Data Standard TEDS

Rev. 6/19/2020

Overview

Description

The Technical Education Database System (TEDS) tab in Infinite Campus is for entering data on Career and Technical Education (CTE) students. All initial data entry for CTE students should be completed on the TEDS tab in Infinite Campus and then imported to TEDS. TEDS tab Data entry and Career Tech Programs tab data entry are separate and serve different purposes. The use of one does not supersede the need for data entry in the other.

Regulation citation(s)

- Perkins Accountability – Federal Perkins Law and Perkins funding is based on CTE data that is initially entered into the TEDS tab.
- Career Readiness – Career Readiness accountability is based on CTE data that is initially entered into the TEDS tab.

Data use

- Federal Reporting
- Transition Readiness
- Federal Funding
- State Funding

Related ad-hoc filters and reports

- KY State Reporting – TEDS Report

Training

Section A – Adding or Updating a TEDS Enrollment

Campus Path: Select a Student / Click on TEDS tab

Step 1: Click Add TEDS for a New Enrollment or click on the Enrollment if activating an inactive enrollment. You should always choose to activate an inactive existing enrollment if possible when the student is continuing in the same Career Pathway/CIP Code. Do not change a current enrollment to a new Career Pathway/CIP Code. Choose to Add a New Enrollment if the student has a new Career Pathway/CIP Code.

Data Standard TEDS

Rev. 6/19/2020

The image shows a screenshot of the TEDS (Training and Employment Data System) form. The form is titled "TEDS" and contains several fields. Red boxes highlight the following fields: "School" (dropdown menu showing "Polk High School(410)"), "Start Date" (calendar icon), "CIP Code" (dropdown menu), "Special Populations" (dropdown menu), "Daily Attendance Hours" (radio buttons for "Semesters" and "Trimesters"), "Term 1" and "Term 2" (input boxes), "Credit Hours" (input box), and "Student Objective" (dropdown menu). Other fields include "End Date", "Termination Status", "Federal ID", "ATC_CTC", "Credential Earned", and "Industry Certificate".

Step 2: Complete required fields in red, credit hours, and special populations on TEDS tab

- a. **School** - This is the home school for the student, it auto fills when you add a new TEDS record.
- b. **Start Date** - The date when the student starts in the **first course** of a Career Pathway. This date should **not be changed** after it is entered the first time.
- c. **CIP Code** – From the dropdown, select the appropriate code that represents the Career Pathway for which you are creating a new enrollment.
- d. **Special Populations** – Select from the dropdown ONLY if you know this information. DO NOT ASK STUDENTS FOR THIS INFORMATION.

Daily Attendance Hours

- e. **Semesters vs. Trimesters** - *If your school schedule is trimesters* choose trimesters, all others choose semesters. If on trimesters, you will see 3 Term boxes below, otherwise you will see 2 Term boxes.

Term Boxes - The average daily amount of time the student spends in a Career Pathway. The formula is total minutes in courses in the pathway divided by sixty minutes and the answer should be in n.nn format.

Example: John is in two 55-minute courses in the pathway all five days a week, so John has 110 minutes total, which I divide by 60 minutes, which equals 1.83 attend hours in my Term 1 box and zero in Term 2 until I know the student's schedule for the 2nd semester.

- f. **Credit Hours** - Total number of credits the student has earned in the Career Pathway.

Data Standard TEDS

Rev. 6/19/2020

- g. **Student Objective** - Every student is “**Exploring**” until they meet the definition for Concentrator. “**Concentrator**” means completed 2 courses in a single program of study (career pathway). In Kentucky, a course is defined as 1 credit on the student’s official transcript.

Section B – Exporting Data from Infinite Campus

Campus Path: KY State Reports / TEDS Report

Step 1: Expand KY State Reporting

The screenshot shows the 'TEDS Report' interface. At the top, there are dropdowns for 'Year' (15-16) and 'School' (COUNTY HIGH SCHOOL). The left navigation menu includes 'Index', 'Search', and 'TEDS Report'. The main content area has a header 'TEDS Report' and a sub-header 'This tool can extract data to complete the TEDS Report. Choose the District Format to get the file in the state defined csv format, otherwise, choose one of the testing/debugging formats.' Below this are two main sections: 'Extract Options' and 'Select Calendars'. 'Extract Options' includes 'Date Range' (7/1/2016 to 6/30/2017), 'Extract Type' (Enrollment), 'Format' (State Format (Fixed width)), and 'Grade' (All Grades). 'Select Calendars' includes radio buttons for 'active year', 'list by school', and 'list by year', and a list of school years (15-16 to 15-18). At the bottom, there is a 'Batch Queue List' table with columns 'Queue Time', 'Report Title', 'Status', and 'Download'.

