Kentucky Immunization Registry Information

The Kentucky Immunization Registry is a confidential, population-based, computerized system for maintaining information regarding patient vaccinations. The state registry is an optional program for providers to use. Not all providers use the registry at this time. School nurses can be setup to access the registry but if they are not employed by a LHD they will only be given ‘view’ access and that still allows them to print certificates. Beginning with the 2017-2018 school year, school nurses who have access to the registry will be able to use immunization certificate printed without a physician signature.

For more information about the KY Immunization Registry or how to setup access to the registry, please contact customersupport@cdpehs.com or call 866-237-4814.

Individual Immunization Vaccine Data

All Kentucky schools complete an immunization survey each year to their local health departments and the Kentucky Department of Public Health (KRS 158.037 and 902 KAR 2:055). Schools may use the expandable immunization boxes to enter the dates the immunizations were administered to student. This data will not be collected by KDE, but will be useful to districts in completing the immunization survey from the Department for Public Health.

To assist with completing this survey, enter the data for the immunizations listed below.

Immunization requirements for the 2017-2018 school year include:

- DTAP Tdap, DT, Td
- IPV (Polio)
- MMR
- Hib
- Hepatitis B
- Varicella
- Meningococcal
- Penumonoccal Conjugate Vaccine (PCV)

A new immunization certificate as well as a new religious exemption declination form will be required for any certificates issued after 7/1/17.

In addition, beginning with the 2018-2019 school year, an additional dose of the meningococcal vaccine will be required at age 16.
Entering Immunization Dates

To ensure accuracy of compliance reports for the Kentucky Department for Public Health (DPH), schools may use the expandable immunization boxes to enter the dates the immunizations were administered to student.

**Note:** All combination shots should be entered separately for each required immunization. For example, Pediatrix is a combination shot containing DTaP, Hep B and Polio. If Pediatrix is given, dates should be separately entered for each of three required immunizations.

### Steps to enter immunization information:

1. Open the section for the immunization by clicking the plus sign in front of the immunization if the shot fields are not visible.

2. Enter the dates the student has received their shots in the Shots fields. These dates can be entered in MM/DD/YYYY or MMDDYY format.

3. When finished entering shot dates, click Save at the top of the tab. This will refresh the Immunization Summary and indicate if the student is compliant or not based upon the logic loaded in Campus.
Diptheria, Tetanus, Pertussis (DT, DTaP, DTP)

Waiver: Select from the dropdown menu the type of waiver for this immunization, if applicable.
- Medical
- Religious

Tdap (Tetanus, Diphtheria and Acellular Pertussis)

Waiver: Select from the dropdown menu the type of waiver for this immunization, if applicable.
- Medical
- Religious

TD Booster (Adult Td Vaccine, Boostrix)
Note: To be used only if student cannot receive Pertussis vaccine.

Waiver: Select from the dropdown menu the type of waiver for this immunization, if applicable.
- Medical
- Religious

Polio (OPV or IPV)

Waiver: Select from the dropdown menu the type of waiver for this immunization, if applicable.
- Medical
- Religious
Meningococcal (Requirement for 6th grade entry, an additional dose will be required at age 16 for the 2018-19 school year)

<table>

</table>

**Waiver:** Select from the dropdown menu the type of waiver for this immunization, if applicable.
- Medical
- Religious
- Hx/Dis – Select if student has had the chicken pox – No Vaccine Required
(Note, per 2012 changes to 902 KAR 2:060, Immunization Schedule, students must have medical provider’s documentation of having had chicken pox to waive vaccine)

**BMI Data Entry**

Body Mass Index data is not a required data entry (702 KAR 1:160). However, some school districts may wish to enter BMI data as part of their district’s wellness program.

To enter BMI data:

Select Screening Tab

On Screening Detail: Enter Date of screening and Appropriate Type (Early Childhood, Child & Teen Check-up or Health Appraisal)

Select Height/Weight and Vital Signs and enter Date, Height and Weight.

BMI and BMI Percentile will automatically calculate when height and weight are entered.
