Data use
- School Report Card
- Federal Reporting and Civil Rights Data Collection
- OEA (Office of Education Accountability) requirements
- Data provided to Kentucky Center for School Safety annually
- Data collected regarding restraints and seclusions will be collated and analyzed on a quarterly basis (OCT 15, JAN 15, APR 15, JUL 15). These dates are not reporting deadlines; however, data collected will be used to conduct a comparative analysis across all districts for trends and opportunities for technical assistance (TA). These TA areas might include data collection and entry, physical restraint and seclusion procedures, and positive behavior intervention implementation. Ensuring that restraint and seclusion data is consistently updated increases the fidelity of this analysis.

Campus Path: Behavior/Admin

TOOLBAR SELECTIONS: Calendar = 19-20   Schools = All Schools

PATH: Behavior / Admin / Event Types

The pre-loaded local event types have been added and set up based on reporting requirements. Reference section F of this document for a list and definitions of the KDE pre-loaded local event types. Districts can choose to add local event types if needed; however, a State Event Code (mapping) selection will be required.

- **Available in Referral**: Select indicator if event type should be an available option in the behavior referral section.
- **Name**: Enter the name of the local event type as it should appear in the user entry drop list.
- **Alignment**: Select Award or Discipline from the drop list
- **State Event Code (Mapping)**: This is used for state reporting purposes and should remain as No State Violation for any local event types added by a school or district.
- **Classification**: This is used for state reporting purposes and should remain as None for any local event types added by a school or district.

PATH: Behavior / Admin / Resolution Types

- Select local resolution type
- Select appropriate **State Resolution Code (mapping)**

Any local resolution types meeting the definition of the state resolutions outlined below MUST have a State Resolution Code (Mapping) selection for reporting purposes.
SSP1: Expelled with Services - The removal of a student from school for disciplinary reasons that result in withdrawal of the student from the school of attendance. Criteria for expulsion are defined and set by the local board of education. Although the student was expelled from the regular classroom setting, arrangements were made for the provision of educational and IEP-related services.

SSP2: Expelled without Services - The removal of a student from school for disciplinary reasons that result in withdrawal of the student from the school of attendance. Criteria for expulsion are defined and set by the local board of education. No arrangements were made for the provision of educational services.

SSP3: Out of School Suspension - A student was removed from the regular classroom and from school for a specified duration of time.

SSP5: Corporal Punishment - A student was physically punished (e.g., paddling, spanking, or other form of physical punishment). This resolution should only be made available in districts in which Corporal Punishment is approved as part of board policy.

SSP7: Restraint – 704 KAR 7:160 defines: "Physical Restraint" means a personal restriction that immobilizes or reduces the ability of a student to move the student’s torso, arms, legs, or head freely, but does not include: (a) Temporary touching or holding of the hand, wrist, arm, shoulder, or back for the purpose of encouraging a student to move voluntarily to a safe location; (b) A behavioral intervention, such as proximity control or verbal soothing, used as a response to calm and comfort an upset student; (c) Less restrictive physical contact or redirection to promote student safety; or (d) Physical guidance or prompting when teaching a skill or redirecting the student’s attention.

SSP8: Seclusion - 704 KAR 7:160 defines: "Seclusion" means the involuntary confinement of a student alone in a room or area from which the student is prevented from leaving but does not mean classroom timeouts, supervised in-school detentions, or out-of-school suspensions.

INSR: In-School Removal – A removal from the student’s regular educational setting during instructional time and placement in a program or another setting within the district with the student continuing to receive educational and IEP-related services (e.g., In-School Alternative Placement (ISAP), In-School Suspension (ISS), Safe Room, In-School Detention, Alternative Classroom, or Alternative Education Program within the district). Student must remain under direct supervision of school or district staff.

IAES - Unilateral Removal by School Personnel-SPED use only

IAES - Removal by Hearing Officer-SPED use only

Reference Interim Alternative Educational Setting (IAES) Guidance

Safe Schools Reporting will include all student behavior events with a resolution that is mapped to any state resolution code listed above.

**Section B – Incident Detail Information**

**Campus Path: Behavior/Behavior Management Tool**

As in other areas of the behavior management tool, do not include student names in detail or comment fields as this data may be printed or viewed in other areas of the program.

When a behavior incident occurs at an off-campus location such as a Kentucky Tech System school or a post-secondary institution, the behavior must be reported to the student’s home high school. The high school must enter the behavior data into the student’s record. Any behavior that occurs at an off-site location will be reported under the student’s home high school and district. KDE recommends that the home school select Location of SSL6: Off-Campus and enter the actual location the incident occurred in the Location Description field via Incident Detail.

**Step 1 Data Entry: Incident Detail Information**

An incident is a group of behavior events linked by time and proximity. Events do not have to be related nor have the same participants to be grouped together in an incident. Therefore, there can be multiple events attached to one incident.
Data Standard Behavior
