuant to this section.

NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED

June 30, 2023

NOTE 3 - CASH, CASH EQUIVALENTS AND INVESTMENTS - CONTINUED

Interest Rate Risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. **Custodial Credit Risk** is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. No investments are reported at amortized cost. The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

NOTE 4 – INTERFUND ACTIVITIES

The following transfers were made during the year:

From Fund	To Fund	Purpose	Amount

NOTE 6 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. District purchases commercial insurance for workers' compensation, errors and omissions and general liability coverage. The District purchases unemployment insurance through the Kentucky School Boards Insurance Trust Unemployment Compensation Fund; however, risk has not been transferred to such fund. In addition, the District continues to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

NOTE 7 – LONG-TERM LIABILITIES

A summary of changes in long-term liabilities for the year ended June 30, 2023, is as follows:

Description	July 1, 2022	Additions	Reductions	June 30, 2023	Due Within 1 Year
Governmental Activities: Bonds and Leases Payable:					
Revenue bonds Leases	\$ 190,611,000 240,545	\$ 59,050,000	\$ (14,671,000) (122,631)	\$ 234,990,000 117,914	\$

NOTES TO BASIC FINANCIAL STATEMENTS – CONTINUED

June 30, 2023

NOTE 7 – LONG-TERM LIABILITIES – CONTINUED

The debt service fund is primarily responsible for paying the bond obligations through funding from the general, capital outlay and FSPK funds. The general fund is primarily responsible for paying capital leases and compensated absences. The District, through the General Fund (including utility taxes and the Support Education Excellence in Kentucky (SEEK) Capital Outlay Fund) is obligated to make payments in amounts sufficient to satisfy debt service requirements on bonds issued by the Warren County School District Finance Corporation to construct school facilities. The District has an option to purchase the property under lease at any time by retiring the bonds then outstanding.

Bond Liabilities

The original amount of each issue, the issue date, interest rates and amount outstanding at June 30, 2023 are summarized below:

Issue Date	Original Proceeds	Rates	Amount Outstanding
2009QZAB	\$ 6,096,000	2.09%	\$ 1,335,000
2014R	6,390,000	2.00% - 3.00%	1,295,000
2014R2	27,080,000	2.00% - 4.00%	13,275,000
2015	18,465,000	2.00% - 3.50%	14,435,000
2015R	6,235,000	2.00% - 3.00%	2,005,000
2015R2	12,935,000	2.00% - 3.125%	6,940,000
2016	14,395,000	2.00% - 3.25%	11,130,000
2016R	35,855,000	0.50% - 3.00%	18,510,000
2017	21,280,000	2.00% - 3.25%	18,775,000
2018E	28,570,000	3.00% - 3.65%	25,695,000
2019	15,165,000	3.00% - 5.00%	14,585,000
2019B	23,030,000	2.125% - 4.00%	22,955,000
2020	25,150,000	2.00% - 5.00%	25,005,000
2022	9,050,000	4.00% - 5.00%	9,050,000
2023	50,000,000	4.00% - 5.00%	50,000,000
			\$ 234,990,000

In December 2022, the District issued \$9,050,000 in School Building Revenue Bonds at interest rates between 4.00 and 5.00 percent. The net proceeds of \$9,879,077 (after \$945,798 in premium and \$116,721 in bond issuance costs) were deposited in the Debt Service Fund.

In June 2023, the District issued \$50,000,000 in School Building Revenue Bonds at interest rates between 4.00 and 5.00 percent. The net proceeds of \$52,508,483 (after \$2,967,443 in premium and \$458,960 in bond issuance costs) were deposited in the Debt Service Fund.

The District has "participation agreements" with the Kentucky School Facilities Construction Commission. The Commission was created by the Kentucky General Assembly for the purpose of assisting local school districts in meeting school construction needs. The table below sets forth the amount to be paid by the District and the Commission for each year until maturity of all bond issues. The liability for the total bond amount remains with the District and, as such, the total principal outstanding has been recorded in the financial statements. The bonds may be called prior to maturity and redemption premiums are specified in each issue. Assuming no bonds are called prior to scheduled maturity, the minimum obligations of the District, including amounts to be paid by the Commission, at June 30, 2023, for debt service (principal and interest) are as follows:

NOTE 8 – PENSION PLANS

Plan Descriptions

The Warren County School District participates in the Teachers' Retirement System of the State of Kentucky (TRS), a component unit of the Commonwealth of Kentucky which includes certified employees and the County Employees' Retirement System (CERS), a component unit of the Commonwealth of Kentucky which includes all other employees, both of which are cost-sharing multiple-employer defined benefit plans. TRS, which qualifies as a special funding situation under GASB 68, and CERS provide retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. TRS is governed by Chapter 161 Section 220 through Chapter 161 Section 990 of the Kentucky Revised Statutes (KRS). Under the provisions of KRS Section 61.645, the Board of Trustees of Kentucky Retirement Systems (KERS) administers the CERS. The TRS and CERS issue a publicly available financial reports that include financial statements and required supplementary information. TRS' report may be obtained at www.tyret.ky.gov.

TRS

Benefits Provided

For Members Before July 1, 2008:

Members become vested when they complete five (5) years of credited service. To qualify for monthly retirement benefits, payable for life, members must either:

- 1.) Attain age fifty-five (55) and complete five (5) years of Kentucky service, or
- 2.) Complete twenty-seven (27) years of Kentucky service.

Participants that retire before age 60 with less than 27 years of service receive reduced retirement benefits. Non-university members with an account established prior to July 1, 2002 receive monthly payments equal to two (2) percent (service prior to July 1, 1983) and two and one-half (2.5) percent (service after July 1, 1983) of their final average salaries for each year of credited service. New members (including second retirement accounts) after July 1, 2002 will receive monthly benefits equal to 2% of their final average salary for each year of service if, upon retirement, their total service less than ten years. New members after July 1, 2002 who retire with ten or more years of total service will receive monthly benefits equal to 2.5% of their final average salary for each year of service, including the first ten years. In addition, members who retire July 1, 2004 and later with more than 30 years of service will have their multiplier increased for all years over 30 from 2.5% to 3.0% to be used in their benefit calculation. Effective July 1, 2008, the System has been amended to change the benefit structure for members hired on or after that date.

