

# Kentucky's K-12 Digital Readiness

January 2025

The teaching, learning, and administrative processes of Kentucky's 172 public school districts require a robust digital ecosystem now more than ever. To meet the teaching and learning demands of today and tomorrow, we believe this ecosystem should:

- Empower personalized learning experiences for students and staff
- Enable digital communications and collaboration models among all stakeholders
- Expand data enhanced decision making
- Ensure an experience that is protected through cutting edge privacy and security strategies

## Digital Equity for Teaching and Learning

A digitally equitable learning environment requires a commitment to provide anywhere, anytime, always-on opportunity and access for students and staff. Strategies such as high speed fiber connectivity to every district, dense Wi-Fi coverage throughout buildings, 1:1 device assignment for students, and Bring Your Own Device (BYOD) policies for students and staff are being adopted across Kentucky to address the equity needs both on and beyond the school campus.

**100%**   
of Kentucky K-12 public schools and district offices are connected by the most reliable, highest speed and quality fiber internet services in the country.

  
School fiber internet total usage increased **+42%** over the past 24 months\* while maintaining industry leading **99.98%** uptime.  
*\*January 2023 - January 2025*

Greater than **1 megabit** per second (Mbps) bandwidth per student available through statewide fiber network service.

**98.8%**   
of students have internet access for school work beyond school campus

**96.5%**   
of students report internet access at home

**81%**   
of teachers rate the speed of Internet at school as Average or Above Average

**.6 to 1**  
Student to digital device ratio  
*That's better than 1 device per student*

**976,132**  
Student Instructional Devices

Down **.01** compared to last school year

**1,126,838**  
Student and Staff Devices

# District BYOD and 1:1 Implementation

57 Districts with both BYOD and 1:1

31 Districts with 1:1 only

63 Districts with BYOD only

23 Districts without BYOD or 1:1

**100%** of schools provide Wi-Fi access to students.

Of these, **99.5%** have implemented dense Wi-Fi networks capable of supporting BYOD or 1:1 initiatives

## Digitally Empowered Learners

Strong digital skills derived from the Kentucky Academic Standards for Technology, such as utilizing shared digital workspaces, have been correlated with increased collaboration in the classroom. Students can think about concepts and interactions in more varied ways with the affordances of multimedia and multimodal representations.

### Digital Communicator

**57%**

of 6th-12th grade students find experts online to answer questions about new skills or interests.

**72%**

of 6th-12th grade students are asked to post and/or share their work online.

# Digital Designer

**84%**

of 6th-12th grade students use technology to demonstrate knowledge by creating videos, slide presentations, art, music, podcasts, etc.

**23,036**

unique students in grades 6-12 completing at least one computer science course offered by their school, ATC, or local CTE center.

**75%**

of 6th-12th grade students are asked to do a virtual lab or online experiment.

# Digital Collaborator

Developing a level of comfort with digital collaboration outside of school helps students be more successful when collaborating with classmates, teachers, and other experts.

**83%**

of 6th-12th grade students are asked to collaborate using online documents.

**71%**

of 6th-12th grade students are asked to participate in online discussions with classmates.

# Digital Citizen

Students recognize the rights, responsibilities and opportunities of living, learning and working in an interconnected digital world; act and model in ways that are safe, legal and ethical.

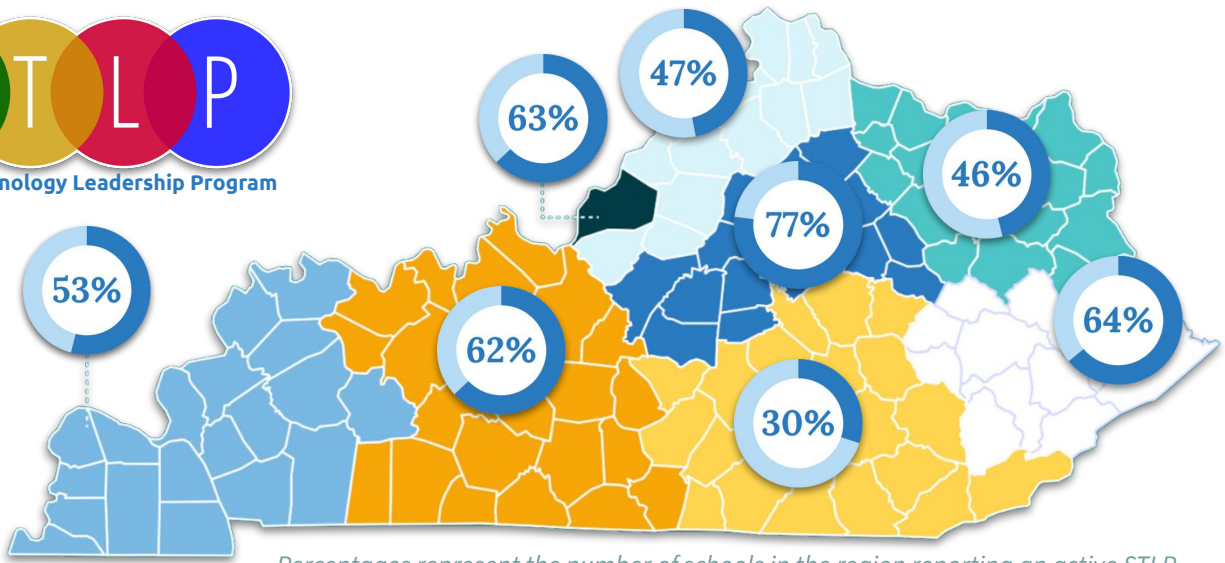

**93%** of teachers feel comfortable teaching digital citizenship strategies and behaviors to their students.

**74%** of 6th-12th grade students report they know how to protect their personal data and maintain privacy when online.

**80%** of 3rd-12th grade students report they know how to be safe when using online and digital tools.

**98%** of districts report having a strategic plan for teaching digital citizenship skills.

Percentages represent the number of schools in the region reporting an active STLP

Greater than **50,000** students from **784** schools in **133** districts

program integrated into content

after school program or club only

## Digitally Empowered Educators

Educators who are encouraged, recognized, and supported in the utilization of digital tools, more frequently create an environment of digital connectedness with students and families. This also aids in eliminating barriers to digital access and opportunity for students both on and beyond the school campus.

