

## **KETS Standards**

### ***Technology Needs and their associated Standards***

**Basic End-User Workstations (formerly student workstation)** – Architectural Design and Configuration

**Advanced End-User Workstations (formerly Faculty/Staff Workstations)** – Architectural Design and Configuration, Product

**Assistive and Adaptive Technology**

**School and District Printing Services**

**File Services and Storage** – Architectural Design and Configuration, Product

**School and District Network Wiring** – Architectural Design and Configuration

**School and District Network Components** – Architectural Design and Configuration, Product

**School and District Voice Services** – Architectural Design and Configuration, Product

**School and District Voice Lines**

**Software, Apps and Digital Content**

**Student Information System** – Architectural Design and Configuration, Product

**Financial Accounting System** – Architectural Design and Configuration, Product

**People Side of Education Technology**

**STLP Leadership and Services**

**The Internet** – Architectural Design and Configuration

- **KY K-12 District Internet Hub Fiber Connection to the Internet (KDE Provided)** – Architectural Design and Configuration, Product
- **School to KY K-12 District Internet Hub Fiber Connection** – Architectural Design and Configuration

**Professional Development - Teacher, School and District Staff**

**Classroom Instructional Technology - (projectors, Interactive displays, etc.)**

**Identity and Directory** (defines who you are, what you have access to, and under what conditions) – Architectural Design and Configuration, Product

**Electronic Mail** – Architectural Design and Configuration, Product

**Cybersecurity** (protecting people, data, and systems) – Architectural Design and Configuration

- **Virus Protection** – Architectural Design and Configuration
- **Software Update Services** – Architectural Design and Configuration
- **Firewall** – Architectural Design and Configuration, Product
- **Internet Safety/Security Management Solutions (web filter)** – Architectural Design and Configuration, Product
- **Virtual Private Network (VPN)** – Architectural Design and Configuration, Product
- **Distributed Denial of Service Protection (DDoS)** – Architectural Design and Configuration, Product
- **Private Internet Protocol (IP)** – Architectural Design and Configuration, Product
- **Managed Uninterrupted Power Supply Services** – Architectural Design and Configuration, Product
- **Domain Name Services (DNS)** – Architectural Design and Configuration, Product

**State Shared Services for Schools and District Offices** – Architectural Design and Configuration, Product
