Data use
- Safe Schools Reporting will be used for public reporting via the School Report Card, EDEN federal reporting and OEA (Office of Education Accountability) requirements.
- The data is provided to Kentucky Center for School Safety annually.
- Data collected regarding restraints and seclusions will be collated and analyzed on a quarterly basis (OCT 15, JAN 15, APR 15, JUL 15). These dates are not reporting deadlines; however, data collected will be used to conduct a comparative analysis across all districts for trends and opportunities for technical assistance (TA). These TA areas might include data collection and entry, physical restraint and seclusion procedures, and positive behavior intervention implementation. Ensuring that restraint and seclusion data is consistently updated increases the fidelity of this analysis.

Campus Path: Behavior/Admin

TOOLBAR SELECTIONS: Calendar = 18-19   Schools = All Schools

PATH: Behavior / Admin / Event Types

The pre-loaded local event types have been added and set up based on reporting requirements. Reference section F of this document for a list and definitions of the KDE pre-loaded local event types. Districts can choose to add local event types if needed; however, a State Event Code (mapping) selection will be required.

![Behavior Event Type Detail Table]

- **Available in Referral**: Select indicator if event type should be an available option in the behavior referral section.
- **Name**: Enter the name of the local event type as it should appear in the user entry drop list.
- **Alignment**: Select Award or Discipline from the drop list
- **State Event Code (Mapping)**: This is used for state reporting purposes and should remain as *No State Violation* for any local event types added by a school or district.
- **Classification**: This is used for state reporting purposes and should remain as *None* for any local event types added by a school or district.

PATH: Behavior / Admin / Resolution Types

- Select local resolution type
- Select appropriate **State Resolution Code (mapping)**
Any local resolution types meeting the definition of the state resolutions outlined below MUST have a State Resolution Code (Mapping) selection for reporting purposes.

- **SSP1: Expelled with Services** - The removal of a student from school for disciplinary reasons that result in withdrawal of the student from the school of attendance. Criteria for expulsion are defined and set by the local board of education. Although the student was expelled from the regular classroom setting, arrangements were made for the provision of educational and IEP-related services.

- **SSP2: Expelled without Services** - The removal of a student from school for disciplinary reasons that result in withdrawal of the student from the school of attendance. Criteria for expulsion are defined and set by the local board of education. No arrangements were made for the provision of educational services.

- **SSP3: Out of School Suspension** - A student was removed from the regular classroom and barred from school for a specified duration of time.

- **SSP5: Corporal Punishment** - A student was physically punished (e.g., paddling, spanking, or other form of physical punishment). This resolution should only be made available in districts in which Corporal Punishment is approved as part of board policy.

- **SSP7: Restraint** – reference KDE’s Use of Physical Restraint and Seclusion website

- **SSP8: Seclusion** - reference KDE’s Use of Physical Restraint and Seclusion website

- **INSR: In-School Removal** – A removal from the student’s regular educational setting during instructional time and placement in a program or another setting within the district with the student continuing to receive educational and IEP-related services (e.g., In-School Alternative Placement (ISAP), In-School Suspension (ISS), Safe Room, In-School Detention, Alternative Classroom, or Alternative Education Program within the district).

- **IAES - Unilateral Removal by School Personnel-SPED** use only
Safe Schools Reporting will include all student behavior events with a resolution that is mapped to any state resolution code listed above.

PATH: Behavior / Admin / Response Types

Districts can choose to add response types; however, if they are used to capture Restraint or Seclusion responses the local response type must have a Type of Physical Restraint or Seclusion selected.

Step 1 Data Entry: Incident Detail Information

An incident is a group of behavior events linked by time and proximity. Events do not have to be related nor have the same participants to be grouped together in an incident. Therefore, there can be multiple events attached to one incident.
