SAAR Application Introduction

The SAAR application is the main control center for all Kentucky school districts for ALL three reporting cycles – Growth Factor, January Growth Factor, and SAAR. Included in this document are training for all three cycles and the application itself. Use *Control+Click* to skip ahead in this new document to the instructions specific to the new application: [How to submit via new SAAR Application](#):

General Process

Due Dates – All Three Cycles

| | |
|------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Growth Factor | The Growth Factor is due to KDE 10 days after the last day of the second month, but not later than November 1st of each school year. |
| January Growth Factor | Five days after the last day of the school month chosen with the most attendance days in January of the current school year, but no later than February 20th of each school year. |
| SAAR | The SAAR is due to KDE by June 30th . It is strongly encouraged that districts submit and verify their reports as soon as possible. Note: If your school offers an extended calendar for programs such as Job Corp or KECSAC, send an email to Brad Kennedy with the expected submission date. |

Focus Areas (All Three Cycles)

The SAAR data includes the following information collected by the school district for the entire school year aggregate day's attendance and absence:

- Race and gender count
- Adjustments for less than full-time attendance (Partial Day)
- Nonresident/non-contract
- Overage and underage
- Virtual/performance-based courses with a passing grade
- Eligible suspensions and eligible expulsions
- Up to 10 (ten) low attendance days due to weather

SAAR Application User Guide

2024-2025

- Up to 10 (ten) low attendance days due to weather or health and safety – N Day Approved by KDE
- Five (5) lowest attendance days are automatically selected by the system
- Home Hospital attendance
- NTI Days

Note: All information is reported by school, grade level, and by transportation.

Report Basics

Growth Factor Basics

Purpose:

- KRS 157.360 (8) states, "Program funding shall be increased when the average daily attendance in any district for the first two months of the current school year is greater than the average daily attendance of the first two months of the previous school year." The percent of growth is multiplied by the previous school year's end-of-year ADA to determine the additional ADA funding a district will receive.
Note - If a district does not incur any growth or shows a loss in ADA, there is no deduction of program funding to the district.
- KRS 157.370 (3) provides an adjustment in transportation funding for current year increases in transported students. The number of transported students (T1s + T5s) for the first two months of the current year is compared to the number of transported students (T1s + T5s) reported on the previous school year's Growth Factor Report. The percent increase is multiplied by the tentative transportation calculation to determine the amount of transportation funding increase for a district. A district that shows a loss or no increase in T1s and T5s will not incur a reduction in funding.

Growth Factor is a subset of SAAR.

Note- See SAAR Basics for an in-depth description of data included in each record

2024-2025

January Growth Factor Basics

Purpose:

- KRS 157.360 (15) states that "during a fiscal year, a school district may request that the Department of Education recalculate its funds allocated under this section if the current year average daily attendance for the twenty (20) day school month as defined in KRS 158.060(1) that contains the most days within the calendar month of January exceeds the prior-year adjusted average daily attendance plus growth by at least one percent (1%). Any adjustments in the allotments approved under this subsection shall be proportional to the remaining days in the school year and subject to available funds under the program to support education excellence in Kentucky."

Note - If a district does not incur any growth or shows a loss in ADA, there is no deduction of program funding to the district.

- January Growth Factor Report is not a requirement.

Superintendent's Annual Attendance Report (SAAR) Basics

Purpose

- The Superintendent's Annual Attendance Report (SAAR) provides year-end attendance information used to calculate the school district's enrollment, membership, average daily membership (ADM), percent of attendance, home, and hospital ADA, and adjusted average daily attendance (AADA). All information is reported by the school, grade level, and by transportation code.
- **Regarding AADA:** The attendance calculation in Infinite Campus does NOT divide grade 00 in half. Once the numbers are sent for SEEK calculating, grade 00 will be adjusted at that point. Furthermore, if a student is retained in Kindergarten with a 00 for the first year and a 00 for the second year, grade 00 will be adjusted in the SEEK calculation for the second year also.