The final average salary is the member's five (5) highest annual salaries except members at least age fifty-five (55) with twenty-seven (27) or more years of service may use their three (3) highest annual salaries. For all members, the annual allowance is reduced by 5% per year from the earlier of age 60 or the date the member would have completed 27 years of service. The minimum annual service allowance for all members is \$440 multiplied by credited service. The System also provides disability benefits for vested members at the rate of sixty percent (60%) of the final average salary. Cost of living increases are one and one-half percent (1.5%) annually. Additional ad hoc increases and any other benefit amendments must be authorized by the General Assembly.

NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED

June 30, 2023

NOTE 8 – PENSION PLANS – CONTINUED

For Members On or After July 1, 2008:

Members become vested when they complete five (5) years of credited service. To qualify for monthly retirement benefits, payable for life, members must either:

- 1.) Attain age sixty (60) and complete five (5) years of Kentucky service, or
- 2.) Complete twenty-seven (27) years of Kentucky service, or
- 3.) Attain age fifty-five (55) and complete ten (10) years of Kentucky service.

The annual retirement allowance for non-university members is equal to: (a) one and seven tenths percent (1.7%) of final average salary for each year of credited service if their service is 10 years or less; (b) two percent (2.0%) of final average salary for each year of credited service if their service is greater than 10 years but no more than 20 years; (c) two and three tenths percent (2.3%) of final average salary for each year of credited service if their service is greater than 20 years of credited service if their service is greater than 20 years but no more than 26 years; (d) two and one half percent (2.5%) of final average salary for each year of credited service if their service is greater than 26 years but no more than 30 years; (e) three percent (3.0%) of final average salary for years of credited service greater than 30 years.

The annual retirement allowance for university members is equal to: (a) one and one-half percent (1.5%) of final average salary for each year of credited service if their service is 10 years or less; (b) one and seven tenths percent (1.7%) of final average salary for each year of credited service if their service is greater than 10 years but no more than 20 years; (c) one and eighty five hundredths percent (1.85%) of final average salary for each year of credited service is greater than 20 years but less than 27 years; (d) two percent (2.0%) of final average salary for each year of credited service is greater than or equal to 27 years.

The final average salary is the member's five (5) highest annual salaries except members at least age fifty-five (55) with twenty-seven (27) or more years of service may use their three (3) highest annual salaries. For all members, the annual allowance is reduced by 6% per year from the earlier of age 60 or the date the member would have completed 27 years of service.

Contributions

Contribution rates are established by Kentucky Revised Statutes. The State contributes 100 percent of school districts' contractually required contributions, which are actuarially determined. Employees are required to contribute 12.855 percent of their annual salary. The school districts' contractually required contribution rate for the year ended June 30, 2022, was 13.105 percent of salaries for members in the plan before July 1, 2008 and 14.105 percent of salaries for members who started their account after June 30, 2008. The District made no contributions to the pension plan for the year ended June 30, 2022. If an employee leaves covered employment before accumulating five (5) years of credited service, accumulated employee pension contributions plus interest are refunded to the employee upon the member's request.

June 30, 2023

NOTE 8 – PENSION PLANS – CONTINUED

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2023, the District reported no net pension liability because it did not have a proportionate share of the net pension liability. There was no amount recognized by the District as its proportionate share of the net pension liability. The related State share of the net pension liability was \$370,358,164.

The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2021. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. At June 30, 2022, the District's proportion was .4063 percent.

For the year ended June 30, 2023, the District recognized pension expense of \$13,508,358 and revenue of \$13,508,358 (\$33,791,906 in the governmental funds and negative \$20,283,548 in government-wide activities) for support provided by the State. At June 30, 2023, the District reported no deferred outflows of resources and no deferred inflows of resources related to TRS.

Actuarial Assumptions

The total pension liability in the June 30, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50 percent
Salary increases	3.00 – 7.50 percent, including inflation
Investment rate of return	7.10 percent, net of pension plan investment expense, including inflation
Municipal Bond Index Rate	3.37%

Mortality rates were based on the Pub-2010 (Teachers Benefit-Weighted) Mortality Table projected generationally with MP-2020 with various set-forwards, set-backs, and adjustments for each of the groups; service, retirees, contingent annuitants, disabled retirees, and active members.

The actuarial assumptions used were based on the results of an actuarial experience study for the 5-year period ending June 30, 2020, adopted by the board on September 20, 2021.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

NOTES TO BASIC FINANCIAL STATEMENTS – CONTINUED

Real Estate	7.0%	4.0%
Private Equity	7.0%	6.9%
Cash	2.0%	-0.3%
	100.0%	

Discount Rate

The discount rate used to measure the total pension liability was 7.10 percent. The projection of cash flows used to determine the discount rate was performed in accordance with GASB 67. It was assumed that Plan member contributions will be made at the current contribution rates and that Employer contributions will be made at the Actuarially Determined Contribution rates for all fiscal years in the future. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity Of The Net Pension Liability To Changes In The Discount Rate

The District has no proportional share of the net pension liability. The following presents the sensitivity of the System's net pension liability calculated using the discount rate of 7.10 percent, as well as what the System's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10 percent) or 1-percentage-point higher (8.10 percent) than the current rate:

	1% Dec	rease (6.10%)	Current Discount Rate (7.10%)		1% Increase (8.10%)	
System's net pension liability						
(in thousands)	\$	22,587,405	\$	17,698,336	\$	13,623,659

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position, which has been determined on the same basis as that used by the plan, is available in the separately issued TRS financial report. The financial statements are prepared on the accrual basis of accounting. Member contributions and employer matching contributions are recognized in the fiscal year due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

NOTE 8 – PENSION PLANS – CONTINUED

CERS

Benefits Provided

The system provides for retirement, disability, and death benefits to system members. Retirement benefits may be extended to beneficiaries of members under certain circumstances. Prior to July 1, 2009, cost-of-living adjustments (COLA) were provided annually equal to the percentage increase in the annual average of the consumer price index for all urban consumers for the most recent calendar year, not to exceed 5% in any plan year. Effective July 1, 2009, and on July 1 of each year thereafter through June 30, 2014, the COLA is limited to 1.5% provided the recipient has been receiving a benefit for at least 12 months prior to the effective date of the COLA. If the recipient has been receiving a benefit for less than 12 months prior to the effective date of the COLA, the increase shall be reduced on a pro-rata basis for each month the recipient has not been receiving benefits in the 12 months preceding the effective date of the COLA. The Kentucky General Assembly reserves the right to suspend or reduce the COLA if, in its judgment, the welfare of the Commonwealth so demands. No COLA has been granted since July 1, 2011.

