Closing Schools for the Day

When school is canceled, the calendar must be updated. This must be done so attendance will calculate correctly, and the attendance reports will be correct.

There are four options for updating the calendar for weather and sick days.

Days

Tool Search: Day Setup

1. Teachers are working on the day school is cancelled:

Remove the check box for **Instruction** and **Attendance** for each schedule structure.

The screenshot shows a software interface for managing school days. At the top, there are several action buttons: Save Day/Day Events, Delete Day/Day Events, Day Reset, Day Rotation, Print, Print Rotation, and Multi Day Event. Below these is a calendar for January 2024. The calendar grid shows days from Sunday to Saturday. Red triangles above certain dates (01, 02, 03, 15, 16, 22, 23, 29, 30) indicate events. A legend below the calendar shows a red triangle and the text "Event on this Day".

Below the calendar is a "Day Detail" form for the date 01/08/2024, Day # 88. The form includes a dropdown for "Period Schedule" (Monday-Thursday), a "School Day" checkbox (checked), and checkboxes for "Instruction" and "Attendance". Red arrows point to the "Instruction" and "Attendance" checkboxes, indicating they should be removed. There are also input fields for "Start Time", "End Time", and "Duration" (set to 0). A note states "The duration field will be calculated automatically". A "Comments" text area is also present.

At the bottom of the form is a "Day Events" table with columns for "Type", "Duration", and "Inst. Minutes", and an "Add DayEvent" button.

<input type="button" value="Add DayEvent"/>			

Choose **“Planning”** **“Teacher Equivalency”** or **“Professional Day”** in the dropdown list.

Click **“Save Day/Day Events”**

Since two day events cannot show on one day, the weather event can be entered at the end of the calendar. Since the number of weather days determines how many make up days must be added to future calendars, the weather day must be entered. Add a day at the end of the calendar for that weather day. In the comments indicate which teacher day was actually a weather day. (Alternatively, the weather day can be put on the actual day and the teacher day added on the end of the calendar.)

2. Non-Traditional Instruction Day for Health or Safety:

Reference Data Standard [Non-Traditional Instruction](#) for additional data entry requirements.

Note: Since these are instructional days, they do count toward home hospital and students can be suspended on these days.

When Non-Traditional Instruction Days are used, the day event should be **N: Non-Traditional Instruction** and the **Attendance** check box **should not** be checked.

3. Cancelled Days for Students and Teachers:

Remove the check box for “**School Day**,” “**Instruction**,” and “**Attendance**” for each schedule structure.

The image shows a software interface with two main sections: "Day Detail" and "Day Events".

Choose “**Weather Cancelled**” or “**Closed Due to Illness**” in the dropdown list.

Click “**Save Day/Day Events**”

School Months

Anytime the calendar is amended, school months should be checked to ensure all months, except the last month, have twenty days. You may need to adjust the start and end dates for the school months.

Shortened Days (Early Release/Weather Delay)

When a day is shortened due to early release or delay, the calendar must be updated. This will allow absences and tardies to calculate correctly.

This update must be made on the calendar for each structure.

Tool Search: Day Setup

Day Detail
Date: 01/11/2024 Day #: 91

Comments: 1 HR Delay - Icy Roads

Enter the start for a delay or the end time for an early release.

Infinite Campus subtracts any non-instructional minutes listed on the period structure from the duration even if it is outside the shortened day. (For example, if you came in at 8:00 AM and left at 9:00 AM, Infinite Campus would automatically subtract lunch and any other breaks. So, if you had a fifteen-minute break and a thirty minute lunch, you would only be given instructional minutes for fifteen minutes)

NOTE: If attendance will be taken in first period, it is best to wait until morning attendance is taken and **reconciled** before entering the new start time. It is permissible to wait until the next day to enter the start time on the calendar.

Extending Day Period Schedule

If days in the calendar are extended beyond the regular day, a new period schedule must be created.

1. Select the **Source Period Schedule** from the dropdown list of available period schedules. This is the period schedule that contains the information to be copied, and should be complete (contain correct period names, include correct period times, etc.).
2. Select the **Destination Period Schedule** from the dropdown list of available period schedules. This period schedule does not need to have period times entered, as it is assumed that the times associated with the Source Period Schedule are copied to this destination period schedule. This selection must be different than the selected Source Period Schedule in the previous step.
3. For each period in the schedule, select the **Source Period** to copy. This creates the period in the destination schedule with the time and naming convention of the Source Period.
4. Review the selected Source Periods and Destination Periods for accuracy. **This process cannot be undone.**
5. Click the **Save** button. The destination period schedule updates with the source period information.

When section placements are copied, the Modified By indicator on the Course Section editor is updated as well.

At the top left is the KDE logo with the text 'Kentucky Department of Education' and 'Our Children Our Communities Our Future'. To the right of the logo is the text 'Kentucky Department of Education' and two buttons: 'HOME' and 'CONTACT US'. Below this is a 'Registered Users' section with a lock icon. It contains the text: 'Enter your username and password to log on: If you do not have a KDE web user name, click [here](#) to register.' There are two input fields: 'Username' and 'Password', both with eye icons. Below the fields is a red 'Sign In' button. At the bottom of the section, it says: 'Before your third try, click [here](#) if you have forgotten your user name and/or password. If you think your account has been disabled, or for technical support and content issues, please use our [KDE User Help System](#).'

Once your login, you can click on the Kentucky School Calendar link. If you do not see the link, please contact the [Help Desk](#) to request access.

Note: If there are issues with logging in or the username/password please contact your district WAAPOC.

Uploading Process to Kentucky Department of Education

- The Upload File page appears as shown in the picture below
- Use the “Browse” button to locate the Calendar file that was save in Infinite Campus.
 - Note: The file name should resemble “CALxxx.yy” where xxx stands for 3-digit district code and yy stands for 2-digit calendar year.
- After selecting the file to submit, click the “Upload” button.
- A message will appear on the screen in green, indicating the file was successfully uploaded. The system will notify KDE that the files has been submitted successfully.
- If your file submission was successful you can “Logoff” to sign off the application.