Note: Grade 00 is Kindergarten; grade 14 is an exceptional learning

1. Ethnic Count Manual Verification (Active students/last day of the 10th month of school)

New Look Path: Reporting | KY State reporting | SAAR Report | Check box R2 and R3 and select extractformat of PDF, All Calendars, and leave the date range blank.

Old Look Path: KY State Reporting | SAAR Report | Check box R2 and R3 and select extractformat of PDF, All Calendars, and leave the date range blank.

- Run Record 2 and Record 3 of the SAAR Report, making sure the totals add correctly.
 - ✓ R2 (Enrollment + Reenrollment) – R3 (Withdrawals) = R5 (Ethnic Count)
 - ✓ This verification can be run by each school as well as at the district level.

Note: Ethnicity codes may not match if a withdrawal code was left off or if students were enrolled and their ethnicity was **not** entered in during enrollment. These are the first two places to check if codes do not match correctly.

The following screenshots show this process. 7153 (R2 total) – 985 (R3 total) = 6168 (R5 total)

2. State Enrollment Overlap

New Look Path: Student Information | Reports | State Enrollment Overlap

Enrollment overlaps occur when the beginning/end dates of one primary enrollment overlap with a second primary enrollment record for the same student. **KDE will not process a district SAAR until all *primary* (see "TYPE P" in the graphic below) overlaps more than one day are correct.**

- *Review Step:* The State Enrollment Overlap report will identify these overlapping records, which should be corrected by working with the other district involved.

Note - One-day overlaps are allowed and should remain within Infinite Campus except for a one-day overlap in the same district. Be very careful which enrollment record gets end-dated as attendance and grades are tied to enrollment.

- Districts may have full or half-day Kindergarten classes or a combination of both. The state of Kentucky provides funding for 50% (half) of Kindergarten ADA even if a school district chooses a full day of Kindergarten. This funding adjustment is made after the Submission of the SAAR to KDE. The appropriate Kindergarten code is selected from the Kindergarten Code dropdown menu:

- ✓ BDK: Full and Half Day Kindergarten
- ✓ FDK: Full Day Kindergarten
- ✓ HDK: Half Day Kindergarten

The screenshot shows the 'Grade Levels' setup interface. On the left is a 'Grade Level Editor' table:

On the right is the 'Grade Level Detail' form. A red arrow points to the 'Kindergarten Code' dropdown menu, which is currently set to 'FDK-Full Day Kindergarten'. Other fields include:

- Name (locked): 00
- *Sequence Number: 6
- *State Grade Level Code: 00: Kindergarten

5. ADA/ADM Report – Full Year

New Look Path: Attendance Office | Reports | ADM and ADA Report

Old Look Path: Attendance | Reports | ADM and ADA Report

The ADM and ADA Report summarizes data from Kentucky's attendance calculation. Select the 'Detail Report Type' to generate a list of individual students' attendance data for the calendar selected in the toolbar. Select the 'Summary Report Type' to generate an overview of school-wide attendance data for one or more calendars. When running the 'Summary Report Type' against multiple schools, select 'All Schools' in the toolbar and choose the desired calendars from the calendar picker.

- If the Date Range is left blank, it will default to the start/end dates of the calendar
- The calendar populates the optional School Month range in the toolbar only
- This report is resource-intensive, so try to limit the number of calendars run per batch

Students with overlapping transportation codes need to be corrected. Run this query for each school.

Note - If the Year is set to the current school year, then the search function for this ad hoc will only find students active within the current year with a T-code overlap. The overlap could be within any school year.

- *Review Step:* Correct any overlapping transportation records.

Old Look Path: Ad Hoc Reporting | Filter Designer | State Published | Audit Missing T Codes

All students should have a T code associated with their school enrollment record. Run the Missing T Code filter for each school.

- *Review Step:* Assign a transportation code and enter a date segment for students. Transportation segments are school-specific. An enrollment record at each school should have a transportation record associated with it.