The Board of Trustees adopted new actuarial assumptions since June 30, 2018. These assumptions are documented in the report titled "Kentucky Retirement Systems 2018 Actuarial Experience Study for the Period Ending June 30, 2018". The Total Pension liability as of June 30, 2020, was determined using these updated assumptions.

Senate Bill 249 passed during the 2020 legislative session and changed the funding period for the amortization of the unfunded liability to 30 years as of June 30, 2019. Gains and losses incurring in future years will be amortized over separate 20-year amortization bases. This change does not impact the calculation of the Total Pension Liability and only impacts the calculation of the contribution rates that would be payable starting July 1, 2020. There were no other material plan provision changes.

Contributions

For the fiscal year ended June 30, 2023, plan members who began participating prior to September 1, 2008, were required to contribute 5% of their annual creditable compensation. Participating employers were required to contribute at an actuarially determined rate. Per Kentucky Revised Statute Section 78.545(33), normal contribution and past service contribution rates shall be determined by the Board on the basis of an annual valuation last preceding July 1 of a new biennium. The Board may amend contribution rates as of the first day of July of the second year of a biennium, if it is determined on the basis of a subsequent actuarial valuation that amended contribution rates are necessary to satisfy requirements determined in accordance with actuarial bases adopted by the Board. The school districts' contractually required contributions to the pension plan from the District were \$5,170,053.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2023, the District reported a liability of \$54,293,144 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation June 30, 2021. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2022, the District's proportion was 0.751045 percent, which was an increase of .04766 percent from its proportion measured as of June 30, 2021.

NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED

June 30, 2023

NOTE 8 – PENSION PLANS – CONTINUED

For the year ended June 30, 2023, the District recognized pension expense of \$5,667,167. At June 30, 2023, the District reported its proportionate share of the CERS deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description	Deferred Outflows of Resources		Deferred Inflows of Resource	
Differences between expected				
and actual economic experience	\$	58,046	\$	483,504
Changes in actuarial assumptions				
Difference between projected				
and actual investment earnings		1,391,880		
Changes in proportion and differences				
between employer contributions				
and proportionate share of contributions		2,427,412		710,880
Contributions paid to CERS subsequent				
to the measurement date		5,170,053		
	\$	9,047,391	\$	1,194,384

The amount reported as deferred outflows for District contributions subsequent to the measurement date of \$5,170,053 will be recognized as a reduction of the net pension liability in the year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30	Pension Expense Amount			
2024	\$	543,354		
2025		1,053,501		
2026		(456,249)		
2027		1,542,348		
	\$	2,682,954		

Actuarial Assumptions

The total pension liability in the June 30, 2022, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.30 percent
Salary increases	3.30 percent to 10.30%, varies by service, including inflation
Investment rate of return	6.25 percent, net of pension plan investment expense,
	including inflation

The mortality table used for active members is a Pub-2010 General Mortality Table projected with the ultimate rates from, the MP-2014 mortality improvement scale using a base year of 2010. The mortality table used for healthy retired members was a system-specific mortality table based on mortality experience from 2013-2018, projected with the ultimate rates from MP-2014 mortality improvement scale using a base year of 2019. The mortality table used for the disabled members was Pub-2010 Disabled Mortality table, with a 4-year set-forward for both male and female rates, projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2019.

NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED

June 30, 2023

NOTE 8 – PENSION PLANS – CONTINUED

The long-term expected return on plan assets was determined by using a building-block method in which best-estimate ranges of expected future real rate of returns are developed for each asset class. The ranges are combined by weighting the expected future real rate of return by the target asset allocation percentage.

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Public Equity	50.00%	4.45%
Private Equity	10.00%	10.15%
Specialty Credit	10.00%	2.28%
Core Fixed Income	10.00%	0.28%
Cash	0.00%	-0.91%
Real Estate	7.00%	3.67%
Real Return	13.00%	4.07%
Total	100.00%	

Discount Rate

The projection of cash flows used to determine the discount rate of 6.25% for CERS Non-hazardous and CERS Hazardous assumes that the funds receive the required employer contributions each future year, as determined by the current funding policy established in Statute as last amended by House Bill 8 (passed in 2021). The discount rate determination does not use a municipal bond rate. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the Annual Comprehensive Financial Report (ACFR).

Sensitivity Of The District's Proportionate Share Of The Net Pension Liability To Changes In The Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 6.25 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.25 percent) or 1-percentage-point higher (7.25 percent) than the current rate:

Description	1% E	Decrease (5.25%)	Current Discount	Rate (6.25%)	1%	6 Increase (7.25%)
District's proportionate share						
of the net pension liability	\$	67,859,694	\$	54,293,144	\$	43,072,482

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position, which has been determined on the same basis as that used by the plan, is available in the separately issued CERS financial report. The financial statements are prepared on the accrual basis of accounting. Member contributions and employer matching contributions are recognized in the fiscal year due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

NOTE 9 – OTHER POST-EMPLOYMENT BENEFIT PLANS

Plan Descriptions

The Warren County School District participates in the Teachers' Retirement System of the State of Kentucky (TRS), a component unit of the Commonwealth of Kentucky which includes certified employees and the County Employees' Retirement System (CERS), a component unit of the Commonwealth of Kentucky which includes all other employees, both of which are cost-sharing multiple-employer defined benefit plans. TRS, which qualifies as a special funding situation for the Life Insurance Fund under GASB 75, and CERS provide other post-employment benefits to plan members and beneficiaries. TRS is governed by Chapter 161 Section 220 through Chapter 161 Section 990 of the Kentucky Revised Statutes (KRS). Under the provisions of KRS Section 61.645, the Board of Trustees of Kentucky Retirement Systems (KERS) administers the CERS. The TRS and CERS issue a publicly available financial reports that include financial statements and required supplementary information. TRS' report may be obtained at www.kyret.ky.gov.

TRS

General Information about the OPEB Plan

Plan description – Teaching-certified employees of the Kentucky School District are provided OPEBs through the Teachers' Retirement System of the State of Kentucky (TRS)—a cost-sharing multipleemployer defined benefit OPEB plan with a special funding situation established to provide retirement annuity plan coverage for local school districts and other public educational agencies in the state. TRS was created by the 1938 General Assembly and is governed by Chapter 161 Section 220 through Chapter 161 Section 990 of the Kentucky Revised Statutes (KRS). TRS is a blended component unit of the Commonwealth of Kentucky and therefore is included in the Commonwealth's financial statements. TRS issues a publicly available financial report that can be obtained at www.trs.ky.gov.

NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED

June 30, 2023

NOTE 9 – OTHER POST-EMPLOYMENT BENEFIT PLANS – CONTINUED

The state reports a liability, deferred outflows of resources and deferred inflows of resources, and expense as a result of its statutory requirement to contribute to the TRS Medical Insurance and Life Insurance Plans. The following information is about the TRS plans:

Medical Insurance Fund

<u>Plan description</u> – In addition to the OPEB benefits described above, Kentucky Revised Statute 161.675 requires TRS to provide post-employment healthcare benefits to eligible members and dependents. The TRS Medical Insurance benefit is a cost-sharing multiple employer defined benefit plan with a special funding situation. Changes made to the medical plan may be made by the TRS Board of Trustees, the Kentucky Department of Employee Insurance and the General Assembly.

<u>Benefits provided</u> – To be eligible for medical benefits, the member must have retired either for service or disability. The TRS Medical Insurance Fund offers coverage to members under the age of 65 through the Kentucky Employees Health Plan administered by the Kentucky Department of Employee Insurance. TRS retired members are given a supplement to be used for payment of their health insurance premium. The amount of the member's supplement is based on a contribution supplement table approved by the TRS Board of Trustees. The retired member pays premiums in excess of the monthly supplement. Once retired members and eligible spouses attain age 65 and are Medicare eligible, coverage is obtained through the TRS Medicare Eligible Health Plan.

<u>Contributions</u> – In order to fund the post-retirement healthcare benefit, seven and one-half percent (7.50%) of the gross annual payroll of members is contributed. Three percent (3.00%) is paid by member contributions and three quarters percent (.75%) from state appropriation and three percent (3.00%) from the employer. The state contributes the net cost of health insurance premiums for members who retired on or after July 1, 2010 who are in the non-Medicare eligible group. Also, the premiums collected from retirees as described in the plan description and investment interest help meet the medical expenses of the plan.

<u>OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs</u>

At June 30, 2023, the District reported a liability of \$38,925,000 for its proportionate share of the collective net OPEB liability that reflected a reduction for state OPEB support provided to the District. The collective net OPEB liability was measured as of June 30, 2022, and the total OPEB liability used to calculate the collective net OPEB liability was based on a projection of the District's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2022, the District's proportion was 2.083051 percent, which was an increase of .055793 percent from its proportion measured as of June 30, 2021.

NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED

June 30, 2023

NOTE 9 – OTHER POST-EMPLOYMENT BENEFIT PLANS – CONTINUED

The amount recognized by the District as its proportionate share of the OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the net OPEB liability	\$ 38,925,000
State proportionate share of the net OPEB liability	
associated with the District	 12,787,000
Total	\$ 60,153,000

For the year ended June 30, 2023, the District recognized OPEB expense of \$1,795,000 and revenue of \$683,468 for support provided by the Commonwealth. At June 30, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to OPEBs from the following sources:

Description	Deferred Outf	lows of Resources	Deferred I	nflows of Resources
Changes in actuarial assumptions	\$	7,905,000	\$	-
Difference between projected and				
actual economic experience				16,362,000
Difference between projected and				
actual investment earnings		2,069,000		
Changes in proportion and differences between emplover contributions				
and proportionate share of contributions	6	14,231,000		62,000
Contributions paid to TRS subsequent				
to the measurement date		2,263,031		
	\$	26,468,031	\$	16,424,000

Of the total amount reported as deferred outflows of resources related to OPEB, \$2,263,031 resulting from District contributions subsequent to the measurement date and before the end of the fiscal year will be included as a reduction of the collective net OPEB liability in the year ended June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in the District's OPEB expense as follows:

Year Ending June 30	OPEB Expense Amount				
2024	\$	393,000			
2025		545,000			
2026		694,000			
2027		2,893,000			
2028		2,333,000			
Thereafter		923,000			
=	\$	7,781,000			

NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED

June 30, 2023

NOTE 9 – OTHER POST-EMPLOYMENT BENEFIT PLANS – CONTINUED

<u>Actuarial assumptions</u> – The total OPEB liability in the June 30, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Investment rate of return Projected salary increases Inflation rate	7.10%, net of OPEB plan investment expense, including inflation. 3.00 – 7.50%, including inflation 2.50%
Real Wage Growth	0.25%
Wage Inflation	2.75%
Healthcare cost trend rates	
Under 65	7.00% for FY 2022 decreasing to an ultimate rate of 4.50% by FY 2032
Ages 65 and Older	5.125% for FY 2022 decreasing to an ultimate rate of 4.50% by FY 2025
Medicare Part B Premiums	6.97% for FY 2022 with an ultimate rate of 4.50% by 2034
Municipal Bond Index Rate	3.37%
Discount Rate	7.10%
Single Equivalent Interest Rate	7.10%, net of OPEB plan investment expense, including inflation

Mortality rates were based on the Pub-2010 (Teachers Benefit-Weighted) Mortality Table projected generationally with MP-2020 with various set-forwards, set-backs, and adjustments for each of the groups; service, retirees, contingent annuitants, disabled retirees, and active members.

The actuarial assumptions used were based on the results of an actuarial experience study for the 5-year period ending June 30, 2020, adopted by the board on September 20, 2021.

The remaining actuarial assumptions (e.g., initial per capita costs, health care cost trends) used in the June 30, 2021 valuation of the Health Trust were based on a review of recent plan experience done concurrently with the June 30, 2021 valuation. The health care cost trend assumption was updated for the June 30, 2021 valuation and was shown as an assumption change in the TOL roll forward, while the change in initial per capita claims costs were included with experience in the TOL roll forward.

The long-term expected rate of return on OPEB plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class, as provided by TRS's investment consultant, are summarized in the following table:

NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED

June 30, 2023

NOTE 9 – OTHER POST-EMPLOYMENT BENEFIT PLANS – CONTINUED

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Global Equity	58.0%	5.1%
Fixed Income	9.0%	-0.1%
Real Estate	6.5%	4.0%
Private Equity	8.5%	6.9%
High Yield	8.0%	1.7%
Other	9.0%	2.2%
Cash (LIBOR)	1.0%	-0.3%
	100.0%	

<u>Discount rate</u> - The discount rate used to measure the total OPEB liability was 7.10%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rates and the employer contributions will be made at statutorily required rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity Of The District's Proportionate Share Of The Net OPEB Liability To Changes In The Discount Rate

The following table presents the District's proportionate share of the collective net OPEB liability of the System, calculated using the discount rate of 7.10%, as well as what the District's proportionate share of the collective net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10%) or 1-percentage-point higher (8.10%) than the current rate:

June 30, 2023

NOTE 9 – OTHER POST-EMPLOYMENT BENEFIT PLANS – CONTINUED

Life Insurance Fund

<u>Plan description – Life Insurance Fund</u> – TRS administers the life insurance fund as provided by Kentucky Revised Statute 161.655 to eligible active and retired members. The TRS Life Insurance benefit is a cost-sharing multiple employer defined benefit plan with a special funding situation. Changes made to the life insurance plan may be made by the TRS Board of Trustees and the General Assembly.