Step 2: Click on TEDS Report

Date Range – Enter the first day of school until the last day of school (07/01/2018 – 06/30/2019)

Extract Type – Use Enrollment for the first export and then repeat for Demographic

Format – Use State Format (fixed width) for both Enrollment and Demographic Extract Types

Optional Format – Use HTML for both Enrollment and Demographic Extract Types if you would like data that can be imported into Excel to verify if the data is correct before importing to TEDS or if you receive a Line # error during TEDS import.

Grade – Default is “All Grades”. If you would like the report for a specific grade or grade range, hold down the CTRL key and select the grade(s) for which you want in the report.

Ad Hoc – Optional. Select an Ad Hoc Filter to only report data based on filter criteria.

Data Standard TEDS

Rev. 6/19/2020

Generate Extract – For Enrollment, click Generate Extract, save as TEDS-E
For Demographic, click Generate Extract, save as TEDS-D

Section C – Creating An Ad Hoc Filter for Exporting Data from Infinite Campus

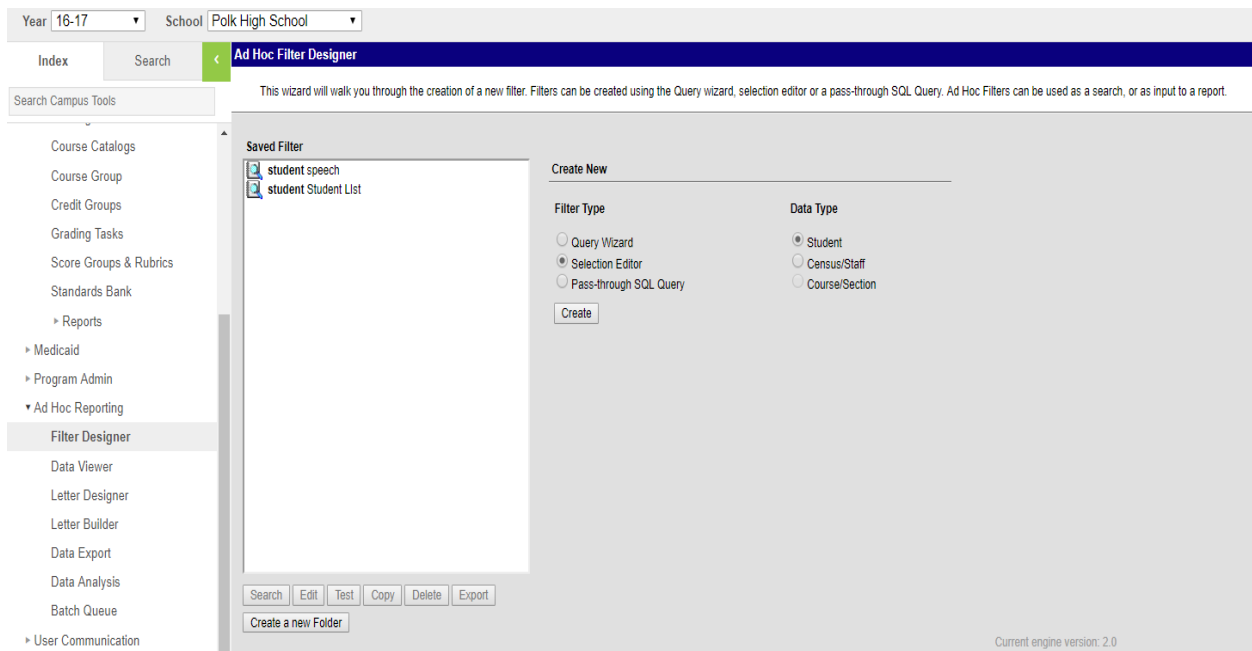

Campus Path: KY State Reports / Ad Hoc Reporting

The TEDS report can be generated based on an ad hoc filter. This allows the user to select a smaller subset of students, such as new enrollments. The ad hoc allows the user to export only a small group of needed records and avoid potentially overwriting any changes to other TEDS records.