The screenshot shows a student record interface. At the top, it displays 'Grade: 96', 'DOB: 04/19/2017', and 'Gender: M'. Below this is a navigation menu with tabs for Summary, Enrollments, Schedule, Attendance, Flags, Grades, Transcript, Credit Summary, and Assessment. A secondary menu includes FRYSC, Pre-School, Title 1 Services, Early Learning/Prior Settings, ESS, Attendance Group, TEDS, and Restraint and Seclusion. A third menu contains Behavior, Transportation, Fees, Lockers, Graduation, Athletics, Ad Hoc Letters, Waiver, and Records Transfer. A 'New' button is visible. The 'Transportation' tab is selected, and a 'Transportation Calendar' window is open, showing a table with columns for 'Calendar', 'Start Date', and 'End Date'. The table is currently empty.

9. Audit End Dated T Codes

New Look Path: Reporting | Ad Hoc Reporting | Data Export | State Published | Student Audit End-dated T-Code Record

Old Look Path: Ad Hoc Reporting | Data Export | State Published | Student Audit End-dated T-Code Record

This ad hoc will identify students with transportation codes that have been end dated prior to the end of their enrollment record.

- *Review Step:* Locate Students who were enrolled, listed with t-codes and was a 'no show' or left and then came back for part of the year.

The screenshot shows the 'Data Export Wizard' interface. At the top, it says 'This wizard will dump the result of a filter into a data file (csv, tab delimited, xml) or a simple list report'. Below this is a 'Saved Filter' list on the left, where 'student Audit End-dated T-code Record' is selected. The right side of the wizard shows the details for this filter, including a description: 'This ad hoc will list students whose most recent transportation code record has been end-dated prior to the end date of their enrollment record. The ad hoc will find actively enrolled students with end dates on their most recent t-code record as well as students who have withdrawn whose most recent t-code record was end-dated before they withdrew.' Below the description is a 'Pick an Export Format' section with radio buttons for HTML list report (selected), XML, Delimited values (CSV), Fixed width, PDF report, and Cube Analysis. An 'Export' button is at the bottom.

This report identifies underage/overage students for further review. Check the list for accuracy of student DOB or that all students with a waiver are correctly identified.

- *Review Step:* Run this report for "All Schools, All Calendars."
- ✓ Overage students will not qualify for funding on the SAAR on or after their 21st birthday.
- ✓ Grade 14 may only be selected for Special Education Students participating in Alternate Assessment, as determined by the student's Admissions and Release Committee and documented on his or her IEP. This student must turn 17 years of age on or before October 1st of the current school year and have progressed through a grade 12 assessment.
- ✓ State Grade Level 20: Post-Secondary should only be selected for those

persons taking adult classes. Adult education students enrolled in this grade level should be marked state exclude and scheduled into a calendar marked Exclude

- State Grade Level 20 should not be used for a student under 21 that has not received their diploma.

Underage – Under Age: There are two categories for Under Age students:

- A Grade 00 student is considered "Under Age" for the entire year if their 5th birthday occurs **after August 1st of the reporting year**.
- A Grade 01 student is considered "Under Age" for the entire year if their 6th birthday occurs **after August 1st of the reporting year**

Note An underage student will not receive funding for the entire year unless they qualify for a waiver and the waiver checkbox is marked on the enrollment tab. This is indicated on the waiver checkbox on the Enrollment tab under State Reporting Fields.

14. Expulsion Attendance

New Look Path: Reporting | Edit Reports | Expulsion Attendance Report

Old Look Path: KY State Reporting | Edit Reports | Expulsion Attendance Report

This report identifies students expelled with state code SSP2 and has invalid data due to the attendance data not being appropriately entered to match the start date and/or end date/time for the behavior resolution.

- The state Expulsion code SSP2 for *Expulsion Not Receiving Services* requires that a student have a standard attendance event for Absent / Unexcused that matches

SAAR Application User Guide

precisely the start and end date at the time of resolution.

- If a student is expelled with or without services and the event happened during the prior year, an exempt absent code must be used to receive funding. For example, the code, CEX – Carryover Expulsion Excused and CEU – Carryover Expulsion Unexcused (mapped to Status "Absent," Excuse "Exempt")

15. Partial Day Attendance Group

New Look Path: Reporting | Ad Hoc Reporting | Filter Designer | State Published | Audit Partial Day

Old Look Path: Ad Hoc Reporting | Filter Designer | State Published | Audit Partial Day

This ad hoc can be used to identify students with a partial day attendance group.