<u>Benefits provided</u> – TRS provides a life insurance benefit of five thousand dollars payable for members who retire based on service or disability. TRS provides a life insurance benefit of two thousand dollars payable for its active contributing members. The life insurance benefit is payable upon the death of the member to the member's estate or to a party designated by the member.

<u>Contributions</u> – In order to fund the post-retirement life insurance benefit, three hundredths of one percent (.03%) of the gross annual payroll of members is contributed by the Commonwealth.

<u>OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs</u>

At June 30, 2023, the District did not report a liability for its proportionate share of the collective net OPEB liability for life insurance benefits because the State of Kentucky provides the OPEB support directly to TRS on behalf of the District. The collective net OPEB liability was measured as of June 30, 2022. The amount recognized by the District as its proportionate share of the OPEB liability was \$0 and the Commonwealth's total portion of the net OPEB liability that was associated with the District was \$636,000. At June 30, 2022, the District's proportion was 2.045181 percent, which was an increase of .063255 percent from its proportion measured as of June 30, 2021.

For the year ended June 30, 2023, the District recognized OPEB expense of \$48,545 and revenue of \$48,545 for support provided by the Commonwealth. At June 30, 2023, the District reported no deferred outflows of resources and deferred inflows of resources related to the OPEB.

<u>Actuarial assumptions</u> – The total OPEB liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Investment rate of return	7.10%, net of OPEB plan investment expense, including inflation.
Projected salary increases	3.00 – 7.50%, including inflation
Inflation rate	2.50%
Real Wage Growth	0.25%
Wage Inflation	2.75%
Municipal Bond Index Rate	3.37%
Discount Rate	7.10%
Single Equivalent Interest Rate	7.10%, net of OPEB plan investment expense, including inflation

Mortality rates were based on the Pub2010 (Teachers Benefit-Weighted) Mortality Table projected generationally with MP-2020 with various set-forwards, set-backs, and adjustments for each of the groups; service, retirees, contingent annuitants, disabled retirees, and active members.

The actuarial assumptions used were based on the results of an actuarial experience study for the 5-year period ending June 30, 2020, adopted by the board on September 20, 2021.

NOTES TO BASIC FINANCIAL STATEMENTS – CONTINUED

June 30, 2023

NOTE 9 – OTHER POST-EMPLOYMENT BENEFIT PLANS – CONTINUED

The long-term expected rate of return on OPEB plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class, as provided by TRS's investment consultant, are summarized in the following table:

		Long-term
		Expected Real
Asset Class	Target Allocation	Rate of Return
U.S. Equity	40.0%	4.4%
International Equity	23.0%	5.6%
Fixed Income	18.0%	-0.1%
Real Estate	6.0%	4.0%
Private Equity	5.0%	6.9%
Other	6.0%	2.1%
Cash (LIBOR)	2.0%	-0.3%
	100%	

<u>Discount rate</u> - The discount rate used to measure the total OPEB liability for life insurance was 7.10%. The projection of cash flows used to determine the discount rate assumed that the employer contributions will be made at statutorily required rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity Of The Net OPEB Liability To Changes In The Discount Rate

The District has no proportional share of the net OPEB liability. The following presents the sensitivity of the System's net pension liability calculated using the discount rate of 7.10 percent, as well as what the System's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10 percent) or 1-percentage-point higher (8.10 percent) than the current rate:

Description 1	1% Decrease (6.10%)	Current Discount Rate (7.10%)	1% Increase (8.10%)
---------------	---------------------	-------------------------------	---------------------

System's net OPEB liability			
(in thousands)	\$ 48,059 \$	\$ 31,103	\$ 17,390

<u>OPEB plan fiduciary net position</u> – Detailed information about the OPEB plan's fiduciary net position is available in the separately issued TRS financial report.

CERS

Plan description - The Kentucky Retirement Systems' Insurance Fund (Insurance Fund) was established to provide hospital and medical insurance for eligible members receiving benefits from CERS. The eligible non-Medicare retirees are covered by the Department of Employee Insurance (DEI) plans. KRS submits the premium payments to DEI. The Board contracts with Humana to provide health care benefits to the eligible Medicare retirees through a Medicare Advantage Plan. The Insurance Fund pays a prescribed contribution for whole or partial payment of required premiums to purchase hospital and medical insurance. Senate Bill 249 passed during the 2020 legislative session and changed the funding period for the amortization of the unfunded liability to 30 years as of June 30, 2019. Gains and losses incurring in future years will be amortized over separate 20-year amortization bases. This change does not impact the calculation of the Total Pension Liability and only impacts the calculation of the contribution rates that would be payable starting July 1, 2020. There were no other material plan provision changes. Senate Bill 209 passed during the 2022 legislative session increased the insurance dollar contribution for members hired on or after July 1, 2003 by \$5 for each year of service a member attains over certain thresholds, depending on a member's retirement eligibility requirement. This increase in the insurance dollar contribution does not increase by 1.5% annually and is only payable for non-Medicare retirees. Additionally, it is only payable when the member's applicable insurance fund is at least 90% funded. The increase is first payable January 1, 2023.

<u>Benefits provided</u> – For members participating prior to July 1, 2003, KRS pays a percentage of the monthly premium for single coverage based upon the service credit accrued at retirement. Members participating on or after July 1, 2003, and before September 1, 2008, are required to earn at least 10 years of service credit in order to be eligible for insurance benefits at retirement. Members participating on or after September 1, 2008 are required to earn at least 15 years of service credit in order to be eligible for insurance benefits at retirement. Members participating on or after September 1, 2008 are required to earn at least 15 years of service credit in order to be eligible for insurance benefits at retirement. The monthly health insurance contribution will be \$10 for each year of earned service increased by the CPI prior to July 1, 2009, and by 1.5% annually from July 1, 2009.