Step 1: Click on Filter Designer

Step 2: Choose “Selection Editor” and “Student”

Step 3: Click Create

Data Standard TEDS

Rev. 6/19/2020

Selection Name – Give it a name like “TEDS Export Students”

The screenshot shows the 'Ad-Hoc Selection Editor' window. At the top, there are dropdowns for 'Year' (15-16) and 'School' (High School). The main area is divided into several sections: 'Selection Name' (text input), 'Short Description' (text input), and 'Long Description' (text input). Below these is a 'Quick Search' section with three dropdowns: 'Active today' (Yes), 'Grade' (All), and 'Sort' (Grade, Name). Underneath the search section are two lists: 'All Students' and 'Selected Students'. The 'All Students' list contains several entries, mostly '09 B' and '09 C'. The 'Selected Students' list is currently empty. Between the two lists are two arrows: a right-pointing arrow and a left-pointing arrow. At the bottom of the window, there is a 'Save To' section with two radio buttons: 'User Account' (selected) and 'User Groups'. Next to 'User Account' is a 'Folder' dropdown menu. A 'Save' button is located at the bottom left of the window.

Short Description – Optional

Active today – Default is “Yes” (currently enrolled). Select “Both” to select from all available students.

Grade and Name – Optional to narrow the search to a specific grade or student

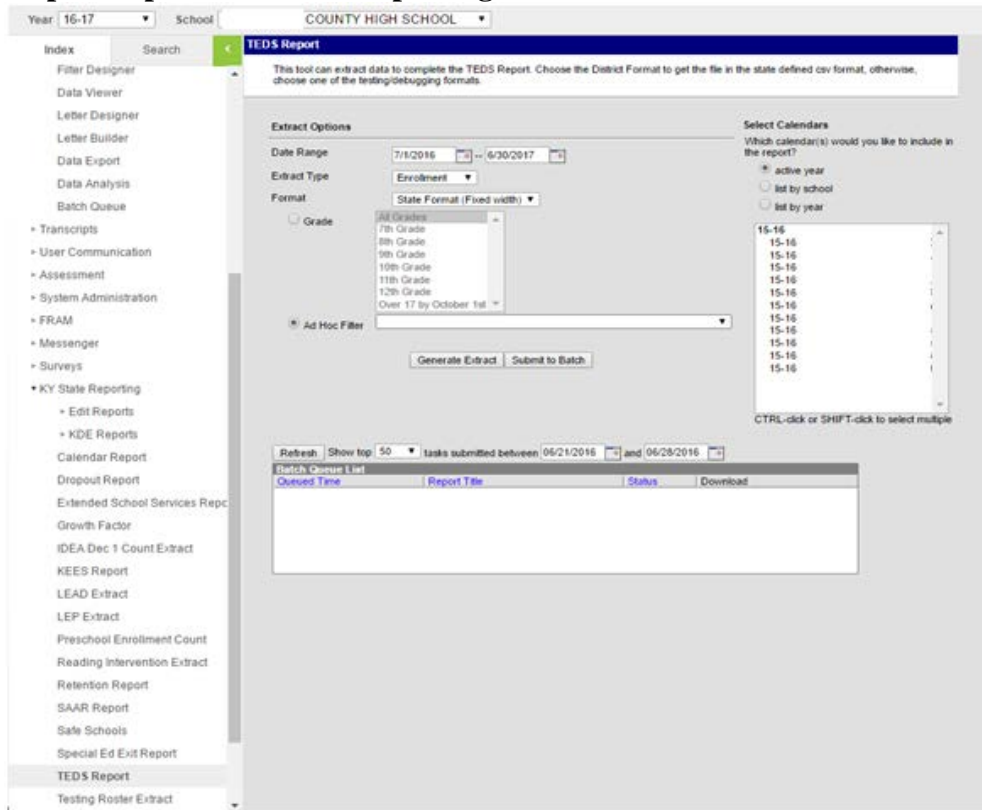

Step 4: Select Students - Hold down the CTRL key and select the student(s) you want included in the export

Step 5: Click Save

Data Standard TEDS

Rev. 6/19/2020

Step 6: Expand KY State Reporting

Step 7: Click on TEDS Report

Date Range – Enter the first day of school until the last day of school (07/01/2018 – 06/30/2019)

Extract Type – Use Enrollment for the first export and then repeat for Demographic

Format – Use State Format (fixed width) for both Enrollment and Demographic Extract Types

Optional Format – Use HTML for both Enrollment and Demographic Extract Types if you would like data that can be imported into Excel to verify if the data is correct before importing to TEDS or if you receive a Line # error during TEDS import.

Ad Hoc – Click on the dropdown to select the Ad Hoc list you created

Generate Extract – For Enrollment, click Generate Extract, save as TEDS-E
For Demographic, click Generate Extract, save as TEDS-D