- *Review Step:* Ensure that the setup is correct for partial day students.

The screenshot shows the 'Attendance Group' configuration screen. At the top, there is a list of attendance groups with columns for 'Attendance Group', 'Elementary School', and 'Grade'. Below this, the 'Attendance Group' dropdown menu is highlighted with a red circle and shows 'PAR-Partial Day' selected. Other fields include 'Enrollment 20 21', 'Elementary School', 'Grade:05', 'Start:08/26/2020', 'Start Date', 'End Date', 'Start Time', 'End Time', 'Avg Partial Minutes', and 'Percent Enrolled'. There are also fields for 'Instructional Periods' and a note about 'Partial Minutes'.

Verify start date, start time, and end time match the student's IEP (as applicable). Further information on partial day setup is available through the Attendance Group (KY).pdf document downloaded from Campus Community with Infinite Campus (user ID and password required). This report identifies students in any of the attendance groups

- *Review Step:* Ensure the attendance is appropriately marked for the HH students

Note: Use the IC Attendance Wizard to mark the student's attendance as HH from the initial entry date into the HH program until the end of the school year. (This prevents teachers from taking attendance for a student who is in the HH attendance group). When the student returns to school, remove the HH attendance code using the Attendance Wizard. The student's HH attendance group record should be end-dated upon the student's return to the regular school

- Any student eligible for HH must be put in the HH attendance group to receive total funding through the SEEK.

Note: Districts with a separate HH-only school (*i.e.*, 998, 999 schools) must enroll every student in the HH attendance group.

18. Suspension Attendance

New Look Path: Reporting | KY State Reporting | Safe Schools

Old Look Path: Ky State Reporting | KDE Reports | Safe Schools

This report identifies those students who were suspended and have invalid data. The attendance data was not entered correctly to match a behavior resolution, or the behavior resolution doesn't match attendance data for a state-coded suspension.

- The state suspension code SSP3 – Out of School Suspension - requires the proper associated state attendance code of 'S,' and the suspension must match the exact date and time of the resolution.
- There is the possibility a user could input the Suspension attendance entry date without having the associated behavior resolution.
- Ensure errors and warnings involving SSP3: Out of School Suspension Resolutions and S: Suspension Attendance are resolved before submitting SAAR

District Daily Attendance Report

Note: Sometimes, this report shows errors when days are shortened, but they are not actually errors.

New Look Path: Reporting | KY State Reporting | SAAR Report

Old Look Path: KY State Reporting | SAAR Report | District Daily Attendance

The *District Daily Attendance Report* should be used to determine low attendance weather days. A district can claim up to ten low weather days. Last year's AADA will be used on the days chosen.

- This report will show all the days above last year's AADA to help determine eligible days.
- Follow the steps below to determine low weather days for your district.

Note: This is not mandatory. A district does not have to claim weather days.

Begin the process by finding last year's AADA. This can be found on your SAAR Attendance Summary in the SAAR system, under historical reports. Use the AADA without kindergarten adjustment. You will add together Grade 00 AADA and Grade 1-12 AADA to get your previous year AADA. The example shown is from the school year 2023-24. That is the number you will need for this report. We must go back one year before finding the previous year's AADA.

Previous year AADA = 2433.89

| Grade 00 AADA | Grade 1-12 AADA |

| 0.00 | 739.20 |
| 0.00 | 28.41 |

Once the report is generated, last year's ADA is shown in red, and the days below last year's AADA are above it in black. The report also shows the five automatic low attendance days automatically removed by putting a small 'L' out to the side.

After the five (5) lowest attendance days are automatically deducted, a district may request an adjustment for up to ten (10) additional days when district attendance was low due to weather-related conditions *if all schools were in session*. The district average daily attendance on these dates must be lower than the prior-year "Full" average daily attendance ADA for the adjustment to be approved.