<u>Contributions</u> – For the fiscal year ended June 30, 2023, plan members who began participating prior to September 1, 2008, were required to contribute 0% of their annual creditable compensation. Those members who began participating on, or after, September 1, 2008 and before January 1, 2014 were required to contribute 1% of their annual creditable compensation. Those members who began participating on, or after, January 1, 2014 were required to contribute 1% of their annual creditable compensation but their contribution is not credited to their account and is not refundable. Participating employers were required to contribute at an actuarially determined rate. Per Kentucky Revised Statute Section 78.545(33), normal contribution and past service contribution rates shall be determined by the Board on the basis of an annual valuation last preceding July 1 of a new biennium. The Board may amend contribution rates as of the first day of July of the second year of a biennium, if it is determined on the basis of a subsequent actuarial valuation that amended contribution rates are necessary to satisfy requirements determined in accordance with actuarial bases adopted by the Board. The school districts' contractually required contribution rate for the year ended June 30, 2023, was 3.39 percent of annual creditable compensation. Contributions to the OPEB plan from the District were \$748,995.

NOTE 9 – OTHER POST-EMPLOYMENT BENEFIT PLANS – CONTINUED

<u>OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs</u>

At June 30, 2023, the District reported a liability of \$14,819,568 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2022, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2021 The District's proportion of the net OPEB liability was based on a projection of the District's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2022, the District's proportion was 0.750923 percent, which was an increase of .047703 percent from its proportion measured as of June 30, 2021.

For the year ended June 30, 2023, the District recognized OPEB expense of \$2,471,718. At June 30, 2023, the District reported its proportionate share of the CERS deferred outflows of resources and deferred inflows of resources related to OPEBs from the following sources:

Description	Deferred Outflows of Resources		Deferred Inflows of Resource	
Differences between expected and				
actual economic experience	\$	1,491,713	\$	3,398,471
Changes in actuarial assumptions		2,343,818		1,931,293
Difference between projected and actual				
investment earnings		601,489		
Changes in proportion and differences between employer contributions				
and proportionate share of contributions		1,019,777		391,647
Contributions paid to CERS subsequent				
to the measurement date		748,995		
	\$	6,205,792	\$	5,721,411

Of the total amount reported as deferred outflows of resources related to OPEB, \$748,995 resulting from District contributions subsequent to the measurement date and before the end of the fiscal year will be included as a reduction of the collective net OPEB liability in the year ended June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in the District's OPEB expense as follows:

Year Ending June 30	OPE	B Expense Amount
2024	\$	196.041
2025	·	129,447
2026		(811,359)
2027		221,257
	\$	(264,614)

NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED

June 30, 2023

NOTE 9 – OTHER POST-EMPLOYMENT BENEFIT PLANS – CONTINUED

<u>Actuarial assumptions</u> – The total OPEB liability in the June 30, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Investment rate of return Projected salary increases Inflation rate Real Wage Growth	6.25%, net of OPEB plan investment expense, including inflation.3.30% to 10.30%, varies by service2.30%2.00%
Healthcare Trend Rate:	
Pre-65	Initial trend starting at 6.40% at January 1, 2022, and gradually decreasing to an ultimate trend rate of 4.05% over a period of 14 years.
Post-65	Initial trend starting at 6.30% at January 1, 2023, then gradually decreasing to an ultimate trend rate of 4.05% over a period of 13 years.
Municipal Bond Index Rate	3.69%
Discount Rate	5.70%

The mortality table used for active members is a Pub-2010 General Mortality Table projected with the ultimate rates from, the MP-2014 mortality improvement scale using a base year of 2010. The mortality table used for healthy retired members was a system-specific mortality table based on mortality experience from 2013-2018, projected with the ultimate rates from MP-2014 mortality improvement scale using a base year of 2019. The mortality table used for the disabled members was PUB-2010 Disabled Mortality table, with a 4-year set-forward for both male and female rates, projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2019.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2013 – June 30, 2018 and adopted by the Board on April 18, 2019.

The long-term expected rate of return was determined by using a building block method in which best estimate ranges of expected future real rates of returns are developed for each asset class. The ranges are combined by weighting the expected future real rate of return by the target asset allocation percentage.

NOTES TO BASIC FINANCIAL STATEMENTS – CONTINUED

June 30, 2023

NOTE 9 – OTHER POST-EMPLOYMENT BENEFIT PLANS – CONTINUED

The target allocation and best estimates of arithmetic real rates of return for each major asset class, as provided by CERS's investment consultant, are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Public Equity	50.00%	4.45%
Private Equity	10.00%	10.15%
Specialty Credit	10.00%	2.28%
Core Fixed Income	10.00%	0.28%
Cash	0.00%	-0.91%
Real Estate	7.00%	3.67%
Real Return	13.00%	4.07%
Total	100.00%	

Discount Rate

The projection of cash flows used to determine the discount rate of 5.70% assumed that local employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 28 years (closed) amortization period of the unfunded actuarial accrued liability. The discount rate determination used an expected rate of return of 6.25%, and a municipal bond rate of 3.69%, as reported in Fidelity Index's "20 –Year Municipal GO AA Index" as of June 30, 2022. However, the cost associated with the implicit employer subsidy was not included in the calculation of the System's actuarial determined contributions, and any cost associated with the implicit subsidy will not be paid out of the System's trusts. Therefore, the municipal bond rate was applied to future expected benefit payments associated with the implicit subsidy. The target asset allocation and best estimates of arithmetic nominal rates of return for each major asset class are summarized in the ACFR.

Sensitivity Of The District's Proportionate Share Of The Net OPEB Liability To Changes In The Discount Rate

The following table presents the District's proportionate share of the collective net OPEB liability of the System, calculated using the discount rate of 5.70%, as well as what the District's proportionate share of the collective net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.70%) or 1-percentage-point higher (6.70%) than the current rate:

Description	1% De	crease (4.70%)	Current Discount	Rate (5.70%)	1% Incre	ease (6.70%)
District's proportionate share of the net OPEB liability	\$	19.811.398	\$	14.819.568	\$	10,692,986

DEFERRED COMPENSATION

The District offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Sections 457, 401(k) and 403(b). The Plans, available to all employees, permits them to defer a portion of their salary until future years. This deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. GASB Statement No. 32, Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans, allows entities with little or no administrative involvement who do not perform the investing function for these plans to omit plan assets and related liabilities from their financial statements. The District, therefore, does not show these assets and liabilities on these financial statements.