## Digital Learning Designer

Educators design engaging, learner-centered digital learning experiences and environments enabled by high quality digital content and resources providing student voice, choice and path.

### How are Kentucky's teachers frequently engaging with students for instructional purposes?

**89%** of teachers have students use a digital device (Chromebook, laptop, etc.) for learning at least weekly

**90%** of teachers create online lessons for students to access digital content that supports learning

**74%** of teachers provide digital feedback to students for the purpose of improving content mastery

**94%** of teachers utilize standards-aligned videos as part of student digital learning experiences  
*Of these, 51% are created by the teacher.*

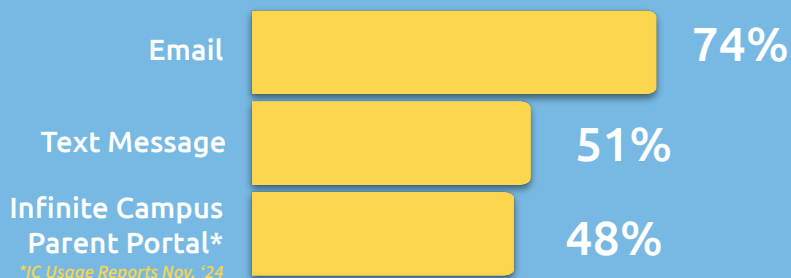

# Digital Communicator

## Kentucky's Educators Use a Variety of Ways to Stay Connected with Students and Their Families About Student Performance and Classroom/School Activities

### Digital tools used for communicating with families

### Digital tools used for communicating with students

82% of school administrators report using district or school social media accounts to communicate generalized information about school news and events.

**KY is cited as a top 3 state in teachers accessing and using quality data to raise achievement for all students.**

*(Data Quality Campaign)*

## Digital Learning Collaborator

Educators are intentional to collaborate with peers, students, and experts outside the school to improve practice, discover and share resources and ideas, and solve problems.

**65%**

of teachers report using social media, blog posts, etc. as new ideas and improve digital teaching practices.

**88%**

of teachers feel comfortable facilitating collaboration with students using digital tools.

**89%** of teachers in **81%** of Kentucky districts have access to a digital learning coach (DLC).

**1,016** Library Media Specialists employed at the district or school level, **902** of which are not split or shared among schools.

Of these, **88%** report intentional collaboration and support of digital strategies for teaching and learning.

**95%** of teachers feel comfortable managing students who are using digital tools.

**75%** feel the effective use of digital tools increases student engagement in learning experiences.

## Digitally Empowered School Leader

**95%** of school leadership feel the effective implementation of digital teaching and learning strategies is important to student success.

**95%** of school leadership feel they encourage teachers to try new things with technology.

**82%** of school leadership feel the administrative team is helping teachers incorporate the outcomes of effective digital teaching and learning in the school's Portrait of a Learner.

## Tech Trends

**715** large-scale, organized network attacks aimed at denying internet access to all Kentucky schools and districts were successfully mitigated.

### School Digital Device Footprint

*Totals may not equal 100% due to rounding*

**100%** of districts are using Google Workspace & Microsoft 365 - for Education. At least **71%** of districts pay for premium licensing beyond the free offering.

More than **137 Billion** unauthorized connection attempts against school networks are blocked annually by statewide security services.

# Traditional vs. Mobile Devices

● Traditional Devices ● Mobile Devices

## Online & Virtual Learning

**88%** of districts report students taking online or virtual courses. Of these, **76%** offer a full-time enrollment option.

**57** districts offer online or virtual courses to students in other districts.

## Learning Management System

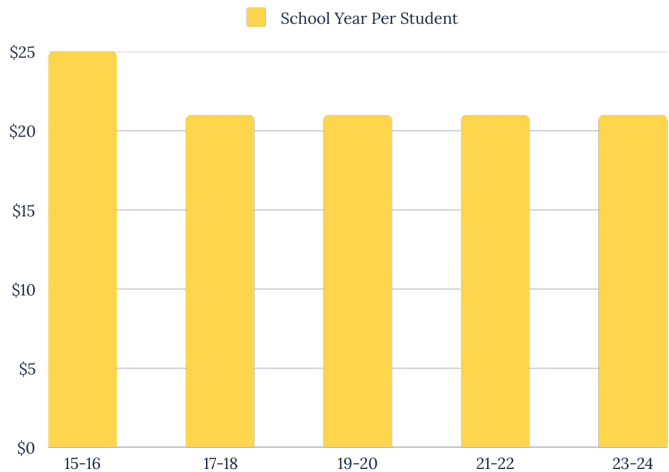

**97%** of districts sponsor a learning management system (LMS). The majority of adoption is with free cloud services.

## K-12 Online Assessment

In 2024, **486,000** 3rd - 12th grade students in **100%** of Kentucky school districts successfully participated in high-stakes statewide testing, accounting for more than **1.7 million** testing sessions\*.

\*Includes Fall ACT, Spring ACT, CTE E-SESS, KSA