A district must keep documentation in the central office supporting the weather-related conditions that impacted attendance. If the district's request is approved, the aggregate attendance for each day is deducted and replaced with the prior year's average daily attendance (ADA) before calculating the district's ADA. See the example showing 1/12/16, 1/19/16, 2/8/16, 2/11/16, 3/18/16, 1/15/16, 3/1/16, 2/25/16, 2/16/16, and 1/21/16 as low weather days.

Once the changes have been made on the calendar, run the District Daily Attendance Report again and visibly see the weather days selected.

This is what the report will look like after you've selected your low weather days. When you run the report, there will be a 'W' next to the chosen days.

Non-Traditional Instruction Days (NTI) can be used when school facilities are closed due to weather or health/safety-related issue. KDE must approve a Non-Traditional yearly plan prior to the new school year. NTI days are considered a school day with instruction.

SAAR Application User Guide

2024-2025

During the 2019-20 and 2020-21 school years, additional NTI days were granted due to COVID-19. **NTI day procedures will revert to their original intended use beginning in the 2021-22 school year.** For more information regarding NTI days, click the following link: [Non-Traditional Days](#)

Note: No transportation is calculated for N Days.

- You no longer need to wait for the Commissioner to approve the NTI Day. Mark it as NTI from the start. If it is not approved, KDE will contact the district.
- *Review step:* Make sure you are approved for non-traditional days. Follow the path and select "Non-traditional Instruction" day. Check both the 'School Day' and 'Instruction' boxes. Choose 'N' for the event type.

The screenshot displays a calendar for January 2019 and a 'Day Detail' form. The calendar shows dates from 01 to 31, with 'Regular Day' labels for most days. The 'Day Detail' form includes fields for Date (01/03/2019), Day # (83), Period Schedule (Regular Day), School Day (checked), Instruction (checked), and Attendance (unchecked). A red circle highlights the 'Attendance' checkbox, and a red arrow points to it with the text 'Uncheck the Attendance Box'. Below the form, there is a 'Day Events' section with a dropdown menu set to 'N: Non-traditional Instruction' and an 'Add DayEvent' button.

You will see the N Day on the SAAR Report.

The screenshot shows the SAAR application interface. On the left, under 'Report Selection', several checkboxes are listed. The checkbox for 'RN Non-Traditional Instruction Days' is circled in red. Below it, the text reads 'Days: 01/30/2019, 01/31/2019, 02/01/2019, 03/08/2019'. Other reports include R1 School Calendar, R2 Enrollment, R3 Withdrawals, R5 Ethnic Count, R7 Aggregate Attendance, R9 Non-Contract / Over Age - Under Age Attendance, RH Home Hospital Attendance, RL Five Low Attendance Days, RW Ten Low Attendance Weather Days, and RS Out of School Suspension. On the right, there are options for 'Date Range', 'School Month', 'Select Students', and 'Ad Hoc Filter'. At the bottom, there are buttons for 'Generate Report', 'Validation Report', and 'Submit to Batch'.

Record N showed the amount of attendance that was incorrectly saved in Infinite Campus. Before 2017-18, the attendance from Non-Traditional Days was included in Record 7. That was corrected this year, so Record N now shows all zeros since there is no attendance on NTI Days.

Growth Factor - State Gain/Loss Summary Report
District: 177 - Frankfort Independent
School Year: 2018 - 2019

| Current GF AADA | Previous GF AADA | Gain/Loss | Growth Percent | Membership (Includes Virtual Schools) | Prior Year SAAR | Prior Year SAAR + Growth | Required AADA for January Growth |
|-----------------|------------------|-----------|----------------|---------------------------------------|-----------------|--------------------------|----------------------------------|

| 759.61 | 746.56 | 13.05 | | 844 | 730.00 | 742.75 | 750.18 |

The Gain Loss Summary is a new report to show the district the Required AADA to qualify for January Growth. In the example above, you can see the Required AADA to qualify for January Growth highlighted in red. The district can use this number and compare the AADA from the fifth or sixth month on the ADM/ADA Detail Report to see if they qualify.

The below example shows the Growth Factor email spreadsheet that was sent in the fall. The required AADA for the below example is 750.18. If the ADM/ADA Detail Report shows that amount or higher, the district *may* qualify for January Growth. Use the January Growth Calculator to see if your district qualifies. If your district has the required growth, submit a January Growth Factor Report.