NOTES TO BASIC FINANCIAL STATEMENTS – CONTINUED

June 30, 2023

NOTE 10 – FUND BALANCES

Nonspendable fund balances are those that cannot be spent on future obligations. At June 30, 2023, the General Fund had \$738,504 for prepaid items and \$494,411 for inventory and the Special Revenue Fund had \$115,528 for prepaid items.

Restricted fund balances arise when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. At June 30, 2023, the District had, \$2,390,385 restricted for grants in the Special Revenue Fund, \$42,030,088 restricted for capital projects in the Construction Fund, \$632,477 restricted for school activities in the District Activity Fund, \$1,077,113 restricted for school activities in the Student Activity Fund and \$1,053 restricted for debt service in the Debt Service Fund.

Committed fund balances are those amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, which, for the District is the Board of Education. The Board of Education must approve by majority vote the establishment (and modification or rescinding) of a fund balance commitment. At June 30, 2023, the District had \$2,232,708 for compensated absences in the General Fund.

Assigned fund balances are those amounts that are constrained by the government's *intent* to be used for specific purposes, but are neither restricted nor committed. The Board of Education allows program supervisors to complete purchase orders which result in the encumbrance of funds. Assigned for purchase orders in the General Fund at June 30, 2023 were \$5,428,409. Assigned fund balance also includes (a) all remaining amounts (except for negative balances) that are reported in governmental funds, other than the general fund, that are not classified as nonspendable and are neither restricted nor committed and (b) amounts in the general fund that are intended to be used for a specific purpose. The District had no other assigned fund balance at June 30, 2023.

Unassigned fund balance is the residual classification for the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund.

The District considers unrestricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. Also, the District has established the order of assigned, committed and restricted when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

NOTES TO BASIC FINANCIAL STATEMENTS - CONTINUED

June 30, 2023

NOTE 11 – COMMITMENTS AND CONTINGENCIES

The District receives funding from Federal, State and Local government agencies and private contributions. These funds are to be used for designated purposes only. For government agency grants, if based upon the grantor's review, the funds are considered not to have been used for the intended purpose, the grantors may request a refund of monies advanced, or refuse to reimburse the District for its disbursements. The amount of such future refunds and unreimbursed disbursements, if any, is not expected to be significant. Continuation of the District's grant programs is predicated upon the grantors' satisfaction that the funds provided are being spent as intended and the grantors' intent to continue their programs.

The District is subject to various other legal actions in various stages of litigation, the outcome of which is not determinable at this time. Management of the District and its legal counsel do not anticipate that there will be any material effect on the basic financial statements as a result of the cases presently in progress.

Under COBRA, employers are mandated to notify terminated employees of available continuing insurance coverage. Failure to comply with this requirement may put the School District at risk for a substantial loss.

The District has ongoing construction commitments at June 30, 2023.

NOTE 12 – DEFICIT OPERATING BALANCES

The following funds had operations that resulted in a current year deficit of revenues over expenditures resulting in a corresponding reduction of fund balance/net position:

Fund	Amount		
SEEK Capital Outlay Fund	\$ 891,541		
FSPK Fund	739,337

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

FOR THE YEAR ENDED JUNE 30, 2023

CERS PENSION

Changes of benefit terms. There were no changes in benefit terms for 2015 through 2023.

Changes of assumptions (as of June 30 of the year measurement date):

2014 – The assumed investment rate of return was decreased from 7.75% to 7.50%. The assumed rate of inflation was reduced from 3.50% to 3.25%. The assumed rate of wage inflation was reduced from 1.00% to 0.75%. Payroll growth assumption was reduced from 4.50% to 4.00%. The mortality table used for active members is RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females). For healthy retired members and beneficiaries, the mortality table used is the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (set back 1 year for females). For disabled members, the RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (set back 4 years for males) is used for the period after disability retirement. There is some margin in the current mortality tables for possible future improvement in mortality rates and that margin will be reviewed again when the next experience investigation is conducted. The assumed rates of Retirement, Withdrawal and Disability were updated to more accurately reflect experience.

2015 and 2016 – No changes.

2017 – The assumed investment return was changed from 7.50% to 6.25%. The price inflation assumption was changed from 3.25% to 2.30%, which also resulted in a 0.95% decrease in the salary increase assumption at all years of service. The payroll growth assumption (applicable for the amortization unfunded actuarial accrued liabilities) was changed from 4.00% to 2.00%.

2018 – No changes.

2019 – Salary rates were increased from 3.05% average to 3.30 percent to 10.30%, varies by service. Annual rates of retirement, disability, withdrawal and mortality were updated based on the 2018 experience study and the percent of disabilities assumed to occur in the line of duty was updated from 0% to 2% for non-hazardous members.

2020, 2021 and 2022 – No changes.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

FOR THE YEAR ENDED JUNE 30, 2023

CERS OPEB

Changes of benefit terms. There were no changes in benefit terms for 2018 to 2023.

Changes of assumptions (as of June 30 of the year measurement date):

2017 – The assumed investment return was changed from 7.50% to 6.25%. The price inflation assumption was changed from 3.25% to 2.30%, which also resulted in a 0.95% decrease in the salary increase assumption at all years of service. The payroll growth assumption (applicable for the amortization of unfunded actuarial accrued liabilities) was changed from 4.00% to 2.00%. For the Non-Hazardous Plan, the single discount rate changed from 6.89% to 5.84%.

2018 – No changes

2019 – The discount rate was changed from 5.85% to 5.68%. Annual salary increases and annual rates of retirement, disability, withdrawal and mortality were updated based on the 2018 experience study and the percent of disabilities assumed to occur in the line of duty was updated from 0% to 2% for non-hazardous members.

2020 – The discount rate was changed from 5.68% to 5.34%.

2021 – The discount rate was changed from 5.34% to 5.20%. The municipal bond rate was changed from 2.45% to 1.92%.

2022 – The discount rate was changed from 5.20% to 5.70%. The municipal bond rate was changed from 1.92% to 3.69%.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

FOR THE YEAR ENDED JUNE 30, 2023

TRS PENSION

Changes of benefit terms. There were no changes in benefit terms for 2015 through 2023.

Changes of assumptions (as of June 30 of the year measurement date):

2014 – In the 2011 valuation and later, the expectation of retired life mortality was changed to the RP-2000 Mortality Tables rather than the 1994 Group Annuity Mortality Table, which was used prior to 2011. In the 2011 valuation, rates of withdrawal, retirement, disability and mortality were adjusted to more closely reflect actual experience. In the 2011 valuation, the Board adopted an interest smoothing methodology to calculate liabilities for purposes of determining the actuarially determined contributions. Beginning with the 2014 valuation, the interest smoothing methodology is no longer used. In 2014, the calculation of the Single Equivalent Interest Rate (SEIR) resulted in an assumption change from 5.16% to 5.23%.