Note: The ADM/ADA Detail Report does not include adjustments for non-contract, overage/underage, and ½ day kindergarten.

Add School Months

- ✓ Look at Month 5 and Month 6.

This will show the dates in month 5 and month 6. Notice part of Month 5 falls in December and part in January. Month 6 falls in January and the month of February. These dates are necessary to determine which month has the most attendance days that fall only in January.

1. Print the Calendar Report

- Compare the dates to the Calendar Report (shown below) to determine which month has the most **Attendance** days in January.

Look at Month 5 and Month 6 on the Calendar Report and count the attendance days each month to determine which one has the most **Attendance** days in **January**.

- In the example, Month 5 has 10 days, and Month 6 has 9 days.
- **Note:** If either month had a Non-Traditional Day, it is **NOT** an attendance day and not part of the count.
- This will determine which month to use for the January Growth Factor Report. In this example, Month 5 has 11 days and Month 6 only has 9, so for this example, we will choose Month 5.
- Run the ADM and ADA Detail Report. Once you have determined the month, check to see if you are eligible for January Growth.

Submitting SAAR

Creating the SAAR State Format Fixed Width

SAAR Application User Guide

2024-2025

Steps:

1. Extract Format should be set to State Format (Fixed width)
2. Select Date Range and leave the date range blank
3. Report Selection should be marked as All Reports
4. Enter in last year's Full SAAR AADA (relative for low attendance weather days)
5. Select Calendars should be marked as All Calendars
6. "Last Year's SAAR ADA" should be entered a last year's FULL AADA.
7. Generate Report
8. The file name should be saved as SAARXXX.YY (XXX = District Number, YY= School Year) Example: SAAR011.18
9. Submit the file to KDE.

The exact process as listed above should also be completed to generate the SAAR PDF for verification purposes. The SAAR PDF should be generated immediately following the SAAR State Format report. If the SAAR PDF is completed later, the information on the two reports may not match. Select the *Extract Format as PDF* with no other changes and generate the reports. Save these reports in the event they are needed for comparison purposes.

Additional SAAR

PDF AADA Report

The Calculation of SAAR AADA is as follows:

(Base Aggregate Days Present (R7) + Adjustment Aggregate Days Present (R7) + (Last Year's SAAR AADA * Sum of Weather Days and NTI days) – Low Attendance Weather (RW) NTI Days, Aggregate Low Attendance Days Present (RL), Aggregate Days Present (R9)) divided by Number of Days Taught minus 5

$$\frac{R7 + R7 \text{ adjustment} + AADA (W + N) - W - N - RL - R9}{\text{Number of Days Taught} - 5}$$

Instructional Days – 5

SAAR Detail Reports

Several SAAR reports have detail reports that provide additional information. The reports use the same selection criteria, attendance calculation, and business logic as the primary records but provide additional information at the student level to aid in troubleshooting and analysis. The detailed reports provide school-level listings of individual students who appear on the corresponding SAAR records.

Detail reports can be run by selecting the "Detail" option in the extract editor for any of the following records: RV, RS, RX, R9, and RH. (For detail-level information on R7, refer to the ADA/ADM Detail report.)

Detail reports respond in the same manner as their primary records of SAAR for all extract editor features: ad hoc, grade, calendar select, school month selection, and date range.

The screenshot displays the SAAR application interface for generating reports. Key elements include:

- Report Options:** Report Type is set to **Detail** (circled in red).
- Extract Format:** Set to **PDF**.
- Date Range:** Selected with a date range from 01/12/2021 to 01/19/2021.

How to submit via new SAAR Application:

School district users will access the new SAAR system by using the following link: [SAAR Application](#). You will then be asked to log in; this will be the same login credentials used to access your Microsoft Outlook. Once in the application, you will see your Home screen. Below is an example of your new Home screen.

A couple of quick notes regarding what you see on the HOME tab:

- in the top right corner, you will see your basic info: your login, your school district
- KDE contact info in the bottom right corner