2015 – The calculation of the Single Equivalent Interest Rate (SEIR) resulted in an assumption change from 5.23% to 4.88%. In the 2016 valuation, rates of withdrawal, retirement, disability and mortality were adjusted to more closely reflect actual experience.

2016 – The Assumed Salary Scale, Price Inflation, and Wage Inflation were adjusted to reflect a decrease. In addition, the calculation of the Single Equivalent Interest Rate (SEIR) resulted in an assumption change from 4.88% to 4.20%.

2017 – The calculation of the Single Equivalent Interest Rate (SEIR) resulted in an assumption change from 4.20% to 4.49%.

2018 – The calculation of the Single Equivalent Interest Rate (SEIR) resulted in an assumption change from 4.49% to 7.50%.

2019 and 2020 – No changes

2021 – In the 2020 experience study, rates of withdrawal, retirement, disability, mortality, and rates of salary increases were adjusted to reflect actual experience more closely. The expectation of mortality was changed to the Pub-2010 Mortality Tables (Teachers Benefit-Weighted) projected generationally with MP-2020 with various set forwards, set-backs, and adjustments for each of the groups; service retirees, contingent annuitants, disabled retirees, and actives. The assumed long-term investment rate of return was changed from 7.50 percent to 7.10 percent and the price inflation assumption was lowered from 3.00 percent to 2.50 percent. In addition, the calculation of the SEIR results in an assumption change from 7.50% to 7.10%.

2022 – The salary increase range changed from 3.5 – 7.3 percent to 3.00 – 7.50 percent and the municipal bond rate was changed from 2.13% to 3.37%.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

FOR THE YEAR ENDED JUNE 30, 2023

TRS OPEB

Changes of benefit terms.

2018 – MIF – With the passage of House Bill 471, the eligibility for non-single subsidies (NSS) for the KEHP-participating members who retired prior to July 1, 2010 is restored, but the State will only finance, via its KEHP "shared responsibility" contributions, the costs of the NSS related to those KEHP-participating members who retired on or after July 1, 2010.

LIF – No changes

2019, 2020, 2021, 2022 and 2023 – No changes for MIF or LIF

Changes of assumptions (as of June 30 of the year measurement date):

2017 – No changes for MIF or LIF

2018 – MIF updated the health care trend rates. No changes for the LIF

2019 – No changes for MIF or LIF

2020 - MIF updated the health care trend rates. No changes for the LIF

2021 – MIF and LIF – In the 2020 experience study, rates of withdrawal, retirement, disability, mortality, and rates of salary increases were adjusted to reflect actual experience more closely. The expectation of mortality was changed to the Pub-2010 Mortality Tables (Teachers Benefit-Weighted) projected generationally with MP-2020 with various set forwards, set-backs, and adjustments for each of the groups; service retirees, contingent annuitants, disabled retirees, and actives.

The assumed long-term investment rate of return was changed from 8.00% for the MIF and .50% for the LIF to 7.10%. The price inflation assumption was lowered from 3.00% to 2.50%

2022 – The municipal bond rate was changed from 2.13% to 3.37% for MIF and LIF.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Year Ended June 30, 2023

NOTE A – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of the Warren County School District under programs of the federal government for the year ended June 30, 2023. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of Warren County School District, it is not intended to and does not present the financial position, changes in net position or cash flows of Warren County School District.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the schedule are reported on the accrual basis of accounting for proprietary funds and the modified accrual basis of accounting for governmental funds. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.

NOTE C – FOOD DISTRIBUTION

Nonmonetary assistance is reported in the schedule at the fair value of the commodities received.

NOTE D – INDIRECT COST RATE

The District has elected to not use the 10 percent de minimum indirect cost rate allowed under the Uniform Guidance.

SUMMARY SCHEDULE OF PRIOR YEAR AUDIT FINDINGS

SUMMARY SCHEDULE OF PRIOR YEAR AUDIT FINDINGS

June 30, 2023

There were no prior year findings.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Kentucky State Committee for School District Audits Members of the Board of Education Warren County School District Bowling Green, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the requirements prescribed by the Kentucky State Committee for School District Audits in the *Independent Auditor's Contract*, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Warren County School District as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise Warren County School District's basic financial statements, and have issued our report thereon dated November 9, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Warren County School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Warren County School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. In addition, the results of our tests disclosed no instances of specific state statutes or regulations identified in the *Independent Auditor's Contract*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Heartland CPAs and admins, PLAC

Heartland CPAs and Advisors, PLLC Elizabethtown, Kentucky November 9, 2023 INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Kentucky State Committee for School District Audits Members of the Board of Education Warren County School District Bowling Green, Kentucky

Opinion on Each Major Federal Program

We have audited Warren County School District's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of Warren County School District's major federal programs for the year ended June 30, 2023. Warren County School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Warren County School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the requirements prescribed by the Kentucky State Committee for School District Audits in Appendices I and II of the Independent Auditor's Contract. Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Warren County School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Warren County School District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Warren County School District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Warren County School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, the Uniform Guidance and the requirements prescribed by the Kentucky State Committee for School District Audits in Appendices I and II of the Independent Auditor's Contract will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Warren County School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Warren County School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Warren County School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Warren County School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiency, or a combination of deficiency, or a combination of deficiency with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance has a deficiency or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

MANAGEMENT LETTER AND COMMENTS

Kentucky State Committee for School District Audits Members of the Board of Education of Warren County School District Bowling Green, Kentucky

In planning and performing our audit of the basic financial statements of Warren County School District for the year ended June 30, 2023, we considered the District's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control.

However, during our audit we became aware of several matters that are opportunities for strengthening internal controls and operating efficiencies. The memorandum that accompanies this letter summarizes our comments and suggestions regarding those matters. Any uncorrected comments from the prior year have been included in the memorandum. A separate report dated November 9, 2023, contains our report on the District's internal control. This letter does not affect our report dated November 9, 2023, on the financial statements of the Warren County School District.

We will review the status of these comments during our next audit engagement. We have already discussed many of these comments and suggestions with various District personnel, and their implementation is currently being reviewed. We will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing the recommendations.

This report is intended solely for the information and use of management, the members of the Warren County Board of Education, others within the District, the Kentucky Department of Education, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
